Auburn University Job Description

Job Title: Cybersecurity Analyst-Central
Job Code: MA39
FLSA status: Exempt

Job Summary
Under general direction and supervision, utilizes information gathering, analytics aptitude, and problem solving skills to minimize and/or neutralize information and cybersecurity risks within the University network. Monitors the environment and security tools for signs of trouble. Serves as the first point of contact when a high-risk alert is issued or a suspected attack begins to affect business operations. (Employee must work in central IT unit. Exceptions require CIO prior approval.)

Essential Functions
1. Assists in enforcing and auditing information security policies and procedures such as access, breach escalation, use of firewalls, and encryption routines.
2. Assists in updating, maintaining, and documenting security controls. Provides direction and support to clients and internal IT groups for information security-related issues.
3. Performs administration duties of varied server technologies, enterprise systems and peripheral devices, network and security devices, and all desktop computer systems and peripherals within the last five years on market.
4. Assists in performing high-level analysis of complex and disparate computing systems, networks, and data architectures to identify, rectify, and prevent technical and information security vulnerabilities.
5. Performs work on critical automated processes, computer systems, networks, databases, information systems, telecommunication systems, and computer policies, procedures, and practices.
6. Demonstrates high-level technical skills in the areas of information security, networking and computer systems, and excellent capacity for grasping relevant details and complex systems analysis.
7. Performs other related duties as assigned by the supervisor.

Supervisory Responsibility
May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
