Auburn University Job Description

Job Title: Mgr, Info System Security
Job Code: MA63
FLSA status: Exempt

Essential Functions

1. Develops, maintains, coordinates, and communicates policies, procedures, and practices governing the usage, maintenance, and security of classified and controlled unclassified information (CUI) Information Systems within the university. Partners with government agencies to obtain rulings, interpretations and acceptable deviations for compliance with regulations.

2. Prepares and maintains System Security Plans which accurately reflect the installation and security provisions of the classified systems in order to receive government approval to operate.

3. Develops, maintains, and updates Plan of Action and Milestones in order to identify information system weakness, mitigating actions, resources, and timelines for corrective actions.

4. Implements an effective information system security education, training, and awareness program to ensure compliance with government regulations.

5. Performs technical security control assessments and baseline validations to identify vulnerabilities and correct deficiencies as part of a continuous monitoring program.

6. Ensures audit records are collected and analyzed in accordance with the System Security Plans.

7. Performs other related duties as assigned.

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
