

College of Liberal Arts

REBEKAH H. PINDZOLA, *Interim Dean*
ANTHONY G. CAREY, *Associate Dean*
GREG KOWALSKI, *Acting Associate Dean*

IN THE COLLEGE OF LIBERAL ARTS, a student can specialize in a particular field while also gaining a broad general education. Four academic areas - humanities, fine arts, communications and behavioral and social sciences - are represented by the College's 13 departments: Art; Communication and Journalism; Communication Disorders; English; Foreign Languages and Literatures; History; Music; Philosophy; Political Science; Psychology; Sociology, Anthropology and Social Work; and Theatre.

Besides affording specialization in majors, the curricula of this College lay a strong foundation for further studies in graduate school or professional school. The College also provides courses needed by students of all other instructional divisions of the University.

Academic Policies

To earn a second baccalaureate or a double major, students must complete a separate body of knowledge appropriate for the degree; the Liberal Arts dean's office determines when this is possible. AU academic policy stipulates the minimum hours necessary in addition to the primary degree or curriculum. Liberal Arts consistently monitors that, at a minimum, there must be 30 additional hours of non-overlapping course work in the major.

Undergraduate Degrees

Academic majors, programs, and options are offered in more than 30 fields, described below in the Liberal Arts Curriculum and in the curricula of the School of Fine Arts. Four-year degrees offered by the College in these fields are the Bachelor of Arts, Bachelor of Science and Bachelor of Fine Arts. The Bachelor of Arts degrees in French, German and Spanish are offered as shared degrees between Auburn University and Auburn University Montgomery, effective Fall 2002.

Graduate Degrees

Doctor of Philosophy degrees are offered in English, History, Psychology, and Public Administration and Public Policy. Master of Arts degrees are offered in English, Spanish, History, Political Science, Sociology and Communication. Master of Science degrees are offered in Communication Disorders and Psychology.

The designated degrees of Master of Communication Disorders, Master of Hispanic Studies, Master of Communication, Master of Public Administration and Master of Technical and Professional Communication are offered. The College's School of Fine Arts offers Master of Fine Arts degrees. Degree programs are described in the Graduate School section.

Education

The College of Education offers a Fifth-Year Program to Liberal Arts students holding a baccalaureate degree in English or foreign language. Upon successful completion of the program, a master's degree in Education (M.Ed.) will be awarded and the graduate will be recommended for an A level teaching certificate (master's level certificate).

The University Honors College

This program offers individual learning opportunities and participation in honors courses to students with extraordinarily high academic aptitude. For more information, refer to the Academic Policies section of this Bulletin.

Cooperative Education Programs

Cooperative Education Programs which give students an opportunity to integrate academic training with work experience are offered in Art, Criminology-Criminal Justice, Economics, English (technical writing), Health Administration, Journalism, Mass Communication, Political Science, Psychology, Public Administration, Public Relations, Social Work and Sociology. Students alternate each term between college and a work assignment provided through the Director of the Cooperative Education Program.

Center for the Arts and Humanities

The Auburn University Center for the Arts and Humanities conducts humanities programs for the general public in localities throughout the state. For information, contact Dr. Allen Cronenberg, Director, in the Center's offices at Pebble Hill.

Majors in the Liberal Arts Curriculum

A major may be declared at the time of admission or thereafter but must be declared by the end of the term in which the student has completed 45 semester hours of credit, including transfer and all other credit. A student transferring into the college with 45 or more semester hours' credit must declare a major upon admission. Before a major is declared, a student will follow the requirements of the Liberal Arts Curriculum and will be identified by the symbol UNLA.

Bachelor of Arts: Anthropology, Art, Communication, Criminology-Criminal Justice, Economics, English, Foreign Languages-International Trade [these include the shared AU-AUM undergraduate language courses required of the major but not non-language courses required for the major], French, [shared AU-AUM degree], German [shared AU-AUM degree], History, Journalism, Mass Communication, Philosophy, Political Science, Psychology, Public Administration, Public Relations, Social Work, Sociology, Spanish [shared AU-AUM degree], and Theatre.

Bachelor of Science: Communication Disorders and Health Services Administration.

Options

Engineering. This program provides for enrollment in the Liberal Arts Curriculum and in the College of Engineering. Two degrees will be awarded: a bachelor of arts degree in the Liberal Arts major and a bachelor's degree in the designated engineering field. Students should receive dual advising through the Colleges of Liberal Arts and Engineering. Typically, five to six academic years are necessary to complete dual requirements.

Pre-Law. Most majors and curricula are accepted as preparation for the study of law. Courses deemed useful, and which may be taken as electives, in majors, and in some cases to fulfill certain core requirements, are available from the Pre-Law Program, located in Haley Center, where students receive advice on preparing for law school admission and the study of law.

Pre-Health. Most majors and curricula in Liberal Arts are accepted as preparation for professional degrees in health, including advanced degrees from schools of medicine, dentistry, optometry, physical therapy, occupational therapy and others. Generally, particular courses in the sciences, mathematics and philosophy should be taken in the University Core. Additional sciences and mathematics may be needed as electives. The University's Pre-Health Adviser, housed in the College of Sciences and Mathematics, should be consulted for elective and core course guidance and for assistance in applying to graduate/professional schools. The Liberal Arts Adviser is available for all other matters related to the student's undergraduate studies.

School of Fine Arts

In all Fine Arts curricula, electives may include six hours Basic ROTC or Advanced ROTC. In curricula which do not provide sufficient electives for this purpose, ROTC may be taken in lieu of required courses not in the University core to be selected with help of departmental adviser.

Course prefix symbols for Fine Arts Curricula: Art (ARTS), Music (MUSI, MUAP), Theatre (THEA)

Department of Art

The Department of Art offers two fields of study - Graphic Design and Studio/Fine Arts. Graphic design prepares students to create publications such as magazines, posters, illustrations, and books, as well as web sites and multi-media presentations. Fine Arts prepares students to become artists and for careers in visual arts institutions.

The Department of Art offers two professional degrees: the B.F.A. in Studio Art (ARTF) and B.F.A. in Graphic Design (ARTG). Admission into the B.F.A. in Graphic Design is selective and based on a two stage process. Contact the Department of Art for details. Fine Arts students choose one area of concentration: painting, sculpture, printmaking or ceramics. Graphic Design students follow a curriculum that provides variety and depth in all aspects of the field, supported by Fine Arts electives. Both degrees provide significant, intensive studio experience. The B.A. in Art (ATLA - listed under Majors in the Liberal Arts Curriculum) is for students who want a studio art education within the liberal arts tradition. Students elect studio courses in several areas, rather than a single concentration. Students in this program have greater flexibility in electives, enabling them to access a broad array of courses within the university.

All majors share a structured program in visual arts fundamentals, are supported by courses in art history, and promote an understanding of the roles and responsibilities of artists and designers in society.

The Department of Art is an accredited member of the National Association of Schools of Art and Design, and a member of the College Art Association.

ARTS 2000/3000/4000-level Studio: See adviser for approved course listing. Students either pass the computer competency test or take COMP 1000 as one of their electives.

Transfer

Art studio course credit earned (C or better) will be considered for advanced standing if a complete portfolio of work is submitted to the Auburn Art Department for evaluation. If the examples do not approximate Auburn's requirements, then credit may be given for an art studio elective. If the quality of work is not acceptable, credit may be given for an open elective. Transfer students are advised that their degrees may require more than a total of four years because of the professional nature of Auburn's curriculum, the sequential arrangement of its courses, and heavy demands for enrollment.

Department of Music

The Department of Music provides students a variety of music experiences. Performance groups, such as the Marching Band, Symphonic Band, Concert Band, Campus Band, Orchestra, Concert Choir, Men's Chorus, Women's Chorus, University Singers, Gospel Choir and various smaller music ensembles, are available to all qualified university students. Many performance groups require a successful audition before admission. Information is available within the department.

The Department of Music works in cooperation with the College of Education in course offerings for music education degrees. Students pursuing music education degrees will register through the College of Education.

The Department of Music also offers a Music Minor in performance. Students must audition for the program. More information is available in the Music Department office.

All students taking private instruction (MUAP) will be auditioned before enrollment and must concurrently enroll in MUSI 1000 (Performance Attendance). Regulations concerning this class are available in the Music Department Office.

Department of Theatre

The Department of Theatre provides instruction and production experience to students interested in developing their talents in the theatre arts, whether as majors or non-majors. Consequently, a broad range of classroom, laboratory, and performance experiences is provided in acting, directing, scenic and lighting design, costume design, theatre technology, construction and crafts, theatre history, dramatic literature, theatre criticism, theatre administration and management.

The Bachelor of Arts degree is designed for students seeking to study theatre within the liberal arts curriculum. The B.A. (THLA) is for students who choose to study theatre as a humanistic discipline or who wish to concentrate in theatre history/criticism, dramatic literature, performance or production.

The Bachelor of Fine Arts degree is for students who have specific professional goals in mind. The B.F.A. (THEA) is for students seeking professional training and/or desiring an intensive program in a specific area of theatre. Admission to the program, generally at the end of the sophomore year, is by audition or presentation of portfolio for the Theatre faculty. Students are expected to maintain a 2.7 GPA in their area of emphasis, subject to continued term review by the faculty. Final recommendation for graduation is made after the successful presentation of a recital or a major role or the successful execution of a design or major project during the student's final year.
