Nutrition & Fitness Professional Certificate Program

Mentor Supported

MyCAA Information

Course Code: AU -NFP2

Program Duration: 9 Months

Course Contact Hours: 540

Student Tuition: \$3,950

This training program combines a two course training track:

- **Nutritional Consultant**
- **Fitness & Nutrition Coaching**

The general public has come to realize that they can influence their own health. This insight has spurred an interest in personal wellness and created a desire for health information. There are differing views about what specifically constitutes health and wellness. In general, it can best be described as a blend of physical health and health sciences. Health is not just the absence of illness but it's a feeling of overall well-being. This course takes a personalized approach that guides you through the development of an attainable and enjoyable fitness and wellness program. The program provides current, practical information and tips on health and fitness topics, from nutrition and stress management, to flexibility and strength. Each individual is responsible for their own personal health, but first they must be given proper information. As a Fitness & Nutrition Coach you will be able to provide people with information to improve their health and quality of life. In this course you will also learn more about developing a successful coaching business and marketing your coaching practice.

The Job Outlook

The Bureau of Labor Statistics projects moderate job growth for dietitians and nutritionists through 2020. Awareness of and emphasis on wellness, nutrition and fitness have grown in recent decades. Demand for fitness and nutrition consulting is projected to remain strong.

Certification:

Upon successful completion of our Nutritional Consultant course, students will be prepared for an entry-level position as a nutritional coach and will be prepared to sit for the NCCB national certification exam to become a **Certified Nutritional Coach (CNC)**.

Nutritional Consultant

270 Hours

Overview

Although many people understand the importance of healthy nutrition habits and good fitness patterns, it is sometimes hard to accomplish goals on their own. A Nutritional Consultant can help clients adopt a healthy lifestyle. Our Nutritional Consultant training provides students with an understanding of how food nutrition contributes to the prevention of illness and the promotion of optimal health. Students learn to conduct in-depth diet and lifestyle evaluations and to advise individuals on food plans customized to each individual's taste, temperament, and health goals. The fundamentals of whole food nutrition, digestive physiology, metabolism, nutritional biochemistry, and current research are presented. Additionally, students will discover how healthy nutrition habits are used in the food industry. Our Nutritional Consultant course will give students the training they need to work with clients of all ages, backgrounds, and fitness levels.

After completing this course, you should be able to:

- Comprehend healthy food guidelines and how to plan diets
- Identify how nutrition aids in health and how foods are used by the body
- Define vitamins and minerals and their role in the body
- Comprehend the credibility of nutrition information and how nutrition used in the food industry
- Identify the nutritional needs throughout the lifespan

Outline

Nutritional Consultant Module 1

Materials:

All materials are included in this course.

Certification:

Upon successful completion of our Nutritional Consultant course, students will be prepared for an entry-level position as a nutritional coach and will be prepared to sit for the NCCB national certification exam to become a **Certified Nutritional Coach (CNC)**.

System Requirements:

Internet Connection

- Broadband or High-Speed - DSL, Cable, and Wireless Connections

*Dial-Up internet connections will result in a diminished online experience. Classroom pages may load slowly and viewing large audio and video files may not be possible.

Hardware Requirements

- Processor - 2GHz Processor or Higher
- Memory - 1 GB RAM Minimum Recommended

*While our courses are accessible through multiple mobile learning platforms, some courses may include a CD or DVD with the Textbook, so you may need access to a computer with CD-ROM or DVD Drive.

PC Software Requirements

- Operating Systems - Windows Vista, Windows 7, Windows 8 or 8.1
- Microsoft Office 2007, 2010 or 2013 or a Word Processing application to save and open Microsoft Office formats (.doc, .docx, .xls, .xlsx, .ppt, .pptx)
- Internet Browsers - Google Chrome is highly recommended
 - Cookies MUST be enabled
 - Pop-ups MUST be allowed (Pop-up Blocker disabled)
- Kindle Reader App is needed for many of our courses (No special equipment needed. This can be downloaded for FREE onto your computer.)
- PowerPoint Viewer (if you do not have PowerPoint)
- Adobe PDF Reader
- QuickTime, Windows Media Player &/or Real Player

MAC Software Requirements

- Operating Systems - Mac OS x 10 or higher with Windows
- Mac office programs or a Word Processing application to save and open Microsoft Office formats (.doc, .docx, .xls, .xlsx, .ppt, .pptx)
- Internet Browsers- Google Chrome is highly recommended
 - Cookies MUST be enabled
 - Pop-ups MUST be allowed (Pop-up Blocker disabled)
- Kindle Reader App is needed for many of our courses (No special equipment needed. This can be downloaded for FREE onto your computer.)
- PowerPoint Viewer (if you do not have PowerPoint)
- Adobe PDF Reader
- Apple QuickTime Media Player
- If your course has a CD-ROM or DVD included, you **may** need to have Microsoft Window Operating Systems over Bootcamp (Bootcamp is a free download from Apple's website) or Windows setup with Parallels.

****Outlines are subject to change, as courses and materials are updated.****

Fitness and Nutrition Coaching

270 Hours

Overview

Our Fitness and Nutrition Coaching course provides all the information you need to coach others to their optimal health. This comprehensive guide will show you all the aspects of health and wellness and how they can be applied to unique individuals. Health is not just the absence of illness but it's a feeling of overall well-being. This course takes a personalized approach that guides you through the development of an attainable and enjoyable fitness and wellness program. Learn current, practical information and tips on health and fitness topics, from nutrition and stress management, to flexibility and strength. Each individual is responsible for their own personal health, but first they must be given proper information. As a Fitness & Nutrition Coach you will be able to provide people with information they can use to improve their quality of life.
