If you have not taken a math course before transferring, you will be required to take the <a href="#">ALEKS Math Placement assessment</a> before you can register for any math course at Auburn. The math course you can begin at Auburn is determined by either a) the highest equivalent math you have passed before transferring or b) the math placement results from the ALEKS assessment which is available in AU Access once you have paid your AU admissions deposit.</li> </ul>

<sup>1</sup> Ethics/Business Ethics are preferred (PHL 106, PHL 206 or IDS 102).

<sup>2</sup>You must earn at least a “C” in Microeconomics (ECO 232).

<sup>3</sup> We recommend students take AGECE 1000 at Auburn as the core social science. However, if you have already taken a core social science, Auburn will accept that transfer credit in Area IV.

<sup>4</sup> We recommended students take accounting and statistics before transferring.

<sup>5</sup> **These courses are not required for this major** but will be accepted as professional electives. For additional courses that may count under AREA 5 and towards the major, please contact us.
