Auburn University Job Description

Job Title: IT Project Manager
Job Code: MA20
FLSA status: Exempt

Job Summary
Under general supervision, coordinates, plans, supports, and executes routine to somewhat complex IT projects across the campus, while promoting the understanding of Project Management principles across the IT organization.

Essential Functions
1. Responsible for assembling project team, assigning individual responsibilities, identifying appropriate resources needed, and developing schedules to ensure timely completion of project.
2. Develops detailed work plan and schedules, provides projected cost and personnel estimates, and status reports; ensures adherence to quality standards, reviewing project deliverables, and project tracking and analysis.
3. Manages the integration of vendor tasks; tracks and reviews deliverables related to projects.
4. Defines project scope, objectives and success indicators and manages projects from original concept through final implementation.
5. Develops policies and mandates to support the project and manage risks based on understanding of organizational strategy and goals.
6. Provides guidance to project team and recommends/takes action to direct the analysis and solutions of any problems.

Supervisory Responsibility
May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
