**ASK FOR ASSISTANCE**

- Meet regularly with your academic advisor and consult them when you have concerns about admission to particular classes or need more information about class requirements.

**GAIN EXPERIENCE**

- Start looking early to gain experience in research, an integral part of a potential applicant’s curriculum vitae.
- Use the Career Center to help search for related experiences.
- This is the perfect time to obtain a shadowing experience.
- Shadowing is an excellent way to observe your potential career in action.
- You should also consider conducting an informational interview.

- If you have not already, you will need to gain research experience for graduate school applications.
- Contact the Office of Undergraduate Research for additional information (auburn.edu/undgres).

**GET INVOLVED**

- Psi Chi is the International National Honor Society in Psychology and is a great way to look for potential research opportunities and meet people in your major with similar interests.

- SONA is the system used by Auburn University to sign up for research studies.
- Participating in research is a great way to familiarize yourself with the field and identify research opportunities.

- The APA is one of the major professional bodies of the field of psychology, and if you haven’t already, consider obtaining student membership to stay current in field developments and networking opportunities.

- If you are thinking of going to grad school, junior year is the time to start planning for graduate school so begin exploring program options and prep for the Graduate Record Examinations (GRE).

**Career Planning**

**Auburn University Career Center**

303 Mary Martin Hall | auburn.edu/career
