# LEED Green Associates Exam Prep Class

## Course Description

Learn about Green Building Fundamentals and prepare for the LEED Green Associate Exam in this eight hour class. The class is geared toward understanding the core concepts of LEED and preparing you for the LEED Green Associate exam and for part one of the new two part LEED AP exam. Participants will receive training on the concepts that are fundamental to the LEED Rating Systems and will learn successful green building strategies.

## Class Objectives

This course will help you:

- Identify the key components of the LEED Rating Systems
- Discuss the LEED Certification process
- Describe the intents and associated concepts of each LEED credit category
- Describe successful LEED strategies
- Prepare for the LEED Green Associate examination

## Course Agenda

- Introduction to Green Building Fundamental and Integrated Design Principles
- LEED and the LEED Process
- Sustainable Sites
- Water Efficiency
- Energy & Atmosphere
- Materials & Resources
- Indoor Environmental Quality
- Innovation in Design
- Regional Environmental Priority
- LEED Synergies
- LEED Green Associate Exam Tips

## What's Included

- Class Workbook
- LEED Green Associate Practice Tests
- Class completion certificate

Alabama Chapter

***This class will qualify you to take the LEED Green Associate Exam.***

The three ways to achieve eligibility to take the LEED Green Associate exam are:

- 1) attend an education program that addresses green building principles (This information is included in this class)
- Or 2) demonstrate previous experience in the form of a LEED-registered project
- Or 3) be employed in a sustainable field of work.

**This class will provide required eligibility. A certificate of completion will be issued to each participant.**
