

GRADUATE STUDY IN HYPERSPECTRAL MICROSCOPY

SCHOOL OF FORESTRY AND WILDLIFE SCIENCES AUBURN UNIVERSITY

The School of Forestry and Wildlife Sciences at Auburn University is seeking a MS candidate to study fungal spore identification using a new hyperspectral microscopy technique. The position is available immediately. Interested applicants should send a letter of interest, resume, transcripts (photocopy is acceptable), and GRE scores (photocopy is acceptable) to Dr. Lori Eckhardt.

Stipends: Graduate research assistantships are available at \$15,540/yr at the MS level plus tuition fees are waived. In addition, the School of Forestry and Wildlife Sciences has several fellowships for exceptional candidates. These are offered to prospective students and are awarded competitively.

Desirable qualifications: B.S. in biology, microbiology, mycology or related degree. In addition to meeting Graduate School admission requirements, applicants are evaluated and recommended for admission by the graduate faculty of the School of Forestry and Wildlife Sciences based on an examination of their scores on the Graduate Record Examination (GRE), TOEFL tests for international students, their previous academic record, experience, and letters of recommendation. A minimum GPA of 3.0 in previous academic course work and minimum scores both verbal and quantitative in the 50 percentile range for the GRE are required.
