

Summer Experience 2009

These one-week camps provide opportunities for students to stretch their minds while experiencing a collegiate lifestyle on our campus. Academic work is balanced with supervised social and recreational activities designed to allow campers to make new friends and meet professionals who share their interests. The camps are a valuable journey of discovery. Enroll early to guarantee a space!

ARCHITECTURE CAMP – Sun.-Fri. June 21-26

High school students interested in architectural design will enjoy this exciting camp led by College of Architecture faculty. Classes involve basic design concepts, hands-on exercises, and technical demonstrations. Camp culminates with an exhibition of the students' projects. www.auburn.edu/outreach/architecture

BUILDING CONSTRUCTION CAMP – Sun.-Fri. June 21-26

How does the concept for a building become a reality? Rising 9th-12th graders will learn construction basics and how to integrate building design with site, climate, function, and 'green' considerations. This camp is an excellent starting point for teens considering a career in architecture or building science. www.auburn.edu/outreach/construction/program.htm

DESIGN WORKSHOP – Sun.-Fri. June 7-12

Creative high school students with a flair for art and an interest in design will learn design fundamentals and progress to more advanced concepts. Studio classes taught by AU faculty will provide hands-on work and individual guidance as each student conceives of and completes a project using photo, computer, wood, and plastic fabrication labs. www.auburn.edu/outreach/id

ENGINEERING TIGERS CAMP (Sr.) – Sun.-Fri. June 14-19

Rising 9th-10th graders who have interest in problem-solving, math, and science are invited to explore engineering through sessions led by faculty from various departments in the College of Engineering. Previous participants in the 7th and 8th grade TIGERS camp are encouraged to attend, but it is not a prerequisite.

MUSICAL THEATRE CAMP – Sun.-Fri. July 19-24

Rising 9th-12th graders can sing, dance, and "play" for a week as they rehearse for a spectacular musical theatre finale on the last day of camp. AU faculty from the departments of Music and Theatre will provide individualized instruction in dance, vocal training, acting, and movement.

WORLD AFFAIRS YOUTH SEMINAR – Sun.-Fri. July 19-24

High school students interested in debate, current events, social studies, leadership, politics, or public service are invited to participate in a program that focuses on international affairs. The purpose of the annual seminar is to promote world peace tomorrow by training tomorrow's leaders today! Model United Nations sessions provide the vehicle for promoting individual involvement in a debate of international issues.
