

# Basic Requirements of the Auburn Abroad Program

1. You can study abroad anytime after freshman year, as long as you are 19 by the start date of your program and meet GPA requirements (see #3 below).
2. Complete all paperwork for your program and for Auburn (see link to forms below) and check to be sure that you have no holds on your account that would prevent us from enrolling you in Auburn Abroad.
3. Your GPA must be 2.25 or higher to study abroad on Auburn based programs – check with program directors or check websites (other programs will have higher GPA requirements – check with the institution or university). Most programs offered today have GPA requirements of 2.5 or higher – check the academic requirements early before making any decisions.

**Two liters of decaf coffee every morning for the pet hippo – what a way to start the day! Photo by Nathan McCollum (South Africa, summer 2004).**
