2012 Annual Security Report

Published September 30, 2013

Department of Public Safety & Security – Auburn University

INTRODUCTION

This report has been prepared by the Auburn University Department of Public Safety & Security in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. It includes important information regarding institutional policies on campus safety and related issues, such as crime reporting, emergency procedures and notification, alcohol and drug use, weapons, sexual assault and other safety and security topics. The report also includes crime statistics for the previous three calendar years covering crimes reported to have occurred on campus; in certain off-campus buildings and property owned or controlled by the University and used by students; and on public property within or immediately adjacent to and accessible from the campus.

Campus crime, arrest and referral statistics contained in this report include those reported to the City of Auburn Police Division and other law enforcement agencies with campus jurisdiction, the Auburn University Department of Public Safety & Security, and designated "campus security authorities" as defined under the Clery Act. Statistics are provided for crimes specified under the Clery Act as referenced at the end of the report.

This report is published by October 1 each year and is available at www.auburn.edu/campussafety. Hard copies may be obtained at the Auburn University Department of Public Safety & Security located at 543 West Magnolia Avenue, Auburn. In addition to this report, a daily crime log is maintained that is also available for review at this location.

Auburn University is an equal opportunity educational institution and operates without regard to race, sex, color, age, religion, national origin, disability or veteran status. As a matter of policy, Auburn University prohibits sexual orientation discrimination in matters regarding academic acceptance, academic performance or dismissal, as well as employment decisions regarding hiring, promotion, and termination.

MESSAGE FROM THE EXECUTIVE DIRECTOR

Welcome to Auburn University!

It is my distinct privilege on behalf of the Auburn University Department of Public Safety & Security employees to welcome you to our campus. It is our desire to be an integral part of the Auburn University campus. Whether you are a student, faculty, staff or guest to Auburn, we strive to make your stay on campus a safe and pleasant experience.

We seek to be a user-friendly department and to build a relationship of mutual trust and respect with students, faculty and staff as we strive to provide a safe and secure environment through educational programming, collaboration with various university constituents, and enforcement of laws and regulations.

We are committed to safety, security and fair and impartial treatment of all. We know that we cannot meet our mission without the cooperation of the citizens of this campus. We are all responsible to ensure that our valuables are secure and that crime and suspicious incidents are reported in a timely manner. It is imperative that we work together to identify and resolve problems that lead to crime or the fear of crime.

Auburn University has contracted with the City of Auburn Public Safety Department to provide police services on campus. All reports of crime or suspected criminal activity should be reported to the Auburn Police Division. In addition, we have partnered with Allied Barton to provide security services on campus, primarily for residential and parking areas.

We are hopeful this report provides you with information which will make your stay at Auburn University productive and pleasant. If we can be of assistance, please call on us.

Melvin Owens

Executive Director, Public Safety & Security

PROMPT REPORTING OF A CRIME OR EMERGENCY

Auburn University students, faculty, staff, contractors, and visitors should immediately DIAL 911 to report all crimes and public safety-related incidents to the City of Auburn Public Safety Department. Callers should be prepared with as much of the following information as possible:

- Name
- Exact location of the incident
- Description of the scene
- Description of any suspects
- Description and license numbers of any involved vehicles.

After dialing 911, all members of the Auburn University community should also immediately notify the Auburn University Department of Public Safety & Security at 334-844-8888 or 334-750-9795 of any situation or incident on campus that involves a significant emergency or dangerous situation that may involve an immediate or on-going threat to the health and safety of the campus community.

In addition to crimes, all suspicious activity should be reported to the police. For emergencies, dial 911. For non-emergencies, call 334-501-3102. Examples of suspicious activity include a person with a weapon; dangerous actions or comments; someone acting unusual, out of place, or loitering; and someone accessing unauthorized areas.

CALL ANY OF THE FOLLOWING AUTHORITIES 24 HOURS A DAY	
City of Auburn Public Safety – Emergency **DIAL 911**	**Report emergencies of any type or non-emergency criminal violations** 911 from a public phone, university phone or cell phone
City of Auburn Public Safety – Non-Emergency Dial 334-501-3102	**Report non-emergency requests for police or other emergency services** 9-501-3102 from a university phone
Emergency phones	**Direct access to City of Auburn Public Safety Communications** Use any of the blue light emergency phones located on concourses, in parking lots and parking decks, near many campus buildings and in other areas of campus
Auburn University Public Safety & Security 334-844-8888	**Report non-emergency campus safety and security concerns** 4-8888 from a university phone
Auburn Crime Stoppers Dial 334-246-1391	**Anonymous crime reporting hotline** Text or call to report any information you may have regarding a crime or suspicious incident 9-246-1391 from a university phone
Auburn University Threat Assessment Team 334-844-5010	**Report non-emergency concerns regarding individuals who may be a threat to themselves or others** 4-5010 from a university phone Email: autat@auburn.edu
Auburn University Facilities Management Emergencies 334-844-HELP (4357)	**Report emergency facilities-related issues such as utility outages** 4-4357 from a university phone

ADDITIONAL CAMPUS RESOURCES	
Campus Security Shuttle 334-844-7400	**Provides door-to-door transportation on campus** 4-7400 from a university phone 6 pm to 7 am, 7 days a week when classes are in session with the exception of official holidays and the evenings of home football games
Division of Student Affairs 334-844-1304	**Access to a full range of services for students** 4-1304 from a university phone http://www.auburn.edu/studentaffairs
Medical Clinic 334-844-4416	**Provides non-emergency medical services** 4-4416 from a university phone http://www.auburn.edu/aumc
Student Counseling Center 334-844-5123	**Provides counseling and other mental health services** 4-5123 from a university phone http://www.auburn.edu/scs
Safe Harbor 334-844-SAFE (7233)	**Provides services and support to survivors of sexual assault, domestic violence, dating violence and stalking** 4-7233 from a university phone http://www.auburn.edu/safeharbor
Housing & Residence Life 334-844-4580	Services and programming for campus residents 4-4580 from a university phone
Title IX Coordinator 334-844-4794	**Conducts investigations of harassment, discrimination and sexual assault** 4-4794 from a university phone
Office of International Programs 334-844-5001	**Provides support and services to international students and students, faculty and staff traveling abroad** 4-5001 from a university phone
ADDITIONAL COMMUNITY RESOURCES	
City of Auburn Police Division (Administration) 334-501-3110	**Administrative offices for police, fire and communications divisions** 9-501-3110 from a university phone
Lee County Sheriff's Office 334-749-5651	**County law enforcement agency** 9-749-5651 from a university phone
East Alabama Mental Health Center 334-742-2877 OR 800-815-0630	**Mental health services 24 hours a day** 9-742-2877 from a university phone
East Alabama Medical Center Emergency Room 334-528-1150	**Emergency medical services 24 hours a day** 9-528-1150 from a university phone
Rape Counselors of East Alabama 334-741-0707 (office) 334-705-0510 (24 hr pager)	**Advocacy services for survivors of sexual assault, 24 hours a day (Safe Harbor's off-campus partner)** 9-741-0707 from a university phone 9-705-0510 from a university phone
Domestic Violence Intervention Center 334-749-1515 OR 800-650-6522 (24 hr crisis line)	Advocacy services and shelter for survivors of domestic violence 9-749-1515 from a university phone

VOLUNTARY CONFIDENTIAL REPORTING

Anyone who witnessed or has been a victim of a crime is encouraged to immediately report the incident to the City of Auburn Police Division by dialing 911, or for non-emergency situations, 334.501.3102. Police reports in the state of Alabama are public records, meaning that police cannot hold reports of crime in confidence. The City of Auburn Police Division does maintain an anonymous Crime Stoppers tip line that can be used for reporting security and safety related concerns, or to provide tips about criminal incidents or behavior on campus or within the City of Auburn. Call or text 334-246-1391 to reach this line.

The Clery Act requires Auburn University to include in our annual crime statistics disclosure all crimes reported in good faith that fall into one of the Clery reportable crime categories and occur on our Clery geography. (See the last section of this report for more information about Clery reportable crime categories and geography.) Confidential reports for inclusion in the annual disclosure of crime statistics can be made to campus security authorities, but individuals are always encouraged to report incidents to the police so they can be properly investigated.

Campus Security Authorities

Campus security authorities are defined by the Clery Act as City of Auburn police, Auburn University campus safety and security personnel, other individuals who have responsibility for campus security but who do not work for the Department of Public Safety & Security (including contracted security providers), or officials who have significant responsibility for student and campus activities, including but not limited to housing, campus activities, student discipline, and campus judicial proceedings. An official is defined as any person who has the authority and duty to take action or respond to particular issues on behalf of the institution. This includes a wide range of positions at Auburn University.

The Auburn University Department of Public Safety & Security collects crime reports from these campus security authorities, which typically include (but are not limited to) certain staff from the following units on campus: Office of Student Conduct, Office of Health Promotion and Wellness Services, Auburn University Medical Clinic, Athletics, Residence Life, and advisors to student organizations. Campus security authorities are encouraged to promptly notify the Department of Public Safety & Security of all crimes reported to them. Each of these reports is reviewed by Department of Public Safety & Security personnel to confirm that it meets reporting requirements under the Clery Act and to avoid duplicate reporting where possible.

Campus Counselors and Confidential Reporting

The Clery Act considers campus “pastoral counselors” and “professional counselors,” when acting as such, are not considered to be campus security authorities and are not required to report crimes for inclusion in the annual disclosure of crime statistics.

Counselors are defined as:

Pastoral Counselor

An employee of an institution, who is associated with a religious order or denomination, recognized by that religious order or denomination as someone who provides confidential counseling and who is

functioning within the scope of that recognition as a pastoral counselor. Auburn University does not have any pastoral counselors.

Professional Counselor

An employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community and who is functioning within the scope of his or her license or certification.

The staff of Student Counseling Services encourages clients to report crimes to City of Auburn Police Division, which then compiles this information into aggregate statistics in accordance with the Clery Act.

CAMPUS NOTIFICATIONS

The City of Auburn Public Safety Department has the primary responsibility of responding to, and summoning the necessary resources to mitigate, investigate, and document, emergencies on campus. University resources can be requested through the Auburn University Department of Public Safety & Security. In addition, the City of Auburn Public Safety Department has the responsibility to determine if the situation does, in fact, pose a threat to the Auburn University community and to notify the Auburn University Department of Public Safety & Security so that the threat can be communicated to the Auburn University community.

The Auburn University Department of Public Safety & Security utilizes different methods of campus communications depending on the nature of the incident or event requiring notification, as further outlined below.

Notification Procedure

Upon determination that a significant emergency or dangerous situation poses an immediate threat to the health or safety of members of the Auburn University campus community, the City of Auburn Public Safety Department will immediately notify the Auburn University Department of Public Safety & Security. The Auburn University Department of Public Safety & Security may receive information from other sources as well. Upon confirmation of an immediate threat to the safety or health of the campus community, the Auburn University Department of Public Safety & Security will communicate the threat without delay and taking into account the safety of the community, using some or all of the AU ALERT System as described below, unless issuing a notification will, in the judgment of the first responders (including, but not limited to, the City of Auburn Police Division, the City of Auburn Fire Division, and Emergency Medical Services), compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Auburn University Department of Public Safety & Security is charged with coordinating communication of immediate threats to the Auburn University community once notified of the threat by the City of Auburn Public Safety Department or other credible sources, and will determine the content of the notification using information provided by those sources. The content will convey the nature of the threat and immediate actions to be taken by the campus community, or affected segment thereof. The notification will be initiated by a member of the AU ALERT Notification Team, which consists of designated and trained members of the Auburn University Department of Public Safety & Security and Office of Communications & Marketing.

AU ALERT System

Auburn University has numerous systems in place for communicating information quickly to University students, faculty, staff, and visitors. The main components of the AU ALERT System are briefly described below.

Text, Voice, Email and RSS Messaging

This contracted emergency notification system has the ability to notify students, faculty, and staff of critical information and situations affecting campus through the use of text and voice messages to multiple phone numbers, email to multiple email addresses, and messages via RSS feeds. This system makes immediate notifications across campus without delay. Students, faculty, and staff are

required to sign up for this important service by logging into AU Access and clicking on the "Add/Update AU ALERT Contacts" link located on the Campus Life tab. Visit www.auburn.edu/aualert for more information.

Social Networking

AU ALERT messages are also available through Twitter (follow AUALERT) and Facebook (like AU ALERT). These methods are considered passive methods of communication. They can be used to supplement other notification methods, but should not be relied upon by students, faculty, and staff as the sole means of receiving notification. Parents are, however, encouraged to use these social media sources to monitor alerts so that the voice and text systems can be optimized for students, faculty, and staff on campus.

Outdoor Warning Sirens

Auburn University has eight voice and tone outdoor warning sirens on campus. These sirens, sometimes referred to as "giant voice," are used to notify the campus community of emergencies requiring immediate action. They are intended to reach those who are outside at the time of the notification. These sirens can broadcast any of 14 pre-programmed voice messages or can be used to broadcast incident-specific text-to-speech or live public address messages. The outdoor warning siren system is tested on the fourth Wednesday of each month at noon (weather permitting) with a message that clearly states that it is a system test.

Tone Alert Radios

Tone alert radios have been placed in most regularly occupied campus buildings. The radios broadcast a warning tone and then specific information such as severe weather warnings or other pertinent information regarding emergencies on campus. Each radio is issued to a point of contact within the building that can relay the information received to others in the building. Buildings that have an indoor mass notification system (i.e. public address capability) may not have a tone alert radio.

NOAA Weather Radios

Located in most regularly occupied buildings on campus, NOAA weather radios receive information directly from the National Weather Service. This information includes current weather and also any issued watches or warnings for Lee County, Alabama, where Auburn University's main campus is located. Each radio is issued to a point of contact within the building that can relay the information that is received to others in the building.

Building Fire Alarms/Mass Notification Systems

Fire alarms are in place to notify building occupants of possible fire dangers in the building. If you hear the fire alarm, evacuate the building immediately. The fire alarm has a distinct tone that is not used for any other purposes.

Some buildings also have mass notification capabilities through the fire alarm system. In buildings with this capability, pre-programmed, text-to-speech or live voice messages can be broadcast to provide verbal instructions to building occupants for any type of emergency. Some of these buildings also have scrolling message boards to convey the emergency messages in text format and dual

strobe lights. When dual strobe lights are present, clear lights indicate a fire emergency and amber lights indicate an emergency message about something other than a fire.

Digital Signs

Electronic signage is installed and utilized in some University buildings to broadcast news and other information. Many of these are capable of receiving and displaying alert messages during an emergency situation.

Desktop Alerts

A desktop alerting system is installed on most University-owned computers, including those in classrooms and computer labs. This system generates alerts on computer screens using a full-screen, prominent graphic that requires acknowledgement from the user.

Additional Notification Methods

The University uses other notification methods such as cable television emergency alerts and posting of alerts to the University's home webpage at www.auburn.edu. Emergency management personnel are routinely evaluating and adopting new technologies for emergency notification in an effort to most effectively reach all members of the campus community during an emergency.

Emergency Updates

For members of the campus community and the larger community, the University will post updates during a significant emergency or dangerous situation on the Auburn University home webpage at www.auburn.edu (either directly on the page or via a clearly identifiable link). For large scale incidents, individuals can also call Auburn University's recorded information telephone line at 334-844-0911 for updates.

Non-Emergency, Time Sensitive Notifications

If the incident or event does not require an emergency notification, several methods may be used to communicate with the campus community. Website content and mass email methods which are facilitated by the Auburn University Office of Communications & Marketing, including those listed below, may be the communications method chosen.

Auburn Daily

Auburn Daily is a daily electronic news service for employees of Auburn University. It is intended to provide relevant information about the campus in a timely and concise manner. Because Auburn Daily can be retrieved easily through email, rarely will information be repeated. Auburn Daily should be used for messages that are not an emergency and do not require an immediate response.

Auburn Daily Extra

Auburn Daily Extra is a special edition of the Auburn Daily message which is usually created and disseminated after the daily Auburn Daily message has already been sent. This type of message is usually sent when there is information that is deemed important for Auburn University employees to receive which cannot wait until the next scheduled Auburn Daily message.

This Week @ AU

This Week @ AU is a weekly electronic news and information service for the students of Auburn University. Because the digest can be retrieved easily through email or the archived web page, rarely will information be repeated. This Week @ AU should be used for messages that are not an emergency in nature and do not require an immediate response.

This Week @ AU Extra

This Week @ AU Extra is a special edition of This Week @ AU which is usually created and disseminated after the weekly This Week @ AU message has already been sent. This is usually used when there is information that is deemed important for Auburn University students to receive which cannot wait until the next scheduled This Week @AU message.

Auburn University Home Webpage

The Auburn University home webpage is found at www.auburn.edu. The content for the home webpage is managed by the Auburn University Office of Communications & Marketing. Time sensitive notifications may be posted on this site.

Auburn University Public Safety & Security and Emergency Management Webpages

The Auburn University Department of Public Safety & Security webpage is found at www.auburn.edu/public_safety. The Emergency Management webpage is located within the main webpage and can also easily be accessed at www.auburn.edu/emergency.

The content on these two webpages is controlled by the Auburn University Department of Public Safety & Security and can be used as another means of conveying time sensitive information.

Timely Warning of Crimes

The Auburn University Department of Public Safety & Security will issue timely warning notices to notify members of the University community about serious crimes against people that occur on campus, where it is determined the incident may pose an ongoing threat to members of the Auburn University community (i.e. the suspect is unknown or at large). These warnings will be issued if the incident is reported to the Auburn University Department of Public Safety & Security and will generally be sent in the same manner as a non-emergency, time sensitive notification.

The department issues and/or posts these crime alerts for the following types of incidents when occurring on campus; in certain off-campus buildings and property owned or controlled by the University and used by students; and on public property within or immediately adjacent to and accessible from the campus:

- Murder;
- Aggravated assault (cases involving assaults among known parties, such as two roommates fighting which results in aggravated injury, will be evaluated on a case-by-case basis to determine if the individual is believed to be an ongoing threat to the larger Auburn University community);

- Robbery involving force or violence (cases involving pick pocketing and purse snatching will typically not result in the issuance of a crime alert, but will be assessed on a case-by-case basis);
- Sexual assault (considered on a case-by-case basis depending on the facts of the case, when the incident occurred versus when it was reported, and the amount of information known by the Auburn University Department of Public Safety & Security);
- Major incidents of arson;
- Other crimes as determined necessary by the Executive Director of Public Safety & Security or, in his absence, an associate director within the Auburn University Department of Public Safety & Security.

EMERGENCY PREPAREDNESS

Emergencies can occur at any time, often without warning. Auburn University's emergency guidelines can help you deal with many emergency situations appropriately. Your judgment often determines whether an incident is an emergency. If in doubt, err on the side of safety. Visit the Auburn University Emergency Management webpage for more information on emergency management: www.auburn.edu/emergency.

What to Do in the Event of a Campus Emergency

If you have an EMERGENCY requiring police, fire or ambulance, DIAL 911 without delay.

- When you dial 911 for emergency services, stay on the line and give the following information:
  - Your name, telephone number, and exact location.
  - The location of the emergency.
  - The nature and extent of the emergency (e.g. Are there injuries and how many?)
- Be informed and prepared in advance. Review emergency guidelines and do not wait until an emergency strikes to know what to do.
- Be aware of your surroundings, and report any suspicious activities.
- Know where the fire alarm activation pull stations are located in your building and how to evacuate your building if the alarm is set off.
- Emergency call boxes have been installed in different locations around campus. The call boxes call 911 when activated. Call boxes are equipped with a blue light for identification. Locations are shown online on the campus map under "placemarks" at www.auburn.edu/map.

Questions or suggestions regarding emergency procedures and response on campus should be directed to:

- AU Emergency Management – emergencymanagement@auburn.edu
- AU Executive Director of Public Safety & Security – publicsafety@auburn.edu

Emergency Response and Evacuation Procedures

Emergency Response Procedures

Emergency response guidelines are available from the Department of Public Safety & Security in a variety of formats, including fold out emergency guidelines cards for students (which are provided to all incoming students at student orientation and to others at other outreach events), emergency guidelines folders (which are provided to all new employees at new hire orientation and to others at outreach and training events), and hazard-specific guidance on both the Emergency Management webpage (www.auburn.edu/emergency) and in the University's official mobile app for iOS and Android devices.

Evacuation Procedures

Emergency response and building evacuation procedures are included in building-specific emergency response plans. The Campus Evacuation Plan Annex to the Emergency Operations Plan covers specific planning considerations for a large scale evacuation.

The decision to conduct a large-scale evacuation of campus would be an extreme measure and require University, city and possibly mutual aid resources (local and state law enforcement and transportation services). The Auburn University Department of Public Safety & Security, in coordination with the City of Auburn Public Safety Department, is responsible for initiating any partial or campus-wide evacuations.

When deciding whether to conduct an evacuation, consideration will be made for the type of hazard or threat, credibility of the threat, area of campus in danger, and ability to contain the threat to a specified area of campus. The campus community may be notified to evacuate on foot or by vehicle, depending on the nature and timing of the threat, as well as other hazards that may impact the safety of persons evacuating.

Communication of an evacuation order should be facilitated through the Auburn University Department of Public Safety & Security, using the AU ALERT system. Messages should include the nature of the incident and directions for the campus community, including when the evacuation will begin, how to evacuate (on foot or by vehicle), where to go, and how updates will be provided.

The method and direction of the evacuation route during a campus evacuation will depend on the nature and location of the emergency or disaster warranting the evacuation. Plans are a result of training and past experience directing large volumes of traffic off campus, as well as traffic studies performed by consultants. These plans also consider the number of officers and resources that will be needed quickly to facilitate a partial or full evacuation.

Once the campus is evacuated, a priority clearing approach will likely be taken in order to restore critical services first, such as public safety, housing, dining and animal care. Thus, buildings may be opened in a phased approach. Once public safety officials decide it is safe to return, announcements will be made to return to normal operations.

Tests of Emergency Procedures

The Auburn University Department of Public Safety & Security reviews and updates plans and coordinates tests of emergency response and evacuation procedures at least annually, via announced and/or unannounced tests, to evaluate the University's response. Tests include drills, exercises and follow-through activities to review each test. Emergency response and evacuation procedures are publicized during these tests and documentation of the tests are maintained by the Auburn University Department of Public Safety & Security.

Tests of the AU ALERT system are conducted and documented at least twice per year during the fall and spring semesters, via announced tests. Performance results are documented.

CAMPUS SECURITY AND LAW ENFORCEMENT

The City of Auburn Public Safety Department provides police services for the campus through a contract with Auburn University. Auburn University does not have a campus police department but does employ a limited number of police officers with arrest powers. Unarmed security staff are employed to provide security services only, and have no arrest powers.

Auburn University maintains an excellent working relationship with local and state law enforcement agencies, including the City of Auburn Police Division, Lee County Sheriff's Office, and Alabama State Troopers. Radio communication is in place with these agencies.

Off-Campus Organizations

Student Affairs maintains contact with recognized fraternity organizations through the efforts of the Office of Greek Life. The majority of fraternities are located on campus. Criminal activity at recognized off-campus fraternities is monitored and recorded by the City of Auburn Police Division.

CITY OF AUBURN PUBLIC SAFETY DEPARTMENT

Hours: 8 am to 5 pm, Monday through Friday

All Emergencies (24/7): DIAL 911
Non-Emergency: 334-501-3102

161 North Ross Street
Auburn, AL 36830
www.auburnalabama.org/ps

Auburn University has contracted with the City of Auburn Public Safety Department to provide police and fire services for the Auburn University campus. The employees of the Auburn Public Safety Department dedicate their lives to the safety of Auburn citizens. Through the effective delivery of high quality emergency response and preventive services, Auburn enjoys extremely modest fire losses, a low crime rate, one of the best fire insurance classifications in the state, and a very high level of citizen satisfaction.

Fire Division

Fire Chief: Lee Lamar
334-501-3110

Hours: 7:30 am to 4:30 pm, Monday through Friday

All Emergencies: DIAL 911 (24 hours a day, 7 days a week)
Non-Emergency: 334-501-3100 (weekends/after hours)

Fire Station #1: 359 East Magnolia Avenue
Fire Station #2: 1520 Shug Jordan Parkway
Fire Station #3: 685 Ogletree Road
Fire Station #4: 1299 Stoker Street
Fire Station #5: 234 Technology Parkway

Police Division

Police Chief: Paul Register
334-501-3110

Hours: 8 am to 5pm, Monday through Friday

All Emergencies: DIAL 911 (24 hours a day, 7 days a week)
Non-Emergency: 334-501-3100 (weekends/after hours)

Records: 334-501-3130
Crime Prevention: 334-501-3125
Detectives: 334-501-3140
Patrol: 334-501-3150

CAMPUS SECURITY SHUTTLE, SECURITY ESCORT SERVICES AND OTHER NIGHT TRANSPORTATION

There are a number of different safe modes of night transportation for students, as outlined below. Students are strongly encouraged to utilize these resources and avoid the need to walk on campus alone at night.

Campus Security Shuttle Van Service

Destination: On Campus

The Campus Night Security Shuttle Van Service offers a safe ride from any on-campus location to any other on-campus location from 6 pm to 7 am seven days a week when classes are in session, except for the evenings of home football games and official Auburn University holidays. To obtain service, call 334-844-7400.

Security Escort Service

The Auburn Public Safety Department – Police Division offers, without charge, an on-campus security escort service when the Campus Security Shuttle is not in operation. If you need an escort, phone Auburn Police Division at 334-501-3102. An officer will respond to your location and escort you to your campus destination. The Security Escort Service is available during University holidays and semester breaks.

Tiger Transit Off-Campus Night Transit

Destination: Off Campus

The Off-Campus Night Transit line, operated by Tiger Transit, has multiple mini-buses traveling to all external Tiger Transit destinations. This line departs from the AU Student Center/Haley Center Hub (Monday through Friday) every 30 minutes. The hours for the Off-Campus Night Transit are 6:15 pm to 10 pm during the fall and spring semesters, and 5:15 pm to 9 pm during the summer semester. The Night Transit off-campus route is one-way and will not board passengers for return trips to campus or for other Tiger Transit destinations. Routes are subject to change.

Routes and schedules are subject to change. Get up-to-date information by visiting Tiger Transit's webpage at http://www.auburn.edu/administration/parking_transit/transit/night.php.

Tiger Ten Late Night Transportation System

Destination: Various Locations On and Off Campus

In partnership with the Student Government Association, the Tiger Ten departs from Magnolia Avenue beginning at 10:30 pm and concluding at 3:30 am Friday and Saturday, when classes are in session, except during home football game evenings and official AU holidays. There are eight lines and approximate bus-stop times are based on 30 minutes intervals.

Routes and schedules are subject to change. Get up-to-date information by visiting the Tiger Ten webpage at http://www.auburn.edu/administration/parking_transit/transit/latenight.php.

MISSING STUDENT POLICY STATEMENT

If a member of the University community has reason to believe that a student residing in on-campus housing is missing, he or she should immediately notify the City of Auburn Police Division at 911 (emergencies) or 334-501-3102. The City of Auburn Police Division will have primary responsibility for investigating reports of missing students residing in on-campus housing and will make an official determination as to whether a student is missing.

Upon investigation, should the City of Auburn Police Division determine that the student is missing, they will promptly notify the Auburn University Department of Public Safety & Security. Within 24 hours of a determination by police that a student is missing, Auburn University will notify:

- The student's missing person emergency contact(s) (as outlined below);
- The student's parent or legal guardian, if the missing student is under the age of 19 and is not an emancipated individual.

Auburn University will make reasonable efforts to assist with missing person investigations for all local Auburn University students, regardless of whether they reside in on-campus housing.

Identifying Emergency Contacts

Students, faculty, and staff have the option to confidentially identify both general emergency contacts and missing person emergency contacts in the AU Access system. This information is only accessible to authorized campus officials and law enforcement. Missing person emergency contacts will not be disclosed outside of a missing person investigation.

In AU Access, on the Campus Life tab, there is a channel titled "My Emergency Contacts" where students, faculty, and staff can register the following:

- AU ALERT contact information. This is how the University notifies students, faculty, and staff of emergencies requiring their immediate action.
- General emergency contacts: This is who the University will contact in the event a student, faculty member, or staff member is involved in a serious emergency or crisis.
- Missing person emergency contacts: This is who the University will contact if the police determine the student, faculty member, or staff member to be missing.

DANGEROUS WEAPONS AND FIREARMS POLICY

In order to maintain a safe academic environment, Auburn University prohibits the possession and use of any dangerous or potentially dangerous weapon(s) or instruments, including but not limited to those described below, on all University properties, with limited exceptions.

This policy is applicable to all members of the University community, including students, faculty, staff, visitors (invited or uninvited), contractors, and guests at any University campus, facility, or event.

The following dangerous weapons and firearms are included within this policy:

- Firearms – Shotgun, rifle, pistol, revolver or other shoulder gun including ammunition. This also includes starter guns, the frame or receiver of any such weapon; any firearm muffler or silencer; or any machine gun.
- Any non-culinary knife, fixed or lockblade (e.g. Bowie knife, knife, or instrument of like kind or description), except common pocket knife or legitimate tools appropriately used in authorized work on campus.
- Stun Gun, Taser or instrument of like kind or description
- Air gun (e.g., air or gas powered rifle or pistol)
- Bow and arrow (e.g., archery equipment)
- Slingshots (including throwing weapons)
- Swords
- Crossbows
- Brass knuckles
- Fireworks or explosive devices

Except as otherwise provided in this policy or in controlling law, the possession, transportation, and use of firearms on campus is prohibited. Dangerous weapons are not permitted on campus at any time.

Temporary exclusions may be granted in writing by the Executive Director of Public Safety & Security for job-related, educational, or demonstration purposes. Department heads and respective instructors may be granted authorization for organized activities by the Executive Director of the Department of Public Safety & Security of Auburn University and on the Montgomery campus by the Senior Director, Police Services. The requesting organization must guarantee qualified instruction, safety, and security for such activities. This policy shall not apply to duly designated law enforcement officers while in the discharge of their lawful duties.

An employee may not possess firearms on campus or while otherwise engaged in duties associated with their employment, except for a firearm properly maintained in a personal vehicle in a manner consistent with Alabama law. University students may not possess firearms at any time on campus (except as expressly authorized by the Executive Director of Public Safety & Security). The Department of Public Safety & Security provides temporary storage for firearms lawfully possessed by students at its office.

Where applicable, all federal, state, and local laws and ordinances will be strictly enforced by Auburn Police Division and respective mutual aid agencies and shall be separate from this administrative policy.

THREAT ASSESSMENT TEAM

The Auburn University Threat Assessment Team is in place to advise and make recommendations on incidents involving members of the University community that pose, or may reasonably pose, a threat to the safety and well-being of themselves and/or other members of the University community. This is accomplished through outreach and educational programming, consultation, and appropriate referrals.

Referrals to the Threat Assessment Team

It is the responsibility of the University community to report any situation that could possibly result in a threat to the safety and well-being of other members of the University community. Any member of the University community that may become aware of such a situation can report the matter to the Threat Assessment Team.

It is important to emphasize that reports to the Threat Assessment Team not be made anonymously because of the limitations to investigating without complete information. Please include, at a minimum, your name, phone number and email address.

Threat Assessment Team Contact Information

Phone: 334-844-5010

Email: autat@auburn.edu

Emergency Situations

In cases where a person may pose an immediate risk of violence to self or others, please DIAL 911 to reach the City of Auburn Police Division.

More information about the Auburn University Threat Assessment Team can be found on their website: https://cws.auburn.edu/rms/threatAssessment.aspx.

ACCESS TO CAMPUS FACILITIES

The Auburn University campus is generally open to the public during normal hours of operation, with the exception of residence halls and specialized research areas. Schedules for campus buildings fluctuate depending on the nature of their operations, as well as events and class schedules. The Auburn University Department of Public Safety & Security office is open 24 hours a day, 7 days a week.

Access to residence halls is restricted to residents, their approved guests, Housing and Residence Life staff, and other approved members of the University community. Residents gain entry by swiping their AU ID card in the card access readers, which allow access to the residence hall in which they live. Guests of residents must be accompanied at all times by the resident whom they are visiting, and must sign in and out at the front desk of the residence hall.

MAINTENANCE OF CAMPUS FACILITIES

Facilities and landscaping are maintained in a manner that minimizes hazardous conditions. Personnel from the Auburn University Department of Public Safety & Security and the City of Auburn Police Division regularly patrol campus and report malfunctioning lights and other unsafe physical conditions to Facilities Management for correction.

The Student Government Association, Auburn University Public Safety & Security and City of Auburn Police Division also periodically participate in nighttime campus safety walks, focusing on emergency phones, lighting, and landscaping issues. Other members of the University community are encouraged to report equipment problems or unsafe conditions to Auburn University Public Safety & Security.

CRIME PREVENTION

Campus safety is everyone's responsibility. It is important that we all take our personal safety seriously. Below are some tips for reducing your chance of being a victim of crime.

Three Simple Rules for Personal Safety

- Stay alert and tuned in to your surroundings. Be aware and prepared.
- Stand tall and walk confidently; do not show fear. Do not look like a victim.
- Trust your instincts. If you do not feel comfortable in a place or situation, leave.

Protecting Your Property

- Use a combination padlock on all storage units. Check the unit periodically to make sure nothing has been disturbed.
- Don't mark your key chain with your name, address and/or license number. Lost keys can lead to theft. Take care of keys; don't give anyone the chance to duplicate them.
- Engrave all valuable personal property with your name and a unique number known only to you. Keep a detailed list of all valuables and serial numbers. Keep a copy of this list at your permanent residence as a backup.
- Move valuables out of view from windows and doors.
- Lock your vehicle and residence at all times, even when you're in them.
- Copy all important papers and cards that you carry in your purse or wallet, including your driver's license. Keep the copies in a safe place. The information will be invaluable if anything is stolen or lost.
- Copy your vehicle ID and tag number. If your vehicle is stolen, it cannot be entered into the nationwide law enforcement network without this information.

Protecting Yourself At Home

- Keep doors and windows locked at all times, even if you are only away for a few minutes. Do not "prop open" doors in residence halls.
- Be assertive and demand that any unwanted person in your residence leave, or leave yourself. Anyone who refuses to leave is a trespasser. If you live in a women's residence hall, report any unescorted males to security (334-844-8888).
- Make sure hallways, entrances, garages, and grounds are well lit. Leave porch lights on all night. Keep blinds and curtains shut after dark and never dress in front of a window.
- When you expect to return after dark, leave an interior light on with the shades drawn. If you live on campus, report any malfunctioning light to Facilities Management at 334-844-HELP (4357). Make sure to provide a detailed location and description of the problem.
- Know who is at your door before you open it. Campus staff members carry identification, and solicitors are not allowed on campus. Require proper identification from any repair or utility personnel. If you live off campus, install a peephole in your front door.
- Do not open your door to strangers or let them in. If they need assistance and ask to use your phone, make the phone call for them.
- List initials and last names only on your mailbox or door and in the telephone book. Don't leave your name on your door or answering machine if you live alone.

- If you are going out of town, do not state you are away or when you will return on your voice mail recording, email automated reply, or social media networks.
- Get to know your neighbors. If you live off campus, join a neighborhood watch system and share information on suspicious circumstances.
- When you go home on breaks, have someone pick up your mail, newspaper, etc. Install timers and leave on all outside lights. Make your residence appear "lived in."
- If you come home and see a broken window or a jimmied door, don't go inside. Confronting a burglar can be dangerous. Phone police immediately at 911.

Protecting Yourself Away from Home

- Walk or jog with a friend. Avoid jogging after dark. If you must jog at night, stay in well-lit, well-traveled areas and do not go alone.
- Carry a whistle and don't hesitate to use it to alert others you need help. Vary your pattern frequently.
- Don't wear headphones when jogging or biking. They significantly reduce your ability to hear and thus your awareness.
- Tell someone where you are going and when you will return.
- Don't fight back if your purse or wallet is snatched. Throw it in one direction and run in the other rather than risk personal injury. Call the police immediately at 911.
- Be careful when and where you patronize ATM machines. Accessing ATM cash machines in remote locations, particularly at night, could increase your risk of robbery and personal injury. While you are standing at the machine, keep turning around and scanning for people approaching you or loitering around.
- Avoid working or studying alone in a building other than your residence at night.
- Stand and walk tall with a brisk, purposeful stride. Make brief eye contact with someone who makes you feel uneasy to let them know that you see them and are not afraid, but don't stare too long or prolong your glance.
- Trust your instincts.

Protecting Yourself In Your Car

- Check the back seat before entering.
- Keep vehicle doors locked at all times, even when driving in daylight, so no one can jump in at a red light.
- Be suspicious of people approaching your car asking for directions, or change, or handing out flyers.
- When stopping in traffic, leave enough distance between your car and the one in front of you, so you can quickly pull away if necessary.
- Keep enough gas in your tank for emergencies.
- Don't offer rides to anyone you don't know, even if he or she claims to be a student.
- Honk your horn if someone suspicious approaches your vehicle.
- If your car breaks down, lift the hood, put on flashers, and wait for help inside the car with the doors locked. Ask people who stop to call the police or AAA. Don't go with anyone.
- Don't stop for stranded motorists. You are of greater help to them by calling the police.
- Keep valuables in the trunk or glove box of your vehicle, not on the seats.

- Park your car in well-lit areas.
- Remove all keys from your vehicle. Thieves look for keys under fenders and in magnetic key cases. Walk with your keys in your hand so that you don't have to focus your attention on finding them in a backpack, bag or purse.
- Remember to buckle up. It's the law in Alabama.

Protecting Yourself At Work

- Avoid working or studying alone in a building at night.
- When working late, make sure doors are locked.
- Keep your purse in a locked cabinet or drawer. Never leave it on or underneath a desk.
- Avoid using stairs in remote sections of the building.
- Do not hold the door open for strangers after normal business hours.
- Ask people you don't recognize if you can help them.
- Report suspicious activity to police (911 for emergencies; 334-501-3102 for non-emergencies).
- Be careful what you leave on your desk and on your computer screen when you step away from your desk.
- Keep passwords in secure places.

Have a Plan

It is very important for you to have a plan if an attacker tries to steal your bag, attack you from behind, or your car breaks down at night, etc. Knowing how you would handle situations if you should ever have to face an attacker could save your life. Always be on your guard, pay attention to your surroundings, trust your instincts and report suspicious activity to the police.

If you have a cell phone, keep it with you at all times so you can call for help if needed. There are also approximately 150 blue light emergency phones on campus, mainly in parking lots, parking garages, and pedestrian walkways. When you press the red button, the emergency phone will dial 911 and tell the emergency dispatcher your location.

SEXUAL ASSAULT PREVENTION

Auburn University is committed to creating and maintaining a community in which students, faculty and staff can work and study in an atmosphere free from all forms of harassment, exploitation or intimidation. The University's Policy and Procedures for Student Sex Discrimination (Title IX), which includes sexual assault of all types, is administered by the Title IX Coordinator in the Affirmative Action/Equal Employment Opportunity Office and can be found at https://sites.auburn.edu/admin/universitypolicies/Policies/TitleIXPolicyandProceduresforStudentSexDiscrimination.pdf or on the University's policies webpage at www.auburn.edu/policies.

Education and Outreach

Auburn University (through Health Promotion & Wellness Services (HPWS), Public Safety & Security, and other campus entities) offers educational programming to promote awareness regarding sexual asasult, as well as other forms of interpersonal violence such as dating and domestic violence and stalking. Learn more at http://www.auburn.edu/healthandwellness. Some of the topics covered include:

- Consent is Hot, Assault is NOT: This program is designed to educate students about interpersonal violence, warning signs, and consequences. The program will also educate on the process of consent.
- Safe Harbor: Safe Harbor is a program that provides support for survivors of sexual assault. Presentations are given to students, faculty and staff to promote awareness of the services provided.
- Healthy Relationships 101 – Working Towards a Partnership: This program is designed to provide a basic platform for educating students about the qualities of a healthy relationship and how to work towards a partnership.
- StepUp!: This program is an interactive presentation designed around a topic of the leader or organization's choice or as a general session. These sessions educate participants about how to "StepUp!" in a problematic and potentially dangerous situation. Presentations in the past have been both general and specific. For more information, visit the StepUp! Website. Examples of topical presentations include, but are not limited to:
    - Alcohol and Drugs
    - Sexual Assault Education
- How to Support a Survivor: This training provides guidance on what to do if someone you know has been sexually assaulted.
- Rape Aggression Defense (RAD) Demonstrations and Courses: This nationally certified, comprehensive self-defense class for women begins with awareness, prevention, risk reduction, and avoidance, and progresses to the basics of hands-on self-defense training. For additional information, email aurad@auburn.edu.
    - ***Students:*** Courses are available every fall and spring semester for 1 hour of class credit. Register for Kinesiology class KINE 2200 or KINE 4970 ("Self-Defense for Women").
    - ***Employees:*** RAD classes for female employees are scheduled periodically through A-Train as course number ER310. These classes are announced in Auburn Daily and are posted on the Public Safety & Security online training calendar (www.auburn.edu/public_safety/trainingresources.html).

- Sexual assault awareness outreach events are conducted throughout the year through the BeWell Hut and at student orientations, concourse outreach events, and Sexual Assault Awareness Month.

Intended Audiences

Academic opportunities

Members of HPWS and Public Safety & Security present in a variety of academic settings including but not limited to UNIV (freshman year) classes, Women's Studies, Human Development and Family Studies, Communications, and others.

HPWS has a program in place called *Don't Cancel That Class*, an outreach opportunity to engage more faculty members in outreach and education opportunities. More information can be found at https://cws.auburn.edu/studentaffairs/healthandwellness/programs/?NoCancel.

In addition to the above-mentioned groups, members of Public Safety & Security and HPWS routinely present to and work with the following groups on sexual assault awareness and prevention:

- Athletics department
- Residence hall Staff
- Graduate teaching assistants and graduate research assistants
- New faculty and staff
- Camp War Eagle counselors
- Incoming freshmen through Camp War Eagle and Successfully Orienting Students
- Greek Life (sororities and fraternities)
- AU administration
- High school clubs and organizations

Prevention

Auburn University is a community of scholars committed to an environment that encourages personal and intellectual growth. Auburn has high standards and expectations, including established rules of conduct intended to foster behaviors that are consistent with a civil and educational environment, and support the mission of the University.

The sexual assault and violence prevention programs and policies of Auburn University are designed to support the larger mission of the University as well as the time-honored values of the Auburn Family. By incorporating a public health perspective to address these issues, our prevention approach strives to create an environment that fosters academic success, increases student retention, and promotes both healthy relationships and the safety and well-being of all members of the Auburn Family.

Risk Reduction Tips

- Be aware of your surroundings and trust your instincts.
- Expect to be respected. Assert your rights.
- Clearly communicate your thoughts and beliefs through actions and words.

- Meet social or business acquaintances in public places; arrange to have your own transportation or travel with close friends that you trust.
- Carry money to meetings and on dates in case you need to use the phone or pay for transportation.
- Control your environment. Don't let yourself get put in a dangerous location like an alley or back room.
- Know your date's first and last name, address and business.
- Let someone (e.g. a friend) know where you are going, who you are going with, and when you expect to return.
- Especially with new people, watch how much alcohol both you and your date consume.
- Alcohol and drug use may increase your vulnerability by lowering your awareness and ability to react.

If You Find Yourself in a Potentially Bad Situation, Consider:

- The object is survival. Do whatever you can to survive. Try to remember as much as you can about the attacker: height and weight compared to yours, scars, tattoos, accent, other identifying characteristics.
- Criticize your date's actions, not him or her personally, so that he or she will understand what behavior to stop. For example, "I'm not ready for sex" or "I have enjoyed our date until now, but I don't want to do this." Be clear about your limits.
- If the attacker does not listen to you, leave.
- Do not let embarrassment for the attacker keep you from doing what is right for you.
- Choose effective means to get yourself out of the situation. Act with a purpose.
- At the first opportunity, escape from the situation, go to a safe place and call for help.

Active Intervention Methods

- Bite, scratch, kick, pull, twist and punch in vulnerable areas – stomach, sides, face, eyes, shins, hands, and the groin area.
- Run away as soon as you get an opportunity.
- Attract attention by continually screaming and yelling, "FIRE," "HELP," or "I DON'T KNOW THIS PERSON."
- To learn hands-on self-defense tactics and techniques, register for the Rape Aggression Defense (RAD) program. See Education and Outreach section above for more information.

Passive Intervention Methods

- Talk yourself out of a situation. Give a "convincing story." Tell the aggressor you have a contagious venereal disease, you're pregnant, or a friend is expected to appear at any moment.
- Pretend to cooperate until an opportunity for escape presents itself. Put your attacker off guard.
- Act in a bizarre and/or repulsive manner (feign insanity or convulsions, urinate or vomit).
- Do what is best for you and your situation.

After an Attack

- Try to be as calm as possible in order to think more clearly.
- DIAL 911 to get immediate assistance from emergency medical services and police. It will probably take time for you to fully realize what has happened to you, but in the meantime it is in your best interest to get help from professionals. They are there to support you and help you make informed choices.
- Do not disturb any evidence, including that on your body. Do not bathe, brush your teeth, douche, clean fingernails, or change clothes. If going to the hospital, take a change of clothes with you.
- The East Alabama Medical Center in Opelika has Sexual Assault Nurse Examiner (SANE) nurses who are specifically trained in caring for survivors of sexual assault and collecting forensic evidence (sometimes referred to as a "rape kit").
    - Recognize that there is a limited amount of time during which police and forensic examiners can collect evidence.
    - You may think you don't want to have a forensic exam at the hospital, but the sooner after an assault this is done, the more likely it is that useful evidence will be collected.
    - You may decide later that you want to pursue charges against the attacker, and it will be more difficult to do so without forensic evidence.
- Survivors have the option to report a sexual assault.
- A campus security authority who is notified of a sexual assault has the responsibility to inform the survivor of resources available to him or her and to help the survivor report the assault to the proper people, if they wish to do so.
- The University wants to ensure that the survivor is both mentally, psychologically, and physically protected. Medical care and counseling services are available. If living, academic or other changes need to be made, the University will assist in providing reasonable accommodations.

Safe Harbor – Advocates for Sexual Assault Survivors

Auburn University strives to foster a community free of sexual assault and interpersonal violence. Sexual assault or interpersonal violence can have a profound impact on one's personal and academic life. If sexual assault or an act of interpersonal violence occurs, the University strongly encourages individuals to take action in whatever appropriate way that they see fit.

For many individuals, Safe Harbor can be the most beneficial first point of contact. Safe Harbor has trained survivor advocates who have the ability to connect survivors with a variety of available resources. Through Safe Harbor, University personnel will assist survivors:

- Notify proper law enforcement agencies, if requested;
- Notify the Office of Student Conduct, if the accused aggressor is an Auburn University student and the survivor wishes to file a complaint;
- Provide referrals for counseling services and medical attention; and
- Provide assistance with other needs such as requests for reasonable housing, academic or other accommodations.

Each of these services can be further explained in detail when a survivor meets with an advocate. To contact Safe Harbor, please call 334-844-7233 (SAFE).

Disciplinary Procedures for Alleged Sex Offenses

Procedures for campus disciplinary actions in cases of an alleged sex offense are outlined in the Code of Student Discipline ("Code"), which is located on the University policy database at www.auburn.edu/policies.

For all alleged infractions of the Code, including sexual assault, the student accused of violating the Code has the right to a student disciplinary committee hearing. Both the charged student and the charging student have the right to present witnesses and evidence, and to be present throughout their presentation.

Preponderance of the evidence is utilized as the standard of proof for student discipline procedures related to sexual assault/harassment and discrimination cases. Sanctions that may be imposed include formal and informal reprimands, probation, suspension, and expulsion. Both the charged and the charging student have the right to be notified of the dispensation of the case and the right to appeal to the President of the University.

Refer to the University policy database for the complete policies, procedures, rights and sanctions related to violations of the Code.

DRUG-FREE CAMPUS AND WORKPLACE POLICY STATEMENT

The full Drug-Free Campus and Workplace Policy can be found in the Tiger Cub Handbook, as well as the Administrative & Professional Handbook and Faculty Handbook. Below is a summary of the policy.

Standards of Conduct

The unlawful manufacture, distribution, dispensation, possession, or use of illicit drugs or alcohol by students or employees of Auburn University are prohibited at any time on any university property or at any university activity. No employee will report for work, will work, or be present in the workplace that is impaired by an illegal drug or by alcohol. No student, who is impaired by illegal drugs or alcohol, will attend classes or any other university activity.

Disciplinary Sanctions

The University will impose sanctions (consistent with local, state, and federal law) upon all employees and students who violate these standards of conduct. Such sanctions may include but are not limited to:

- Referral for prosecution;
- Probation, suspension, or expulsion of students;
- Suspension or termination of employees.

BICYCLE SAFETY

- All bicycles operated on campus shall be registered online or brought to Auburn University Parking Services and registered. Registration is free.
- Wear a helmet. 75% of deaths caused by biking accidents are a result of head injuries.
- Carry some form of identification (such as a valid driver's license or student ID) at all times.
- Observe all state traffic laws. Obey all traffic signals and signs. Bicycles ridden on public roadways are subject to the same laws as motor vehicles.
- Slow down and check traffic at all intersections, including parking lot entrances/exits.
- Ride bikes on designated bike paths where they are available. Otherwise, ride on the right side of the street. Never ride on the sidewalk.
    - Auburn city ordinance prohibits riding a bicycle on sidewalks in Auburn.
    - University traffic regulations prohibit riding a bicycle on campus sidewalks of 10' or less in width.
- Avoid busy streets when possible.
- Be sure you have a front light and rear reflector at night, as required by city ordinance.
- Always park and lock your bike to a rack.
- Respect pedestrians and their right-of-way. Always let cars and people go first.
- When riding with others, travel single file rather than side-by-side.
- Maintain your bike – keep the brakes and other components in good working condition.
- Cross at intersections. When you pull out between parked cars, drivers can't see you coming.
- Use bike lanes or designated bike routes wherever you can.
- Don't ride too close to parked cars. Doors can open suddenly.
- Visit http://www.travelwithcareauburn.com for more information on cycling laws and ordinances within the City of Auburn.

LIFESTYLE IMPROVEMENT AND AWARENESS PROGRAMS ON CAMPUS

There are a variety of lifestyle improvement programs available on campus offered by a wide range of groups. Some of the key programs are highlighted below, but many other activities and educational programming are available.

Health, Wellness and Fitness Activities

Auburn University is committed to providing quality health services and programs for the entire University community and strives to foster activities that will enable individuals to make informed decisions and make positive modifications to their health by changing their behaviors. The University offers a variety of prevention programming. Contact the following departments for more information.

Campus Recreation – 334-844-0020 or auburn.edu/campusrec

Campus Recreation fosters engagement, leadership, learning and wellness through quality programs, state-of-the-art facilities, and a professional and highly qualified staff. Facilities include a brand new Recreation and Wellness Center which opened in August 2013. Structured intramural and club sports, informal recreation, fitness and nutrition programs and services encourage the Auburn University community to develop lifelong patterns of healthy living.

Auburn Outdoors, a new adventure-based education program, provides a variety of avenues to outdoor recreation including equipment rentals, trip planning materials, a bike shop and kayak and bike trailers.

Health Promotion and Wellness Services – 334-844-1422 or auburn.edu/hpws

The main goal of the office of Health Promotion and Wellness Services is to create a healthier Auburn University through a variety of programs, services, and initiatives that are all aimed at supporting student learning and personal success. Programs strive to touch on all nine dimensions of wellness: physical, emotional, intellectual, spiritual, social, environmental, occupational, financial, and cultural.

Health topics addressed include:

- Self-care – Attitude, self-esteem and body image; exercise; sexual health; stress reduction; alcohol, drugs and tobacco; nutrition; sleep; mental health; and personal safety
- Relationships – Sexual assault and consent; romantic relationships; friendships and family; assertiveness; anger management; conflict resolution; and respect for others
- Community – Social life; cultural competence; religion and spirituality; social justice; and campus involvement and volunteering.

Mental Health Resources

Student Counseling Services – 334-844-5123 or auburn.edu/scs

Through Student Counseling Services, students have access to a number of mental health services including:

- Individual counseling for students needing assistance, information, and resources
- Group counseling

- Student involvement in organizations that provide peer education opportunities on health-related topics
- Seminars, workshops and presentations on social and emotional adjustment issues

Additional Resources for Campus Residents

Residence Hall Association Programs – 334-844-4580

Each campus resident is automatically a member of the Residence Hall Association. This organization represents all students who live on campus, providing activities and services, soliciting resident input, and communicating suggestions to housing administration. Programs are offered every year based on a wellness model that includes spiritual, physical, emotional, intellectual, social or occupational themes.

CLERY ACT CRIME STATISTICS

These statistics are provided in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. Crime statistics are collected from the City of Auburn Police Division and non-police campus officials (including Residence Life and Student Conduct within the Division of Student Affairs), and are compiled by the Auburn University Department of Public Safety & Security. For statistical purposes, crime statistics reported to any of these sources are recorded in the calendar year the crime was reported. If you have any questions, please visit the Office of Postsecondary Education Campus Security Search (http://ope.ed.gov/security), or contact Auburn University Public Safety & Security at 334-844-8888 or publicsafety@auburn.edu.

CLERY ACT REPORTING DEFINITIONS

The Clery Act specifies the categories of crimes and specific geographic locations that must be included in annual crime statistics. This allows students, parents, and employees to make reasonable comparisons of crime rates at different institutions.

Geographic Locations Included

For purposes of reporting statistics, the University must count criminal offenses according to where they occur. There are four geographic locations for which statistics must be reported. These include:

On-Campus: (1) Any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution's educational purposes, including residence halls; and (2) any building or property that is within or reasonably contiguous to the area identified in paragraph (1), that is owned by the institution but controlled by another person, is frequently used by students, and supports institutional purposes (such as a food or retail vendor).

On-Campus Student Housing Facilities: Any student housing facility that is owned or controlled by the institution, or is located on property that is owned or controlled by the institution, and is within the reasonably contiguous geographic area that makes up the campus is considered an on-campus student housing facility. This includes fraternity houses where the land is owned by the University but the building is owned by the fraternity. Crime statistics for on-campus student housing facilities must be reported as a subset of the on-campus totals (i.e. they are included in both on-campus and on-campus student housing facility categories).

Non-Campus: (1) Any building or property owned or controlled by a student organization that is officially recognized by the institution; or (2) any building or property owned or controlled by an institution that is used in direct support of, or in relation to, the institution's educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the institution.

Public Property: All public property, including thoroughfares, streets, sidewalks, and parking facilities, that is within the campus, or immediately adjacent to and accessible from the campus. This generally includes public streets bordering the campus and the sidewalk on the opposite side of the street.

Definitions of Reportable Crimes

Murder and Non-negligent Manslaughter: The willful (non-negligent) killing of one human being by another.

Negligent Manslaughter: The killing of another person through gross negligence.

Sex Offenses – Forcible: Any sexual act directed against another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent. There are four types of forcible sex offenses: forcible rape, forcible sodomy, sexual assault with an object, and forcible fondling.

Forcible Rape: The carnal knowledge of a person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her temporary or permanent mental or physical incapacity (or because of his/her youth).

Forcible Sodomy: Oral or anal sexual intercourse with another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity.

Sexual Assault With an Object: The use of an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity. An object or instrument is anything used by the offender other than the offender's genitalia. Examples are a finger, bottle, handgun, stick, etc.

Forcible Fondling: The touching of the private body parts of another person for the purpose of sexual gratification, forcibly and/or against that person's will; or, not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental incapacity.

Sex Offenses – Non-forcible: Unlawful, non-forcible sexual intercourse. There are two types of non-forcible sex offenses: incest and statutory rape.

Incest: Non-forcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

Statutory Rape: Non-forcible sexual intercourse with a person who is under the statutory age of consent.

Robbery: The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Aggravated Assault: An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

Burglary: The unlawful entry of a structure to commit a felony or a theft.

Motor Vehicle Theft: The theft or attempted theft of a motor vehicle.

Arson: Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Hate Crime: A criminal offense committed against a person or property which is motivated, in whole or in part, by the offender's bias. Bias is a preformed negative opinion or attitude toward a group of persons based on their race, gender, religion, disability, sexual orientation, or ethnicity/national origin.

2012
ANNUAL FIRE SAFETY REPORT

A document produced by Auburn University
In compliance with the requirements of the
Higher Education Opportunity Act

Auburn University
Risk Management and Safety
316 Leach Science Center
Auburn, Alabama 36849
334.844.4870

MESSAGE FROM THE FIRE & LIFE SAFETY STAFF

On August 14, 2008 the Higher Education Opportunity Act (HEOA) was signed into law. Under HEOA, institutions that maintain on-campus student housing are required to publish an annual fire safety report that discloses campus fire safety practices and standards of the institution to the U.S. Department of Education, the campus community and to the general public. Components of this law are intended to help ensure America's college students, their parents and the public have uniform, valid and easy to understand information regarding an institution's fire safety practices and standards.

We are pleased to provide the 2012 Annual Fire Safety Report. This report meets all HEOA requirements and will provide you with information on the services that were performed to ensure the safety and welfare of our students, faculty, staff, and visitors and minimize the disruption of university operations.

Auburn University's Risk Management and Safety, Fire Safety Program Staff are responsible for performing: fire safety education; code research and consultation; inspection, testing and maintenance of all pre-engineered restaurant fire extinguishment systems, special hazard fire extinguishment systems, water-based fire protection systems, and portable fire extinguishers; records management; fire and life safety plan reviews of new construction and renovation projects; inspection of new construction for fire & life safety requirements and new fire protection systems for code compliance and operational integrity; plus fire and life safety inspections of existing campus buildings; and we serve as a liaison to the City of Auburn Fire Department. Our staff is committed to providing exceptional fire safety services to protect our campus which consists of 25,134 students, 1,176 faculty members and 3,519 full-time staff members. Additionally, there are 427 buildings that house students, athletic events, research, laboratories, classrooms, livestock and administrative offices. These facilities are spread over 1,841 acres of land and have a cumulative property value of $3 billion.

To accomplish these services, the Fire Safety Staff maintains collaborative working relationships with other University departments and outside agencies to include: Faculty, Staff, Students, Facilities Division, Housing and Residential Life, Office of Greek Life, Athletics, University Public Safety and Security, the City of Auburn Public Safety Department (Fire Division, Inspections and Codes Enforcement Division, and the Police Division), State Fire Marshal's Office, State Building Commission, Contracted Architects, Engineers, Construction Project Managers, and Building/Fire Protection Contractors. This collaboration ensures maximum efficiency, fiscal responsibility and success in these areas of responsibility. We will continue to work diligently to meet the challenges and goal of providing a fire safe campus. We encourage you to partner with us in keeping Auburn University Fire Safe.

According to The Center for Campus Fire Safety from January 2000 to present, 83 fatal fires have been documented that occurred on a college campus, in Greek housing or in off-campus housing within 3-miles of campus, claiming a total of 120 victims.

I'm pleased to report there were no fire fatalities, no fire related injuries, and no loss of revenue on the campus of Auburn University during 2012. If you have any questions about campus fire safety or this report, please don't hesitate to contact us at 334.844.4870.

Fire & Life Safety Staff:
Jon Haney, Patricia Davis, MaryAnn MacKenzie

MISSION STATEMENT

To ensure the safety and welfare of University students, faculty, staff and visitors, protect the University's infrastructure, and minimize disruption of academic programs through fire prevention and life safety code efforts.

PROGRAM STAFF

MaryAnn MacKenzie, Fire & Life Safety Specialist
Jon Haney, Fire & Life Safety Specialist
Patricia Davis, Fire & Life Safety Technician

DESCRIPTION OF ON-CAMPUS HOUSING AND FIRE SAFETY SYSTEMS

HILL DORMS

The Hill consists of twelve dormitory buildings with a total occupant capacity of 1,482. There are 716 double occupancy rooms and 50 single occupancy rooms.

Hollifield Residence Hall (Dorm A), 285 West Samford Avenue

Built in 1962 and renovated in 1988, Dorm A is a three-story building with a basement. The building contains 29,680 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Duncan Residence Hall (Dorm B), 295 West Samford Avenue

Built in 1962 and renovated in 1988, Dorm B is a three-story building with a basement. The building contains 27,744 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Toomer Residence Hall (Dorm C), 437 Duncan Drive

Built in 1962 and renovated in 1988, Dorm C is a three-story building with a basement. The building contains 29,656 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Dobbs Residence Hall (Dorm D), 345 West Samford Avenue
Built in 1965 and renovated in 1988, Dorm D is a three-story building with a basement. The building contains 27,676 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Dunn Residence Hall (Dorm E), 435 Duncan Drive
Built in 1965 and renovated in 1989, Dorm E is a three-story building with a basement. The building contains 27,676 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Graves Residence Hall (Dorm F), 439 Duncan Drive
Built in 1965 and renovated in 1989, Dorm F is a three-story building with a basement. The building contains 27,687 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Dowell Residence Hall (Dorm G), 320 PO Davis Drive
Built in 1965 and renovated in 1989, Dorm G is a three-story building with a basement. The building contains 31,445 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.

- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Knapp Residence Hall (Dorm H), 302 PO Davis Drive

Built in 1966 and renovated in 1989, Dorm H is a three-story building with a basement. The building contains 31,434 square feet and can house 107 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a zoned fire alarm system.
- The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Boyd Residence Hall (Dorm J), 280 PO Davis Drive

Built in 1967 and renovated in 1990, Dorm J is a six-story building with a basement. The building contains 59,917 square feet and can house 212 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 2-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.
- An emergency generator is provided and supplies back-up power for all fire and life safety systems (i.e. fire pump, fire alarm system, emergency lights/exit signs).

Sasnett Residence Hall (Dorm K), 350 PO Davis Drive

Built in 1967 and renovated in 1990, Dorm K is a six-story building with a basement. The building contains 60,898 square feet and can house 212 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 2-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.

- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.
- An emergency generator is provided and supplies back-up power for all fire and life safety systems (i.e. fire pump, fire alarm system, emergency lights/exit signs).

Leischuck Residence Hall (Dorm L), 501 Duncan Drive

Built in 1994, Dorm L is a four-story building. The building contains 31,156 square feet and can house 101 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with zoned smoke detectors that are monitored by a zoned fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Residence Hall M (Dorm M), 282 PO Davis Drive

Built in 1994, Dorm M is a four-story building. The building contains 31,156 square feet and can house 101 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with zoned smoke detectors that are monitored by a zoned fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

QUAD DORMS

The Quad consists of ten dormitory buildings with a total occupant capacity of 967. There are 463 double occupancy rooms and 41 single occupancy rooms.

Harper Residence Hall (Dorm 1), 226 Mell Street

Built in 1938 and renovated in 1994, Dorm 1 is a three-story building with a basement. The building contains 20,868 square feet and can house 78 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Broun Residence Hall (Dorm 2), 246 Mell Street

Built in 1938 and renovated in 1994, Dorm 2 is a three-story building with a basement. The building contains 23,316 square feet and can house 101 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Little Residence Hall (Dorm 3), 304 Quad Drive

Built in 1938 and renovated in 1996, Dorm 3 is a three-story building with a basement. The building contains 26,734 square feet and can house 90 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored in a central location 24/7.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Teague Residence Hall (Dorm 4), 302 Quad Drive

Built in 1938 and renovated in 1996, Dorm 4 is a three-story building with a basement. The building contains 23,370 square feet and can house 90 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored in a central location 24/7.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Dowdell Residence Hall (Dorm 5), 266 Mell Street

Built in 1957 and renovated in 1999, Dorm 5 is a three-story building with a basement. The building contains 23,576 square feet and can house 104 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.

- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Glenn Residence Hall (Dorm 6), 262 Roosevelt Drive

Built in 1957 and renovated in 1999, Dorm 6 is a three-story building with a basement. The building contains 23,552 square feet and can house 104 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Lane Residence Hall (Dorm 7), 301 Quad Drive

Built in 1957 and renovated in 1997, Dorm 7 is a three-story building with a basement. The building contains 21,868 square feet and can house 104 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Lupton Residence Hall (Dorm 8), 300 Roosevelt Drive

Built in 1957 and renovated in 1997, Dorm 8 is a three-story building with a basement. The building contains 21,868 square feet and can house 88 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.

- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Keller Residence Hall (Dorm 9), 329 Quad Drive
Built in 1957 and renovated in 1998, Dorm 9 is a three-story building with a basement. The building contains 21,868 square feet and can house 104 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Owen Residence Hall (Dorm 10), 330 Roosevelt Drive
Built in 1957 and renovated in 1998, Dorm 10 is a three-story building with a basement. The building contains 23,085 square feet and can house 104 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

All exit corridors and stairwells have a minimum of 1-hour fire rating.

- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms and common areas are equipped with addressable smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler and standpipe system is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

THE VILLAGE DORMS
The Village consists of eight dormitory buildings with a total occupant capacity of 1,666. Buildings share a fire pump.

Magnolia Residence Hall, 201-E Wire Road
Built in 2009, Magnolia Hall is a four-story building with two, three and four bedroom suites. The building contains 105,322 square feet, and can house 233 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors, stairwells and assembly areas.
- All suites are equipped with addressable smoke detectors in each bedroom and the common living areas within each suit. All smoke detection devices are monitored by the building fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Oak Residence Hall, 201-F Wire Road

Built in 2009, Oak Hall is a four-story building with two, three and four bedroom suites. The building contains 108,104 square feet and can house 246 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors, stairwells and assembly areas.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Willow Residence Hall, 201-D Wire Road

Built in 2009, Willow Hall is a four-story building with two, three and four bedroom suites. The building contains 108,104 square feet and can house 246 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Aubie Residence Hall, 201-H Wire Road

Built in 2009, Aubie Hall is a four-story building with two, three and four bedroom suites. The building contains 107,755 square feet and can house 309 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire Evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Eagle Residence Hall, 201-G Wire Road

Built in 2009, Eagle Hall is a four-story building with two, three and four bedroom suites. The building contains 58,108 square feet and can house 153 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.

- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Tiger Residence Hall, 201-C Wire Road

Built in 2009, Tiger Hall is a four-story building with two, three and four bedroom suites. The building contains 58,108 square feet and can house 153 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Talon Residence Hall, 201-A Wire Road

Built in 2009, Tiger Hall is a four-story building with two, three and four bedroom suites. The building contains 60,439 square feet and can house 163 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

Plainsman Residence Hall, 201-B Wire Road

Built in 2009, Plainsman Hall is a four-story building with two, three and four bedroom suites. The building contains 60,439 square feet and can house 163 students. The structural members including floors, ceilings and walls are wood frame with brick veneer.

- All exit corridors and stairwells have a minimum of 1-hour fire rating.
- All bedrooms are equipped with electrical hardwired smoke alarms and the common areas are equipped with smoke detectors that are monitored by a fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- An automatic sprinkler system, standpipe system and fire pump is provided.
- Portable fire extinguishers are provided in all exit corridors.
- Fire evacuation maps are posted inside each bedroom, at elevator lobbies and stairwell entrances.

CAROLINE DRAUGHON VILLAGE APARTMENTS

Caroline Draughon Village (CDV) consists of six three- story residential apartment buildings. The six buildings total 120,468 square feet and can house up to 552 students. The structural members including floors, ceilings and walls are concrete with brick veneer.

CDV Apartment Building A, 731 Extension Drive

Built in 1980, CDV Apartment Building A is a three- story building with 17,765 square feet consisting of 21 apartment units. Each unit has two bedrooms and can sleep four students. The building is a concrete building with brick veneer.

- Each unit opens onto an exterior corridor.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit balconies as well as in each apartment.
- Fire evacuation maps are posted inside each bedroom.

CDV Apartment Building B, 721 Extension Drive

Built in 1980, CDV Apartment Building B is a three- story building with 21,533 square feet consisting of 24 apartment units. Each unit has two bedrooms and can sleep four students. The building is a concrete building with brick veneer.

- Each unit opens onto an exterior corridor.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit balconies as well as in each apartment.
- Fire evacuation maps are posted inside each bedroom.

CDV Apartment Building C, 280 Wire Road

Built in 1980, CDV Apartment Building C is a three- story building with 20,334 square feet consisting of 24 apartment units. Each unit has two bedrooms and can sleep four students. The building is a concrete building with brick veneer.

- Each unit opens onto an exterior corridor.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit balconies as well as in each apartment.
- Fire evacuation maps are posted inside each bedroom.

CDV Apartment Building D, 290 Wire Road

Built in 1980, CDV Apartment Building D is a three- story building with 21,533 square feet consisting of 24 apartment units. Each unit has two bedrooms and can sleep four students. The building is a concrete building with brick veneer.

- Each unit opens onto an exterior corridor.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.

- All bedrooms are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit balconies as well as in each apartment.
- Fire evacuation maps are posted inside each bedroom.

CDV Apartment Building E, 751 Extension Drive

Built in 1980, CDV Apartment Building E is a three- story building with 20,339 square feet consisting of 24 apartment units. Each unit has two bedrooms and can sleep four students. The building is a concrete building with brick veneer.

- Each unit opens onto an exterior corridor.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit balconies as well as in each apartment.
- Fire evacuation maps are posted inside each bedroom.

CDV Apartment Building F, 741 Extension Drive

Built in 1980, CDV Apartment Building F is a three-story building with 18,959 square feet consisting of 21 apartment units. Each unit has two bedrooms and can sleep four students. The building is a concrete building with brick veneer.

- Built in 1979, CDV Apartment Building F is a two- story building consisting of 24 apartment units. Each unit has two bedrooms a can sleep four students. The building is a concrete building with a brick veneer finish. Each unit opens onto an exterior corridor.
- Exits are marked with illuminated exit signs and emergency lighting is provided in corridors and stairwells.
- All bedrooms are equipped with addressable smoke detectors that are monitored by an addressable fire alarm system. The fire alarm system is monitored 24/7 in a central location.
- Portable fire extinguishers are provided in all exit balconies as well as in each apartment.
- Fire evacuation maps are posted inside each bedroom.

TABLE OF AUBURN UNIVERSITY ON-CAMPUS HOUSING FIRE SAFETY SYSTEMS

Building	Fire Alarm system	Dry Sprinkler	Wet Sprinkler	Fire Pump	Wet Standpipe	Smoke Detection	Fire Extinguishers	Range-Hood Fire Systems	Number of Fire Drills

DESCRIPTION OF ON-CAMPUS FRATERNITY HOUSES

Note: Auburn University leases the land to the Fraternity House Corporations and the House Corporations are responsible for managing the properties identified in the table below. Fraternities are required to comply with the University's Fire Safety Program which requires a minimum of two fire and life safety inspections by a City of Auburn Fire Inspector and a minimum of two fire drills per year.

Item #	Building	Approximate Date Built	Number of Stories	Exit Signage	Smoke Alarms in Bedrooms	Monitored Fire Alarm System	Fire Extinguishers	Range Hood Fire Systems	Sprinkler System	Fire Evacuation Maps	Fire Drills
1	Alpha Gamma Rho 831 Lem Morrison Drive	1986	3	X	X	X	X	X	X	X	2
2	Alpha Psi 941 Lem Morrison	2012	1	X	X	X	X	X	X	X	2

17	Theta Xi 835 West Magnolia Avenue	1963	2	X	X	X	X	X	X	X	2

FIRE DRILLS

Each on campus dormitory building and fraternity residences has two mandatory fire evacuation drills annually conducted and evaluated by the City of Auburn Fire Division. Fire drills are required by Alabama law and all residents are required to participate if present. Evacuation is required in all instances. No residents may remain in the building during the fire drill. Residents must remain outside until cleared to return. Procedures for evacuation are explained at the first residence hall meeting which is held within the first few weeks of school.

STUDENT HOUSING POLICIES ON PORTABLE ELECTRICAL APPLIANCES, SMOKING AND OPEN FLAMES

Appliances

1.1.1 Extension Cords: The use of extension cords in the residence halls is prohibited.

1.1.2 Hill/Quad Residence Halls: Appliances that are prohibited include, but are not limited to: air-conditioning units, ceiling fans, halogen lamps, microwaves exceeding 700 watts, refrigerators exceeding 4.3 cubic feet, crock pots, dishwashers, hot plates, toaster ovens, toasters, washers and dryers, space heaters, appliances with open or exposed heating coils, and those which pose an electrical overload hazard.

1.1.3 Village Residence Halls: Appliances that are prohibited include, but are not limited to: air-conditioning units, ceiling fans, halogen lamps, personal microwaves exceeding 700 watts, personal refrigerators exceeding 4.3 cubic feet, dishwashers, hot plates, washers and dryers, space heaters, appliances with open or exposed heating coils, and those which pose an electrical overload hazard.

Holiday Decorations

1.4.7 The use of natural cut trees, branches, or greens is prohibited. Failure to disconnect all electrified decorations prior to leaving for semester break is prohibited.

Fire Safety

1.6.1 Arson: Intentionally causing damage to a building by starting or maintaining a fire or explosion is prohibited.

1.6.2 Candles/Incense: The burning of candles and/or incense is prohibited. Candles with burnt wicks are prohibited.

1.6.3 Evacuation Procedures: Interference with or non-adherence to emergency evacuation procedures in the residence halls during a fire drill are prohibited. Returning to the residence halls before the "all-clear" signal has been given after a fire drill is prohibited.

1.6.4 Fireworks/Explosive Materials: The storage, possession, or use of any type of fireworks, firecracker, or explosive material in the residence halls or surrounding vicinity is prohibited.

1.6.5 Flammable Materials/Liquids

The storage, possession, or use of flammable materials/liquids in the residence halls is prohibited. Gas grills and gas cylinders/tanks are prohibited.

1.6.6 Vandalism of Safety Equipment:

Removal, tampering with, and/or the disabling of pull stations, smoke or heat detectors, fire extinguishers, sprinkler heads or other life safety equipment is prohibited.

1.6.7 False Fire Alarms:

Pulling a fire alarm station without due cause and /or falsely reporting a fire emergency to police or fire department is prohibited.

Smoking

3.5 Smoking is prohibited in or within 25 feet of the residence halls. Smokers must properly dispose of cigarette butts. Hookahs are prohibited in the residence halls and/or surrounding area. Littering residential areas with remains of tobacco products is prohibited.

Cooking

There are common kitchens located in all residence halls. Do not leave cooking food unattended. Do not cook food (such as popcorn) too long in the microwave as it will burn, smoke, and set off alarms. The Fire Department is summoned automatically when the smoke alarms go off. Village residents: do not use the popcorn button on your microwave. ***If your negligence causes the Fire Department to respond, you will be charged $150. If there are damages, you will be charged the cost of cleanup/restoration.***

Electrical Outlet Use

Overloading electrical outlets poses a serious fire hazard. You are asked to keep plugged in only those appliances that require constant use (refrigerator, clock, etc.) and to alternate other appliances as needed. If a circuit breaker is tripped, contact the Housing Property Management Office. Extension cords are not allowed; please use surge protector strips with circuit breakers.

Fire Safety

If you discover a fire, pull the nearest fire alarm and call the Fire Department immediately by dialing 911. Fire drills are required by Alabama law and all residents are required to participate if present. Any time an alarm sounds, please exit the building immediately and do not re-enter the building (even if the alarm silences) until told to do so by the Auburn Fire Department or a member of the Residence Life Staff. Procedures for evacuation are explained at the required Community Meeting at the beginning of the academic year.

FIRE EVACUATION PROCEDURES FOR ALL CAMPUS BUILDINGS INCLUDING CAMPUS HOUSING

- *In the event of a fire or fire alarm:*
- Exit The Area Immediately
- Close all doors as you leave, taking keys and medications with you if possible. DO NOT delay evacuation to retrieve these items.
- Activate the closest fire alarm pull station along your evacuation route.
- Notify others around you as you leave.
- **Call 911** and report the emergency after you are out of the building and safe.

If the fire is small enough, you may attempt to extinguish it with a portable fire extinguisher, ONLY IF: The fire alarm pull station has been activated; 911 have been notified; you are properly trained and the fire is trash can size or similar.

- If leaving a room, feel the door with the back of your hand before opening it. Do not open any door that feels hot.
- If smoke is present, stay low. The best quality air is near the floor.
- Always use the stairs to exit upper floors.
- DO NOT use the elevator.
- Once the building is evacuated, do not re-enter it for any reason. Return to the building ONLY when instructed to do so by emergency responders or administrators.
- DO NOT return for personal belongings.
- Direct and assist visitors and persons with disabilities who appear to need direction or assistance.
- Notify Risk Management & Safety/Fire Safety at 334.844.4870 that a fire has occurred AFTER you exit the building.

If You Are Trapped and Cannot Evacuate

- Close any doors between you and the fire.
- If available, wedge wet towels or cloth materials along the bottom of the door to keep out smoke.
- Call 911 and notify the dispatcher of your location.
- Remain on the phone with the 911 dispatcher as long as possible.
- Break a window only as a last resort, such as needing oxygen to breathe.
- Use caution when breaking any window.

Response to Fire Alarms

- NEVER assume that a fire alarm is a false alarm.
- If the alarm sounds and/or emergency strobes begin to blink, evacuate immediately.

FIRE SAFETY EDUCATION AND TRAINING PROGRAMS FOR STUDENTS, FACULTY AND STAFF

Housing and Residence Life provides a Life Safety Class and Portable Fire Extinguisher training annually for all Hall Directors, Resident Assistants, and Area Coordinators. General Fire Safety training is also provided to Sorority Officers and Members housed in the Village Dorms.

RMS – Fire Safety provides the following education/training to all other faculty, staff and students:

- Fraternity Fire Safety Education is mandatory for fraternity chapter fire marshals and chapter presidents. This class is held at the beginning of Fall and Spring Semesters.
- Portable Fire Extinguisher Training (upon request)
- Fire Protection Systems (upon request)

TITLES OF PERSONS/ORGANIZATION FOR STUDENTS AND EMPLOYEES TO REPORT THAT A FIRE OCCURRED

In event of a fire emergency, report the fire by dialing 911.

After the emergency, please contact MaryAnn MacKenzie or Jon Haney. Fire Safety is responsible for investigating and tracking all university fires and recording them on a fire log. This information allows us to take proactive measures to reduce future occurrences.

Contact information is as follows:
MaryAnn MacKenzie, Fire & Life Safety Specialist, mzm0036@auburn.edu 334.703.7173
Jon Haney, Fire & Life Safety Specialist, haneyjd@auburn.edu 334.740.8727
Patricia Davis, Fire & Life Safety Technician, davispp@auburn.edu 334.750.9981
Risk Management and Safety Main Office: 334.844.4870

Fire Log can be viewed on the https://cws.auburn.edu/rms/fireSafety.aspx

PLANS FOR FUTURE IMPROVEMENTS IN FIRE SAFETY

We will continue to work collaboratively with the University's Facilities Division, Housing and Residential Life, Athletics, and other administrative offices to ensure plans for future renovations or new construction projects include the required fire protection systems and fire-rated building components. We will assume all inspection, testing, and maintenance responsibilities for new water-based fire protection systems, pre-engineered restaurant fire extinguishment systems, special hazard fire extinguishment systems and portable fire extinguishers upon completion of building projects to ensure these systems are maintained in accordance with State Fire Codes and to ensure the operational integrity of each system.

OTHER CAMPUS FIRE SAFETY PROTECTION SYSTEMS AND ACTIVITES

The focus of this report has been to disclose fire safety standards and practices that have been instrumental in protecting our students residing in on-campus student housing facilities. The following pages identify other campus facility fire extinguishment systems and the services provided by the Fire Safety Staff that resulted in a fire safe campus in 2012.

INVENTORY OF AUBURN UNIVERSITY ON-CAMPUS FIRE PROTECTION SYSTEMS

Item #	Building	Dry Sprinkler System	Wet Sprinkler system	Pre-action Sprinkler	Fire Pump	Wet Standpipe System	Dry Standpipe System	Range Hood System	Halon 1301 System	FM-200 System	Dry Chemical System	Total Systems
