Auburn University Job Description

Job Title: Research Integrity Officer
Job Code: HC66
FLSA status: Exempt

Job Summary
Primary responsibility for daily oversight of the Auburn University Research Integrity Programs: Financial Conflict of Interest (FCOI) Program, Ethical Conduct of Research (RCR) Program, and The Research Misconduct process to ensure university compliance with federal law, regulation, and institutional policy.

Essential Functions
1. Responsible for appropriate and timely review of all disclosures of significant financial interests (SFIs) and subsequent determination of the existence of a Finance Conflict of Interest (FCOI).
2. Advises faculty, staff, administration, and students on federal regulations, sponsor terms and conditions, and university policies and procedures associated with research integrity.
3. Provides daily oversight for research integrity programs administrated by the Office of Research Compliance including program management, recommendations regarding university policies and procedures related to research integrity and staff supervision.
4. Develops and makes available a research integrity training and educational program including formal trainings, presentations, tools, guides, and other resources to meet regulatory requirements and university needs.
5. Develops, implements, and monitors conflict of interest management plans to properly manage, reduce, or eliminate FCOIs.
6. Responsible for oversight and coordination with the Office of Sponsored Programs related to responsible conduct of research training and records maintenance for all personnel working on specific sponsored projects.
7. Responsible for drafting or generating reports as needed to address internal needs and fulfill federal, sponsor, or other external reporting requirements.
8. Responsible for managing and determining processes of scientific misconduct allegations in accordance with federal regulations and university requirements.
9. Manages relationships with online service providers and maintenance of electronic systems used by the Research Integrity Program.

Supervisory Responsibility
May supervise employees but supervision is not the main focus of the job.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
