

College of Human Sciences

JUNE M. HENTON, Dean
 ARTHUR W. AVERY, Associate Dean
 SUSAN S. HUBBARD, Associate Dean

Human Sciences is a professional program central to the landgrant mission that draws from the natural and social sciences, the arts and humanities. It integrates and interrelates knowledge from these disciplines to advance the well-being of individuals, families, and consumers. The course of study provides a broad liberal education, specialized career preparation, as well as a background for individual and family living. Areas of specialization focus on aspects of environment, health, consumer products and services, and human development. Human Sciences offers men and women professional and pre-professional preparation careers in education, business, industry, social agencies, and government.

The College of Human Sciences includes the departments of Consumer Affairs, Human Development and Family Studies, and Nutrition and Food Science. Programs of study leading to the bachelor of science degree can be planned within five curricula in the College of Human Sciences. These curricula are designed with flexibility to meet the needs of students with a variety of academic interests and goals. Program-specific accreditations/approvals/endorsements/certifications have been attained for several programs.

Transfer Requirements. Students may transfer from another college or school on campus if they have attained an overall unadjusted grade-point average on all courses attempted at Auburn University as follows: Human Development and Family Studies – 2.25; Apparel Merchandising, Design and Production Management – 2.20; Nutrition and Food Science – 2.00; and Hotel and Restaurant Management – 2.50.

The Interior Design (INDS) program in the college maintains the right to limit freshman and transfer enrollment. On-and off-campus transfer students must file a separate application and meet criteria listed in the application with the Department of Consumer Affairs no later than the Feb. 26, 2010 deadline.

Graduation Requirements. To earn the bachelor's degree from the College of Human Sciences, students must complete the hours and subject matter requirements of their curricula and must have a minimum grade-point average of 2.0 on all course work attempted at Auburn University, and in addition, a 2.0 cumulative grade-point average on all work attempted in the major.

Minors

HUMAN DEVELOPMENT AND FAMILY STUDIES MINOR

18 semester hours in minor (minimum 9 hours at 3000 level or above)

Courses required Cr. Hr.

HDFS 2000	Marriage & Family in Global Context3
HDFS 2010	Lifespan Human Develop in Family3
Elective Courses: see advisor for approved course listing.		

INTERNATIONAL MINOR IN HUMAN SCIENCES

16-19 semester hours in minor (minimum 9 hours at 3000 level or above)

Courses required: See advisor for approved course listing.

Elective Courses: See advisor for approved course listing.

Options in Cooperative Extension. Students enrolled in any of the majors in the college may prepare for a career in the Cooperative Extension System through election of certain courses as electives. Majors may fulfill the requirements of the Alabama Cooperative Extension System through scheduling of the following courses: NDFS 2000, NDFS 2050; CAHS 1750, CAHS 2750, CAHS 2400, or CAHS 3600; HDFS 4670.

Graduate Work. The college offers work leading to the master of science degree and PhD degree in consumer affairs, human development and family studies, and nutrition and food science.

Department of Consumer Affairs

The Department of Consumer Affairs focuses on consumers' interactions with their near physical environment. Two majors are offered: 1) Apparel Merchandising, Design and Production Management and 2) Interior Design. These curricula focus on principles of design, product

development, management, marketing science and technology, and consumer behavior. Majors in these curricula may lead to careers in business, industry, and government which apply knowledge to developing, evaluating and merchandising consumer products, interpreting consumers' wants and needs, informing consumers and designing environmental spaces. A senior-level internship is required in both curricula. A certificate of business foundations or a minor in business and an international minor in human sciences are available. Other minors may also be selected.

Apparel Merchandising, Design and Production Management (AMDP)

Apparel Merchandising, Design and Production Management is a professional curriculum with two options: 1) Apparel Merchandising and 2) Product Design and Production Management. Diversity within the major allows students to select such varied fields as apparel design, apparel production management, retail sales and/or management, apparel merchandising, retail buying, fashion journalism, and consumer-producer relations.

Academic Standards and Policies: Students in both AMDP options must earn a grade of a C or higher in all prerequisite courses in the major, and have an ungapped cumulative GPA of 2.2, before being allowed to proceed to the next course in the sequence. Major courses include the Human Sciences college core courses and all required Consumer Affairs courses which are indicate in bold print in the models. Students must earn a grade of C or higher on all required courses in the major to complete graduation requirements.

* Production Management requires ACCT 2810 and STAT 2010.

Prior to beginning the third semester, students must pass the placement test on computer skills or take COMP 1000.

Students may select CHS@AU in Italy to fulfill sixteen (16) hours of professional electives and earn an International Minor in Human Sciences (IMHS).

Interior Design (INDS)

Interior Design is a four-year bachelor of science program accredited by the Council for Interior Design Accreditation (CIDA). The curriculum focuses on the design of the near environment, the aesthetic and functional aspects of space planning, furnishings and materials, mechanical equipment and the integration of these aspects of the built environment to fit the needs of the user. A professionally supervised internship is required. Student work from courses in the major may be retained by the program for accreditation and exhibit purposes.

Academic Standards and Policies: The program maintains the right to limit freshmen and transfer enrollment. On and off campus transfer applicants must meet criteria listed in the "Academic Policies" section of the *Auburn University Bulletin*. Incoming freshmen, on-campus transfers, and off-campus applicants must file applications with the INDS Coordinator no later than Feb. 26, 2010. The application packet includes an application form, statement of intent, resume, and official transcripts from all schools attended. A portfolio is highly desirable but not required. Screening of applications for fall admission begins in March with applicants notified by April 15. Students admitted MUST begin the program the subsequent fall term. Course work in the major must be taken in sequence; transfer students should anticipate that additional semesters of study may be required to complete the program. Entering freshmen admitted to Auburn who are admitted to the INDS major must begin their INDS program of study in the fall term after they are admitted, or they will be held to the same admission requirements as transfer students.

Students in INDS must earn a grade of a C or higher in all prerequisite courses in the major before being allowed to proceed to the next course in the sequence. Major courses include the Human Sciences College core courses and all required Consumer Affairs courses which are indicated in bold print in the model. Students who earn two D grades or one F grade in the required Interior Design courses will be expelled from the INDS program and must transfer out of the program immediately.

Department of Human Development and Family Studies

The Human Development and Family Studies (HDFS) undergraduate curriculum is designed to prepare students for a variety of careers that contribute to the success of individuals and families across the life span. Career directions include, but are not limited to, teaching and administering programs to young children in pre-school or hospital settings, counseling teens in residential treatment facilities or church programs, providing supportive services to adult and elderly populations, implementing family education in the broader community, and advocating for family policy within government settings. Students also gain excellent preparation for graduate school. Majors select one of seven concentration areas; Infancy/Preschool, Child Life, Middle Childhood/Adolescence, Adult Programs, Gerontology, Legislative/Public Policy, or Family Programming/Research. The capstone course for students is the undergraduate internship where classroom learning and real life come together to enhance professional competence. The HDFS curriculum draws upon the knowledge of many academic disciplines to promote understanding of current issues for individuals and families in modern society, and it is approved by the National Council on Family Relations to offer the Provisional Certified Family Life Education (CFLE) designation. The Department also operates the Auburn University Early Learning Center as well as the Harris Early Learning Center in Birmingham, Alabama. Both programs are accredited by the National Academy for Early Childhood Program Accreditation.

Fingerprint/Criminal Background Checks are required of all HDFS majors. Students who do not obtain the required background check clearing letters will not be allowed to enroll in courses.

Dual Objective Program: The Dual Objective Program with Human Development and Family Studies and the Early Childhood Education program in the College of Education is open to students in Human Development and Family Studies. Students completing this dual objective program earn the bachelor of science in the declared major from the

College of Human Sciences

College of Human Sciences and are eligible for an Alabama Class B teachers certification.

Academic Standards and Policies: All 3000- and 4000-level HDFS courses require a minimum 2.25 unadjusted GPA as a prerequisite. Students must earn a grade of C or better in all 3000- or 4000-level HDFS required major core classes.

Department of Nutrition and Food Science

The Department offers two majors: Hotel and Restaurant Management (HRMT) and Nutrition and Food Science (NUFS). The HRMT program emphasizes food and lodging services for consumers in the tourism industry. The NUFS major offers three options: Nutrition/Dietetics, Food Science, and Nutrition Science.

Hotel and Restaurant Management (HRMT)

The HRMT major prepares students for careers in hotels, resorts, restaurant facilities and other positions in the tourism and hospitality industry and addresses the needs of the premium service segment of this industry. Its mission is to educate the students in the arts and sciences of hospitality management, and to prepare them with a thorough understanding of the premium service concept and high standards of excellent performance of professional responsibilities.

Nutrition and Food Science (NUFS)

The field of nutrition is concerned with human physiology and biochemistry and their relationship to human health, diet, and well-being. The NUFS curriculum has three options which permit specialization according to students' specific interests.

The Nutrition Science option prepares students for health professional schools, such as medical, dental, and physical therapy, as well as for graduate study in the nutrition discipline. A pre-med option also exists in NUFS.

The Nutrition/Dietetics option prepares students for careers in dietetics, nutrition education, and nutrition. The Didactic Program in Dietetics (DPD) is accredited by the Commission on Accreditation for Dietetic Education, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, 312-899-0040. Graduates who successfully complete the Nutrition/Dietetics option (DPD) are qualified to apply for a post-baccalaureate dietetic internship which is a requirement prior to taking the national examination to become a Registered Dietitian.

Food Science utilizes the biological and physical sciences to study the nature of foods and the principles underlying food production and processing. The Food Science option prepares students for careers in the foods industry in the area of quality control, product development, and food safety, as well as with government agencies.
