Pilot University aircraft to provide transportation for official University business.

**Essential Functions**

1. Serves as Pilot-in-Command of jet aircraft and responsible for passenger safety, comfort, and efficient operation of University aircraft ensuring compliance with all federal, state, local and university regulations, as well as policies and procedures specified in the ATD Flight Operations Manual.

2. Preflights aircraft and plans flight in accordance with Federal directives.

3. Reviews current policies governing the safe operation of University aircraft and suggests alternate policies to enhance safety.

4. Performs weekly inspection to assess airworthiness of aircraft, cleans all portions of the aircraft interior and exterior as needed and restocks all consumable items in aircraft.

5. Reviews industry and Federal guidelines for issues that impact University's aircraft operations and prepares records and maintains records required for compliance.

6. Ensures all charts and approach procedure information is current and available for that flight.

**Supervisory Responsibility**

Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
