SUBJECT: BOARD MEETING

REAL ESTATE ACQUISITION: CAMBRIDGE RESIDENCE HALL AND ASSUMPTION OF GROUND LEASE AT 132 EAST THACH AVENUE AUBURN, ALABAMA

DATE: 04/23/2014

This is to request that the following item be presented to the Board of Trustees at the meeting scheduled for April 29, 2014.

Proposal:

It is proposed that Auburn University acquire the Cambridge Residence Hall, a private residence hall located on the corner of Thach Avenue and South College Street in Auburn, Alabama. The property offered for sale consists of a 31,570 square-foot, five-story, 308 bed residence hall with 156 parking spaces on approximately 2.55 acres of leased land.

Review and Consultation:

The acquisition of the Cambridge Residence Hall facility is an attractive proposition for Auburn University for the following reasons:

1. Contribution to Campus Housing Inventory: Auburn University currently has 4,657 beds on campus and has a waiting list of several hundred students every year. A goal of the University Strategic Plan is to provide on-campus housing to all first year students. The acquisition of the Cambridge Residence Hall will help the University achieve that goal as well as provide additional capacity while a number of existing residence halls are renovated over the next several years.

2. Location: The Cambridge Residence Hall, formerly the Auburn Commons, is strategically located immediately adjacent to Auburn University, at the corner of Thach Avenue and South College Street. The property consists of 2.55 acres of leased land and includes 156 parking spaces, which can be used for resident
parking or the land could be used as a future location for an academic building, welcome center, or other uses.

3. **Cost:** The cost of the Cambridge Residence Hall on a per bed basis is significantly lower ($32,000/bed including anticipated repair costs) than the cost of constructing an equivalent number of beds in a new residence hall ($80,000-$120,000/bed).

Consistent with standing policy, two MAI appraisals were secured. The purchase price is below the appraisal price.

The Ground Lease has a remaining term of 58 years on the existing agreement. The Landowners have indicated that they are willing to extend additional terms to the new Lessee. Control of the Ground Lease may afford an opportunity for the Lessee to negotiate a sale of the property, thus allowing Auburn University to gain fee simple interest in the property.

The University has inspected the facility to assess its current condition. While some repair and renovation will be needed, the residence hall is deemed to be in good condition.

Funds to offset the purchase price are available from unrestricted University sources.

If you concur, it is requested that you recommend the proposal to the Board of Trustees the meeting scheduled for April 29, 2014.

**Rationale for Recommendation:**

Standing policy stipulates that all leases or acquisitions of property must be approved by the Board of Trustees.
