The Office of Development

Auburn students are engaged; our faculty members are breaking new ground; and we are changing the world for the better. All of this is possible because of the philanthropy of Auburn’s alumni and friends. The Auburn Family gives generously — and our university is thriving as a result.

Fueled by philanthropic dollars, Auburn University has become a potent force for education, discovery and change. The Office of Development continues to build on the momentum of increased donor engagement, new donor participation at every level, consistent record-breaking fundraising years, and the enormous success of its most recent campaign.

*Because This is Auburn — A Campaign for Auburn University*, which was completed in 2017, was the largest fundraising campaign in university history. Raising more than $1.2 billion, it made Auburn the first university in the state of Alabama to raise more than $1 billion in a campaign. This success exponentially broadened what Auburn can do and is empowering us to make our state — and the world — healthier, stronger and safer.

Powered by a clear vision, we will stay true to our land-grant mission and serve as a catalyst for positive change. The leadership of our development efforts and a strong commitment to increasing philanthropy will be paramount to the university’s ability to achieve its vision and mission.

A Stronger Alabama
Donor gifts have furthered programs most beneficial to Alabama’s quality of life and productivity, including coastal restoration and legacy industries like forestry, fisheries, agriculture, and newer entries such as aerospace, aviation and additive manufacturing.

Better Health Across Populations
Philanthropy is seeding groundbreaking research in critical areas such as infectious diseases, Alzheimer’s and other neurological conditions, obesity, heart disease and diabetes.

A Safer America
Auburn has kept America safe from physical and digital harm through our patented Vapor Wake dogs capable of detecting hazardous materials and our renowned cyber security research and development.

A More Sustainable World
The Auburn Family provides funding for initiatives across our colleges and schools to provide low-cost and efficient energy, clean air and water, sustainable housing and materials, sufficient sources of nutrients, abundant forestry products and flourishing populations of wildlife.
A Growing Campus
Gifts of more than $200 million in recent years have helped transform Auburn’s campus with innovative buildings, which allow our students and researchers to continue doing their best work.

School of Nursing Building
Private donors and corporate healthcare partners helped create Auburn’s first facility designed specifically for nursing education.

Delta Air Lines Aviation Education Building
A portion of a $6.2 million gift from Delta Air Lines, the Delta Air Lines Foundation and the Jacobson Family Foundation helped construct the 23,000-square-foot Delta Air Lines Aviation Education Building.

Brown-Kopel Engineering Student Achievement Center
A $30 million commitment, which was a portion of the $57 million gift from 1957 alumni John and Rosemary Brown, supported the construction of a 142,000-square-foot facility to house academic support, student recruitment and professional development within the Samuel Ginn College of Engineering.

Jay and Susie Gogue Performing Arts Center
A $25 million lead gift, also from John and Rosemary Brown’s record-setting $57 million commitment, helped create a new 85,000-square-foot world-class performing arts center named in honor of Auburn’s president Jay Gogue and his wife, Susie.

Tony and Libba Rane Culinary Science Center
James W. “Jimmy” Rane, a 1968 graduate, and the Rane Family, committed $12 million to help construct a facility that will provide students in Auburn’s recognized hospitality management program with intensive, hands-on learning experiences.
