

College of Liberal Arts

JOSEPH P. ANSELL, *Interim Dean*
ANNE-KATRIN GRAMBERG, *Interim Associate Dean*
CONSTANCE C. RELIHAN, *Interim Associate Dean*

IN THE COLLEGE OF LIBERAL ARTS, a student can specialize in a particular field while also gaining a broad general education. Four academic areas - humanities, fine arts, communications and behavioral and social sciences - are represented by the college's 12 departments: Art; Communication and Journalism; Communication Disorders; English; Foreign Languages and Literatures; History; Music; Philosophy; Political Science; Psychology; Sociology, Anthropology and Social Work; and Theatre.

Besides affording specialization in majors, the curricula of this college lay a strong foundation for further studies in graduate school or professional school. The college also provides courses needed by students of all other instructional divisions of the university.

Academic Policies

To earn a second baccalaureate or a double major, students must complete a separate body of knowledge appropriate for the degree; the Liberal Arts dean's office determines when this is possible. AU academic policy stipulates the minimum hours necessary in addition to the primary degree or curriculum. Liberal Arts consistently monitors that, at a minimum, there must be 30 additional hours of non-overlapping course work in the major.

Undergraduate Degrees

Academic majors, programs, and options are offered in more than 30 fields, described below in the Liberal Arts Curriculum and in the curricula of the School of Fine Arts. Four-year degrees offered by the college in these fields are the Bachelor of Arts, Bachelor of Science and Bachelor of Fine Arts. The Bachelor of Arts degrees in French, German and Spanish are offered as shared degrees between Auburn University and Auburn University Montgomery, effective Fall 2002. The College of Liberal Arts requires the equivalent of one year of a foreign language in all degree programs except the Bachelor of Fine Arts.

Graduate Degrees

Doctor of Philosophy degrees are offered in English, History, Psychology, and Public Administration and Public Policy. Master of Arts degrees are offered in English, Spanish, History, Political Science, Sociology and Communication. Master of Science degrees are offered in Communication Disorders and Psychology.

The designated degrees of Master of Communication Disorders, Master of Hispanic Studies, Master of Communication, Master of Public Administration and Master of Technical and Professional Communication are offered. Degree programs are described in the Graduate School section.

Education

The College of Education offers a Fifth-Year Program to Liberal Arts students holding a baccalaureate degree in English or foreign language. Upon successful completion of the program, a master's degree in Education (M.Ed.) will be awarded and the graduate will be recommended for an A level teaching certificate (master's level certificate).

The University Honors College

This program offers individual learning opportunities and participation in honors courses to students with extraordinarily high academic aptitude. For more information, refer to the Academic Policies section of this Bulletin.

Cooperative Education Programs

Cooperative Education Programs which give students an opportunity to integrate academic training with work experience are offered in Art, Criminology-Criminal Justice, Economics, English (technical writing), Health Administration, Journalism, Mass Communication, Political Science, Psychology, Public Administration, Public Relations, Social Work and Sociology. Students alternate each term between college and a work assignment provided through the Director of the Cooperative Education Program.

Center for the Arts and Humanities

The Auburn University Center for the Arts and Humanities conducts humanities programs for the general public in localities throughout the state. For information, contact Dr. Jay Lamar, Director, in the Center's offices at Pebble Hill.

Majors in the Liberal Arts Curriculum

A major may be declared at the time of admission or thereafter but must be declared by the end of the term in which the student has completed 45 semester hours of credit, including transfer and all other credit. A student transferring into the college with 45 or more semester hours' credit must declare a major upon admission. Before a major is declared, a student will follow the requirements of the Liberal Arts Curriculum and will be identified by the symbol UNLA.

Bachelor of Arts: Anthropology, Art, Communication, Criminology-Criminal Justice, Economics, English, Foreign Languages-International Trade [these include the shared AU-AUM undergraduate language courses required of the major but not non-language courses required for the major], French, [shared AU-AUM degree], German [shared AU-AUM degree], History, Journalism, Mass Communication, Philosophy, Political Science, Psychology, Public Administration, Public Relations, Social Work, Sociology, Spanish [shared AU-AUM degree], and Theatre.

Bachelor of Science: Communication Disorders and Health Services Administration.

Minors

AFRICANA STUDIES MINOR

15 semester hours in Minor

Courses required:		Cr. Hr.
AFRI	2000 Intro to Africana Studies	3
Elective Courses - See adviser for approved listing.		

ANTHROPOLOGY MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: NONE	
Elective Courses - See adviser for approved course listing.	

ART HISTORY MINOR

21 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required:		Cr. Hr.
ARTS	1710 Intro to Art History I	3
ARTS	1720 Intro to Art History II	3
ARTS	1730 Intro to Art History III	3
ARTS	4900 Independent Study in Art History	3
Elective Courses - See adviser for approved course listing.		

CLASSICS MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: 10 hrs. of Greek or Latin (2000 level or higher)	
Elective Courses - See adviser for approved course listing.	
Student must earn a C and maintain a 2.5 GPA in all courses that count toward the minor.	

COMMUNICATION MINOR

18 semester hours in Minor (minimum 9 hours at 3000-level or above)

Courses required:		Cr. Hr.
COMM	3500 Foundations of Human Comm	3
COMM	3600 Found of Rhetoric & Social Influence	3
COMM	3300 Found Mass Communication	3
Elective Courses - See adviser for approved course listing.		

CRIMINOLOGY AND CRIMINAL JUSTICE MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required:		Cr. Hr.
CRIM	2000 Crime & Justice in America	3
CRIM	3000 Criminology	3
Elective Courses - See adviser for approved course listing.		

ENGLISH MINOR

15 semester hours in Minor (minimum 9 hours at 3000-level or above)

Courses required: NONE

Elective Courses - See adviser for approved course listing.

FRENCH MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: **Cr. Hr.**

FLFR 2010 Intermediate French I4

FLFR 2020 Intermediate French II4

Elective Courses - See adviser for approved course listing.

Students must earn a C and maintain a 2.5 GPA in all courses that count toward the minor.

GERMAN MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: **Cr. Hr.**

FLGR 2010 Intermediate German I4

FLGR 2020 Intermediate German II4

Elective Courses - See adviser for approved course listing.

Students must earn a C and maintain a 2.5 GPA in all courses that count toward the minor.

HISTORY MINOR

15 semester hours above the 1000-level, including six hours at the 2000-level and nine hours at the 3000-level or above.

MUSIC MINOR

15 semester hours in Minor (To minor, arrange for a performance audition with an applied music instructor)

Courses required: **Cr. Hr.**

MUSI 1310 Music Theory 12

MUSI 1320 Music Skills I1

MUSI 1410 Music Theory II2

MUSI 1420 Music Skills II1

MUSI 3510 or 3520 Music History I or II3

MUSI 3610 or 3630 Conducting I2

MUAP 1310 Performance1

MUAP 1410 Performance1

MUAP 2310 Performance1

MUAP 2410 Performance1

MUSI 1000 Perf. Attendance (4 semesters required)0

PHILOSOPHY MINOR

18 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: Select one core Logic and one core Ethics course

Elective Courses - See adviser for approved course listing.

POLITICAL SCIENCE MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: **Cr. Hr.**

POLI 1090 American Government & Politics3

Elective Courses - See adviser for approved course listing.

PSYCHOLOGY MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: **Cr. Hr.**

PSYC 2010 Introduction to Psychology3

Elective Courses - See adviser for approved course listing.

RELIGIOUS STUDIES MINOR

18 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: Select one core Logic and one core Ethics course

RELG 1010 Introduction to Religious Studies

Elective Courses - See adviser for approved course listing.

SOCIAL WORK MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: SOWO 2000 Introduction to Social Work SOWO 2650 History of Social Welfare SOWO 3910 Field Practicum

Elective Courses - See adviser for approved course listing.

SOCIOLOGY MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: NONE

Elective Courses - See adviser for approved course listing.

SPANISH MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: **Cr. Hr.**

FLSP 2010 Intermediate Spanish I4

FLSP 2020 Intermediate Spanish II4

Elective Courses - See adviser for approved course listing. Academic Disciplines: see program director for a list.

Students must earn a C and maintain a 2.5 GPA in all courses that count toward the minor.

TECHNICAL AND PROFESSIONAL COMMUNICATION MINOR

15 semester hours in Minor (minimum 9 hours at 3000 level or above)

Courses required: **Cr. Hr.**

ENGL 3040 Technical Writing OR

ENGL 3080 Business Writing3

ENGL 5000 Technical and Professional Editing3

ENGL 5010 Document Design in Tech & Prof Comm3

ENGL 5030 Topics in Tech & Prof Comm3

Elective Courses - See adviser for approved course listing.

Options

Engineering. This program provides for enrollment in the Liberal Arts Curriculum and in the Samuel Ginn College of Engineering. Two degrees will be awarded: a bachelor of arts degree in the Liberal Arts major and a bachelor's degree in the designated engineering field. Students should receive dual advising through the Colleges of Liberal Arts and Engineering. Typically, five to six academic years are necessary to complete dual requirements.

Pre-Law. Most majors and curricula are accepted as preparation for the study of law. Courses deemed useful, and which may be taken as electives, in majors, and in some cases to fulfill certain core requirements, are available from the Pre-Law Program, located in 7002 Haley Center, where students receive advice on preparing for law school admission and the study of law.

Pre-Health. Most majors and curricula in Liberal Arts are accepted as preparation for professional degrees in health, including advanced degrees from schools of medicine, dentistry, optometry, physical therapy, occupational therapy and others. Generally, particular courses in the sciences, mathematics and philosophy should be taken in the University Core. Additional sciences and mathematics may be needed as electives. The university's Pre-Health Adviser, housed in the College of Sciences and Mathematics, should be consulted for elective and core course guidance and for assistance in applying to graduate/professional schools. The Liberal Arts Adviser is available for all other matters related to the student's undergraduate studies.

Curriculum in Communication Disorders (CMDS)

Students desiring the Communicating Disorders (CMDS) major must formally apply for admission to the program after completion of 30 semester hours of course work that meets university core requirements.

Applications and procedures for admission are available in the CMDS Department, Haley 1199. Students must apply for admission by January 30 to begin the major in summer semester and applications must be received by May 30 to begin the major in fall semester. Applications may be submitted at any time prior to the deadlines.

Doctor of Audiology Program

Auburn University's Department of Communication Disorders offers a first professional degree program of study, the Doctor of Audiology (Au.D.) degree. The program is a shared program with the Department of Communication Disorders at Auburn University at Montgomery. The Doctor of Audiology (Au.D.) Program is designed to provide students with academic and clinical practicum experiences that will meet or exceed the requirements of the American Speech-Language-Hearing Association (ASHA) for the Certificate of Clinical Competence in Audiology (CCC-AUD).

Currently, the Department of Communication Disorders trains over 100 undergraduate majors and maintains a master's degree program with about 60 graduate students. This very favorable student/faculty ratio provides graduate and professional students opportunities to work closely with faculty members on clinical preparation and research projects.

Overview of the Program:

The academic and clinical components of the Doctor of Audiology Program interact in a logical manner as the curriculum progresses over a four year period. A total of 135 hours are required for the degree. The early portion of training is largely academic and the later portions involve mostly applied clinical work. Thus, as the program progresses, the balance of academic and clinical work changes substantially moving from totally academic in the beginning to totally clinical at the end of the program.

The Academic Program

During the first two years of the program the emphasis is largely on academic preparation for clinical work. This begins with the bases of clinical audiology which includes courses in research methods, neurology, hearing science, counseling and a variety of tool courses taken in other departments. The tool courses can include such areas as psychology, electrical engineering, computer science, pharmacology, or other related fields that apply to audiology. Specific selection of tool courses may depend on a student's particular interest area, research involvement or other factors. In the second year of the academic program the student is exposed to coursework in auditory disorders and clinical methods. Courses include hearing disorders, hearing instruments, aural rehabilitation, central auditory processing disorders, auditory brainstem response, electronystagmography and pediatric audiology. In the third year of the program, academic courses are largely involved with advanced seminars on current issues in clinical practice and the completion of an applied clinical research project or "capstone experience." During this third year of the program students are engaged in a series of intensive clinical internships at local off-campus clinical settings. Students must intern at three different clinical settings during the third year and they return to campus to participate in seminars and work closely with their major professors on their capstone project. These practice-related seminars allow students to discuss clinical experiences they are having at off-campus sites and read relevant literature on clinical issues. During the fourth year of the program, the student is engaged in a full-time clinical residency and will have completed all academic requirements for the degree prior to leaving campus.

The Clinical Program

The clinical training program progresses from minimal involvement in practicum to a full-time clinical residency at the end of the curriculum. During the first two years of the program (The Clinical Clerkship), students will be exposed to clinical work in the heavily supervised training environment of a university clinic. Both Auburn University and Auburn University at Montgomery operate full-service hearing clinics and dispense hearing instruments to children and adults with hearing impairments. The university clinical setting provides a sheltered and supportive environment for students as they begin their clinical work. Early in the first year of the program students will observe clinical work and become familiar with the operation of the university clinic. The students will be expected to master specific clinical competencies outlined in four levels of performance. As students master the four clinical levels they are responsible for increased competency in all areas of audiology. Ultimately, when Level IV is mastered, the student is capable of performing most common procedures in the field of audiology. During the first year in the training program the student masters levels I and II.

Concurrently with clinical work, the academic program provides a specific seminar for each level that provides a scientific rationale for each clinical procedure and reviews the current literature on the clinical techniques. During the second year of the training program the student masters levels III and IV with the help of clinical practica and seminars focusing on the higher clinical levels.

In the third year of the clinical program students must rotate through three different clinical off-campus sites working a minimum of 20 hours per week. This experience is known as the Clinical Internship. Students are expected to return to campus for participation in advanced practice-related seminars and work on their capstone projects with senior faculty. The clinical internship allows students to gain experience in a less sheltered setting than the university clinic while still being supervised by a certified audiologist. Accreditation guidelines require that students in training be supervised by certified audiologists a minimum of 50% of the time. Auburn University has developed an impressive network of local facilities over the past 25 years of training masters level audiologists.

Appendix IV includes a registry of local facilities that have been used on a regular basis.

In the final year of the program students will participate in a Clinical Residency during which they will work full-time for a period of nine months. Clinical Residencies may be done at any facility in the United States where a certified audiologist agrees to supervise the student within ASHA guidelines.

Curriculum in German (FLGR)

The baccalaureate degree in German is offered as a shared degree program between Auburn University and Auburn University, Montgomery, effective Fall 2002. It includes language courses for the major only. Students must meet both AU and AUM criteria for admission, have a 2.50 GPA in the major and a 2.0 GPA overall for graduation. No courses below a C will count toward the major. Neither AU nor AUM will offer an independent baccalaureate in German.

Students either pass the computer competency test or take COMP 1000 as one of their electives.

Curriculum in German-International Trade (FLGT)

The baccalaureate degree in German-International Trade is offered as a shared degree program between Auburn University and Auburn University, Montgomery, effective Fall 2002. Currently, only the shared AU-AUM undergraduate language courses are required of this major and there are no shared non-language courses. Students must meet both AU and AUM criteria for admission, must earn a C and maintain a 2.5 GPA in all courses that count toward the major and have a 2.0 GPA overall for graduation. Neither AU nor AUM will offer an independent baccalaureate in German.

School of Fine Arts

In all Fine Arts curricula, electives may include six hours Basic ROTC or Advanced ROTC. In curricula which do not provide sufficient electives for this purpose, ROTC may be taken in lieu of required courses not in the University core to be selected with help of departmental adviser.

Course prefix symbols for Fine Arts Curricula: Art (ARTS), Music (MUSI, MUAP), Theatre (THEA)

Department of Art

The Department of Art offers two professional degrees: the B.F.A. in Studio/ Fine Arts (ARTF) and the B.F.A. in Graphic Design (ARTG). Fine Arts prepares students to become artists and for careers in visual arts institutions. Graphic Design prepares students to create publications such as magazines, posters, illustrations, and books, as well as web sites and multi-media presentations. Fine Arts students choose one area of concentration: painting, sculpture, printmaking or ceramics. Graphic Design students follow a curriculum that provides variety and depth in all aspects of the field, supported by Fine Arts electives. Both degrees provide significant, intensive studio experience. The B.A. in Art (ATLA- listed under Majors in the Liberal Arts Curriculum) is for students who want a studio art education within the liberal arts tradition. Students elect studio courses in several areas, rather than a single concentration. Students in this program have greater flexibility in electives, enabling them to access a broad array of courses within the university. **Admission into the B.F.A. in Graphic Design is selective and based on a two stage process. Contact the Department of Art for details.**

All majors share a structured program in visual arts fundamentals, are supported by courses in art history, and promote an understanding of the roles and responsibilities of artists and designers in society.

The Department of Art is an accredited member of the National Association of Schools of Art and Design, and a member of the College Art Association.

ARTS 2000/3000/4000-level Studio: See adviser for approved course listing.

Transfer

Art studio course credit earned (C or better) will be considered for advanced standing if a complete portfolio of work is submitted to the Auburn Art Department for evaluation. If the examples do not approximate Auburn's requirements, then credit may be given for an art studio elective. If the quality of work is not acceptable, credit may be given for an open elective. Transfer students are advised that their degrees may require more than a total of four years because of the professional nature of Auburn's curriculum, the sequential arrangement of its courses, and heavy demands for enrollment.

Computer Policy

Beginning Fall 2005, students accepted into the Department of Art Graphic Design major (ARTG) will be expected to have for their own use a personal computer that meets department specifications for hardware and software. The department will present a range of specifications, from minimal to optimal. Each year the department will review, and if necessary revise, computer specifications. This policy will apply only to students admitted to the Graphic Design major (ARTG) in Fall 2006 and later. The Department of Art will continue to maintain computer labs for current ARTG majors, and for PATG (Pre-Graphic Design) majors.

Department of Music

The Department of Music provides students a variety of music experiences. Performance groups, such as the Marching Band, Symphonic Band, Concert Band, Campus Band, Orchestra, Concert Choir, Men's Chorus, Women's Chorus, University Singers, Gospel Choir and various smaller music ensembles, are available to all qualified university students. Many performance groups require a successful audition before admission. Information is available within the department.

The Department of Music works in cooperation with the College of Education in course offerings for music education degrees. Students pursuing music education degrees will register through the College of Education.

The Department of Music also offers a Music Minor in performance. Students must audition for the program. More information is available in the Music Department office.

All students taking private instruction (MUAP) will be auditioned before enrollment and must concurrently enroll in MUSI 1000 (Performance Attendance). Regulations concerning this class are available in the Music Department Office.

Department of Theatre

The Department of Theatre provides instruction and production experience to students interested in developing their talents in the theatre arts, whether as majors or non-majors. Consequently, a broad range of classroom, laboratory, and performance experiences is provided in acting, directing, scenic and lighting design, costume design, theatre technology, construction and crafts, theatre history, dramatic literature, theatre criticism, theatre administration, and management.

The Bachelor of Arts degree is designed for students seeking to study theatre within the liberal arts curriculum. The B.A. (THLA) is for students who choose to study theatre as a humanistic discipline or who wish to concentrate in theatre history/criticism, dramatic literature, performance or production.

The Bachelor of Fine Arts degree is for students who have specific professional goals in mind. The B.F.A. (THEA) is for students seeking professional training and/or desiring an intensive program in a specific area of theatre. Admission to the program, generally at the end of the sophomore year, is by audition or presentation of portfolio for the Theatre faculty. Students are expected to maintain a 2.7 GPA in their area of emphasis, subject to continued term review by the faculty. Final recommendation for graduation is made after the successful presentation of a recital or a major role or the successful execution of a design or major project during the student's final year.
