Remarks about pesticides appear in some technical papers contained in these Proceedings. Publication of these statements does not constitute endorsement or recommendation of them by the Conference sponsors, nor does it imply that uses discussed have been registered. Use of most pesticides is regulated by State or Federal law. Applicable regulations must be obtained from appropriate regulatory agencies.

CAUTION: Certain pesticides can be injurious to humans, domestic animals, desirable plants, and fish or other wildlife--if they are not handled or applied properly. Use all pesticides selectively and carefully. Follow recommended practices given on the label for use and disposal of pesticides and pesticide containers.

The use of trade or company names of products or services in these Proceedings is for the benefit of the reader. Such use does not constitute an endorsement or approval of any service or product by the Conference sponsors to the exclusion of others that may be suitable.

Information contained herein is available to all persons  
regardless of race, color, sex, or national origin.
