Auburn University Job Description

Job Title: Dir, Design Services
Job Code: NC72
FLSA status: Exempt

Job Summary
Directs, manages and oversees the architectural and engineering designs of Auburn University projects to include the repair, renovation, and/or new construction of facilities.

Essential Functions

1. Establishes and administers programs, policies, procedures and processes to ensure the safe and timely execution of all work performed by Design Services Division personnel.
2. Directs, manages and leads in the design and engineering of projects ensuring that in-house and consultant engineers produce designs that meet requirements and specifications.
3. Responsible for the program management of all assigned design and engineering projects to ensure their successful completion.
4. Develops and directs procedures for providing technical oversight and management on all projects and designs.
5. Develops effective and efficient request for proposal procedures for project design to include, but not limited to, prequalification and contract award policies and processes.
6. Manages the annual operation budget development process for the division and oversees cost accounting and fund expenditures, provides cost estimates on design and engineering expenditures and requirements, major projects, and prepares and provides input in the Facilities Division budget for each fiscal year.

Supervisory Responsibility
Supervises others with full supervisory responsibility.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
