Senior Director of Development  
Samuel Ginn College of Engineering  
Auburn University  
Auburn, AL  
http://www.auburn.edu

Founded in 1856, Auburn University today is one of the few universities designated as a land-, sea-, and space-grant university. Enrollment reached an all-time high of 27,287 in fall 2015 as a result of its continued ranking as a top-50 public university; nationally recognized academic programs; innovative research and outreach programs which are solving real-world problems and addressing societal issues; accomplished alumni whose career success reflects positively on their alma mater; and a family atmosphere in which a stranger becomes a friend through a simple exchange of “War Eagle.”

The vision of the Samuel Ginn College of Engineering is to become one of the nation’s premier engineering institutions. Auburn Engineering is committed to educating engineers who can solve the world’s greatest challenges. This commitment includes a passion for elevating the college to the next level of academic and research performance, and making discoveries which impact the quality of life for people everywhere. To this end, it provides world-class undergraduate and graduate programs at the frontier of engineering education, with a focus on being the best student-centered engineering experience in America. It trains students to serve as exemplary leaders in technological development and engineering practice that anticipates and meets the needs of tomorrow’s world. Ranked No. 62 by U. S. News & World Report’s Best Engineering Schools (31st among public institutions), Auburn Engineering expands scientific and engineering knowledge through innovative research and creative partnerships involving academia, industry and government.

This is an ideal opportunity for an individual with strong development and leadership experience to manage a high functioning team of fundraisers, to bring the largest campaign in the college’s history to a record-breaking close, and to collaborate with staff, faculty, and volunteers to continue the growth and momentum currently occurring – all while working closely with a visionary dean who is comfortable with and savvy about fundraising. This position is unique in that candidates will join a strong Development team in the midst of a $1 billion university-wide campaign while serving in the leadership role for an Engineering school that is creating success
in fundraising, research, admissions, and several other key markers. Ideal candidates will have experience working with engineers and/or have knowledge of the engineering industry.

Auburn University is an EEO/Vet/Disability employer.
