Alternative Students Breaks

War Eagle! My name is Joseph Dumas and I am running for SGA Vice President. I would like to tell you about my Auburn Dream. I define the Auburn Dream as a fair opportunity to become successful in academics, leadership, and extracurricular activities at Auburn University, and being well equipped for success after graduation, no matter your socio-economic background, race, religion, or gender. As your SGA Vice President, I will work to enhance the position of the Senators by holding them more accountable for their college. I would also like to enhance the relationship between the Senators and the students within their college. I will inform the students at Auburn to understand that there are Senators in their college that represent them at SGA meetings and functions, so if they have problems or concerns, they should consult their Senator and their Senator can inform SGA of their concern. This would help every student have the opportunity for success. As Vice President, I would also encourage Senate to vote on the usage of the Tiger Card meal plan in the stadium, baseball complex, and arena during sporting events. I love Auburn University so much and I would love the opportunity to be your SGA Vice President and help with the legislative process of SGA and make living the Auburn Dream possible for every student. Auburn University is a family and as a member of this family I will ensure that every student has equal opportunities for success. So “Live the dream with Dumas” and vote Dumas for your SGA Vice President.
