Amount of Award 14427075.00	Total Amount of Payments to 240676.04 Vendors less than \$25,000/award
Award Date 07/20/2009	
Award Description The goal of this project is to construct a building for Advanced Science, Innovation and Commerce at Auburn University to house outstanding research clusters in the areas of quality standards and measurements, and marine and forecast sciences. This construction project will enable Auburn University to replace outdated research laboratories and provide a space for interdisciplinary and multidisciplinary research activities. The building is not designed to host any particular department but to specifically host the five research clusters of Ecosystem Health Forecast and Marine Aquaculture, Predictive Biology and Informatic Forecasting, Water Quality Standards and Detection, Biofuel Quality and Standards, and Detection, Food Quality and Safety. The building will be located in the

Start Construction ? 1/3/12

Auburn University held the CASIC groundbreaking on November 18, 2011 following a successful bid day of November 3, 2011 where the project came in well under budget. Auburn University and Brasfield & Gorrie are currently working to finalize all of the prime contracts in order to establish a Notice to Proceed. Once a Notice to Proceed is determined, Brasfield & Gorrie will hold a preconstruction meeting with all prime contractors, NIST, design team, and Auburn University. Shortly thereafter, the project will commence construction. The project team is currently working together to develop a strategy to spend the allocated budget for the project.
