Education and National Certifications

- Pharmacy Technicians should have or be pursuing a high school diploma or GED.
- There are no state approval and/or state requirements associated with this program.
- Students who complete this course are prepared for national certification:
 - **Pharmacy Technician Certification Board (PTCB) national technician certification exam**
 - **National Healthcareer Association (NHA) Certified Medical Administrative Assistant (CMAA) exam**

National Certification

Students who complete the Auburn University Pharmacy Technician program will be prepared to sit for the Pharmacy Technician Certification Board (PTCB) national technician certification exam and the National Healthcareer Association (NHA) Certified Medical Administrative Assistant (CMAA) exam. Although there are no state eligibility or registration requirements for Medical Administrative Assistants, in order to work as a pharmacy technician, many states nationwide are requiring that technicians achieve national PTCB technician certification. This comprehensive program is designed to prepare students to sit for this PTCB national certification exam and the NHA – CMAA exam. Students who complete this program can and do sit for these national certification exams and are qualified, eligible and prepared to do so.

Clinical Externship / Hands on Training / Practicum

Although not a requirement of this program, once students complete this program they have the ability to participate in a clinical externship and/or hands on practicum so as to practice the skills necessary to perform the job requirements of a Pharmacy Technician and or a Medical Administrative Assistant. Students will be assisted with completing a resume and/or other requirements necessary to work in a hospital, physicians practice, clinic and/or with other healthcare organizations. All students who complete this program are eligible to participate in an externship and will be placed in a healthcare organization near their location. Auburn University works with national healthcare organizations and has the ability to place students in clinical externship opportunities nationwide.
