Greetings!

You are receiving this e-mail because you have either expressed, or have been identified as having, an interest in supporting or facilitating the use of electronic portfolios at Auburn University. Many of you have participated in the two workshops we held on February 14th and March 27th and some of you took time out to review an earlier draft of our proposal during the summer, to meet personally with members of the Development Committee, or to attend the open forum discussion on July 23rd.

My name is Richard Burt and I am chair of the Quality Enhancement Plan (QEP) Development Committee. The title of the QEP is “The ePortfolio Project.” The QEP Development Committee was charged “to deliver a complete draft of a working plan for Auburn’s e-portfolio project by September 1, 2012. After an opportunity for review and commentary by the campus community, the final draft of the QEP document will be submitted to SACS by January 2013.” The draft is now available for public review and comment. We would obviously like to have the draft reviewed by those on campus who either expressed, or have been identified as having, an interest in supporting the use of electronic portfolios.

The DRAFT QEP document is available on the QEP website at: http://www.auburn.edu/qep. The draft document is quite large and also contains a number of color images and graphics and maybe be best viewed online. We have also posted the SACS Indicators of an Acceptable Quality Enhancement Plan to aid you in your evaluation.

Getting the Auburn University community’s input is an important part of the QEP process and your contribution is important to us. We would also welcome the opportunity to talk with you or your department/program directly about this project. Please send your comments to Denise Stoeckel who is the Coordinator for SACS Reaffirmation. We would appreciate your comments before October 12th. Denise can be contacted at by phone at (334) 844-8728 or by email at DeniseStoeckel@auburn.edu.

I thank you in advance for your assistance in this significant endeavor.
