<b>Award Date</b>	07/20/2009		
<b>Award Description</b>	The goal of this project is to construct a building for Advanced Science, Innovation and Commerce at Auburn University to house outstanding research clusters in the areas of quality standards and measurements, and marine and forecast sciences. This construction project will enable Auburn University to replace outdated research laboratories and provide a space for interdisciplinary and multidisciplinary research activities. The building is not designed to host any particular department but to specifically host the five research clusters of Ecosystem Health Forecast and Marine Aquaculture, Predictive Biology and Informatic Forecasting, Water Quality Standards and Detection, Biofuel Quality and Standards, and Detection, Food Quality and Safety. The building will be located in the
