

College of Education

BONNIE J. WHITE, *Interim Dean*
 ROBERT E. ROWSEY, *Associate Dean*
 EMILY A. MELVIN, *Assistant Dean*

THE COLLEGE OF EDUCATION is accredited by the National Council for Accreditation of Teacher Education for the preparation of teachers and school service personnel with the doctor's degree as the highest degree approved. Emphasis in all programs is upon the preparation of personnel who will be able to meet successfully the performance demands of the roles they assume in their professional positions.

Undergraduate Curricula

Bachelor's degree options in the College of Education are the Bachelor of Science in Education and the Bachelor of Music Education.

Teaching and non-teaching programs are offered through the College of Education. Teaching programs are presented first, followed by non-teaching programs.

Scholastic Requirements - In recognition of responsibilities to the schools in which its graduates teach, the College maintains a program of selective admission and retention of candidates for the teaching profession. This program is designed to assure that no candidates are recommended for admission to the Teacher Education Program, the professional internship or certification unless they are deemed competent in their university studies and professional performance.

Transfer Requirements - A minimum GPA of 2.5 (on a four-point scale) on all college courses attempted, on all courses attempted at Auburn, and on all courses attempted in the intended program is required to transfer into the College of Education.

Admission to Teacher Education in Early Childhood Education and Elementary Education Programs - All freshmen and transfer students entering the Early Childhood Education program will be classified pre-Early Childhood (GCEC); all freshmen and transfer students entering the Elementary Education program will be classified pre-Elementary (GCEE). Admission to Teacher Education will occur in each of these two programs following the procedures listed below. Students should check with Professional Education Services for specific application deadlines/procedures each term.

- Students must submit a formal written application for admission to Teacher Education after completing at least 45 semester hours applicable to their program, usually at the end of the sophomore year. To be eligible to apply, the following criteria must be met:
 - minimum GPA of 2.50 on all course work attempted,
 - minimum GPA of 2.50 on all course work attempted at Auburn,
 - minimum cumulative GPA of 2.5 on all course work attempted, in the program, in professional studies and in the teaching area,
 - successful performance in the pre-professional field experience (pre-teaching), and
 - Alabama Prospective Teacher Test taken.
- All students meeting the above criteria who are applying for junior level admission to these two programs will be ranked by GPA from 4.0 downward on all college course work attempted. The top 17 candidates for Early Childhood Education will be forwarded each semester, including summer, to total 51 per year. The top 50 candidates for Elementary Education will be forwarded fall semester and 25 spring semester, to total 75 per year.
- The selected candidates will be eligible to proceed to the professional interview for admission to Teacher Education.
- Once admitted, the student's curriculum designation will be changed to Early Childhood (CEC) or Elementary (CEE).

Students who apply and are not selected for admission to Teacher Education in one of these two majors will be counseled as to their options in education, but may not continue to pursue that major.

Admission to Teacher Education in All Other Programs

- Students must submit a formal written application for admission to Teacher Education after completing at least 45 semester hours applicable to their program, usually at the end of the sophomore year. To be eligible to apply, the following criteria must be met:
 - minimum cumulative GPA of 2.5 on all course work attempted,
 - minimum GPA of 2.5 on all course work attempted at Auburn
 - minimum cumulative GPA of 2.5 on all course work attempted in the program, in professional studies and in the teaching area,

- successful performance in the pre-professional field experience (pre-teaching), and
- Alabama Prospective Teacher Test taken.

- All students meeting the above criteria will be eligible to proceed to the professional interview for admission to Teacher Education.

Students who fail to meet these criteria upon initial application may submit new evidence in an effort to satisfy any and/or all of the above standards.

Retention in Teacher Education Programs. - While retention in the Teacher Education Program is based on the continuous evaluation of students, a formal evaluation takes place as a pre-requisite for admission to the professional internship. Requirements for admission to the professional internship are: (1) admission to the Teacher Education Program; (2) completion of appropriate courses in the area of specialization as specified on the program checklist; (3) a minimum GPA in each of the following: (a) Auburn University cumulative, (b) professional teacher education, (c) the teaching major(s) and overall program; (4) demonstrated potential for teaching.

To be eligible for graduation with recommendation for teacher certification, students will be expected to complete the requirements identified above and demonstrate readiness to teach through a successful internship and exit evaluation.

Persons with degrees may apply for study in a curriculum leading to professional certification. The same standards must be met to qualify for recommendation for certification. Applications and specific information about the criteria for admission to Teacher Education are available from the Professional Education Services Office in 3464 Haley Center.

Professional liability (tort) insurance is required for students in designated majors.

Program Options, Teaching

The following table shows teacher education program options available in the College of Education. **All Secondary Education programs (6-12) and Music Education (P-12) meet the University requirement for an academic major.** (See page 14 under Academic Programs and Curricula.) Programs appear by department.

Department and Program	Grade Levels				
	P-3	K-6	4-8*	6-12	P-12
Curriculum & Teaching					
Agriscience Education					X
Business Education					X
Chemistry					X
Early Childhood			X

Early Childhood Special Education (birth through 8 years)					

* Students completing an Elementary Education (K-6) program or some Secondary Education (6-12) programs may complete additional course work to add a Middle School (4-8) teaching endorsement.

Requirements for Fields of Specialization

Curriculum models appear below. Curriculum checklists are available in the Office of Teacher Education Services, 3464 Haley Center.

Minors

ADULT EDUCATION MINOR

15 semester hours in Minor

Courses required:		Cr. Hr.
ADED 4600	Nature of Adult Education	3
ADED 4620	Comm. Concepts, Programs and Resources	3
ADED 4660	Teaching in the Non-School Setting	3
ADED 4970	Special Topics in AE	3
Adult Education adviser-approved elective		3

EXERCISE SCIENCE MINOR

16 semester hours in Minor

Courses required:		Cr. Hr.
HLHP 3020	Sci. Found in HLHP	4
HLHP 3620	Biomechanics	4
HLHP 3650	Motor Learning & Performance	4
HLHP 3680	Physiology of Exercise	4

OFFICE SYSTEMS MANAGEMENT MINOR

15 semester hours in Minor

Choose from:		
CTCT 1200	Keyboarding & Formatting	3
CTCT 2200	Document Processing	3
CTCT 3000	Leadership Skills for Pers./Org. Dev	3
CTCT 3200	Records Management	3
CTCT 3240	Information Processing I	3
CTCT 3250	Information Processing II	3
CTCT 4200	Managing Office Systems	3
CTCT 4940	Directed Field Experience in Bus. Ed	3
CTCT 4970	Special Topics in Bus. & Office Ed	1-3

SPORT COACHING MINOR

16 semester hours in Minor

Courses required:		Cr. Hr.
HLHP 3020	Sci. Found in Health & Human Perf.....	4
HLHP 3820	Principles of Sport Coaching	3
HLHP 4620	Exercise & Sport Psychology	3
HLHP 4970	Seminar Special Topics	4
HLHP 4910	Practicum	2

Non-Degree Program

The Physical Activity and Wellness Program is a non-degree program that requires 8 hours (4 courses), including PHED 1100, Wellness, and 3 courses (each one from a different category of physical activity). Categories include cardio-respiratory fitness (PHED 1200), fitness and conditioning (PHED 1300), team sports (PHED 1400), individual sports (PHED 1500), performance activities (PHED 1600), and aquatic skills (PHED 1700). Students who complete the 8-hour program may apply for a Physical Activity and Wellness Certificate, issued by the Department of Health and Human Performance. Students may also elect to take individual courses, without completing the 8-hour program. Of course, students may elect to take more than 4 courses, if they desire to use the program to insure a regular physical activity program.

* Pre-requisite admission to Teacher Education.

+ Pre-requisite to internship.

++ Co-requisite with internship.

Students must apply for internship one year prior before internship.

Field Experiences

The Laboratory Experiences Program provides sequential learning opportunities in public school and community settings for students throughout the teacher preparation program. Laboratory experiences are provided primarily through the following programs: (1) Field Experience Program, (2) Extended Laboratory Experiences, and (3) Professional Internship.

The pre-teaching Field Experience Program provides an initial experience for all students as a pre-requisite for admission to the Professional Teacher Education Program. This experience involves the students in planning and evaluating learning experiences, counseling, participating in pre-school conferences and faculty study, school and community meetings and involvement in actual teaching situations.

The Extended Laboratory Experiences Program is conducted concurrently with enrollment in professional education courses which provide experiences in the schools and communities.

The Professional Internship is a full-time assignment in an off-campus school and community. Experiences include personal and professional contacts with phases of community life and the application of concepts, skills and knowledge the students have acquired in classroom situations.

The students must register for Professional Internship and pay fees the semester they intern. The program is divided into orientation, off campus experience and evaluation. Students must be admitted to the Teacher Education Program prior to the Professional Internship, must have completed appropriate courses in their areas of specialization, and must meet minimum GPA requirements.

Other laboratory experiences for students are provided within the framework of courses in the Teacher Education Program.

Dual Objectives Program

Students in other schools and colleges of the university who wish to complete requirements for graduation in an academic department and also to complete the degree requirements of the Teacher Education Program may pursue the dual objectives program. Students should inquire in their dean's office to determine if their college/school participates in the dual objectives program.

Students electing to pursue the dual objectives program will have an adviser in the academic department in which they are enrolled and an adviser in the College of Education. Advising students concerning the curriculum of the academic department, including the major and other requirements, will be the responsibility of the adviser in that department. The responsibility for advising students on matters concerning the Teacher Education Program will be that of the adviser in the College of Education. The semester course schedule of the students will be approved by both advisers. Information describing the dual objectives program is available in the Professional Education Services Office of the College of Education in Haley Center and in the dean's office where the students are enrolled.

Students enrolled in the College of Education who desire to complete certification requirements in more than one teaching field will complete the curriculum in each field: general studies, teaching specialization and professional teacher education (including the internship).

Applications and specific information about the criteria for selection and admission to Teacher Education are available in the Professional Education Services Office in Haley Center 3464.

Programs, Non-Teaching

The following is a list of non-teaching curricula available. Programs appear by department.

Educational Foundations, Leadership and Technology

Adult Education. A program to prepare students concerned with the learning of adults. This program, at the undergraduate and graduate levels, prepares students for positions in adult continuing education programs, corporate training departments, private training enterprises and education programs within community colleges and universities. This program does not require admission to Teacher Education.

Health and Human Performance

Exercise Science. A non-teaching program to prepare students for graduate study in the exercise science sub-disciplines (biomechanics, exercise physiology, and motor behavior) and entry into professional programs such as medicine, physical therapy, and occupational therapy. This program does not require admission to Teacher Education.

Rehabilitation and Special Education

Rehabilitation Services Education. A non-teaching program to prepare students to serve with adults with disabilities through a number of career pursuits, including vocational evaluators and adjustment specialists, case managers and job coaches. Graduates can use this major for entry into rehabilitation graduate programs, such as counselor training, physical therapy, occupational therapy and related fields.

* Students are required to complete four hours of practicum, which may be taken over 2-4 semesters.

Graduate Programs

Graduate programs are offered through the Graduate School in administration and supervision, counselor education, early childhood education, elementary education, library media, music education, physical education, rehabilitation services, secondary education, special education, and vocation and adult education. Fifth and sixth-year programs of study in the above areas lead to the degrees of Master of Science, Master of Education, and Specialist in Education. Non-degree graduate study is also available through the diploma program leading to sixth-year certification. Information about the Fifth-Year Program offering initial teacher certification at the master's level is available from the departmental office where the program is offered as well as in the Graduate School section in this bulletin.

Doctoral degrees are offered in educational leadership, counselor education, secondary education, rehabilitation services, special education and vocational and adult education. Specializations in secondary education include the following sub-specializations: a) English education, b) mathematics education, c) science education, and d) social science

education. See the Graduate School section in this bulletin for program options for Doctor of Education and Doctor of Philosophy degrees.

Related Programs and Services

Programs in the College of Education are approved by the National Council for Accreditation of Teacher Education (NCATE), the National Association of State Directors of Teacher Education and Certification (NASDTEC), the Interstate Reciprocity Compact (IRC) and the Alabama State Board of Education for certifying superintendents, supervisors, principals, counselors, elementary and secondary teachers and educational media specialists. Upon satisfactory completion of a prescribed course of study and upon recommendation of the dean of the College of Education, a professional certificate will be issued by the State Department of Education.

Assurance of Competence

The College of Education at Auburn University will guarantee the success of graduates who receive their initial professional certification through the College and who are employed within their area(s) of specialization. The College will provide remediation at no cost to an individual who was recommended for certification by the College of Education and whose job performance within two years after program completion is deemed unsatisfactory by a local education agency based on performance evaluations established by the State Board of Education.

Vocational Rehabilitation Service

The Alabama Department of Rehabilitation Services in cooperation with Auburn University maintains the local Rehabilitation Service which provides vocational guidance, counseling, training and placement services to disabled citizens. The Rehabilitation Service also makes available to disabled citizens such services as: surgical and/or medical care, hospitalization, therapeutic treatment, and artificial appliances, when these services are essential to training and/or employment and the individual is not financially able to secure them.

Learning Resources Center

The Learning Resources Center (LRC), located in 3410 Haley Center, is a service component for the College of Education and the College of Liberal Arts. The LRC provides instructional technology services which include videotapes, computer software, audio recordings, transparencies, kits, and books and periodicals for the education profession. Two computer classrooms, a Micro-Center, and the college computer network are managed by the LRC. LRC personnel assist faculty and students with the production, selection, and utilization of newer instructional and informational technologies. Audio-visual equipment services are provided for classes taught in Haley Center.
