

MEMORANDUM

TO: AUBURN UNIVERSITY FACULTY AND STAFF
FROM: DEPARTMENT OF RISK MANAGEMENT & INSURANCE
SUBJECT: DOMESTIC TRAVEL GUIDELINES AND TIPS FOR FACULTY AND STAFF
DATE: PUBLISHED 4/14/2008

Domestic Travel Guidelines and Tips for Faculty and Staff

Personal safety is the traveler's responsibility. The following list of non-exclusive safety tips for domestic travel is provided by the Auburn University Department of Risk Management and Insurance to faculty and staff traveling domestically on University business.

General Guidelines – Before You Leave

- Getting information ahead of time about a destination and mode of travel will not only help ensure security, but will make travel more efficient and less stressful for all. Travelers need to play an active role in contributing to their personal safety.
- Organize a Pre-Trip Meeting with typed agenda and a sign-in sheet to confirm participation.
- Discuss known risks of the area and proper way to handle dangerous situations.
- Keep emergency contacts/phone numbers with you.
- Have a filed plan of action should the trip need to be cancelled or terminated unexpectedly.
- Prepare an itinerary and make it available to all participants and Auburn University representatives (i.e. administration, dean,) before departure.
- Leave a copy of your agenda/emergency contacts and phone numbers with a friend or family member.
- Provide each participant with documentation outlining acceptable behavior and the consequences if behavior is determined to be unacceptable.
- Obtain name, address, phone number and medical release form from all participants.
- Report any suspicious behavior or incident to the proper law enforcement agency.
- Advise all participants that Auburn University provides no coverage for the trip. If they are injured or become ill during the trip, they will be responsible for all medical costs.
- Have all participants sign a hold harmless agreement.
- Pay attention to news alerts or announcements regarding your travel plans.

General Guidelines – Traveling

- Stay alert to your surroundings while traveling, watching out for suspicious people, actions, and packages.
- Keep a watchful eye on your possessions at all times.
- Be aware of letting your guard down in restaurants, clubs, and while in transit.
- Stay away from suspicious situations.

- Be careful of “overly” friendly people.
- Always look for the nearest exits, notice if they are:
 - Accessible
 - blocked
- Comply with all security instructions.

Travel by Automobile

- Reliable transportation should be selected. A Pre-Trip inspection of the vehicle is recommended.
- Driver must operate the vehicle in a professional manner.
- Driver must be in possession of a valid driver license.
- Driver should have experience driving the type of vehicle he/she will be operating for Auburn University.
- Fifteen-Passenger Vans should not be used to transport passengers.
- Driver should attend Auburn University’s Defensive Driving Class or other approved defensive driver training program.
- Driver of 12 or 15 Passenger Van should attend Auburn University’s Van Safety Class.
- Driver should have an acceptable motor vehicle record.
- Seat belts and other occupant restraint devices should be worn at all times by the driver and occupants.
- Driver must operate the vehicle in accordance with all traffic laws, ordinances and regulations.
- Vehicles should not be used to transport unauthorized passengers.
- Vehicle should be driven at speeds that are appropriate for road conditions.
- Driver must not use a cellular phone when vehicle is in motion.
- Driver must not drive if drowsy or under the influence of any substance.
- Driver should not drive for long periods of time without breaks. Breaks are recommended at a minimum of every two hours. Maximum driving time recommended in a 24 hour period is eight (8) hours.
- Require that the people responsible for the trip and the drivers know the route and an alternative route prior to departure.
- Require that the people responsible for the trip and the drivers know the predicted weather prior to departure. If inclement weather is expected, consider setting guidelines for alternate transportation.
- Driver should turn off the vehicle, remove the keys and lock the doors when left unattended.
- Driver must immediately report all accidents to the local law enforcement agency, immediate supervisor and Risk Management and Safety.

Use of Privately Owned Vehicles

- Personal vehicles should only be used on a voluntary basis; the owners/drivers must provide their own Insurance coverage; all student participants choosing to ride in a private automobile do so voluntarily and at their own risk.
 - The University shall not insure or accept liability for any damage, loss or injury resulting from the use of a student participant's vehicle(s).
 - The University does not provide comprehensive or collision (physical damage) insurance for an employee's personal vehicle driven on University business and the employee is responsible for primary liability insurance.
 - The University does carry non-owner excess liability coverage to protect the University and employee in the event of a suit resulting from an automobile accident in which an employee was driving on university business

- While private automobiles provide a very cost effective means of transportation, there are disadvantages that must be considered. Liability issues should be a primary concern for those that choose to use personal automobiles to travel. Be sure that each vehicle has appropriate insurance, current inspection and registration and that individuals traveling in private vehicles understand that they do so at their own risk. Drivers need to be aware that by choosing to drive, they assume responsibility for the safety of those traveling in their vehicle. This means that drivers should take care to follow all traffic laws and safety guidelines, and should also make sure that their vehicle is in a safe working condition before beginning the trip.
- If employees or students use their own vehicles, and/or transport others as passengers, they should be informed, in advance, that their personal insurance will be primarily responsible for any liability that may arise from such use.
- Students and employees driving privately owned vehicles must:
 - Have a valid driver's license
 - Possess personal automobile insurance coverage as mandated by the State of Alabama
 - Have a current vehicle registration

Note: Auburn University is not responsible for personal items left in a vehicle.

It is also recommended that group travel be contracted with an outside vendor whenever possible/practical.

Hotel Accommodations and Security

- Choose a hotel with adequate security service.
- Use the hotel to book taxi or shuttle service. Check the fare before boarding.
- When arranging to meet people you've never met before (such as business associates), wait for them in the lobby. Don't ask them to come up to your room.
- Use the door viewer (peephole) before opening the door to visitors.
- Do not discuss your business or travel plans in public areas where they may be overheard. Discuss your travel plans and movements during your stay with as few people as possible.
- Do not discuss your room number while standing in the lobby or leave your room key on restaurant or bar tables.
- Stay together if traveling with others and travel as a group.
- Do not give away personal information.
- Remain alert to your surroundings.
- Avoid areas "off the beaten path" and choose a guide whenever possible.
- If you arrive by auto, park as close to a hotel access point as possible, and park in a lighted area. Remove all property from the car interior and place it in the trunk. Avoid leaving valuables or personal documents in the glove compartment. Prior to leaving the security of the vehicle, note any suspicious persons or behavior.
- If using valet service, leave only the ignition key, and take trunk, house, or office keys with you. Often, valets are not employees of the hotel and work for contract firms.
- Parking garages are difficult to secure. Avoid dimly lit garages that are not patrolled and do not have security telephones or intercoms.
- Review the Hotel Evacuation Plan located on the back of your hotel room door. Note the location of all fire exits on your floor.
- Selecting a hotel room on the third to fifth floor generally will keep you out of reach of criminal activity from the street but still within reach of most fire truck ladders.
- Take note of emergency exits, stairwells, fire escapes and emergency plans, just in case.

- Locate nearby fire alarms and fire extinguishers.
- Practice unlocking and opening the windows in your room. Look outside to see if you could escape without injury.
- Learn the layout of your room, and know how to unlock your door in the dark. This will help prepare you for quick evacuation at night or during a power outage.
- Place your room keys on a night stand where you can find them quickly. Take your room key with you when you evacuate in case emergency exits are blocked by fire and you must return to your room.
- Always lock your hotel door when retiring for the night. If there is a chain included, use it.
- Never leave valuables in your hotel room exposed or unattended, even in a locked suitcase.
- Place valuables--money, jewelry, airplane tickets, credit cards, passport--in a hotel safe deposit box or room safe.
- Keep your room neat so you will notice disturbed or missing items quickly.

For information on domestic travel, refer to the Transportation Security Administration's website:
<http://www.tsa.gov/index.shtm>

This site details subjects such as:

- Permitted and prohibited items at security checkpoints
- Timesaving travel tips (including packing tips)
- Information on security and screening procedures
- Questions and Answers on luggage/baggage concerns
- Collection of links to guide you to other travel resources (National Weather Service, Travelers' Health - National Center for Infectious Diseases, U.S. Customs Information for Travelers, Federal Aviation Administration, etc.)
- Traveling with children
