Subject: Addition of a non-voting member to the University Curriculum Committee

During the 2013-2014 academic year, Bob Buchanan has served as an *ad hoc* member of the University Curriculum Committee, representing the interests of the Auburn University Libraries. It has been very useful to have his perspective, especially when new programs are proposed which have implications for the libraries' research holdings and potential budgetary expenditures.

Consequently, the UCC recommends that the Senate approve making a representative of the Auburn University Libraries a permanent non-voting member of the Committee. It further recommends that the Dean of the Libraries be charged with assigning this responsibility to a member of the library staff on a rotating three-year term.
