Auburn University Job Description

Job Title: Tech, Anesthesia

Assists in the administration and monitoring of anesthesia and a variety of tasks in the care, observation, and treatment of animals in a specialized clinical service area.

Essential Functions

1. Performs administration and monitoring of anesthesia and anesthetic recovery on animal patients.
2. Assists clinicians with examinations, treatments, surgery preparations, restraint, emergency care, critical care, and sample collection in animals.
3. Inspects animal facilities, housing, and equipment as well as performs routine maintenance and repairs while communicating the need for more extensive repairs and maintenance to the appropriate personnel.
4. Assists with the orientation, supervision, and instruction of students in anesthesia, safety, animal care, restraint, collection of lab samples, feeding, husbandry, and transportation.
5. Assists in the collection of research data, tissue and lab samples, and performs lab evaluations.
6. Serves as liaison between surgeon, anesthesia, and central supply personnel.

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
