

# AUBURN UNIVERSITY TIGER TRANSIT SERVICE INFORMATION AND APPLICATION

Updated October 2008

## SERVICE INFORMATION

-  Tiger Transit's mission is to provide safe, reliable and efficient service to the Auburn University student community to and from the AU campus.
-  We are pleased you are interested in helping us make this service available to as many AU students as possible. However, due to limited resources, we must limit the number of stops on each route to provide the best possible service. Any decisions made regarding services is evaluated carefully to determine the feasibility for the requested service. These decisions are based upon the number of AU students living in the residential complex, location of a safely accessible bus stop at the residential complex and the location of the complex in relation to current Tiger Transit routes.
-  **Unless it is deemed necessary by Tiger Transit management to do so, we will not provide a stop inside of any complex property.**
-  Once your application is \*fully reviewed, you will receive a response from our office via U.S. Mail. We will not give any verbal information pertaining to the approval or denial of your application request over the phone.
-  The submission of a service request does not guarantee the approval of the addition of your complex to a Tiger Transit route.
-  All applications for service must be submitted by the complex management *only*.

*\*full review of received applications for service may take several weeks to complete.*

## SERVICE APPLICATION

In order to expedite your request, type in all information.

<b>Today's Date:</b>	_____	<b>Manager's Name:</b>	_____
<b>Complex Name:</b>	_____	<b>Phone Number:</b>	_____
