If you have not taken a math course before transferring, you will be required to take the ALEKS Math Placement assessment before you can register for any math course at Auburn. The math course you are able to begin at Auburn is determined by either a) the highest equivalent math you have passed before transferring or b) the math placement results from the ALEKS assessment which is available in AU Access once you have paid your AU admissions deposit.

Notes: The Building Science program requires a multi-semester sequence of major specific courses; therefore it will take a minimum of 3 years to graduate upon transfer.

The Building Science major requires industry specific courses to complete the bachelor’s degree. Since these courses are not taught at the community college level, courses taken beyond the hours listed in AREAS I-IV above will count only as free electives outside of the major and are not degree applicable.
