**Award Recipient Information**

- **Recipient DUNS Number**: 066470972
- **Recipient Account Number**: 921901
- **Recipient Congressional District**: 02
- **Parent DUNS Number**: 066470972
- **Recipient Legal Name**: AUBURN UNIVERSITY
- **Recipient DBA Name**: AUBURN UNIVERSITY
- **Recipient Address 1**: 107 SAMFORD HALL
- **Recipient Address 2**: AUBURN UNIVERSITY
- **Recipient City**: AUBURN
- **Recipient State**: AL
- **Recipient ZIP Code + 4**: 368490001
- **Recipient Country**: USA

**Project / Award Information**

- **Funding Agency Code**: 1341
- **Awarding Agency Code**: 1341
- **Program Source (TAS) Code**: 13-0514
- **Sub Account Number for Program Source**: CFDA Number 11.618, Amount of Award 14427075.00, Award Date 07/20/2009
- **Award Description**: The goal of this project is to construct a building for Advanced Science, Innovation and Commerce at Auburn University to house outstanding research clusters in the areas of quality standards and measurements, and marine and forecast sciences. This construction project will enable Auburn University to replace outdated research laboratories and provide a space for interdisciplinary and multidisciplinary research activities. The building is not designed to host any particular department but to specifically host the five research clusters of Ecosystem Health Forecast and Marine Aquaculture, Predictive Biology and Informatic Forecasting, Water Quality Standards and Detection, Biofuel Quality and Standards, and Detection, Food Quality and Safety. The building will be located in the

August 2, 2010
Auburn Research Park at the southern gateway to the Auburn University Campus.

Project Information

**Project Name or Project/Program Title**
Advanced Science, Innovation and Commerce Building

**Quarterly Activities/Project Description**
During the quarter the Design Team (Perkins + Will) and Construction Manager (Brasfield & Gorrie) began the Programming Phase of design. Two 2-day programming work sessions have been held with the University User Groups (Ecosystems, Bio Fuels, Food Sciences, Genomics/Informatics and Water Quality) compiling room data, equipment needs, office requirements, lab space requirements, reviewing proposed layouts, etc. There are two more 2-day programming work sessions scheduled; on 6/29 and 6/30 the Architect will visit the User Groups existing labs space and the final work session will be held on 7/20 and 7/21. The project is currently on pace to have the programming complete at the end of July.

A P6 Overall Progress Schedule has been established by Brasfield & Gorrie for the project and has been transmitted to all team members. An updated Budget...
Form 424 has also been completed and submitted to NIST.

The project team has established weekly progress meetings on Tuesdays. The schedule calls for the team to meet every other week in Auburn and to hold conference calls on the other weeks.

The Phase I Archeological Survey and Evaluation has been completed and signed off by the Alabama Historical Commission and has been considered resolved by NIST.

**Project Status**

- Less than 50% completed

**Total Federal Amount ARRA**

- 3292.00

**Funds Received/Invoiced**

- 0.07

**Number of Jobs**

- Architect

**Description of Jobs Created**

- 4027.00

**Total Federal Amount of ARRA Expenditure**

- 4027.00

**Total Federal ARRA Infrastructure Expenditure**

- 4027.00

**Infrastructure Purpose and Rationale**

- Goals and Rationale Include:
  - To provide investments needed to increase economic efficiency by spurring technological advances in science and health;
  - To construct a building for Advanced Science, Innovation and Commerce at Auburn University to house research clusters in the areas of quality standards and measurements and marine and forecast sciences;
  - To replace outdated research laboratories and provide a space for interdisciplinary and multidisciplinary research activities.
