Auburn University Job Description

Job Title: Mgr, CPS-Perf Research & Development
Job Code: HC76
FLSA status: Exempt

Job Summary
Manages and supervises the daily operations of Canine Performance Services (CPS) research and breeding programs. Assists the Directors in daily administration, operations, and management of the CPS program to ensure the program operates in an efficient manner while adhering to regulatory requirements.

Essential Functions

1. Develops and manages specifications and plans in specific areas of CPS research and production programs. Communicates and collaborates with employees, department heads, upper administration, other institutions, businesses, and consultants to conduct advanced research.
2. Oversees records, maintains data related to CPS research activities, and disseminates data to appropriate people. Performs research data analysis and report writing.
3. Oversees, develops and maintains institutional protocol requirements for research and production programs. Ensures programs comply with University, state, and federal regulations. Provides technical consultation, administrative and facilities coordination, and assistance for CPS research programs and facilities.
4. Maintains financial resources of research programs to include budget and financial reports. Ensures budget controls, assessments, projections, expenditures, and modifications are maintained and accurate.
5. Coordinates with CVM communications and marketing personnel regarding promotion of CPS activities, including contact with media, social media, and various presentations and promotional activities. Coordinates with CVM development team regarding presentations and promotional activities.
6. Directs and coordinates assigned labor force involved in CPS research and production programs to include training, developing work schedules, and completing personnel forms. Oversees and develops SOPs for safety training.
7. Forecasts resource requirements and oversees the receipt, storage, and care of material and equipment to complete CPS research and production areas.
8. Supervises the maintenance and repair of physical facilities and equipment associated within specific CPS research and production areas.

Supervisory Responsibility
Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
