

# James Harrison School of Pharmacy

R.LEE EVANS, Dean  
PAUL JUNGNIKKEL, Associate Dean

**T**HE AUBURN Pharm.D. degree program is a four-year course of study that requires the completion of the pre-pharmacy curriculum prior to admission. The curriculum is designed to facilitate the development of those abilities necessary for entry-level practitioners in various practice settings. Consistent with accreditation standards and guidelines, the curriculum provides an appropriate balance of course work in the following areas: biomedical sciences (basic and clinical); pharmaceutical sciences; behavioral, social, and administrative pharmacy sciences; pharmacy practice; and pharmacy practice experience. The goal of the curriculum is to prepare students who can provide pharmaceutical care and are life-long learners. To accomplish this, the curriculum involves students in continuous patient care responsibilities starting upon entry into the School. Students also participate as active, self-directed learners in interdisciplinary teaching models.

## Admission

Course requirements for admission to the Harrison School of Pharmacy may be satisfied by completion of the Pre-Professional Curriculum in the College of Sciences and Mathematics. Any or all of these requirements may be met by transfer of credit from other institutions.

Admission is limited and is contingent upon available facilities and faculty. To be considered for admission the applicant must have a satisfactory GPA and satisfactory scores on the Pharmacy College Admissions Test (PCAT). A grade of D in any required course will not be accepted. Students are accepted into the Harrison School of Pharmacy only during fall semester. All pre-pharmacy course work must be completed by the end of the summer term before the professional program begins during fall semester.

For priority consideration, applications should be submitted no later than January 15. To be considered for admission, applicants are required to come to campus for a personal interview. Prospective students may obtain application materials, which further outline admissions policies and procedures, from the Office of Academic and Student Affairs, 209 Walker Building, Auburn University, AL 36849-5501 or online at [www.pharmacy.auburn.edu](http://www.pharmacy.auburn.edu).

\* The requirements for admission to the Harrison School of Pharmacy are currently under revision. It is anticipated that students entering the School beginning Fall Semester 2005 will be required to complete approximately 83 semester hours of prescribed pre-requisite courses. Students who intend to apply for admission to the Harrison School of Pharmacy class entering Fall Semester 2005, or for subsequent entering classes, are advised to contact the School's Office of Academic and Student Affairs (334)-844-8348 for information necessary prepharmacy course work.

## Academic Performance Standards

- The implementation of all guidelines will be in addition to those existing policies and standards of the University.
- To remain in good standing, students are required to achieve a School of Pharmacy GPA of at least 2.25. GPAs will be calculated only from professional course work, which is defined as core pharmacy courses approved by the faculty and listed in the Doctor of Pharmacy curriculum.
- Harrison School of Pharmacy students with semester or cumulative GPAs below 2.25, or who receive Ds and Fs in required courses may be dismissed from the Harrison School of Pharmacy or required to undergo a remedial plan of study as directed by the Committee on Admissions and Academic Requirements. The remedial plan of study may require students to retake courses in which they received grades of less than C. Policies concerning academic progression, probation, and dismissal are specified in the Harrison School of Pharmacy's Academic Performance Standards. A copy of the Standards may be obtained from the Harrison School of Pharmacy's Office of Academic and Student Affairs.
- Students must observe pre-requisites and co-requisites stated in the current Auburn University Bulletin. A pre-requisite statement denoting "\_\_\_-year PYDI standing" indicates that the student must have passed all courses in the prior year of the curriculum.
- Any student in the pharmacy curriculum who is subject to academic suspension and desires to re-enter the Harrison School of Pharmacy must, in addition to complying with the pertinent Uni-

versity regulations, be approved by the Harrison School of Pharmacy's Committee on Admissions and Academic Requirements.

#### NOTES:

- Students are required to file an application with the Alabama State Board of Pharmacy for registration as an intern at the time they are enrolled in the Harrison School of Pharmacy. Information and intern registration forms may be obtained from the Alabama State Board of Pharmacy, One Perimeter Park South, Suite 425 South, Birmingham, AL 35243.
- Upon entering pharmacy school, and at the beginning of each academic year, students are required to furnish professional liability insurance, current CPR and First Aid certification, personal medical insurance and documentation that immunizations are up-to-date.
- Pharmacy students are required to attend the Professional Seminar Series.
- All Harrison School of Pharmacy elective courses are acceptable for professional electives credit. The Office of Academic and Student Affairs will provide information on any non-pharmacy elective courses which are acceptable. ROTC students should see their adviser concerning special elective credit.
- Students in the Doctor of Pharmacy program are required to own a laptop computer that meets the School's specifications. Questions about computer specifications should be directed to the School's Office of Information Technology. Computer literacy must be demonstrated upon entry to pharmacy school.
- Students having appropriate qualifications and pre-requisites may be able to take graduate course work while enrolled in the Doctor of Pharmacy program. However, such work cannot be applied toward both the Doctor of Pharmacy and graduate degrees.
- Students are required to adhere to all of the Harrison School of Pharmacy's codes, policies, and professional requirements. The School will take disciplinary action against those students who violate such codes, policies, and professional requirements.
- Students will be required to periodically take examinations to assess their ability to integrate the knowledge, skills, and attitudes learned to date. Students may be required to complete remedial course work should their performance be unsatisfactory.
- Consistent with the policies of Auburn University, The Harrison School of Pharmacy reserves the right to at any time make changes in its academic programs, codes, policies and professional requirements.
- Students will be notified of their site assignments for the Advanced Practice Experiences at the earliest feasible time, to enable them to make housing arrangements. Rotation sites are located throughout Alabama, western Georgia and the Florida panhandle. Although students may request specific sites, each site has a limited enrollment and students may be assigned to sites they do not request. Students are responsible for procuring housing, including the assessment of its safety and living conditions (e.g., privacy and single-sex housing). Students are also responsible for housing and other living expenses incurred when assigned to rotation sites away from the Auburn campus.
