SSI is for outstanding high school students who will be 11th or 12th grade students in the Fall of 2017. Applicants should have a profound interest in science and/or mathematics and reside in Alabama, Georgia, Florida, Mississippi, or Tennessee. Seating is limited and will be granted through a rigorous application process. The deadline to apply is February 10, 2017.

Students will:

- Engage in real-world applications of science
- Perform experiments using cutting edge research equipment
- Build confidence
- Prepare for college-level courses
- Partner with researchers to gain lab skills not taught in high school
- Meet new friends
- Explore a range of topics including digital information & quantum electrodynamics
- Strengthen their resume
