Auburn University Job Description

Job Title: Asst Dir, Utilities & Energy
Job Code: NC83
FLSA status: Exempt

Job Summary
Assists in the direction and management of the daily operations of the University's Utilities and Energy operations.

Essential Functions
1. Assists in the management and oversight of the University's Energy Management program to include development of energy strategies, goals, milestones, and status tracking processes.
2. Provides leadership and oversight to the Electrical Distribution, Utility Services, Energy Engineering, and Energy Records areas of the Utilities and Energy department.
3. Oversees the preventative maintenance program of the Utilities and Energy department to include the planning and execution of all work, development and implementation of program improvements, and project reporting.
4. Assists in managing all deferred maintenance and major alterations and repair projects through the entire project process; ensures all projects are meeting established milestones to completion.
5. Assists in conducting facilities and equipment assessments and creates and maintains lists of all those with deficiencies, prioritized by severity, criticality, cost, and impact on operations.

Supervisory Responsibility
Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
