

Step 1

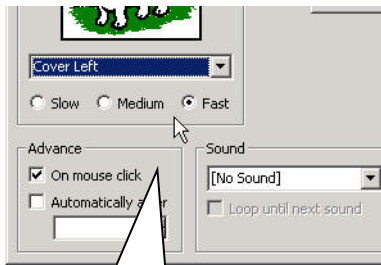

Click [Slide Show] [Slide Transition...].

Step 2

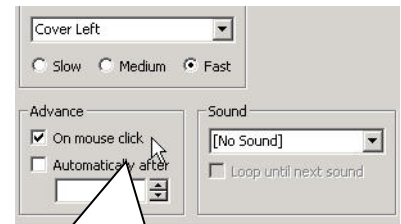

Select from the drop down menu what type of effect you want on your slide transition.

Step 3

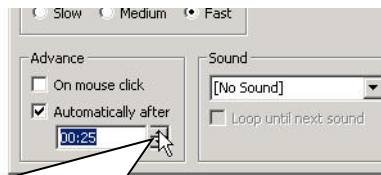

Select what speed you want the effect to be.

Step 4

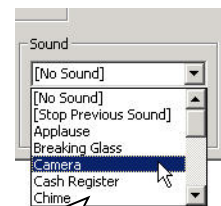

Place a check next to "On mouse click" if you want to change the slide manually.

Step 5

Place a check next to "Automatically after" if you want the slide to change automatically. You'll then have to enter a time amount until it changes.

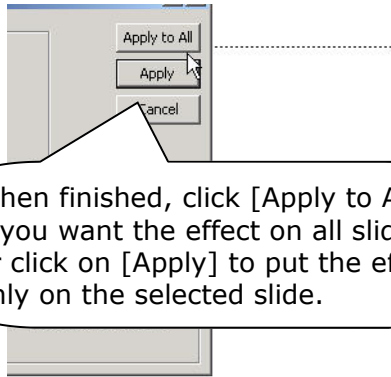

Step 6

Select a sound to be played every time the slide changes. If no sound is desired, select [No Sound].
