COURSE SELECTION

FRESHMAN
- By taking university core classes you will develop a basic understanding of key concepts in introductory microeconomics and macroeconomics.
- Begin acquisition of calculus skills.

SOPHOMORE
- Develop a more advanced understanding of markets, consumer behavior, and the theory of the firm.
- Select an outside minor that helps advance your post-graduation goals.
- Complete acquisition of calculus skills and introductory statistics.

JUNIOR
- Master the analytical tools frequently used by economists.
- Develop an advanced understanding of the macroeconomy and the impact of monetary and fiscal policy.
- Broaden your understanding of the wide array of economic applications through upper division electives.
- Master the statistical tools used by applied economists.
- Complete your outside minor or advanced math/stat course to help accomplish your post-graduation goals.
- Bring together your understanding of economic theory and applied statistics in your econometrics capstone project.
- Take the GRE, or the LSAT during the fall semester if you plan on graduate or law school.

SENIOR
- Discuss your required outside minor or the quantitative track, if you are interested in graduate school, with your department advisor.
- Meet with someone in the Career Center to explore career options and receive individualized assistance.
- Update your resume with help from the Career Center (auburn.edu/career) to use in graduate school and job applications.

ASK FOR ASSISTANCE
- Meet with your academic advisor regularly for individual planning and guidance.
- Attend the Friday Seminar Series to hear from professional economists in academia and government to learn about research and network with outside professionals.

GAIN EXPERIENCE
- Attend the Friday Seminar Series to hear from professional economists in academia and government to learn about research and network with outside professionals.
- Pursue an internship related to your career goals while earning academic credit.
- Use LinkedIn (linkedin.com/alumni) to identify past graduates in your major and contact them to set up informational interviews and shadowing opportunities.
- If you aspire to work in government Auburn on the Hill (auburn.edu/washington) is an excellent opportunity to intern at the federal level.

GET INVOLVED
- Join the Economics Club to connect with and receive advice from other undergraduate and graduate students and attend informative events with featured speakers.
- Utilize AUInvolve (auburn.edu/auinvolve) to identify organizations of interest to attend meetings and enhance your resume.
- If pursuing graduate education, get involved with undergraduate research opportunities.
- Look for leadership opportunities within your organizations to develop practical skills and abilities.
- Attend conferences related to your career interests to build your professional network.

Career Planning
