Auburn University Job Description

Job Title: Coord, Cad Op-GPS Data Level I
Job Code: JB01 Level II
FLSA status: Non-exempt Level III

Job Summary

Updates and maintains multiple map types and maps of all utilities covering the university campus and rural property while managing survey data and coordinating temporary structure construction.

Essential Functions

1. Creates, updates, and maintains utility maps covering university grounds.
2. Collect, update, and maintain all area photo types of the main campus and additional university property, and maintains field measurements and surveys in database of maps.
3. Creates, updates, and maintains specific purpose maps for various university departments.
4. Manage all survey grade GPS data collected (horizontal and vertical locations) within civil/surveying programs.
5. Coordinates with university officials and groups who wish to install/build temporary buildings or shelters on campus, ensuring all utility locations are highlighted so objects are not driven into any buried lines and that they are within permitted areas.
6. Provides engineers, surveyors, and contractors with maps and survey control points.
7. Collects construction plans and as-builts from project managers or plan vault when required.

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
