Indian Music Ensemble

New! Come learn the musical traditions of the Indian subcontinent. The basis of all classical music in India is a system of Ragas (melodic scales) and Talas (rhythmic patterns). In this class, you will learn these important fundamentals of Indian music and be able to perform simple compositions at the end of the semester. The class will be mainly vocal with instrumental options. The ensemble uses authentic Indian instruments - harmonium, tanpura, tabla, veena and sitar are incorporated into various classical and semi-classical compositions. If you are looking for a fun learning opportunity, this is it. If you play the flute, guitar, or any other instrument, please bring it to class.

Mondays  January 22 to April 23
229 Goodwin Music Building  5:00 – 7:00 PM
Chaitra Gururaj  $49

Pragmatic Tea Practices for Productivity (2 Options)

New! Tea has been used for thousands of years as a beverage, medicine, and status symbol. This course will discuss the use of tea as a productivity tool and the benefits it has over coffee and other stimulants. Learn how to boost your cognitive functions by mixing different types of tea, how to quickly prepare your tea in the office or when you’re traveling, and more. All participants will receive a tea goody bag including sample tea blends available nowhere else.

PROFESSIONAL CAREER AND TEST PREPARATION CERTIFICATE COURSES

TEST PREPARATION

ACT Blitz Courses (Online and Classroom)
These ACT preparation courses, whether you choose the 16-hour Live-Online ACT Blitz Preparation Course or the traditional classroom format delivered by an expert instructor who will provide students with all the interactivity of a face-to-face classroom experience. This class is designed to provide you with the skills necessary to succeed on the ACT. Live lessons give you the opportunity to participate in class discussions and learning exercises. As an added feature of the online class, each session is recorded so that you can review and learn lessons on your own time (access available 30 days after course end date). Instruction will cover all math and verbal skills needed for success on the ACT exam. Class sessions use actual test questions to show just how skills are tested on the ACT. The online class is offered using Adobe Connect software. All you need is a high-speed internet connection, speakers or head phones and Adobe Flash Player, which can be downloaded for free. Course materials will be delivered to your home or classroom. We recommend early registration as seats are limited for the classroom class to ensure proper one on one instructional time with each student.

MEDICAL/DENTAL CAREER PREPARATION

Clinical Medical Assistant Program
This program is intended for students who want to prepare for an exciting, challenging and rewarding career in healthcare. Students are trained to assist physicians by performing functions related to the clinical responsibilities of a medical office. Instruction includes preparation for certification examinations and treatment, routine laboratory procedures, diagnostic testing, technical aspects of phlebotomy and the cardiac life cycle. Students will review important topics including phlebotomy, pharmacology, the proper use and administration of medications, taking and documenting vital signs, cardiology including proper lead placements, a professional workplace behavior, ethics and the legal aspects of healthcare. This program includes 140 hours of classroom lecture, hands on labs and a 160-hour clinical externship opportunity at a local and permanent facility. To the oral cavity and related structures; proper patient positioning; dental hand-pieces; sterilization; and permanent teeth; the oral cavity and related structures; proper patient positioning; dental hand-pieces; sterilization; and other areas. In addition to entry-level administrative jobs, this course is ideal for students interested in pursuing a future Dental Hygienist program.

Dental Assisting Program
The 60-hour Dental Assisting Program prepares students for entry level positions in one of the fastest growing health care positions – Dental Assisting. The purpose of this course is to familiarize the student with all areas of pre-clinical dental assisting and provide training in the professional skills required to function as an assistant in the dental practice. This course covers the following key areas and topics – Anatomy, physiology, basic dental terminology, local anesthesia, dental hygiene, dental assisting; introduction to the dental office; the legal aspects of dentistry; policies and guidelines. Clinical Aspects: introduction to oral anatomy; dental operatory; dental equipment, introduction to tooth structure; primary and permanent teeth; the oral cavity and related structures; proper patient positioning; dental hand-pieces; sterilization; and other areas. In addition to entry-level administrative jobs, this course is ideal for students interested in pursuing a future Dental Hygienist program.

Medical Billing and Coding Program
This combined 80-hour billing and coding course offers the skills needed to solve insurance billing problems, file claims manually (using the CPT and ICD-10CM, ICD-10PCS and/or the ICD-9 manual), complete common insurance forms, trace delinquent claims, appeal denied claims and use generic forms to streamline insurance procedures. The course covers the following areas: CPT: (Introduction, Guidelines, Evaluation and Management), specialty fields (such as surgery, radiology and laboratory), ICD-10 and ICD-9 (Introduction and Guidelines) and basic claims process for medical insurance and third party reimbursements. Students will learn how to find the service and codes using manuals (CPT, ICD-10CM/PCS or ICD-9). Note: After obtaining the practical work experience (6 months to 2 years), students who complete this course could be qualified to sit for the American Academy of Professional Coders (AAPC) - Certified Professional Coder Exam (CPC or CPC-H Apprentice); the American Health Information Association (AHIMA) Certified Coding Assistant (CCA) exam; and/or other National Certification Exams.

LEGAL/CAREER PREPARATION

Paralegal Certificate Course
This intensive, nationally acclaimed program is designed for beginner and advanced legal workers. Training includes instruction on how to assist trial attorneys, interview witnesses, investigate complex fact patterns, research the law and assist in preparing cases for court presentation. Instruction is practice-oriented and relates to those areas of the law in which paralegals are most in demand. There are no prerequisites other than a high school diploma or GED, but students must be prepared to complete a significant amount of homework each week. This program can help students increase their office’s efficiency, productivity and billable hours, as well as learn new marketable job skills. The required books for this class are sold separately, and the approximate cost is $450.
