Korea US Automotive Manufacturing Technology

A Workshop for the Korean Automotive and Supplier Companies

The Office of Professional and Continuing Education at Auburn University and the Korea Institute of Industrial Technology (KITECH) in partnership with Trenholm State Community College (TSCC) are pleased to provide the Korea US Automotive Manufacturing Technology Workshop. This workshop signifies the launching of a new partnership between the Korean automotive industry in Alabama and Georgia and local professional and educational systems in the Southeast United States.

Topics included in this workshop are:

- Welding and Joining Technology
- Design and Maintenance of Tools and Dies
- Metal Forming and Injection Molding
- Robotics, Pneumatics and Hydraulics
- Manufacturing Economics
- Toyota Production Systems

Who Should Attend:

This program is provided to meet the needs of:

- Professionals employed in the Korean automotive and supplier industries,
- Welding engineers and technicians,
- Automation engineers and technicians,
- Maintenance managers and supervisors, and
- Individuals who work with manufacturing technology and automation.

Advanced registration is requested. Attendance is limited to the first 50 registrants. Please complete and return the registration form on the back page of this brochure or at auburn.edu/automotiveworkshop

This workshop is provided free-of-charge, thanks to the generous sponsorship of KITECH and HYUNDAI.
