Auburn University Job Description

Job Title: Dir, Landscape Services
Job Code: NC29
FLSA status: Exempt

Job Summary
Reporting to the Facility Operations Executive Director, responsible for the administrative leadership of Landscape Services. Serves as the chief horticulturist for the University and is responsible for the planning, care, and maintenance of all plant materials in the University landscape.

Essential Functions

1. Directs all operations of Landscape Services to include horticultural and arborist operations, turf/tree/shrub maintenance, landscape design, insect/disease/weed control, hardscapes, and all related operations. Oversees the design, installation, and maintenance of irrigation systems and landscape planning.

2. Provides directive leadership for the efficient staffing and work execution of managers, supervisors, arborists, groundskeepers, landscape techs, equipment operators, greenhouse staff, and other employees. Directs safety and training initiatives by identifying needs and overseeing safety practices and training requirements.

3. Oversees and develops a quality control program to improve processes and ensure high standards of work. Directs facility inspections and metric analysis related to short-term and long-range campus ground needs.

5. Participates in the design development and review of landscape-related components in capital projects and renovation projects. Works with the Office of the University Architect to coordinate and implement annual landscape and tree planting projects in compliance with campus policies, procedures, and the Landscape Master Plan.

6. Designs policies and procedures to increase the effectiveness of Landscape Services operations and addresses the needs of the campus community. Oversees landscape issues within the University and ensures that all governmental, University, and departmental safety programs and standards are followed and adhered to.

7. Directs the landscape services for game day operations, commencement ceremonies, various campus events, and joint events with the city by overseeing coordination efforts, litter control, and any other special preparations of outdoor spaces.

8. Plans, directs, and coordinates an integrated pest management program. Directs personnel responsible for the application of fertilizers, insecticides, herbicides, fungicides, and the implementation of cultural and physical practices to reduce the impact of plant pests. Stays current in trends and technological advances in the storage and usage of these materials.

9. Develops and reviews policies and funds related to tree mitigation. Oversees arboriculture practices, assessments, and plans in order to reduce risks and ensure safety regarding University trees.

10. Initiates and oversees assigned landscape-related contracts. Determines scope of contract work and assists with writing, developing, and negotiating contracts.

11. Occasionally required to work outside of normal operating hours and days to manage special events, emergencies, and inclement weather. May perform other related duties as assigned by the Executive Director of Facility Operations.

Job Family: No Family
Grade 38: $78,900 - $131,600
Occasionally required to work outside of normal operating hours and days to manage special events, emergencies, and inclement weather. May perform other related duties as assigned by the Executive Director of Facility Operations.
Supervisory Responsibility
Supervises others with full supervisory responsibility.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
