NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of University that, given the unique location of the Highway Sites and possible commercial and retail opportunities there, it is economically justified and in the best interest of the University to engage a duly-licensed real estate broker to market and identify opportunities to lease the two Highway Sites.

Joint Academic Affairs and AUM Committee

Chairperson Newton indicated a discussion of numerous items during the committee meeting earlier that morning. Chairperson Newton moved for adoption of a unanimous consent agenda. The motion was seconded by Mr. Rane, and the resolution was approved by voice votes. The following resolution was approved in the unanimous consent agenda:
RESOLUTION

PROPOSED CHANGES TO THE AUM FACULTY PERSONNEL POLICIES

WHEREAS, the Auburn University at Montgomery Faculty Handbook includes personnel policies applicable to its faculty; and

WHEREAS, pursuant to its By-Laws, the Board defines policies related to appointment, promotion, tenure, and dismissal of faculty, while the Chancellor is responsible for development and approval of procedures to implement those policies; and

WHEREAS, as part of a robust process of shared governance, the AUM Faculty Senate, Faculty Council, and the Provost have recommended, and the Chancellor has approved, changes to AUM’s faculty personnel policies that are reflected in Exhibit A attached hereto; and

WHEREAS, the proposed changes reflect appropriate modifications and clarifications regarding faculty appointments, promotion and tenure requirements, and other faculty personnel matters.

NOW, THEREFORE, BE IT RESOLVED that the Board of Trustees of Auburn University approves the revised faculty personnel policies and procedures of the AUM Faculty Handbook, as reflected in Exhibit A to this resolution.
A. KINDS OF APPOINTMENT

"Each member of the faculty employed at Auburn University at Montgomery is appointed in one of four classifications: Temporary, Non-tenure Track, Probationary Tenure-track, and Tenured. (Throughout Part IV, references to “Department Chair” shall refer to individuals acting in the capacity of unit heads.)"

2. Non-tenured Track

These appointments are on an annual basis. These appointments are renewable depending upon availability of funds, the need for services, and satisfactory performance. Individuals in these appointments are not eligible for tenure or professional improvement leave with pay. These individuals may also be assigned to participate in other academic activities, such as advising, or service on committees in the division, department, college, and university. They are under the supervision of the department chair and have all of the benefits and privileges of faculty appointment except tenure and professional improvement leave. These privileges include membership in the Faculty Council. These positions are not intended as substitutes for resident, post-doctoral, or regular faculty positions. Neither are they used for extending the time frames associated with temporary, probationary, or tenured positions or as alternatives should regular appointment to such positions be inappropriate for whatever reason. Movement from a non-tenure track to tenure-track faculty may only occur through normal, faculty approved, Department Chair and Dean approved, Provost approved, and AA/EO approved tenure-track recruitment.

Page 2

4. Tenured Appointments

Tenured appointments normally are assigned to faculty who have completed an appropriate Probationary period and who, following recommendation and review in accordance with University policy and approval by the Chancellor and University President, have been awarded tenure. Only tenured faculty are eligible for professional improvement leave with pay. The Chancellor and University President may offer tenure status to a faculty member at the time of initial appointment to Auburn University at Montgomery provided that:
a. Tenure has been earned at another institution; and
b. Such appointment is made at the rank of Associate Professor or Professor; and
c. Tenure status has received approval through the usual tenure review process as set forth in this handbook. (The time of this review process may be altered from the normal deliberations on tenure.)

A. APPOINTMENT TO THE FACULTY

Recommendations for faculty appointments shall be made by the Department Chair or equivalent. (The term "or equivalent" will apply whenever reference is made to Department Head.) When making a recommendation for any appointment to the full-time faculty, the Department Chair shall conduct a poll of all members of the department holding professorial rank, seeking from each a written statement either supporting or not supporting a recommendation for appointment. The written comments of the faculty, along with the recommendation of the Department Chair, shall be transmitted to the Dean.

Pages 7-8

D. TENURABLE PROFESSORIAL RANKS

The following general considerations shall apply to appointment or promotion to academic ranks of Assistant Professor, Associate Professor, and Professor, and Librarian I, II, III, IV. Academic administrators must have had significant non-administrative involvement in the instructional or research programs of a university to qualify for academic rank. Once tenure and academic rank are earned by a faculty member, both will be retained if he or she subsequently assumes a full-time administrative position. Tenure does not apply to the administrative appointment.

1. Assistant Professor: Appointment or promotion to the rank of Assistant Professor should be based upon demonstrated academic ability and potential for professional growth. The candidate should have completed a terminal degree appropriate for the discipline or have the equivalent in training and experience. ("Terminal degree" refers to the highest degree awarded in a discipline. The doctorate is the terminal degree for most disciplines represented at Auburn University at Montgomery, although exceptions may be made.)

2. Associate Professor: Appointment or promotion to the rank of Associate Professor is based upon actual performance as well as demonstrated potential for further development. Above all, there must be objective evidence that the individual is growing professionally and is contributing to his/her field. Associate Professor is a high academic rank, and promotion to this rank, in and of itself, carries no presumption of future promotion. For a faculty member to reach the Associate Professor rank, he or she must have the terminal degree appropriate to the discipline. In exceptional cases, an Assistant Professor without a terminal degree who has gained distinction as a publishing scholar or creative artist may be promoted to the rank of Associate Professor.
Application for Promotion: Faculty members who believe they have met the criteria for promotion in rank shall submit a letter of request for promotion, which includes the names of individuals qualified to offer external review, to their respective Department Chair by May 15. In that letter the candidate may request that review by a qualified external referee be arranged by the Department Chair or Dean by May 15. The candidate's dossier shall be presented by October 1 to the Department Chair, who will submit it to the department review committee composed of all faculty holding academic rank higher than that of the candidate for promotion. No administrator in the direct supervisory chain (i.e., who has recommending responsibilities at subsequent steps in the promotion process, such as the candidate’s Department Chair or Dean, or the Provost) shall be a member of the Department review committee. Other tenure track/tenured faculty holding administrative positions and having a significant and continuing involvement in the Instructional or research programs of the department shall be members of the department review committee. In cases where at least three faculty with the appropriate rank are not available in the department, the Dean of the College School will establish a committee composed in whole or in part, as necessary, of faculty holding the appropriate rank in other departments. Recommendations about documentation will be specified in annual workshops provided by the Office of the Provost.

A committee recommendation and the results of a vote conducted by secret ballot will be forwarded to the Department Chair. The committee report will include reasons for the positive or negative recommendation. Additionally, any member of the departmental review committee may submit a letter to the Department Chair relating the candidate's ability and performance of the criteria for promotion listed above. The letter will be included in the promotion dossier. The Department Chair will notify the candidate of the Department’s and his/her recommendation including a summary of reasons for the positive or negative recommendation by December 1. A candidate may respond in writing within five business days and any response will become part of the dossier that is forwarded to the Dean. The response may include new documentation that enhances the application for promotion. The Department Chair will forward all documents and letters, together with his or her evaluation and recommendation for action, to the Dean of the College. If the candidate is a Department Chair, normal procedures will be followed except that his/her Dean shall ask for participation of all faculty in the department who hold the rank being sought or higher rank; each such faculty member shall submit to the Dean his/her positive or negative recommendation on promotion.

The Dean will forward all materials, including his/her letter of recommendation for action, to the Provost. The Dean’s letter will include reasons for the positive or negative recommendation. By the date of his or her transmission of positive or negative recommendations to the Provost, the Dean will notify the candidate of his/her recommendation including reasons. A candidate may
respond in writing within five business days; this response will become part of the dossier that is forwarded to the Provost. **The response may include new documentation that enhances an application for promotion.** The Dean will forward all documents and letters, together with his or her evaluation and recommendation for action, to the Provost.

The Provost shall transmit the materials to the University Committee on Promotion and Tenure.

By the date of his or her transmission of positive or negative recommendations to the Provost, the Chairperson of the University Committee on Promotion and Tenure will notify the candidate of the Committee's recommendation. A candidate may respond in writing within five business days; this response will become part of the dossier that is forwarded to the Provost. **The response may not include new documentation that enhances the application for promotion.** The Chairperson of the University Committee on Promotion and Tenure will forward all documents and letters, together with the committee's recommendation for action, to the Provost.

The Provost recommends to the Chancellor, and the Chancellor is responsible for making recommendations on promotion to the President. By the date of his or her transmission of positive or negative recommendations to the Chancellor, the Provost will notify the candidate of his or her recommendation. A candidate may respond in writing within five business days, and any response will become part of the dossier that is forwarded to the Chancellor. **The response may not include new documentation that enhances their application for promotion.** The Provost will forward all documents and letters, together with his or her recommendation for action, to the Chancellor.

Candidates shall be notified in writing of the Chancellor's decision by March 15. If promotion is not approved, the candidate will be notified promptly in writing by the Chancellor of the reason(s) for the denial.

At any time during the process prior to their notification on March 15, candidates for promotion to professor and/or tenure may withdraw their applications from consideration. **The Chancellor's decision is final.**

Pages 19-20

1. **Eligibility for Tenure:** The normal progression to tenured status of a faculty member is from a *probationary tenure-track* appointment. Faculty members given probationary appointments with the rank of Assistant Professor or higher become eligible for tenure consideration after a probationary period of meritorious performance. However, faculty holding the Instructor rank must be promoted or approved for promotion to Assistant Professor to be eligible for tenure.

The total length of the probationary period shall not exceed seven years of full-time service, where one year equals two full semesters, excluding summers. —Years of full-time temporary appointment at Auburn University at Montgomery, regardless of rank, count toward tenure
eligibility just as do years of full-time probationary appointment. Time spent away from the University except when the individual is on a special assignment for the benefit of the University and paid by the University shall not be counted toward fulfillment of eligibility for tenure.

In addition, a faculty member’s previous full-time service in another institution of higher education may be a significant factor in determining the length of the probationary period at Auburn University at Montgomery. Faculty members with more than three years of probationary or tenured service at one or more other institutions of higher education may receive credit for not more than three years of such service toward the probationary period at Auburn University at Montgomery. -Written notification of the policies set forth in this paragraph will be provided by the appropriate Dean to each candidate at the time an offer of employment is extended. -Such notification shall specify the credit allowed for prior service.

Although a minimum probationary period of five complete academic years shall usually be observed prior to nomination for tenure consideration, a decision on the awarding of tenure must be made within three years if the faculty member has received credit for three years of experience at another institution. Faculty members without more than three years of full-time service at another institution shall normally be considered for tenure during their sixth year of full-time service at Auburn University at Montgomery.

Consideration for tenure can take place in the seventh year if the candidate signs a proviso acknowledging termination effective at the end of that year if tenure is not achieved.

Members of the faculty and academic staff who hold administrative positions can earn tenure only in their faculty classifications. For such administrators, eligibility for tenure requires a significant non-administrative involvement in the instructional or research programs of Auburn University at Montgomery.

Pages 21-24

1. De Facto Tenure: Should a seven-year period of full-time service in a probationary tenure-track appointment— including prior service credited in the manner specified above, be exceeded in the case of a faculty member on probationary tenure track appointment, tenure shall be awarded by the Chancellor/President. A faculty member who contends that he/she has served full time in an academic rank for more or more than seven years may appeal through the normal administrative chain to achieve consideration of the claim. However, tenure gained in this way will be forfeited if it is established that the faculty member's not being recommended for tenure consideration was a deliberate attempt to avoid the formal tenure process by the faculty member and/or Department Chair. If employment begins during a spring semester, the first semester will be counted towards de facto tenure service period head or unit head.
2. Factors Affecting Tenure: Faculty and Department Chairs/Heads should remember that decisions on tenure are different in kind from those on promotion. As with promotion, the tenure nominee will be evaluated on (1) teaching, (2) research, and (3) service. Other important elements affecting tenure nominations and recommendations are those factors that are directly related to the prospect of the nominee’s assuming what may well be an appointment of ten, twenty, or thirty years in the departmental unit. Such considerations may include the nominee’s abilities to support the departmental mission and its long-term goals; the nominee’s exhibited ability and willingness to engage in the shared tasks that a departmental group must often perform; and the nominee’s willingness to participate knowledgeably and reasonably in discussions germane to departmental policies and programs. In addition, each Department or College/School has developed benchmarks for tenure and promotion considerations, and these must be made available to all faculty members at the time of their appointment. Because the standards for tenure are more exacting than those for promotion within the junior ranks, a faculty member holding the rank of assistant professor recommended for tenure must also be promoted to associate professor.

3. Application for Tenure: Faculty members who believe they have met the criteria for tenure consideration shall submit a letter of request for tenure, which includes the names of individuals qualified to offer external review, to their respective Department Chair or Dean by May 15. In that letter the faculty member may request that review by a qualified external referee be arranged by the Department Chair or Dean. It is the joint responsibility of the faculty member and the Department Chair/department head to assure that the tenure review process occurs no later than in the sixth-year of full-time service or as specified in the appointment within three years if credit for previous service at another institution has been given. The candidate’s dossier must be presented to the Department Chair or Dean by October 1. The credentials to be included in the dossier are a current vita and supporting documentation of the candidate’s performance in teaching, research, and service. Recommendations about documentation are specified in annual workshops provided by the Office of the Provost.

After receiving the application for tenure consideration, the Department Chair/Head shall notify tenured members of the departmental faculty of their responsibility to review the candidate’s credentials. In cases where there are fewer than three tenured faculty in the department, the Dean of the College/School will ask for participation of tenured faculty in other departments. The tenured members of the faculty may meet to discuss each applicant’s materials; whether tenured faculty meet or not, each will submit to the Department Chair/Head (or appropriate Dean if the candidate is a Department Chair/Head) a written statement of his/her positive or negative vote on tenure, together with a justification of that vote. No administrator in the direct supervisory chain (i.e., with recommending responsibilities at subsequent steps in the tenure process, such as the candidate’s Department Chair/Head or
Dean, or the Provost) shall be included in the departmental review process. Other eligible faculty holding administrative positions and having a significant and continuing involvement in the instructional or research programs of the department shall participate. These statements and the Department Chair's written recommendation on tenure, including reasons for the positive or negative recommendations, will be sent forward with the candidate's resume and supporting material to the appropriate Dean by December 1. A candidate may respond in writing within five business days, and any response will become part of the dossier that is forwarded to the Dean. The response may include new documentation that enhances the application for tenure. The process, the Department Chair, will forward all documents and letters, together with his/her evaluation and recommendation for action, to the Dean of the College School.

If the candidate is a Department Chair, normal procedures will be followed except that his/her Dean shall ask for participation of all tenured faculty in the department; each tenured faculty member shall submit to the Dean his or her positive or negative recommendation on tenure. The Dean will notify him or her of the Department's recommendation, and he or she may respond in writing within five working days, and any response will become part of the dossier that is forwarded to the Provost. The response may include new documentation that enhances the application for tenure.

The Dean will forward all materials, including his/her letter of recommendation for or against tenure, to the Provost. The Dean's letter will include reasons for the positive or negative recommendations. By the date of his or her transmission of positive or negative recommendations to the Provost, the Dean will notify the candidate of his/her recommendation including reasons. A candidate may respond in writing within five business days; this response will become part of the dossier that is forwarded to the Provost. The response may include new documentation that enhances the application for tenure. The process, the Chairperson of the University Committee on Promotion and Tenure will forward all documents and letters, together with the committee's recommendation for action, to the Provost. The Provost shall transmit the materials to the University Committee on Promotion and Tenure.

By the date of his or her transmission of positive or negative recommendations to the Provost, the Chairperson of the University Committee on Promotion and Tenure will notify the candidate of the Committee's recommendation. The Committee’s letter will include reasons for the positive or negative recommendations. A candidate may respond in writing within five business days; this response will become part of the dossier that is forwarded to the Provost. The response may include new documentation that enhances the application for tenure. The process, the Chairperson of the University Committee on Promotion and Tenure will forward all documents and letters, together with the committee’s recommendation for action, to the Provost.
The Provost recommends to the Chancellor. By the date of his or her transmission of positive or negative recommendations to the Chancellor, the Provost will notify the candidate of his/her recommendation. A candidate may respond in writing within five business days, and any response will become part of the dossier that is forwarded to the Chancellor. The response may not include new documentation that enhances the application for tenure.

Candidates shall be notified in writing of the Chancellor's President's decision by March 15. When a nomination for tenure is not approved, the candidate will be notified promptly by the Chancellor of the reasons for the denial. The Chancellor's decision is final.

Tenured faculty members who resign from the University and are later re-employed in a faculty position similar to the one they previously held may have their tenure reinstated on the recommendation of the tenured faculty of the affected Department and on the approval of the Department Chair, Dean, Provost, and the Chancellor and the President. A tenured faculty member in a department at Auburn University who accepts a faculty appointment on the Auburn University at Montgomery campus may be awarded tenure at the time of appointment only through the usual tenure process.

Confidentiality and the right of tenured faculty members to express their viewpoints openly without fear of retaliation should be hallmarks of the tenure decision process. —All documents, letters, and other materials shall be held in strict confidence at all levels of the review process. Should confidential discussions, documents, notes and communications become the subject of legal discovery, those who participated in the review process may be guided by University Counsel.

Pages 24-25

LIBRARIAN APPOINTMENTS

The Dean of the Library recommends to the Provost the appointment with appropriate rank.

1. Kinds of Appointment of Librarians: Each professional librarian at Auburn University at Montgomery is appointed in one of three classifications: Temporary, Probationary, or Tenured.

   a. Temporary appointments, as the term implies, are assigned to librarians whose services are required only for a certain specified period of time, usually one year or less, which is identified on the appointment paper. Those on Temporary appointments are not eligible for tenure and promotion or for the insurance, medical, retirement, and various fringe benefits available to other librarians unless the employment period is for at least a full year (twelve months).

   b. Probationary appointments are assigned to librarians who, because of scholarly or professional achievement, have demonstrated their aptitude for becoming tenured members of the faculty.
c. Tenured appointments are assigned to librarians who have completed an appropriate probationary period and who, following recommendation and review in accordance with University policy and approval by the Chancellor, have been awarded tenure. Only tenured librarians are eligible for professional improvement leave with pay.

2. Definition of Librarian Academic Ranks: Librarians shall be accorded faculty status with academic appointments in three ranks with titles equivalent to the standard academic ranks and titles. These ranks are:

   a. Librarian II (equivalent to Assistant Professor): This is a professional level characterized by assignments with some degree of independent responsibility and action. Appointment or promotion to the rank of Librarian II should be based on demonstrated ability and potential for growth. The candidate should have a strong academic record and shall have completed a master’s degree in library science from an American Library Association accredited library school or equivalent.

   b. Librarian III (equivalent to Associate Professor): This is an advanced professional level characterized by considerable independent responsibility and action. It should provide for depth in areas of librarianship and may include other subject fields as well. Promotion to this rank shall require evidence of substantial professional contributions to the library and to the University; attainment of a high level of professional effectiveness in research and other professional endeavors, and the ability to handle successfully increased responsibility, including supervision of library personnel. Librarian III is a high professional rank and requires the master’s degree in library science from an American Library Association accredited school or equivalent. Promotion to this rank, in and of itself, carries no presumption of further promotion.

   c. Librarian IV (equivalent to Professor): This is the highest professional level and is characterized by administrative responsibility for general library operations at the divisional level or above and by demonstrated ability in a specialized field or fields of librarianship. A master’s degree in library science from an American Library Association accredited school or equivalent and a doctoral degree in library services or in another discipline is a customary requirement. Exceptional and advanced training, research and publication, and/or evidence of exceptional ability in librarianship may be substituted for the doctorate. Demonstrated ability in providing leadership in professional and university organizations is required.

Candidates for appointment to the position of Dean of the Library must meet the requirements of Librarian III or IV.
Page 30

M. APPEALS PROCEDURES FOR PROMOTION AND TENURE DECISIONS

Grounds for appeal of a promotion or tenure decision exist when the candidate believes that:

a. The denial resulted from a significant deviation from University policies and/or from procedural irregularities, including material inconsistencies between basis of denial and annual performance reviews.

b. Tenure or promotion procedures of the Department, College, or University were not properly followed.

c. The denial resulted from discrimination with respect to race, sex, religion, national origin, age, physical handicap, marital status, or sexual orientation.

A faculty member who has been denied either promotion or tenure may choose to discuss the reasons for the denial and the appeal process with the Provost. If a faculty member chooses to appeal the denial that intention should be expressed in writing to the Chancellor within thirty days of the notification of the negative decision and should be accompanied by all supporting evidence. The Chancellor shall respond to the faculty member’s request for an appeal by appointing an appeals committee within fifteen days of receipt of the request.

The Appeals Committee shall consist of the Provost (non-voting chairperson), an academic Dean (other than the appellant’s), and four members of the tenured faculty appointed by the Chancellor from eight names submitted by the Faculty Senate. This committee shall make its recommendation to the Chancellor within fifteen days of being notified by the Chancellor of the creation of the committee. The Chancellor will make a decision. The Chancellor’s decision is final.

Page 39

Chancellor’s Decision and Appeal:

The Chancellor’s decision shall be rendered within thirty (30) working days after receipt of the Hearing Committee’s report. A copy of the decision shall be forwarded to the chair of the Hearing Committee and the faculty member. The Chancellor will make a decision if the Hearing Committee recommends dismissal and the Chancellor sustains this recommendation. Executive Committee

Chairperson McCrary indicated a discussion of numerous items during the committee meeting earlier that morning. Chairperson McCrary moved for adoption of a unanimous consent agenda. The motion was seconded by Mr. Pratt, and the resolutions were approved by voice votes. The following resolutions were approved in the unanimous consent agenda:
RESOLUTION

UNDERGRADUATE ENROLLMENT POLICY FOR THE AUBURN CAMPUS

WHEREAS, the University’s Strategic Plan includes updating and improving the accessibility and utility of certain university policies as prescribed by the Board of Trustees; and

WHEREAS, this Board has adopted certain policies published in the Board of Trustees Policy Manual which provide guidance in administering the university; and

WHEREAS, a review of those policies in conjunction with the Strategic Plan has led to a recommendation to replace the Undergraduate Enrollment Policy for the Auburn Campus with that attached hereto as Attachment A.

NOW, THEREFORE, BE IT RESOLVED that the Board of Trustees adopts the revised Undergraduate Enrollment Policy for the Auburn Campus as set forth in Attachment A.
C-2. UNDERGRADUATE ENROLLMENT POLICY
FOR THE AUBURN CAMPUS

Over the years, the main campus of Auburn University has experienced greater demand for admission than its facilities and resources could support effectively. Accordingly, it has been possible to manage growth, to be selective in the admissions process, and to win recognition for enrolling students of outstanding quality and providing them with an exceptional student experience.

While growth may sometimes produce economies of scale, sound enrollment policy begins with a commitment to maintain high levels of quality in all programs offered. Enrollments should never exceed resources required to provide students with excellent faculty, facilities, libraries, support services, and the like. Further, Auburn has long been known for its personable, warm campus atmosphere, welcoming not only Alabama residents but also many students from the rest of the nation and the world.

Given these considerations, the following policy for undergraduate enrollment on the Auburn campus of Auburn University is adopted:

1. That total undergraduate enrollment be maintained at approximately 25,000 students;
2. That each new freshman cohort comprise not more than approximately 5,000 students;
3. That Alabama residents compose approximately 60% of each new freshman cohort;
4. That qualified undergraduate transfer students continue to be recruited and admitted; and
5. That when space is not available at the Auburn campus, undergraduate applicants be invited to consider Auburn University at Montgomery.
