#### **Report of Independent Auditors**

To the Board of Trustees of Auburn University:

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the aggregate discretely presented component units of Auburn University (the "University"), a component unit of the State of Alabama, which comprise the statement of net position as of September 30, 2020 and 2019, and the related statements of revenues, expenses and changes in net position for the years then ended, and the related notes to the financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We did not audit the financial statements of Auburn University Foundation (the "Foundation") and Auburn Alumni Association (the "Association"), two of the University's discretely presented component units, as of and for the years ended September 30, 2020 and 2019. We also did not audit the financial statements of Tigers Unlimited Foundation ("TUF"), one of the University's discretely presented component units, as of and for the years ended June 30, 2020 and 2019. Those statements were audited by other auditors, whose report thereon has been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for the above mentioned discretely presented component units of the University, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Association, the Foundation, TUF, and Auburn Research and Technology Foundation ("ARTF") were not audited in accordance with *Governmental Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the University's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities and the aggregate discretely presented component units of Auburn University as of September 30, 2020 and 2019, and the respective changes in financial position and, where applicable, cash flows, thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplemental information on pages 4 through 19 and 93 through 98, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The University has omitted the management's discussion and analysis for the year ended September 30, 2019 that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by the missing information.

#### Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the University's basic financial statements. The supplemental divisional financial statements on pages 83 to 95 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the basic financial statements by us or other auditors, and accordingly, we do not express an opinion or provide any assurance on them.

The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and is not a required part of the financial statements. As described in Note 1 to the schedule of expenditures of

federal awards, the accompanying schedule of expenditures of federal awards was prepared on the cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2021 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Birmingham, Alabama January 22, 2021

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

The following discussion and analysis provides an overview of the financial position and activities of Auburn University (the University) for the year ended September 30, 2020, with a comparison to the year ended September 30, 2019. This discussion has been prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follow this section. The financial statements, footnotes, and this discussion are the responsibility of University management.

The University is a land-grant institution with four divisions, including two campuses, Auburn (main campus) and Montgomery (AUM). Main campus is classified by the Carnegie Foundation as "Very High Research Activities," commonly referred to as "R1", while AUM is classified as "Master's I." Fall 2020 enrollment totaled 35,949 students at main campus and AUM. The University offers a diverse range of degree programs in 13 colleges and schools, and has approximately 5,900 full-time employees, including approximately 1,700 faculty members. The Alabama Agricultural Experiment Station conducts innovative fundamental and applied research that supports the advancement of Alabama's agriculture and forestry industries. The Alabama Cooperative Extension System delivers researchbased educational programs in every county of the State. The four divisions contribute to the University's mission of improving the lives of the people of Alabama, the nation, and the world through forward-thinking education, life enhancing research and scholarship, and selfless service.

#### **Using the Annual Report**

The University's financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) principles, which establish standards for external financial reporting for public colleges and universities. The financial report includes three financial statements: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. All references to "2020," "2019," or another year refer to the fiscal year ended September 30, unless otherwise noted.

The University's financial statements are summarized as follows:

The Statement of Net Position presents entity-wide assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) on the last day of the fiscal year. Distinctions are made in current and noncurrent assets and liabilities. Net position is segregated into unrestricted, restricted (expendable and nonexpendable), and net investment in capital assets. The University's net position is one indicator of the University's financial health. From the data presented, readers of the Statement of Net Position have the information to determine the assets available to continue the operations of the University. They may also determine how much the University owes vendors, investors, and lending institutions. Finally, the Statement of Net Position outlines the net resources available to the University.

The Statement of Revenues, Expenses and Changes in Net Position presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. Governmental accounting standards require state appropriations, gifts, and investment earnings to be classified as nonoperating revenues. As a result, the University will typically realize a significant operating loss. The utilization of capital assets is reflected in the Statement of Revenues, Expenses and Changes in Net Position as depreciation expense, which reflects the amortization of the cost of an asset over its expected useful life

The Statement of Cash Flows reports the major sources and uses of cash and reveals further information for assessing the University's ability to meet financial obligations as they become due. Inflows and outflows of cash are summarized by operating, noncapital financing, capital and related financing, and investing activities.

In addition to the University's financial statements, related component unit Statements of Financial Position and Statements of Activities and Changes in Net Assets have been included in this annual report. GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units-an amendment of GASB Statement No. 14, provides criteria for determining which related organizations should be reported as component units based on the nature and significance of their relationship with the primary government, which is the University. GASB Statement No. 39 clarifies financial reporting requirements for those organizations as amendments to GASB Statement No. 14, The Financial Reporting Entity. The University also evaluated GASB Statement No. 61, The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34, as well as GASB Statement No. 80, Blending Requirements for Certain Component Units-an amendment of GASB Statement No. 14, to ensure proper presentation and disclosure. The component units report financial results under principles prescribed by the Financial Accounting Standards Board (FASB) and are subject to standards under the Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles and present net assets in two classes: with donor restrictions and without donor restrictions. The four component units of the University reported herein are as follows:

- (1) Auburn University Foundation (AUF) AUF was organized on February 9, 1960, and is the fundraising foundation for the University. AUF holds endowments and distributes earnings from those endowments to the University. AUF is incorporated as a legally separate, tax-exempt nonprofit organization established to solicit individual and corporate donations for the direct benefit of the University. The Auburn University Real Estate Foundation, Inc. (AUREFI) has been consolidated into AUF's financial statements.
- (2) Auburn Alumni Association (the Association) The Association is a nonprofit corporation organized on April 14, 1945, which was created to promote mutually beneficial relationships between the University and its alumni, to encourage loyalty among alumni, and to undertake various

other actions for the benefit of the University, its alumni, and the State of Alabama. Membership is comprised of alumni, friends, and students of the University. The Association provides monetary support to the University in the form of faculty awards and student scholarships.

(3) Tigers Unlimited Foundation (TUF) - TUF is a legally separate nonprofit organization incorporated in December 2002, which began operations on April 21, 2004. TUF was organized exclusively for charitable purposes, pursuant to Sections 501(a) and 501(c)(3) of the Internal Revenue Code to support athletic fundraising and athletic programs. TUF has a June 30 fiscal year end. TUF provides economic resources to

the University for athletic scholarships, athletic building maintenance or new construction, and for athletic department programs.

(4) Auburn Research and Technology Foundation (ARTF) - ARTF was organized on August 24, 2004, as a separate nonprofit organization to develop and operate the Auburn Research Park and to assist the University with the attraction, development, and commercialization of technology. The vision of ARTF is to establish an entrepreneurial atmosphere for businesses to foster economic diversification and vitality of the local community, state, and region.

#### **Financial Highlights**

#### **Statement of Net Position**

A summary of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position as of September 30, 2020 and 2019, is as follows:

|                                      | 2020             | 2019             |
|--------------------------------------|------------------|------------------|
| Assets                               |                  |                  |
| Current assets                       | \$ 493,916,451   | \$ 535,403,881   |
| Investment in plant, net             | 2,007,735,989    | 1,942,052,061    |
| Other noncurrent assets              | 1,397,631,419    | 1,076,562,346    |
| Total assets                         | 3,899,283,859    | 3,554,018,288    |
| Deferred Outflows of Resources       |                  |                  |
| Loss on refunding of bonds           | 39,204,267       | 41,950,072       |
| Pension and OPEB                     | 198,626,259      | 206,358,119      |
| Total deferred outflows of resources | 237,830,526      | 248,308,191      |
| Liabilities                          |                  |                  |
| Current liabilities                  | 450,462,501      | 479,606,755      |
| Noncurrent liabilities               | 2,060,290,401    | 1,940,020,143    |
| Total liabilities                    | 2,510,752,902    | 2,419,626,898    |
| Deferred Inflows of Resources        |                  |                  |
| Nonexchange transactions             | 386,666          | 189,862          |
| Pension and OPEB                     | 243,611,982      | 109,235,612      |
| Total deferred inflows of resources  | 243,998,648      | 109,425,474      |
| Net Position                         |                  |                  |
| Net investment in capital assets     | 1,375,760,121    | 1,289,198,648    |
| Restricted-nonexpendable             | 30,075,058       | 29,862,295       |
| Restricted-expendable                | 257,590,606      | 241,998,246      |
| Unrestricted                         | (281,062,950)    | (287,785,082)    |
| Total net position                   | \$ 1,382,362,835 | \$ 1,273,274,107 |
|                                      |                  | <u> </u>         |

#### The University's Assets

Current assets consist of cash and cash equivalents, operating investments (those investments that are expected to be liquidated during the course of normal operations), net accounts receivable (primarily amounts due from the federal and state governments and other agencies as reimbursements for sponsored programs), net student accounts receivable (including amounts due from third parties on behalf of the students), current portion of loans receivable, accrued interest receivable, inventories, and prepaid expenses.

The University's current assets decreased \$41.5 million from 2019 to 2020. Of this decrease, cash and cash equivalents decreased \$31.2 million. The majority of this decrease was due to a reduction of \$19.8 million in uninvested cash at year-end, as compared to September 30, 2019, as the University continued

construction on several large projects. The remaining decrease in cash and cash equivalents is the result of investing \$11.4 million, net, in longer-term investments rather than money market instruments, due to reduced investment returns versus the long-term market. This shift towards longer-term investments also resulted in a reduction in the University's operating investments of \$2.3 million. The University's receivables decreased \$12.7 million. This decrease was primarily due to a large decrease in athletics receivables of \$12.8 million, related in large part to the delayed football season and reduced capacity for football attendance as a result of the COVID-19 pandemic. The COVID related changes to the football season resulted in a \$9.3 million reduction in receivables related to football television, radio, and concessions revenue. Another \$3.5 million for the Advocare

Classic game with Oregon in Texas was receivable at September 30, 2019, while no corresponding game was played in 2020. Other variances in the University's receivables offset this large athletics decrease by \$0.1 million. The University's prepaid expenses increased \$5.7 million. This increase was primarily due to an increase in scholarship expense paid and deferred at September 30, 2020 of \$5.5 million. The remaining reduction in current assets of \$1.0 million was a combination of other factors, including the bookstore limiting investment in physical inventory as a result of the COVID-19 pandemic.

The University's capital assets, net of depreciation, shown as "Investment in plant, net," on the Statement of Net Position

increased \$65.7 million from 2019 to 2020. Capital assets generally represent the historical cost of land, land improvements, buildings, construction in progress, infrastructure, equipment, library books, art and collectibles, software implementation, and livestock, less any accumulated depreciation, with buildings comprising approximately 73.6% of the total net capital asset value. The increase, offset by disposal activity, depreciation, and transfers, was the result of \$162.2 million of new additions to property, plant, and equipment, net of construction in progress transfers. The University expended \$161.4 million for new construction during fiscal year 2020.

The following building construction projects, totaling \$44.8 million, were either completed and placed into service or additional work was performed on a previously completed project during the current fiscal year:

| Miller Poultry Center New Processing Plant                          | \$ 19.9 | million |
|---|---------|---------|
| Goodwin Hall Renovation and Band Rehearsal Room                     | 7.1     | million |
| North Auburn Poultry Science Infectious Disease Lab                 | 2.6     | million |
| Auburn Arena - Main Court and Seating Bowl AV Equipment Replacement | 2.4     | million |
| Horton-Hardgrave Hall Graduate Business Education Building          | 1.9     | million |
| Gogue Performing Arts Center  | 1.9     | million |
| Engineering Achievement Center                                      | 1.4     | million |
| Lowder Ground and First Floor Student Study Areas                   | 1.2     | million |
| Ramsey Roof Replacement   | 1.1     | million |
| Leach Science Center Bldg Expansion & Renovation                    | 1.0     | million |
| Other Small Projects  | 4.3     | million |
|   | \$ 44.8 | million |

#### The University's Deferred Outflows of Resources

Deferred outflows of resources are a consumption of net position that are applicable to a future reporting period. Deferred outflows of resources decreased \$10.5 million. In 2010, 2012, 2014, 2015, 2016, and 2020, the University defeased certain outstanding bonds. These refundings resulted in losses (the difference between the acquisition price of the new debt and the net carrying amount of the old debt). In accordance with GASB Statements No. 63 and No. 65, these losses are presented as deferred outflows of resources. The loss on refunding is amortized over the life of the old or new bonds, whichever is shorter. The University amortizes the losses over the life of the defeased bonds (see Note 8). During fiscal year 2020, the new loss on refunding amounted to \$5.6 million, while the amount amortized was \$8.3 million, for a net decrease in deferred outflows of resources related to loss on refunding of bonds of \$2.7 million.

In addition, in accordance with GASB Statement No. 68, deferred outflows of resources are a component of accounting and reporting of pensions (see Note 11). During fiscal year 2020, the deferred outflows of resources increased \$3.2 million relating to current year pension activity.

Similarly, GASB Statement No. 75 prescribes that deferred outflows of resources are a component of accounting and reporting of other post-employment benefits (OPEB) (see Note 12). During fiscal year 2020, the deferred outflows of resources decreased \$4.5 million relating to current year OPEB activity.

#### The University's Liabilities

Current liabilities consist of accounts payable, compensation-related liabilities, accrued interest payable, other accrued liabilities, student and other deposits (including Perkins and Health Professions loan liability), unearned revenues, and the current portion of noncurrent liabilities. Current liabilities decreased \$29.1 million from 2019 to 2020.

At year end, the University accrued \$30.2 million less in accounts payable than 2019. Contributing to this decrease were \$13.6 million in tax payments made before year end in 2020, while corresponding payments in 2019 were not made until October, as well as an \$8.2 million decrease in Athletics payables for game guarantees and concessions due to the pandemic. The remaining decrease in accounts payable of \$8.5 million was a result of a combination of factors, including timing of payments. Additionally, other accrued liabilities decreased \$6.1 million as a result of \$5.1 million in pollution remediation paid in fiscal year 2020 that had been accrued in 2019, and a reduction of \$2.0 million in incurred but not reported health insurance claims, offset by an increase of \$1.2 million in dental liabilities. Student deposits and deposits held in custody also decreased \$2.0 million. These decreases in current liabilities were partially offset by smaller increases including \$3.2 million in compensationrelated liabilities as employees used less of their accrued leave as the University shifted to a remote operations model, and an increase in unearned revenue of \$3.6 million. Unearned revenue is comprised of tuition, room and board revenue that relates to fiscal year 2021, contracts and grants funding received prior to

expenditure, as well as athletic revenue related to games played subsequent to September 30. For Fall 2020, the Board of Trustees approved an approximately 2.5% tuition increase for main campus and a 3.0% increase for AUM. Sixty percent of Fall tuition is reported as unearned revenue due to the fiscal year end of September 30. Additionally, new bond issuances (see Note 9) led to slight increases in interest payable and the current portion of bonds and notes payable.

Noncurrent liabilities include principal amounts due on University bonds payable, capital lease obligations, pension, other post-employment benefit obligations, pollution remediation, and self-insured liabilities that are payable beyond September 30, 2021. Noncurrent liabilities increased \$120.3 million from 2019 to 2020. During fiscal year 2020, the University issued 2020A, 2020B, and 2020C General Fee Bonds (see Note 9), which increased the University's bonds and notes payable by \$262.0 million, net of 2009A, 2011A and 2012A General Fee Bonds that were partially defeased. This increase was offset by a decrease in pension and OPEB liabiltiies of \$140.3 million, based on actuarial valuations, and a decrease of approximately \$1.5 million related to lease obligations and other noncurrent liabilities, primarily due to the recognition of previously accrued interest on the capital appreciation bond.

#### The University's Deferred Inflows of Resources

Deferred inflows of resources are an acquisition of net position that are applicable to a future reporting period. The University engages in certain voluntary nonexchange transactions (grants). Grant funds received for which all eligibility requirements have been met, other than time requirements, are presented as deferred inflows of resources in accordance with GASB Statements No. 63 and No. 65. In addition, in accordance with GASB Statement No. 68, the University reports deferred inflows of resources relating to the accounting and reporting of pensions. Similarly, GASB Statement No. 75 prescribes that deferred inflows of resources are a component of accounting and reporting of other post-employment benefits (OPEB).

The University's deferred inflows of resources increased \$134.6 million from 2019 to 2020. This increase was primarily the result of the accounting and reporting of current year pension and OPEB activity, in accordance with GASB Statement No. 68 (see Note 11) and GASB Statement No. 75 (see Note 12).

#### The University's Net Position

The three major net position categories are discussed below:

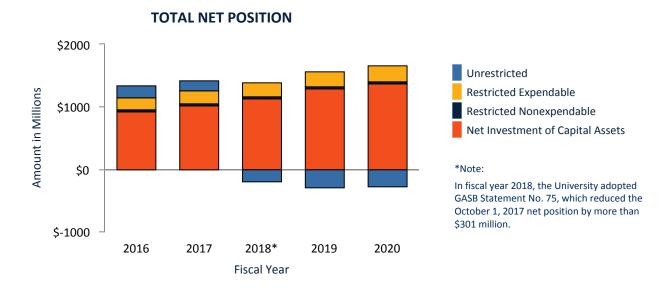

Net investment in capital assets represents the University's capital assets, net of accumulated depreciation and outstanding principal balances of debt as well as any deferred inflows or outflows of resources, attributable to the acquisition, construction, or improvement of those assets. Net investment in capital assets increased 6.7% from 2019 to 2020. This increase was due to capitalization of assets as previously described and payments made on outstanding debt.

Restricted (nonexpendable and expendable) net position:

Restricted-nonexpendable net position is subject to external restrictions governing its use and consists of the University's permanent endowment funds. This net position increased 0.7% from 2019 to 2020. This increase was primarily the result of additional gifts to permanently endowed funds, as well as an increase in the cash value of life insurance.

Restricted-expendable net position is also subject to external restrictions governing its use. Items of this nature include gifts, contracts and grants restricted by federal, state, local governments, or private sources for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. Restricted funds functioning as endowments, restricted funds available for student loans, and funds restricted for construction purposes are also included in this category. Restricted-expendable net position increased 6.4% from 2019 to 2020. The majority of the increase was due to additional scholarship, fellowship, and gift receipts.

Unrestricted net position is the third major class of net position, and it is not subject to externally imposed stipulations; however, the majority of the University's unrestricted net position has been internally designated for various mission-related purposes. This category includes funds for general operations of the University, auxiliary operations (including athletics, housing, and the bookstores), unrestricted quasi-endowments, and capital projects. Unrestricted net position increased 2.3% from 2019 to 2020, or \$6.7 million, as a result of reduced operating expenditures and repairs and maintenance spending, combined with increases in state appropriations and tuition and fees revenue.

#### Statement of Revenues, Expenses and Changes in Net Position

Changes in total net position are the result of activity presented in the Statement of Revenues, Expenses and Changes in Net Position. The purpose of this statement is to present the operating and nonoperating revenues, operating and nonoperating expenses, other revenues, expenses, gains, losses, and changes in net position. A condensed statement for the years ended September 30, 2020 and 2019, is provided below:

|   | 2020             | 2019             |
|---|------------------|------------------|
| Operating revenues  | \$ 888,067,907   | \$ 897,535,623   |
| Operating expenses  | 1,195,852,118    | 1,209,593,678    |
| Operating loss  | (307,784,211)    | (312,058,055)    |
| Net nonoperating revenues<br>and other changes in net<br>position | 416,872,939      | 391,021,290      |
| Net increase in net position                                      | 109,088,728      | 78,963,235       |
| Net position - beginning of year                                  | 1,273,274,107    | 1,194,310,872    |
| Net position - end of year  | \$ 1,382,362,835 | \$ 1,273,274,107 |

The 2020 Statement of Revenues, Expenses, and Changes in Net Position reflects an increase in net position at the end of the year of \$109.1 million, despite the effects on operations of the COVID-19 pandemic. The University transitioned from oncampus instruction to remote delivery beginning March 16, 2020, in response to concerns about the global COVID-19 pandemic. As a result of this transition, the University was unable to provide housing and dining services, and many other in-person programs and services. Prorated housing and dining refunds were given to students enrolled for Spring semester. While on-campus instruction resumed in August 2020, along with residence halls and dining services, modifications to normal operations were required to increase safety for University students and employees. Programs that are normally conducted on-campus, such as Camp War Eagle for incoming freshman, summer camps, and other outreach programs continue to be conducted remotely.

Operating revenues decreased 1.1% from 2019 to 2020. Despite the administrative decision to waive the student activities fee for Summer semester 2020, Board-approved increases in tuition for both main campus and AUM and a slight increase in enrollment led to an increase in tuition and fees revenue, net of discounts, of \$16.1 million over 2019. Additionally, the University saw a net increase in federal appropriations, federal, state, and nongovernmental contract and grant revenues of \$7.2 million. This increase was primarily the result of additional spending of sponsored funds appropriated and awarded for research. Offsetting these increases in operating revenues were significant decreases in other areas of the University's operations due to the COVID-19 pandemic, including sales and services of educational departments, which decreased \$8.2 million. This decrease was driven primarily by a \$6.1 million decrease in revenues associated with Camp War Eagle registration fees, orientation fees for transfer students, and other student sales revenues and a \$1.3 million decrease in conference and workshop revenues. The remaining decrease of \$0.8 million was made up of a decline in various clinical and product sales, particularly in areas of the University that provide services to the public. Auxiliary revenues decreased \$17.6 million, as the COVID-19 pandemic limited the operations of the University's auxiliary units, including the bookstore, which saw a reduction in sales of \$2.8 million. Athletics saw an \$8.4 million decrease in revenues, which included \$3.5 million earned in fiscal year 2019 related to the Advocare Classic game in Texas, for which there was no corresponding game in fiscal year 2020. There was also a \$5.0 million decrease in NCAA and Conference distributions, partially due to the men's basketball team making the Final Four in fiscal year 2019 and a shortened basketball season in fiscal year 2020 due to the COVID-19 pandemic. Additionally, there was a supplemental SEC distribution in fiscal year 2019 that was not made in fiscal year 2020.

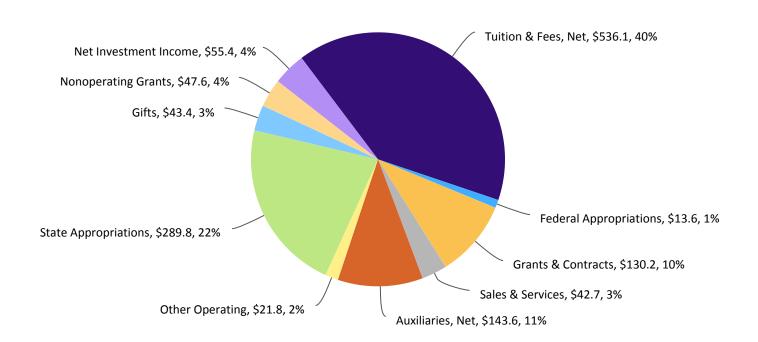

Operating expenses decreased 1.1% from 2019 to 2020. The largest decrease in this category was other supplies and services expense, which decreased 12.0% from 2019 to 2020. This decrease was caused by multiple factors. The University completed major work on several large new buildings at the end

of fiscal year 2019, leading to a decrease in repairs and maintenance spending in fiscal year 2020, partially offset by an increase in the purchase of capital equipment and computer services, including lab equipment for new faculty and increased spending on eBooks and other online resources for remote instruction. As a result of the COVID-19 pandemic, the University suspended all travel in March 2020, and correspondingly, spending in travel and entertainment were reduced significantly. Game expenses also decreased due to the delayed football season and reduced stadium capacity due to the pandemic. These decreases were partially offset by increases in other categories, including compensation and benefit costs, which increased 0.7% as a result of Board-approved salary increases and one-time supplement payments. Scholarships and fellowships spending also increased as a result of awarding \$9.4 million in Higher Education Emergency Relief Funds (HEERF) from the CARES Act as direct grants to students. Depreciation increased 17.5% as the new buildings completed in late fiscal year 2019 were placed into service and began depreciating.

Net nonoperating revenues and other changes in net position increased 6.6% from 2019 to 2020. This increase was driven by COVID-19 relief grant funding provided through the CARES Act of \$20.4 million and increased revenues from state appropriations of \$16.9 million, as well as a decrease in interest expense on capital debt of \$1.0 million as a result of issuing bonds to refund outstanding debt. These increases were partially offset by a decrease in net investment income of \$5.8 million, due largely to a reduction in realized and unrealized gains on investments of \$3.4 million, as well as a \$3.8 million decrease in interest income, related to market conditions as a result of the COVID-19 pandemic. Endowment income increased \$1.4 million, which partially offset these decreases. Gift income also decreased \$5.5 million from 2019 to 2020, due to TUF funding football facilities upgrades that were completed in fiscal year 2019. This decrease was partially offset by smaller increases in gift income from other sources.

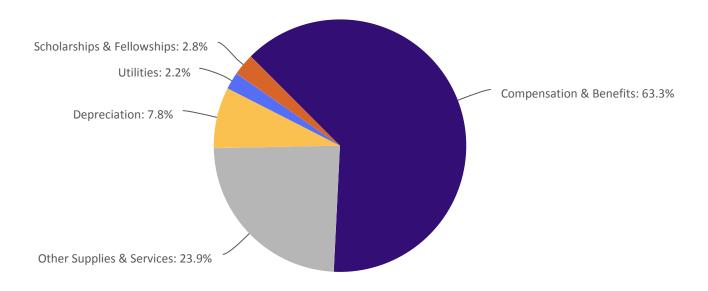

#### **REVENUES BY SOURCE**

For the year ended September 30, 2020 (in millions)

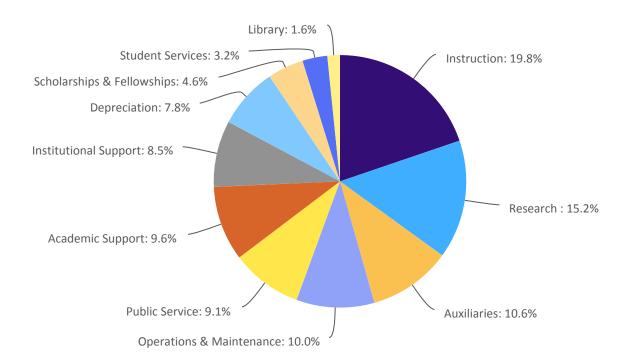

#### **OPERATING EXPENSES BY NATURAL CLASSIFICATION**

For the year ended September 30, 2020

#### **OPERATING EXPENSES BY FUNCTION**

For the year ended September 30, 2020

#### **Statement of Cash Flows**

The Statement of Cash Flows presents information about changes in the University's cash position using the direct method of reporting sources and uses of cash. The direct method reports all major gross cash inflows and outflows, differentiating these activities into operating activities; noncapital financing, such as nonexchange grants and contributions; capital and related financing, including bond proceeds from debt issued to purchase or construct buildings; and investing activities. Operating activity uses of cash significantly exceed operating activity sources of cash due to classification of state appropriations and gifts as noncapital financing activities.

The University's cash flows for the years ended September 30, 2020 and 2019, are summarized below:

|  | 2020             | 2019             |
|--|------------------|------------------|
| Net cash provided by (used in):                      |                  |                  |
| Operating activities                                 | \$ (229,362,565) | \$ (159,821,235) |
| Noncapital financing activities                      | 383,731,336      | 348,742,128      |
| Capital and related financing activities             | 79,939,329       | (268,465,034)    |
| Investing activities                                 | (265,461,106)    | 178,157,229      |
| Net (decrease) increase in cash and cash equivalents | (31,153,006)     | 98,613,088       |
| Cash and cash equivalents - beginning of year        | 246,342,322      | 147,729,234      |
| Cash and cash equivalents - end of year              | \$ 215,189,316   | \$ 246,342,322   |

Net cash used in operating activities increased from 2019 to 2020 by 43.5%. The increase was due to additional cash paid to suppliers and utilities of \$21.5 million and additional payments for employee compensation and benefits of \$33.0 million as a result of the Board-approved salary increases and one-time supplement payments, as well as an increase in payments for scholarships and fellowships of \$11.4 million. Additionally, the University saw a reduction in cash inflows from auxiliary enterprises of \$21.5 million, sales and services of educational departments of \$8.4 million, and other operating revenues of \$3.3 million. These outflows were offset by additional cash provided from tuition and fees of \$16.8 million, federal appropriations/grants and contracts of \$12.7 million, and the net of student loans issued and collected of \$0.1 million.

The University saw an increase in net cash provided by noncapital financing activities of \$35.0 million. This increase was the result of an increase in state appropriations over fiscal year 2019 in the amount of \$16.9 million, an increase in direct and other loan receipts of \$11.6 million, and an increase in gifts and grants for other than capital purposes of \$13.8 million, offset by an increase in loan disbursements of \$7.4 million.

Net cash provided by capital and related financing activities was \$79.9 million in 2020 compared to net cash used in those activities in 2019 of \$268.5 million. This was predominantly the result of the University issuing the 2020A, 2020B, and 2020C General Fee Bonds in fiscal year 2020, which resulted in the receipt of \$302.6 million in bond proceeds, net of issuance costs and payments to escrow. While the University continued work on several large capital projects in 2020, expenditures for capital assets decreased by \$55.4 million. This was offset by reductions in capital gifts and grants received of \$6.9 million, and additional interest paid on debt and capital leases of \$2.6 million.

Net cash used in investing activities was \$265.5 million in fiscal year 2020 compared to net cash of \$178.2 million provided by these activities in fiscal year 2019. During fiscal year 2020, the University purchased \$1.4 billion of new investments. These expenditures were offset by \$1.1 billion of proceeds from sales

and maturities of investments/reinvestments and investment income of \$38.3 million.

#### Economic factors that will affect the future

While the University is impacted by general economic conditions and the COVID-19 pandemic, management believes the University will continue its high level of excellence in service to students, sponsors, the State of Alabama, and other constituents. The University's strong financial position and internal planning processes provide the University some protection against funding reductions and adverse economic conditions. Nonetheless, future reductions in state support must be anticipated and managed carefully to maintain excellence. Neither external nor internal efforts to mitigate the impact, however, are intended to eliminate the effects of future proration or decrease in state funding. As a labor intensive organization, the University faces competitive pressures related to attracting and retaining faculty and staff. The rising cost of health care remains a concern, particularly in light of the postretirement health care benefits offered to retirees.

The University continues to address aging facilities with significant new construction, as well as modernization and renovation of existing facilities. Although funding of these projects through capital debt issuances, gifts, federal and state funds, and deferred maintenance budget allocations continues, the costs of operating the new and renovated facilities, as well as servicing the capital debt, will continue to place additional resource demands on the operating budget of the institution.

The University continues to take steps to enhance student recruitment, both in marketing efforts and in providing additional scholarship funding. Applications, acceptances, and retention are monitored closely to assess the potential impact of general economic conditions on future enrollment. We are cautiously optimistic that demand will remain strong.

The University will continue to employ its long-term investment strategy to maximize total returns at an appropriate level of risk, while utilizing a spending rate policy to insulate the University's operations from temporary market volatility. Preservation of capital is regarded as the highest priority in the investing of the

University's Non-Endowment Cash Pool (the Cash Pool). Diversification through asset allocation is utilized as a fundamental risk strategy for endowed funds.

**Cautionary note regarding forward-looking statements** 

Certain information provided by the University, including written, as outlined above, or oral statements made by its representatives, may contain forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995.

All statements, other than statements of historical fact, which address activities, events, or developments that the University expects or anticipates will or may occur in the future, contain forward-looking information.

In reviewing such information, it should be kept in mind that actual results may differ materially from those projected or suggested in such forward-looking information. This forward-looking information is based upon various factors and was derived using various assumptions.

#### UNDERGRADUATE TUITION FOR THE ACADEMIC YEAR

|  | 2016-17   | 2017-18   | 2018-19   | 2019-20   | 2020-21   |
|--|-----------|-----------|-----------|-----------|-----------|
| Auburn Main Campus/<br>Auburn University at Montgomery |           |           |           |           |           |
| Full Time Students:                                    | \$10,696/ | \$10,968/ | \$11,276/ | \$11,492/ | \$11,796/ |
| In-State   | \$9,640   | \$9,910   | \$8,404*  | \$8,620   | \$8,860   |
| Out-of-State   | \$28,840/ | \$29,640/ | \$30,524/ | \$31,124/ | \$31,956/ |

<sup>\*\*</sup>Includes funding from the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020.

## FINANCIAL RATIOS\*\* FOR THE FISCAL YEARS ENDED SEPTEMBER 30

#### **Primary Reserve Ratio**

The Primary Reserve Ratio measures the financial strength of the institution by indicating how many years it could operate using expendable net position without relying on additional revenue. This ratio is calculated by dividing expendable net position by total operating expenses. It is generally recommended that the ratio be at least 0.40.

Although the primary reserve ratio was significantly impacted by the implementation of GASB Statement No. 68 in 2015 and by the implementation of GASB Statement No. 75 in 2018, management believes the University has sufficient expendable net position to continue to operate.

#### **Viability Ratio**

This ratio measures the availability of expendable net position to cover debt obligations. It is calculated by dividing expendable net position by total outstanding debt. A ratio of 1.0 indicates that the institution could pay off all debts.

New debt issuances in 2011 dropped the ratio below 1.0%. The ratio rebounded in 2012 through 2014, and then was significantly impacted by the implementation of GASB Statement No. 68 in 2015 and by the implementation of GASB Statement No. 75 in 2018. Management believes the University has sufficient expendable net position to cover debt obligations.

<sup>\*</sup>In fiscal year 2015, the University adopted GASB Statement No. 68, which reduced the October 1, 2014 net position by more than \$558 million. In fiscal year 2018, the University adopted GASB Statement No. 75, which reduced the October 1, 2017 net position by more than \$301 million.

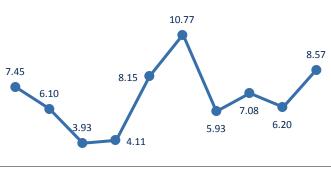

<sup>\*\*</sup>These financial ratios are presented for purposes of additional analysis and are not a required part of the basic financial statements. These ratios include only the University's financial statements and may not be comparable to other institutions.

## FINANCIAL RATIOS\*\* FOR THE FISCAL YEARS ENDED SEPTEMBER 30

#### **Return on Net Position Ratio**

This ratio measures total economic return and can be used to indicate whether the institution is financially stronger or weaker over time. It is calculated by dividing the change in net position by the total net position at the beginning of the year. It is generally recommended that the goal be a 3.0% - 4.0% return over the long-term.

The University's return on net position ratio remains strong. The implementation of GASB Statement No. 68 lowered the beginning net position, which resulted in a higher ratio for 2015. In 2017, an increase in net pension obligations and the use of unrestricted net position for capital projects, such as the Mell Classroom Building and deferred maintenance needs, led to a 15.4% decrease in Unrestricted Net Position, which impacted this ratio. The implementation of GASB Statement No. 75 again lowered the beginning net position, which resulted in a higher ratio for 2018, well above the recommended level.

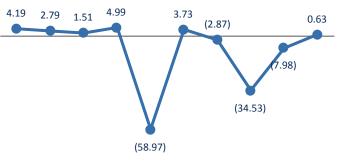

2011 2012 2013 2014 2015\* 2016 2017 2018\* 2019 2020

#### **Net Income Ratio**

This ratio measures the success of financial operations for a given year. It is calculated by dividing the total change in unrestricted net position by total unrestricted revenue. It is generally recommended that the goal be 2.0%–4.0% return over the long-term.

The University's net income ratio was significantly impacted by the implementation of GASB Statement No. 68 in fiscal year 2015. It rebounded to the recommended levels in 2016. Like the Return on Net Position ratio, this ratio was impacted by the decrease in Unrestricted Net Position in 2017. The implementation of GASB Statement No. 75 in fiscal year 2018 significantly impacted this ratio. Management believes the University will continue to operate successfully within available resources.

2011 2012 2013 2014 2015\* 2016 2017 2018\* 2019 2020

<sup>\*</sup>In fiscal year 2015, the University adopted GASB Statement No. 68, which reduced the October 1, 2014 net position by more than \$558 million. In fiscal year 2018, the University adopted GASB Statement No. 75, which reduced the October 1, 2017 net position by more than \$301 million.

<sup>\*\*</sup>These financial ratios are presented for purposes of additional analysis and are not a required part of the basic financial statements. These ratios include only the University's financial statements and may not be comparable to other institutions.

#### **NOTES TO FINANCIAL STATEMENTS**

#### (1) NATURE OF OPERATIONS

Auburn University (the University) is a land grant university originally chartered on February 1, 1856, as the East Alabama Male College. The Federal Land Grant Act of 1862, by which the University was established as a land grant university, donated public lands to several states and territories with the intent that the states would use these properties for the benefit of agriculture and the mechanical arts. Several pertinent laws dictate specific purposes for which the land may be used. In 1960, the Alabama State Legislature officially changed the name to Auburn University. The University has two campuses, Auburn and Montgomery, with a combined enrollment of 35,949 students for Fall semester 2020. The University serves the State of Alabama, the nation and international business communities through instruction of students and the advancement of research and outreach programs. By statutory laws of the State of Alabama, the University is governed by the Board of Trustees (the Board) who are appointed by the Governor of Alabama, a committee consisting of two trustees and two Alumni Association board members and approved by the Alabama State Senate.

The accompanying financial statements of the University have been prepared in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB). The accompanying financial statements include the following four divisions of the University:

Auburn University Main Campus Auburn University at Montgomery Alabama Agricultural Experiment Station Alabama Cooperative Extension System

The University, a publicly supported, state funded institution, is a component unit of the State of Alabama and is included in the Comprehensive Annual Financial Report of the State; however, the University is considered a separate reporting entity for financial statement purposes.

The University is a public corporation and an instrumentality of the State of Alabama. As a governmental unit of the State of Alabama, the University is not subject to federal income tax. Certain transactions may be taxable as unrelated business income under Internal Revenue Code Sections 511 to 514.

Contributions intended for the University's benefit are primarily received through the University's component units and are deductible by donors as provided under Section 170 of the Internal Revenue Code, consistent with the provisions under Section 501(c)(3) and corresponding state law.

#### **Component Units**

The University adheres to GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units-an amendment of GASB Statement No. 14. This statement clarifies GASB Statement No. 14, The Financial Reporting Entity, which provides criteria for determining whether such organizations for which a government is not financially accountable should be

reported as component units. In accordance with GASB Statement No. 61, The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34, and GASB Statement No. 80, Blending Requirements for Certain Component Units-an amendment of GASB Statement No. 14, the University has included statements for its discretely presented component units, Auburn University Foundation, Auburn Alumni Association, Tigers Unlimited Foundation and Auburn Research and Technology Foundation in these financial statements, as exclusion of such organizations would render the entity's financial statements misleading or incomplete. Auburn University Real Estate Foundation, Inc. has been consolidated into Auburn University Foundation's financial statements, as an affiliated supporting organization. The University's component units' financial statements are presented following the University's statements. The component units are not GASB entities; therefore, their respective financial statements adhere to accounting principles under the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

Auburn University Foundation (AUF) is a qualified charitable organization established in 1960, existing solely for the purpose of receiving and administering funds for the benefit of the University. AUF is exempt from federal income taxes pursuant to Section 501(c)(3) of the Internal Revenue Code. Therefore, no provision has been made for income taxes in their respective financial statements. AUF's activities are governed by its own Board of Directors.

Auburn Alumni Association (the Association) is an independent corporation organized on April 14, 1945, which was created to promote mutually beneficial relationships between the University and its alumni, to encourage loyalty among alumni and to undertake various other actions for the benefit of the University, its alumni and the State of Alabama. Membership is comprised of alumni, friends and students of the University. The Association is exempt from federal income taxes pursuant to Section 501(c)(3) of the Internal Revenue Code. Therefore, no provision has been made for income taxes in their respective financial statements. The Association's activities are governed by its own Board of Directors.

Tigers Unlimited Foundation (TUF) is an independent corporation that began operations on April 21, 2004. It was formed for the sole purpose of obtaining and disbursing funds for the University's Intercollegiate Athletics Department. TUF is exempt from federal income taxes under Section 501(a) as an organization described in Section 501(c)(3) of the Internal Revenue Code. Therefore, no provision has been made for income taxes in their respective financial statements. TUF's activities are governed by its own Board of Directors with transactions being maintained using a June 30 fiscal year end date.

Auburn Research and Technology Foundation (ARTF) is an independent corporation organized on August 24, 2004, to facilitate the acquisition, construction and equipping of a

technology and research park on the University's campus. ARTF was organized under Internal Revenue Code 509(a)(3). ARTF is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. ARTF's activities are governed by its own Board of Directors.

Auburn University Real Estate Foundation, Inc. (AUREFI) is a qualified charitable organization created on July 5, 2005, solely for the purpose of receiving and administering real estate gifts. AUREFI was organized under Internal Revenue Code 170(b)(1)(A)(vi). This real estate holding corporation is a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code. AUREFI is owned and controlled by AUF, and its financial statements are consolidated with AUF's financial statements. AUREFI's activities are governed by its own Board of Directors.

Auburn Research Park I (ARPI) is an entity formed in June 2019 to take advantage of financing opportunities through the New Market Tax Credit program. ARPI is a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code. The financial statements of ARTF include the consolidated financial position and activities of ARTF and ARPI as ARTF is deemed to control ARPI through a majority voting interest and ARTF is deemed to have an economic interest in ARPI.

The financial statements of the component units have been prepared on the accrual basis of accounting. Net assets, revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the component units and changes therein are classified and reported as with or without donor restrictions.

Contributions received, including unconditional promises to give, are recognized as revenues at their fair values in the period received. For financial reporting purposes, the component units distinguish between contributions of assets with donor restrictions and without donor restrictions. Contributions for which donors have imposed restrictions which limit the use of the donated assets, are reported as support with donor restrictions if the restrictions are not met in the same reporting period. When such donor-imposed restrictions are met in subsequent reporting periods, those net assets are reclassified to net assets without donor restrictions and reported as net assets released from restrictions when the purpose or time restrictions are met. Contributions of assets which donors have stipulated must be maintained permanently, with only the income earned thereon available for current use, are classified as assets with donor restrictions - perpetual in nature. Contributions for which donors have not stipulated restrictions are reported as support without donor restrictions.

Financial statements for AUF and the Association may be obtained by writing to the applicable entity at 317 South College Street, Auburn University, Alabama 36849. Financial statements for TUF may be obtained by writing to Athletic Complex, 392 South Donahue Drive, Auburn University, Alabama 36849. Financial statements for ARTF may be obtained by writing to 570 Devall Drive, Suite 101, Auburn, Alabama 36832.

#### **Financial Statement Presentation**

For financial reporting purposes, the University adheres to the provisions of GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis-for State and Local Governments; GASB Statement No. 35, Basic Financial Statements and Management's Discussion and Analysis-for Public Colleges and Universities-an amendment of GASB Statement No. 34; GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position; and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities. These statements establish standards for external financial reporting for public colleges and universities on an entity-wide perspective which require that resources be classified in three net position categories.

#### • Net investment in capital assets:

This category is defined as capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred inflows and outflows of resources attributable to the acquisition, construction, or improvement of those assets or related debt also would be included in this component of net position. Unexpended related debt proceeds and the related debt attributable to the unspent amount as well as deferred inflows of resources, if applicable, are not reported in net investment in capital assets, but in restricted or unrestricted net position.

#### • Restricted net position:

The restricted component of net position consists of Nonexpendable and Expendable elements.

Nonexpendable – Nonexpendable restricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources subject to externally imposed stipulations that they be maintained permanently by the University. This element includes the University's permanent endowment funds.

**Expendable** – Expendable restricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources whose use by the University are subject to externally imposed stipulations that can be fulfilled by actions of the University pursuant to those stipulations, or that expire by the passage of time.

#### • Unrestricted net position:

This category is defined as the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not subject to externally imposed stipulations or included in the determination of net investment in capital assets. Unrestricted net position may be designated for specific purposes by action of management or the

Board. Substantially all unrestricted net position is designated for academic and research programs and initiatives, capital projects, and auxiliary units. When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense towards unrestricted resources and then towards restricted resources.

GASB Statements No. 35 and No. 63 also require three statements: the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows.

During fiscal year 2020, the University adopted GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. This Statement provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. The adoption of this standard had no material effect on the University's financial statements in the current fiscal year, and Note 22 has been updated accordingly.

#### **Basis of Accounting**

The financial statements of the University have been prepared on the accrual basis of accounting and in accordance with accounting standards of the United States of America and all significant, interdivisional transactions between auxiliary units and other funds have been eliminated. The University reports as a Business Type Activity (BTA) as defined by GASB Statement No. 35. BTAs are those institutions that are financed in whole or in part by fees charged to external parties for goods or services. Under BTA reporting, it is required that statements be prepared using the economic resources measurement focus.

The University records depreciation on capital assets (including equipment), accrues or defers revenue associated with certain grants and contracts, accrues interest expense, accounts for certain scholarship allowances as a reduction of revenue, and classifies federal refundable loans as a liability.

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## (2) SIGNIFICANT ACCOUNTING POLICIES OF AUBURN UNIVERSITY

#### **Cash & Cash Equivalents**

Cash and cash equivalents includes highly liquid debt instruments readily convertible into cash and with maturities at date of acquisition of three months or less, whose use is not restricted for long term purposes.

#### **Investments**

Operating investments consist of cash and investments designated for current operations, with maturities occurring within the next fiscal year. Accordingly, the University classifies debt service funds held by the Trustee for debt service payments as operating investments. These investments are not considered liquid or accessible, as they will be used within the next fiscal year for the December bond payment.

Long term investments consist of cash and investments with maturities greater than one year or whose use is restricted for long term purposes. Investments associated with unexpended bond proceeds are restricted and are shown as long term investments. Investments recorded as endowment and life income represent funds that are considered by management to be of long duration.

Investments received by gift are recorded at fair value on the date of receipt. Investments in real estate are recorded at fair value. For investments other than non-readily marketable investments, investment income is recorded on the accrual basis of accounting. For non-readily marketable investments, investment income is recorded as received.

GASB Statement No. 72, Fair Value Measurement and Application, defines fair value and establishes a framework for measuring fair value that includes a three-tiered hierarchy of valuation inputs, placing a priority on those which are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the University's own assumptions about how market participants would value an asset or liability based on the best information available. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. The three levels of inputs, of which the first two are considered observable and the last unobservable, are as follows:

- Level 1 Quoted prices for identical assets or liabilities in active markets that can be accessed at the measurement date
- Level 2 Other significant observable inputs, either direct or indirect, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable; or market corroborated inputs
- Level 3 Unobservable inputs

GASB Statement No. 72 allows for the use of Net Asset Value (NAV) as a practical expedient for valuation purposes. Investments that use NAV in determining fair value are disclosed separately from the valuation hierarchy (see Note 4).

Investments in equity securities, mutual funds, and debt securities are reported at fair value in the Statement of Net Position, with all net realized and unrealized gains and losses reflected in the Statement of Revenues, Expenses and Changes in Net Position. Fair value of these investments is based on quoted market prices or dealer quotes where available.

Investments in life insurance contracts are measured at cash surrender value.

The University uses NAV reported by the investment managers as a practical expedient to estimate fair value for certain investments. The NAV is applied to certain investments that do not have readily determinable fair values including business trust, common trust, hedge, private equity and real asset investment funds. As these investments are not readily marketable the estimated value is subject to uncertainty, and therefore, may differ from the value that would have been used had a ready market for the investments existed. While these investments may contain varying degrees of risk, the University's risk with respect to such transactions is limited to its capital balance in each investment and the amounts of any unfunded commitments.

Under GASB Statement No. 40, *Deposit and Investment Risk Disclosures-an amendment of GASB Statement No. 3*, common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk are addressed. This statement defines custodial risk for deposits as "the risk that, in the event of a failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party." As an element of interest rate risk, this Statement requires certain disclosures of investments that have fair values which are highly sensitive to changes in interest rates. Deposit and investment policies related to the risks identified in this statement are also required to be disclosed (see Note 4).

#### **Inventories**

Units currently holding inventories include Facilities, Scientific Supply Store, Chemistry Glass Shop, Animal Clinic Pharmacy, Harrison School of Pharmacy, Alabama Agricultural Experiment Station, Bookstores, Museum Gift Shop, and Ralph Draughon and AUM Libraries. All inventories are valued at the lower of cost or market, on the first-in, first-out basis, and are considered to be current assets.

#### **Capital Assets**

Capital expenditures of land, buildings and equipment are carried at cost at date of acquisition. Gifts of capital assets are recorded at acquisition value at the date of donation. Depreciation is computed on a straight line basis over the estimated useful lives of buildings and building improvements (40 years), land improvements and infrastructure (10–40 years), library collection and software costs (10 years) and inventoried equipment (5-18 years). Land and construction in progress are not depreciated. The threshold for capitalizing buildings and infrastructure is \$25,000. Expenditures for maintenance, repairs and minor renewals and replacements are expensed as incurred; major renewals and replacements are capitalized if they meet the \$25,000 threshold. Construction in progress expense is capitalized as incurred. Equipment is capitalized if the cost exceeds \$5,000 and has a useful life of more than one year. All buildings are insured through the State of Alabama Property Insurance Fund.

Art collections and historical treasures are capitalized and valued at cost or acquisition value at the date of purchase or gift, respectively, but not depreciated. Collections are preserved and held for public exhibition, education and research.

Livestock is capitalized and valued at cost or acquisition value at the date of purchase or gift, respectively, but not depreciated. Annually, livestock inventories are adjusted to actual livestock counts, valued in various manners depending on the type and purpose of the livestock.

In accordance with GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries, the University continues to evaluate prominent events or changes in circumstance to determine whether an impairment loss should be recorded and whether any insurance recoveries should be offset against the impairment loss. The University did not record any losses related to asset impairment during fiscal year 2020 or 2019.

#### **Unearned Revenues**

Unearned revenues include funds received in advance of an event, such as tuition and fees and advance ticket sales for athletic events. Net student tuition and fee revenues and housing revenues for the fall semester are recognized in the fiscal year in which the related revenues are earned. Ticket sale revenues for athletic events are recognized as the related games are played. Unearned revenues also consist of amounts received from grant and contract sponsors that have not yet been earned under the terms of the agreements. Amounts received from grant sponsors for which the only unmet term of the agreement is timing (i.e. funds may not be spent until a certain date) are classified as deferred inflows of resources in accordance with GASB Statement No. 65. All other unearned revenue is classified as a current liability. In fiscal year 2018, the University signed a long-term multi-year contract for dining services. The associated revenue is being amortized over the ten-year life of the contract on a straight-line basis. Unearned revenue includes the amounts received but not earned from the contract (see Note 13).

#### **Classification of Revenues**

The University has classified its revenues as either operating or nonoperating according to the following criteria:

- Operating Revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as student tuition and fees, net of scholarship discounts and allowances, sales and services of auxiliary enterprises, net of scholarship discounts and allowances, most federal, state, local, private grants and contracts and federal appropriations, and interest on institutional student loans.
- Nonoperating Revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues. In accordance with GASB Statement No. 35, certain significant revenues on which the University relies to support its operational

mission are required to be recorded as nonoperating revenues. These revenues include state appropriations, private gifts, federal Pell grants and investment income, including realized and unrealized gains and losses on investments. In fiscal year 2020, these revenues also included federal and state funding through the CARES Act of 2020 in response to the global COVID-19 pandemic.

# Student Tuition, Fees and Scholarship Discounts and Allowances

Student tuition and fee revenues and certain other revenues from students are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses and Changes in Net Position. Scholarship discounts and allowances represent the difference between the stated charge for goods and services provided by the University and the amount that is paid by students and/or third parties making payments on the students' behalf. Scholarship allowances to students is calculated using the alternative method as prescribed by the National Association of College and University Business Officers (NACUBO). The alternative method is an algorithm that computes scholarship allowances on a university-wide basis rather than on an individual student basis.

# **Auxiliary Revenues**

Sales and services of auxiliary enterprises primarily consist of revenues generated by athletics, bookstore, housing, dining, printing and telecommunications, which are substantially self-supporting activities that primarily provide services to students, faculty, administrative and professional employees and staff.

# **Grants and Contracts Revenues**

The University receives sponsored funding from governmental and private sources. Revenues from these projects are recognized in accordance with GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions, based on the terms of the individual grant or contract. Pell grants are recorded as nonoperating revenues in the accompanying Statements of Revenues, Expenses and Changes in Net Position.

# **Compensated Absences**

The University reports employees' accrued annual leave and sick leave at varying rates depending upon employee classification and length of service, subject to maximum limitations. Upon termination of employment, employees are paid all unused accrued vacation at their regular rates of pay up to a designated maximum number of days. GASB Statement No. 35 requires the amount of compensated absences that are due within one year of the fiscal year end to be classified as a current liability. Annually, University employees utilize vacation and sick leave in an amount greater than the compensated absence liability at September 30; therefore, the entire accrual is considered to be a current liability.

#### **Donor Pledges**

The University normally does not receive gift pledges. Pledged revenue representing unconditional promises to give is normally received by AUF or TUF and later disbursed in accordance with the donors' wishes for the benefit of the University. Pledges are recorded net of discounts.

#### (3) CASH AND CASH EQUIVALENTS

Cash consists of petty cash funds and demand deposits held in the name of the University. GASB Statement No. 40, Deposit and Investment Risk Disclosures-an amendment of GASB Statement No. 3, defines custodial risk for deposits as "the risk that, in the event of a failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover securities which are in the possession of an outside party."

Any depository of University funds must provide annual evidence of its continuing designation as a qualified public depository under the Security for Alabama Fund Enhancement Act (SAFE). Under the mandatory SAFE program, each qualified public depository (QPD) is required to hold collateral for all its public deposits on a pooled basis in a custody account established for the State Treasurer as SAFE administrator. In the unlikely event a public entity should suffer a loss due to QPD insolvency or default, a claim would be filed with the State Treasurer who would use the SAFE pool collateral or other means to reimburse the loss. As a result, the University believes its custodial risk related to cash is remote. In addition, the standard Federal Deposit Insurance Corporation (FDIC) is \$250,000 per depositor, per insured bank, for each account ownership category.

Cash equivalents may consist of commercial paper, repurchase agreements, banker's acceptances, and money market accounts purchased with maturities at the date of acquisition of three months or less, whose use is not restricted for long-term purposes.

# (4) INVESTMENTS

The Board is authorized to invest all available cash and is responsible for the management of the University's investments. The endowment funds and the Cash Pool assets are invested in accordance with policies established by the Board. The Board has engaged a custodian and professional investment managers to manage the investment of the endowment funds while maintaining centralized management of the Cash Pool. The University monitors these investments through an on-going review of investment strategy, performance, valuation, risk management practices and operational activities.

Preservation of capital is regarded as the highest priority in the investing of the Cash Pool. It is assumed that all investments will be suitable to be held to maturity. The University's investment portfolio is structured in such a manner to help ensure sufficient liquidity to pay obligations as they become due. The portfolio strives to provide a stable return consistent with investment policy. The Non-Endowment Cash Pool Investment Policy authorizes investments in the following: money market accounts, repurchase and reverse repurchase agreements,

banker's acceptances, commercial paper, certificates of deposit, municipals, U.S. Treasury obligations, U.S. Agency securities and mortgage-backed securities.

Bond proceeds are invested in accordance with the underlying bond agreements. The University's bond agreements generally permit bond proceeds and debt service funds to be invested in obligations in accordance with University policy in terms maturing on or before the date funds are expected to be required for expenditures or withdrawal. Certain bond indentures require the University to invest amounts held in certain construction funds, redemption funds and bond funds in federal securities or state, local and government series (SLGS) securities.

Diversification through asset allocation is utilized as a fundamental risk strategy for endowed funds. These strategic allocations represent a blend of assets best suited, over the long term, to achieve maximum returns without violating the risk parameters established by the Board. The Endowment Fund Investment Policy, approved May 13, 2020, authorizes investment of the endowment portfolio to include the following: cash and cash equivalents; global fixed income; global equity securities; global private capital; absolute return/hedge funds; and real assets, collectively referred to as the endowment pool.

The Alabama Uniform Prudent Management of Institutional Funds Act (UPMIFA) was enacted by the Legislature of the State of Alabama and signed into law effective January 1, 2009. UPMIFA prescribes guidelines for expenditure of donor-restricted endowment funds (in the absence of overriding, explicit donor stipulations). UPMIFA focuses on the entirety of a donor-restricted endowment fund, that is, both the original gift amount(s) and net appreciation. UPMIFA includes a robust set of guidelines about what constitutes prudent spending, explicitly requiring consideration of the duration and preservation of the fund.

The earnings distributions are appropriated for expenditure by the Board in a manner consistent with the standard of prudence prescribed by UPMIFA. In order to conform to the standards for prudent fiduciary management of investments, the Board has adopted a spending plan whose long term objective is to maintain the purchasing power of each endowment and provide a predictable and sustainable level of income to support current operations. In the policy approved on May 13, 2020, spending for a given year equals 80% of spending in the previous year, adjusted for inflation (Consumer Price Index (CPI) within a range of 0.0% and 6.0%), plus 20% of the long-term spending rate (4.0%) applied to the twelve month rolling average of the market values. The net appreciation on endowments and funds functioning as endowments available for authorization for expenditure by the Board amounted to \$75,938,798 and \$72,318,643 at September 30, 2020 and 2019, respectively, and are recorded as restricted expendable net position.

# **Investment Risks**

Investments are subject to certain types of risks, including interest rate risk, custodial credit risk, credit quality risk, concentration of credit risk, and foreign currency risk. The following describes those risks:

• Interest Rate Risk – Interest rate or market risk is the potential for changes in the value of financial instruments due to interest rate changes in the market. Certain fixed maturity investments contain call provisions that could result in shorter maturity periods. As previously stated, it is the University's intent to hold all investments in the Cash Pool until maturity. The Board understands that in order to achieve its objectives, investments can experience fluctuations in fair value. Both the Endowment Fund Investment Policy and the Non-Endowment Cash Pool Investment Policy set forth allowable investments and allocations.

The following segmented time distribution tables provide information as of September 30, 2020 and 2019, covering the fair value of investments by investment type and related maturity:

| Auburn University Investments<br>Investment Maturities at Fair Value (in Years)<br>September 30, 2020                         |    |             |    |   |    |                                       |    |                  |     |  |  |
|---|----|-------------|----|---|----|---------------------------------------|----|------------------|-----|--|--|

Operating and noncurrent investments

\$1,501,272,390

- Custodial Credit Risk GASB Statement No. 40 defines investment custodial risk as "the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party." Although no formal policy has been adopted, the University requires its safekeeping agents to hold all securities in the University's name for both the Cash Pool and the Endowment Pool. Certain limited partnership investments in Private Capital and Real Assets represent ownership interests that do not exist in physical or book-entry form. As a result, custodial credit risk is remote.
- Credit Quality Risk GASB Statement No. 40 defines credit quality risk as "the risk that an issuer or other counterparty to an investment will not fulfill its obligations" as they become due. The University's Non-Endowment Cash Pool Investment Policy stipulates that commercial paper be rated at least P1 by Moody's or A1 by Standard & Poor's or a comparable rating by another nationally recognized rating agency. Banker's acceptance should hold a long term debt rating of at least AA or short term debt rating of AAA (or comparable ratings) as provided by one of the nationally recognized rating agencies.

The following table provides information as of September 30, 2020 and 2019, concerning credit quality risk:

<sup>\*</sup>Certificates of deposit are included in the "Not rated" category.

Concentration of Credit Risk – GASB Statement No. 40 defines concentration of credit risk as "the risk of loss attributed to the magnitude of a government's investment in a single issuer." The University Non-Endowment Cash Pool Investment Policy does not limit the aggregate amounts that can be invested in U.S. Treasury securities with the explicit guarantee of the U.S. Government or U.S. Agency securities that carry the implicit guarantee of the U.S. Government. As of September 30, 2020 and 2019, the University Cash Pool and the University Endowment Pool were in compliance with their respective policies.

The University Endowment Investment Policy provides for diversification by identifying asset allocation classes and ranges to provide reasonable assurance that no single security, or class of securities, will have a disproportionate impact on the performance of the total Endowment Pool.

Foreign Currency Risk – GASB Statement No. 40 defines foreign currency risk as "the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit." No formal University policy has been adopted addressing foreign currency risk. As of September 30, 2020 and 2019, the University held no investments in foreign currency.

## **Securities Lending Program**

As of September 30, 2020 and 2019, there was no participation in any securities lending program.

#### **Interest Sensitive Securities**

As of September 30, 2020, the University held investments totaling \$7,953,833 in mortgage-backed securities. As of September 30, 2019, the University held investments in mortgage-backed securities totaling \$10,344,797. As of September 30, 2020 and 2019 the University held no investments in asset-backed securities. The mortgage-backed investments have embedded prepayment options that are expected to fluctuate with interest rate changes. Generally, this variance presents itself in variable repayment amounts, uncertain early or extended payments.

Certain fixed maturity investments have call provisions that could result in shorter maturity periods. However, it is the intent that the Cash Pool fixed maturity investments be held to maturity; therefore, the fixed maturity investments are classified in the above table as if they were held to maturity. As of September 30, 2020 and 2019, the Cash Pool held \$377,831,541 and \$171,311,180, representing 22.03% and 12.19%, respectively, of total investments in continuously callable fixed maturity investments. The University investment policies do not restrict the purchase of mortgage-backed securities, asset-backed securities, or bonds with call provisions.

The University owns shares in mutual funds, common trust funds, and business trust funds. These funds are invested in global marketable securities, commodities and global debt securities. The University owns limited partnership interests in several non-registered investment partnerships and interests in

a limited liability company. The goal of the limited partnerships and limited liability company is to invest in readily marketable securities, privately held companies and properties within different industry sectors. At investment inception, the University enters into a separate subscription agreement with a capital commitment to each limited partnership.

On September 30, 2020 and 2019, the University was not a party in any swap or other derivative contracts.

The table entitled, "Auburn University Investments, Investment Maturities at Fair Value (in Years)," includes funds held for pending capital expenditures at September 30, 2020, as follows: \$298,523,227, 2020C General Fee Bond proceeds and \$210,406,360, 2018A General Fee Bond proceeds, and \$27,383,052, Deferred Maintenance Building Fund. The General Liability Account holds investments of \$5,730,339.

At September 30, 2019, funds held for pending capital expenditures were as follows: \$217,395,859, 2018A General Fee Bond proceeds, and \$24,434,545, Deferred Maintenance Building Fund. The General Liability Account held investments of \$5,679,697.

The University carries its limited partnership investments at estimated fair value as determined by the fund manager or general partner. The University records its initial investment and subsequent contributions at cost and adjusts for its share of income/appreciation, losses/depreciation, and distributions

received from the investments. The University believes that the carrying amount of these investments using NAV is a reasonable estimate of fair value as of September 30, 2020 and 2019. Because these investments are not readily marketable, the estimated value is subject to uncertainty, and therefore may differ from the value that would have been used had a ready market for the investments existed and such difference could be material. These investments are made in accordance with the University's investment policy that approves the allocation of funds to various asset classes (i.e., global equity, private capital, hedge funds, real assets, global fixed income, and cash) in order to ensure the proper level of diversification within the endowment pool. Investments in limited partnerships (private equity, hedge funds, and real assets) are designed to enhance diversification and provide reductions in overall portfolio volatility. These fair values are estimated by the general partner of each limited partnership using various valuation techniques.

GASB Statement No. 72 establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value. At September 30, 2020 and 2019, the fair value of the University's investments based on the inputs used to value them is summarized in the tables below. Note that the Money Market, Cash Surrender Value of Life Insurance, and Investments, measured using the NAV, are presented in these tables to permit reconciliation of the fair value hierarchy to the amounts presented in the accompanying Statements of Net Position.

Investments categorized as Level 1 are valued using prices quoted in active markets. Fixed income securities categorized as Level 2 represent investments valued using a matrix pricing technique from a pricing service, which values debt securities

based on their relationship to a benchmark and the relative spread to that benchmark. Real estate categorized as Level 3 is valued from periodic valuations prepared by independent appraisers or property tax valuation.

Funds held in trust represent a foundation with the University as the named beneficiary (see Note 5).

The global bond fund includes investments in a globally diversified portfolio of primarily debt or debt-like securities. The fund invests in government debt securities.

The business trust funds and common trust funds include investments in international and emerging markets equity securities, investment grade credit securities, mortgage-backed securities and government securities. Exposure by market is approximately 1% domestic, 63% developed international and 36% emerging markets.

The emerging markets equity fund includes investments in emerging markets equity securities. The fund invests, directly or indirectly through one or more other pooled investment vehicles, in equities and equity derivatives of issuers operating in emerging markets.

The global equity hedge fund includes investments in long/short equities. Long exposure ranges from 140-170%, while short exposure ranges from 40-70%. Management of the hedge fund's stated process is a risk-controlled, industry-neutral, analyst-driven approach to large cap equity investing.

Global long/short hedge funds include investments primarily in U.S. equities, with some international exposure. These funds are invested in various sectors including consumer, healthcare, technology, media, telecom, financials, industrials, and materials.

Absolute return hedge funds include investments in multiple strategies to diversify risk and reduce volatility, including but not limited to event-driven, arbitrage, distressed debt, and special situations.

Private equity funds predominantly consist of limited partnership funds that invest in private equity, venture capital, distressed opportunities, natural resources and real estate.

Real asset investment funds include limited partnership investments in commercial and residential real estate and land, natural resources, and commodities.

Under the terms of these private equity and real asset investment agreements, the University is obligated to remit additional funding periodically as capital calls are exercised. Depending on market conditions, the ability or inability of a fund to execute its strategy and other factors, the fund may request an extension of terms beyond its originally anticipated existence or may liquidate the fund prematurely. The University cannot anticipate such changes, because they are based on unforeseen events. These investments cannot be redeemed at NAV; however, periodic distributions may be made to the University at the managers' discretion as underlying portfolio assets are liquidated.

Real estate includes land in Birmingham, Alabama and Washington, D.C. The land in Birmingham is an undeveloped lot that is listed for sale. The land in Washington, D.C. is subject to a building lease ending in 2145.

AUF holds endowments and distributes earnings from those endowments to the University. AUF investments at September 30, 2020 and 2019, include the following:

|  | 2              | 020            | 20:            | 19             |

Investments are made in accordance with AUF's investment policy that approves the allocation of funds to various asset classes in order to ensure the proper level of diversification within the endowment pool. Investments in hedge, private equity and real asset funds are designed to enhance diversification and provide reductions in overall portfolio volatility. Other investments consist of deeded mineral rights, structured notes, and closely held stock with sale restrictions.

For certain investments at inception, AUF enters into a separate agreement with a capital commitment. As of September 30, 2020, AUF had entered into subscription agreements with sixtynine limited partnership investments. The aggregate amount of capital committed to these investments is \$345,360,589 of

which capital contributions of \$245,436,279 have been invested. A cumulative net unrealized gain of \$90,113,174 has been recorded on these investments. Of these sixty-nine commitments, thirteen subscriptions relate to hedge funds, thirty-five subscriptions relate to private equity funds, and twenty-one subscriptions relate to real asset funds.

# (5) FUNDS HELD IN TRUST

In addition to permanently restricted endowments carried on the University's financial statements, the University is the beneficiary of income earned on a number of endowments held by AUF. The cost of these funds was \$417,051,312 and \$393,195,041 and the market value was \$562,662,081 and \$527,118,936 at September 30, 2020 and 2019, respectively. The portion of endowment income received by the University from these funds was \$18,331,043 and \$16,741,550 for the fiscal years ended September 30, 2020 and 2019, respectively.

Endowment earnings are distributed annually, based on the AUF endowment distribution spending rate. These amounts are reported as investment income on the Statements of Revenues, Expenses and Changes in Net Position.

In addition, the University has been named as a beneficiary of a foundation with investments having a cost of \$2,522,126 and

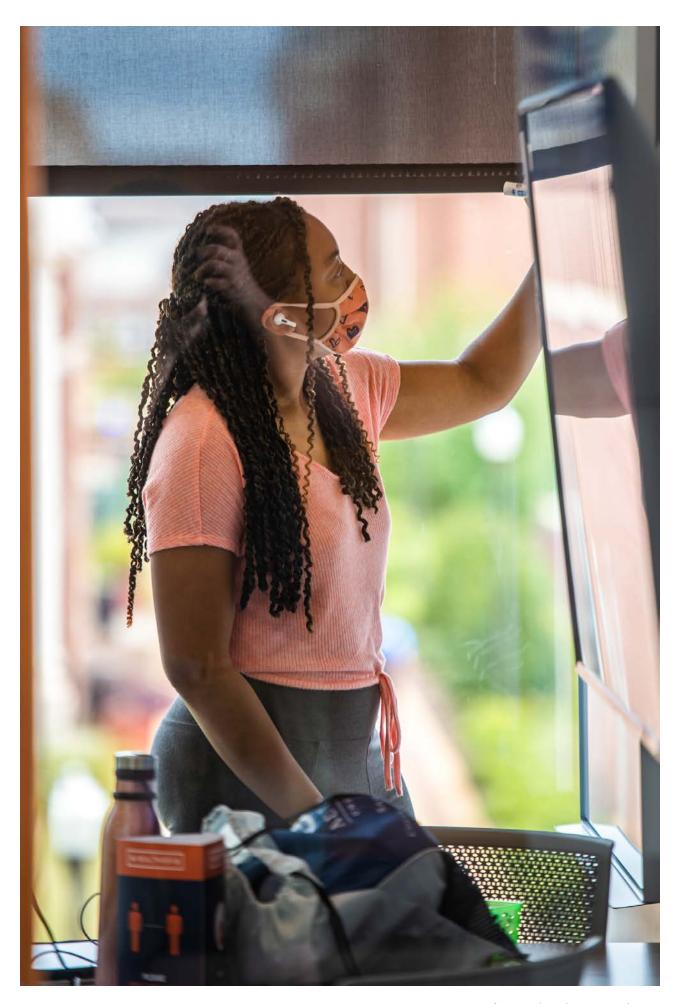

\$2,575,411 and a market value of \$3,433,610 and \$3,578,142 at September 30, 2020 and 2019, respectively.

The University is the beneficiary of the income earned on two additional trusts. The cost of investments held by these trusts was \$753,000 as of September 30, 2020 and 2019. The income received from the two trusts was \$80,763 and \$61,020 for the fiscal years ended September 30, 2020 and 2019, respectively.

#### (6) ACCOUNTS RECEIVABLE

Accounts receivable and the allowances for doubtful accounts at September 30, 2020 and 2019, are summarized as follows:

| Accounts receivable and the allowances for doubtful accounts at September 30, 2020 and 2019, | are s | summanzeu as | IUII | OWS.         |
|--|-------|--------------|------|--------------|

During the fiscal years ended September 30, 2020 and 2019, the University did not receive any construction funding from the State of Alabama.

# (8) DEFERRED OUTFLOWS OF RESOURCES

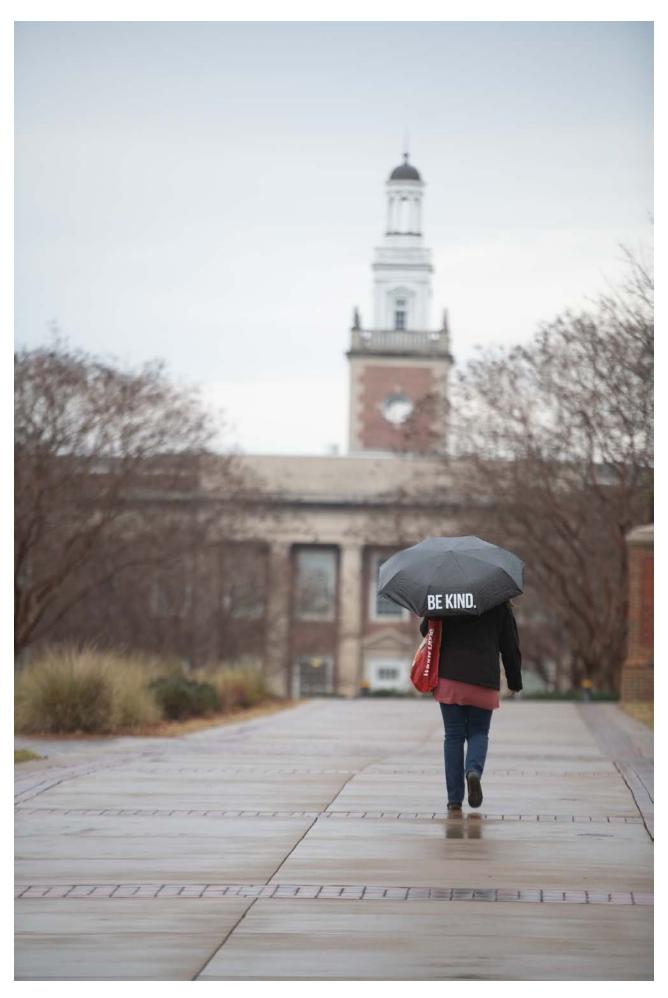

Deferred outflows of resources are a consumption of net position that are applicable to a future reporting period. In 2010, 2012, 2014, 2015, 2016, and 2020, the University defeased certain outstanding bonds. These refundings resulted in a loss (the difference between the acquisition price of the new debt and the net carrying amount of the old debt). In accordance with GASB Statements No. 63 and No. 65, this loss is presented as a deferred outflow of resources that is amortized over the life of the old or new bonds, whichever is shorter. The University is

amortizing each of the deferred losses presented below over the life of the defeased bonds. Additionally, in accordance with GASB Statement No. 68 and GASB Statement No. 75, changes in assumptions, changes in the proportion of total net liabilities relative to other plan participants, differences between employer contributions and proportionate share of contributions, and employer contributions subsequent to the measurement date of the net pension liability but prior to the end of the fiscal year are presented as a deferred outflow of resources.

The components of deferred outflows of resources are summarized below.

On July 10, 2018, the University issued the 2018A General Fee Bonds with a par value of \$216,865,000 and interest rates ranging from 2.0% to 5.0% to finance certain capital improvements on the University's main campus.

The University has outstanding bonds payable and notes from direct borrowings totaling \$1,078,016,475 and \$3,125,000 and \$803,974,184 and \$3,125,000 at September 30, 2020 and 2019, respectively. The University's bonds have acceleration provisions in the event of default that the Bond Trustee may, by written notice to the University, declare the principal of and the interest accrued on all the Bonds due and payable immediately or the Trustee has the right of mandamus or other lawful remedy in court. The University's outstanding note from a direct borrowing contains a provision that in the event of default, the outstanding amount will become immediately due, and the interest rate of 0.54% annually will immediately escalate to the federal short-term rate.

On September 13, 2019, the Board authorized the University to issue revenue bonds for the purpose of refunding any or all of its outstanding bonds in an effort to manage the University's refunding opportunities in the most efficient manner possible, and to permit the University to take advantage of changing market conditions.

On March 18, 2020, \$35,560,000 in General Fee Bonds (2020A) with an interest rate of 5.0% were issued to refund \$40,500,000 of the University's outstanding 2009A General Fee bonds maturing in 2021 and thereafter with interest rates ranging from 3.875% to 5.0%. The portion of the net proceeds of the new bond issue to be used for refunding was deposited in an irrevocable trust with an escrow agent and used to purchase U.S. Government securities, which will provide sufficient funds to pay all future debt service payments on the previously outstanding bonds. As a result, the previously outstanding bonds are considered to be defeased and the liability for those bonds has been removed

from the University's financial statements. This refunding resulted in the University recognizing a loss of \$1,116,135 for the difference between the acquisition price of the new debt and the carrying amount of the old debt. Although the University recognized an accounting loss, the refunding decreases the University's total debt service payments over the next 6 years by \$4,579,554 and resulted in an economic gain (the difference between the present values of the debt service payments on the old and the new bonds) for the University of \$4,530,933.

On March 18, 2020, \$104,770,000 in General Fee Bonds (2020B) with interest rates ranging from 1.49% to 2.763% were issued to refund \$20,080,000 of the University's outstanding 2011A General Fee bonds maturing in 2022 and thereafter with interest rates ranging from 4.0% to 5.0% and \$77,050,000 of its outstanding 2012A General Fee bonds maturing in 2023 and thereafter with an interest rate of 5.0%. The portion of the net proceeds of the new bond issue to be used for refunding was deposited in an irrevocable trust with an escrow agent and used to purchase U.S. Government securities which will provide sufficient funds to pay all future debt service payments on the previously outstanding bonds. As a result, the previously outstanding bonds are considered to be defeased and the liability for those bonds has been removed from the University's financial statements. This refunding resulted in the University recognizing a loss of \$4,409,489 for the difference between the acquisition price of the new debt and the carrying amount of the old debt. Although the University recognized an accounting loss, the refunding decreases the University's total debt service payments over the next 22 years by \$41,593,407 and resulted in an economic gain (the difference between the present values of the debt service payments on the old and the new bonds) for the University of \$37,677,059.

On July 29, 2020, the University issued the 2020C General Fee Bonds with a par value of \$300,000,000 and interest rates ranging from 0.447% to 2.681% to finance certain capital improvements on the University's main campus.

#### **Future Debt Service**

Future debt service payments for each of the five fiscal years subsequent to September 30, 2020 and thereafter, are as follows:

| Year Ending               | Bonds Payable |               |                |             |  |  |  |

| 2036-2040                 |               | 208,210,000   |                | 65,161,136  |  |  |  |
| 2041-2045                 |               | 127,110,000   |                | 32,145,015  |  |  |  |
| 2046-2050                 |               | 105,445,000   |                | 9,385,387   |  |  |  |
| Total future debt service | \$            | 1,078,016,475 | \$             | 549,405,239 |  |  |  |

This table excludes the note payable of \$3,125,000, as it becomes due upon an event trigger, and not a time certain.

#### **Capital Lease Obligations**

During August 2017, the University entered into a lease agreement for the Auburn University Educational Complex with the Public Educational Building Authority of the City of Gulf Shores, Alabama (PEBA) in which the University's annual payments are equal to the PEBA's annual bond payments. According to the terms of the agreement, the University will lease the property, currently owned by PEBA, until July 1, 2047, or such time as all of the Bonds and the fees and expenses of PEBA and the Trustee have been fully paid or provision made for such payments. The University will have the right to purchase the property from PEBA at any time during the term of the agreement after or simultaneously with payment or provision for payment in full of the principal of and the interest on the Bonds and all fees, charges and disbursements of the Trustee. The lease payments are paid from the General Fee Revenues of the University. The leased properties are recorded as capital assets and are being depreciated on a straight-line basis over a 40 year life. In addition, the University leases certain equipment under arrangements classified as capital leases.

| Tot | al future minimum lease payments | \$<br>11,495,346 | \$<br>7,041,375 | \$<br>18,536,721 |

The University has entered into various operating leases for equipment. It is expected that, in the normal course of business, such leases will continue to be required. Net expenditures for rentals under operating leases for the years

ended September 30, 2020 and 2019, amounted to approximately \$6.1 million and \$5.9 million, respectively.

# (10) PLEDGED REVENUES

Pledged revenue for 2020 and 2019 as defined by the Series 2008, 2009, 2011A, 2012A, 2012B, 2014A, 2015A, 2015B, 2016A, 2018A, 2020A, 2020B, and 2020C General Fee Revenue Trust Indentures is as follows:

|  | 2020              | 2019              |
|--|-------------------|-------------------|
| Student fees collected                                       | \$<br>610,275,591 | \$<br>589,344,065 |
| Less fees pledged for specific purposes:                     |                   |                   |
| Athletic fees (\$101/\$98 per student per semester)          | (6,274,415)       | (5,909,507)       |
| Transit fees (\$166/\$161 per semester)                      | (7,942,240)       | (9,243,301)       |
| Student center operations (\$9/\$8 per student per semester) | (517,912)         | (773,152)         |
| Total general fees pledged                                   | \$<br>595,541,024 | \$<br>573,418,105 |

The Series 2011A Bonds expanded the definition of pledged revenues. "General Fees" pledged to secure the Series 2011A Bonds and all other Parity Bonds now or hereafter outstanding under the General Fee Revenue Indenture will include the general fees levied against the University's

students at both the main campus and AUM. "Housing Revenues" pledged to secure the Series 2011A Bonds and all other Parity Bonds now or hereafter outstanding under the General Fee Revenue Indenture will include the University's housing and dining revenues from the operation of housing and dining facilities on both the main campus and AUM.

The pledge of housing and dining revenues under the General Fee Revenue Indenture is subordinate in all respects to the

University's prior pledge of certain dormitory revenues at AUM to secure payment of the 1978 Dormitory Revenue Bonds.

AUM housing and dining revenue pledged for 2020 and 2019 subordinate to prior pledges of such revenues as defined by the **Series 2011A General Fee Revenue Trust Indenture** is as follows:

|   | 2020 |           | 2019 |           |
|---|------|-----------|------|-----------|
| AUM housing revenues                          |      |           |      |           |
| Room rental                                   | \$   | 5,886,966 | \$   | 7,161,870 |
| Other income                                  |      | 148,366   |      | 255,992   |
| Total housing                                 |      | 6,035,332 |      | 7,417,862 |
| AUM dining revenue                            |      | 1,074,163 |      | 2,368,846 |
| Total AUM housing and dining revenues pledged | \$   | 7,109,495 | \$   | 9,786,708 |

The pledge of athletic program revenues was added to the General Fee Trust Indenture contemporaneously with the issuance of the Series 2008 Bonds and collateralizes, on a parity basis, all bonds now or hereafter issued under the General Fee Revenue Indenture.

Athletic program revenues pledged to the 2008 General Fee Revenue Bonds are subordinate to the athletic program revenues previously pledged to the Athletic Bonds as described in the following chart.

Pledged revenue for 2020 and 2019 as defined by the Series 2001A Athletic Revenue Trust Indenture is as follows:

|  | 2020 |             | 2019              |
|--|------|-------------|-------------------|
| Jordan-Hare and other revenues:            |      |             |                   |
| Television and broadcast revenues          | \$   | 36,960,000  | \$<br>40,022,009  |
| Conference and NCAA distributions          |      | 5,810,674   | 12,808,859        |
| Sales and services revenues                |      | 30,852,035  | 27,451,637        |
| Student fees                               |      | 6,274,415   | 5,909,507         |
| Royalties, advertisements and sponsorships |      | 9,658,649   | 9,667,679         |
| Other income                               |      | 13,848,793  | 13,275,560        |
| Total athletic revenues pledged            | \$   | 103,404,566 | \$<br>109,135,251 |

The Series 2001A Athletic Revenue Bonds are collateralized by a first priority pledge of the athletic program revenues that is senior to, and has priority in all respects over, the subordinate pledge of the athletic program revenues that was added to the General Fee Trust Indenture concurrently with the issuance of the Series 2008 Bonds.

The pledge of housing and dining revenues was added to the General Fee Trust Indenture, contemporaneously with the issuance of the University's General Fee Revenue Bonds, Series 2007A and collateralizes, on a parity basis, all bonds now or hereafter issued under the General Fee Revenue Indenture.

The following summary shows the pledged revenues and related expenses and transfers from operations of the West Dormitories of AUM for the years ended September 30, 2020 and 2019, as defined by the **1978 Auburn University at Montgomery Trust Indenture**:

|  | 2020         | 2019         |
|--|--------------|--------------|
| Revenues:  |              |              |
| Room rental  | \$ 1,133,821 | \$ 1,496,591 |
| Other income   | 165,236      | 78,914       |
| Total revenues                                       | 1,299,057    | 1,575,505    |
|  |              |              |
| Expenses and transfers:                              |              |              |
| Personnel costs                                      | 383,038      | 321,022      |
| Operating expenses                                   | 693,080      | 1,018,852    |
| Transfers  |              | 24,166       |
| Total expenses and transfers                         | 1,076,118    | 1,364,040    |
|  |              |              |
| Surplus of revenues over expenses and transfers      | 222,939      | 211,465      |
| AUM student housing net surplus at beginning of year | 1,050,453    | 838,988      |
| AUM student housing net surplus at end of year       | \$ 1,273,392 | \$ 1,050,453 |

The AUM dormitory occupancy rate for Fall semester 2020 and Fall semester 2019 was 93.48% and 99.19%, respectively (unaudited).

#### (11) RETIREMENT PROGRAMS

The employees of the University are participants in three types of benefit plans; a 401(a) defined benefit plan, a 403(b) defined contribution plan, and a 457(b) deferred compensation plan as follows:

#### A. Teachers' Retirement System of Alabama

The University contributes to the Teachers' Retirement System of Alabama (TRS), a cost sharing, multiple-employer, public employee retirement system for the various state-supported educational agencies and institutions. This plan is administered by the Retirement Systems of Alabama.

Substantially all non-student employees are members of TRS. Membership is mandatory for eligible employees. During the 2012 regular session of the Alabama Legislature, Act 2012-377 created a new defined benefit plan tier for employees hired on or after January 1, 2013, with no previous creditable service referred to as "Tier 2".

Employees hired or with creditable service prior to that date are "Tier 1" participants.

Benefits vest after ten years of creditable service. Vested Tier 1 employees may retire with full benefits at age 60 with ten years of service or at any age with 25 years of service. Retirement benefits for Tier 1 employees are calculated by the formula method by which retirees are allowed 2.0125% of their final salary (average of the highest three of the last ten years) for each year of service. Vested Tier 2 employees may retire with full benefits at age 62 with 10 years of service. For Tier 2 employees, the percentage is 1.65% of their final salary (average of the highest five of the last ten years) for each year of service. Disability retirement benefits are calculated in the same manner for both Tier 1 and Tier 2 employees. Pre-retirement death benefits are provided to plan members.

TRS was established September 15, 1939, under the provisions of Act Number 419, of the Acts of Alabama 1939, for the purpose of providing retirement allowances and other specified benefits for qualified persons employed by state-supported educational institutions. The responsibility for general administration and operation of TRS is vested in the Board of Control (currently 15 trustees). Benefit provisions are established by the Code of Alabama 1975, Sections 16-25-1 through 16-25-113, as amended, and Sections 36-27B-1 through 36-27B-6, as amended.

The Retirement Systems of Alabama issues a publicly available financial report that includes financial statements and required supplementary information for TRS. The TRS financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Contributions are recognized as revenue when earned, pursuant to plan requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with requirements of the GASB. Under these requirements, the TRS plan is considered a component unit of the State of Alabama and is included in the State's Comprehensive Annual Financial Report. That report may be obtained by writing to the Retirement Systems of Alabama, 135 South Union Street, Montgomery, Alabama 36130-2150 or at www.rsa-al.gov.

#### **Funding Policy**

Tier 1 employees are required by statute to contribute 7.5% of their salary to TRS. Tier 2 employees contribute 6.0% of their salary. The University is required to contribute the remaining amounts necessary to fund the actuarially determined contributions to ensure sufficient assets will be available to pay benefits when due. Each year TRS recommends to the Alabama

State Legislature the contribution rate for the following fiscal year, with the Alabama State Legislature setting this rate in the annual appropriations bill. The percentages of the contributions and the amount of contributions made by the University and the

University's employees, for both Tier 1 and Tier 2 employees, respectively, equal the required contributions for each year as follows:

| Fiscal year ended September 30                     | 20     | 020                          | 2019 |             |    | 2018            |
|--|--------|------------------------------|------|-------------|----|-----------------|
|  | Tier 1 | Tier 1 / Tier 2 Tier 1 / Tie |      |             |    | Tier 1 / Tier 2 |
| Total percentage of covered payroll contributions: | 19.93% | 6 / 17.34%                   | 19.9 | 1% / 17.35% | :  | 19.74% / 17.01% |
| Percentage contributed by the employer             | 12.43% | 6 / 11.34%                   | 12.4 | 1% / 11.35% | :  | 12.24% / 11.01% |
| Percentage contributed by the employees            | 7.50   | 0% / 6.00%                   | 7.   | 50% / 6.00% |    | 7.50% / 6.00%   |
| Contributed by the employer                        | \$ 5   | 7,443,019                    | \$   | 55,172,904  | \$ | 51,809,686      |
| Contributed by the employees                       | 3      | 3,049,587                    |      | 31,950,378  |    | 30,754,954      |
| Total contributions                                | \$ 9   | 0,492,606                    | \$   | 87,123,282  | \$ | 82,564,640      |

The University reported a liability of \$707,297,000 and \$643,808,000 as of September 30, 2020 and 2019, respectively, for its proportionate share of the collective net pension liability. The collective net pension liability was measured as of September 30, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2018 and 2017, respectively. The University's proportion of the collective net pension liability was based on employers' shares of contributions to the pension plan relative to the total employer contributions of all participating TRS employers.

At September 30, 2019 and 2018, the University's proportion was 6.396880% and 6.475262%, respectively, which was a decrease of 0.078382% and an increase 0.168472% from its proportion measured as of September 30, 2018 and 2017, respectively.

For the years ended September 30, 2020 and 2019, the University recognized pension expense of \$88,905,000 and \$67,057,000, respectively.

At September 30, 2020, the University reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

|   | <br>erred Outflows<br>of Resources | D  | Deferred Inflows of Resources |
|---|------------------------------------|----|-------------------------------|
| Differences between expected and actual experience  | \$<br>10,457,000                   | \$ | 23,457,000                    |
| Changes of assumptions  | 21,791,000                         |    | _                             |
| Net difference between projected and actual earnings on pension plan investments                              | 24,628,000                         |    | _                             |
| Changes in proportion and differences between Employer contributions and proportionate share of contributions | 22,690,000                         |    | 6,461,000                     |
| Employer contributions subsequent to the measurement date   | 57,443,000                         |    |                               |
|   | \$<br>137,009,000                  | \$ | 29,918,000                    |

\$57,443,000 reported as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in compensation and benefits expense as follows:

| Year Ending September 30: |                  |
|---------------------------|------------------|
| 2021                      | \$<br>10,505,000 |
| 2022                      | 8,446,000        |
| 2023                      | 16,572,000       |
| 2024                      | 14,565,000       |
| 2025                      | (440,000)        |

# **Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation as of September 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial Assumptions                   |            |  |  |  |
|---|------------|--|--|--|
| Inflation                               | 2.75%      |  |  |  |
| Investment rate of return*              | 7.70%      |  |  |  |
| Projected salary increases              | 3.25-5.00% |  |  |  |
| *Net of pension plan investment expense |            |  |  |  |

Post-Retirement mortality rates for service retirements and dependent beneficiaries were based on the RP-2000 White Collar Mortality Table projected to 2020 using scale BB and adjusted 115% for all ages for males and 112% for ages 78 and over for females.

The actuarial assumptions used in the September 30, 2018 valuation were based on the results of an actuarial investigation of the economic and demographic experience for the TRS based upon participant data as of September 30, 2015. The Board of Control accepted and approved these changes in September 2016 which became effective at the beginning of fiscal year 2016.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution

analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimate of geometric real rates of return for each major asset class are as follows:

|                                       | Target Allocation | Long-Term<br>Expected<br>Rate of Return* |
|---------------------------------------|-------------------|--|
| Fixed Income                          | 17.0 %            | 4.4%                                     |
| U.S. Large Stocks                     | 32.0 %            | 8.0%                                     |
| U.S. Mid Stocks                       | 9.0 %             | 10.0%                                    |
| U.S. Small Stocks                     | 4.0 %             | 11.0%                                    |
| International Developed Market Stocks | 12.0 %            | 9.5%                                     |
| International Emerging Market Stocks  | 3.0 %             | 11.0%                                    |
| Alternatives                          | 10.0 %            | 10.1%                                    |
| Real Estate                           | 10.0 %            | 7.5%                                     |
| Cash                                  | 3.0 %             | 1.5%                                     |
|                                       | 100 %             |  |

<sup>\*</sup>Includes assumed rate of inflation of 2.75%

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.70%. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods

of projected benefit payments to determine the total pension liability.

# Sensitivity of the System's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the University's proportionate share of the net pension liability calculated using the discount rate of 7.70% as well as what the University's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.70%) or one percentage point higher (8.70%) than the current rate:

|  | 1.00% De | crease (6.70%) | Current Di | scount Rate (7.70%) | 1.00% | % Increase (8.70%) |
|--|----------|----------------|------------|---------------------|-------|--------------------|
| Employers' proportionate share of the collective net pension liability | \$       | 960,198,000    | \$         | 707,297,000         | \$    | 493,284,000        |

#### **Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued RSA Comprehensive Annual Report for the fiscal year ended September 30, 2019. The supporting actuarial information is included in the GASB Statement No. 67 Report for the TRS prepared as of September 30, 2019. The auditor's report on the Schedule of Employer Allocations and Pension Amounts by Employer and accompanying notes detail by employer and in aggregate information needed to comply with GASB Statement No. 68. The additional financial and actuarial information is available at http://www.rsa-al.gov/index.php/employers/financial-reports/gasb-68-reports/.

# B. Employees' Retirement System of Alabama

Federally appointed employees of the Alabama Cooperative Extension System are covered by the Employees' Retirement System of Alabama (ERS). This program is a multi-employer defined benefit plan. Vesting and benefits of the ERS plan are similar to those of the TRS plan with the exception that they are based on half of the employee's average final salary. Upon retirement, these employees will also receive pension benefits under the Federal Civil Service Retirement System. ERS is part of the Retirement Systems of Alabama.

ERS was established October 1, 1945, under the provisions of Act 515 of the Legislature of 1945 for the purpose of providing retirement allowances and other specified benefits for state employees. The responsibility for the general administration and operation of ERS is vested in its Board of Control (currently 13 trustees).

The ERS financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Contributions are recognized as revenue when earned, pursuant to plan requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with requirements of the GASB. Under these requirements, the ERS plan is considered a component unit of the State of Alabama and is included in the State's Comprehensive Annual Financial Report. The Plan issues a publicly available report that can be obtained at www.rsa-al.gov.

#### Membership

As of the measurement date of September 30, 2019, the University had 266 retired members or their beneficiaries currently receiving benefits, one vested inactive member, two active members, and four post-Deferred Retirement Option Plan (DROP) retired members still in active service participating in the ERS.

#### **Funding Policy**

Tier 1 employees are required by statute to contribute 3.75% of their salary to the ERS. Tier 2 employees contribute 3.00% of their salary. The University is required to contribute the remaining amounts necessary to fund the actuarially determined contributions to ensure sufficient assets will be available to pay benefits when due. Each year the ERS recommends to the Legislature the contribution rate for the following fiscal year, with the Legislature setting this rate in the annual appropriations bill.

The percentages of the contributions and the amount of contributions made by the University and the University's employees, for Tier 1 and Tier 2 employees, respectively, equal the required contributions for each year as follows:

| Fiscal year ended September 30                     | 2020              | 2019              | 2018              |  |
|--|-------------------|-------------------|-------------------|--|
|  | Tier 1 / Tier 2   | Tier 1 / Tier 2   | Tier 1 / Tier 2   |  |
| Total percentage of covered payroll contributions: | 929.44% / 928.69% | 392.75% / 392.00% | 417.36% / 416.36% |  |
| Percentage contributed by the employer             | 925.69% / 925.69% | 389.00% / 389.00% | 413.61% / 413.36% |  |
| Percentage contributed by the employees            | 3.75% / 3.00%     | 3.75% / 3.00%     | 3.75% / 3.00%     |  |
| Contributed by the employer                        | \$ 6,129,799      | \$ 4,617,318      | \$ 5,680,659      |  |
| Contributed by the employees                       | 18,830            | 35,480            | 63,376            |  |
| Total contributions                                | \$ 6,148,629      | \$ 4,652,798      | \$ 5,744,035      |  |

The ERS establishes rates based upon an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with additional amounts to finance any unfunded accrued liability, the pre-retirement death benefit and administrative expenses of the Plan. For the year ended September 30, 2020, the University's active employee contribution rate was 925.69% of covered payroll.

The University's contractually required contribution rate for the year ended September 30, 2020, was 925.69% of pensionable

pay. These required contribution rates are based upon the actuarial valuation dated September 30, 2017, a percent of annual pensionable payroll, and actuarially determined as an amount that, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, with an additional amount to finance any unfunded accrued liability. Total employer contributions to the pension plan from the University were \$6,129,799 for the year ended September 30, 2020.

#### **Net Pension Liability**

The University's net pension liability was measured as of September 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2018 and rolled forward to September 30, 2019, using standard roll-forward techniques as shown in the following table:

| Total Pension Liability  | Expected          | Actual (7.70%)    |
|--|-------------------|-------------------|
| (a) Total Pension Liability as of September 30, 2018   | \$<br>44,310,953  | \$<br>44,563,689  |
| (b) Discount rate  | 7.7 %             | 7.7 %             |
| (c) Entry Age Normal Cost for the period October 1, 2018 – September 30, 2019                    | \$<br>_           | \$<br>_           |
| (d) Transfers Among Employers  | \$<br>_           | \$<br>_           |
| (e) Actual Benefit Payments and Refunds for the period<br>October 1, 2018 – September 30, 2019   | \$<br>(5,840,684) | \$<br>(5,840,684) |
| (f) Total Pension Liability as of September 30, 2019 $ [(a)x(1+(b))]+(c)+(d)+[(e)x(1+.05*(b))] $ | \$<br>41,657,346  | \$<br>41,929,543  |
| (g) Difference between Expected and Actual   |                   | \$<br>272,197     |
| (h) Less Liability Transferred for Immediate Recognition   |                   | \$<br>_           |
| (i) Experience (Gain)/Loss= (g)-(h)  |                   | \$<br>272,197     |

#### **Actuarial Assumptions**

The total pension liability in the actuarial valuation prepared as of September 30, 2018 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial Assumptions      |             |  |  |  |
|----------------------------|-------------|--|--|--|
| Inflation                  | 2.75%       |  |  |  |
| Salary increases           | 3.25%-5.00% |  |  |  |
| Investment rate of return* | 7.70%       |  |  |  |

<sup>\*</sup>Net of pension plan investment expense

Mortality rates were based on the sex distinct RP-2000 Blue Collar Mortality Table Projected with Scale BB to 2020 with an adjustment of 125% for all ages for males and 120% for females at ages on and after age 78. The rates of mortality for the period after disability retirement are according to the sex distinct RP-2000 Disabled Retiree Mortality Table Projected with Scale BB to 2020 with an adjustment of 130% at all ages for females.

The actuarial assumptions used in the September 30, 2018 valuation were based on the results of an investigation of the economic and demographic experience for the ERS based upon participant data as of September 30, 2015. The Board of Control accepted and approved these changes in September 2016, which became effective at the beginning of fiscal year 2016.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimate of geometric real rates of return for each major asset class are as follows:

|  | jo.                  |  |
|--|----------------------|--|
|  | Target<br>Allocation | Long-Term<br>Expected<br>Rate of Return* |
| Fixed Income   | 17.0%                | 4.4%                                     |
| U.S. Large Stocks  | 32.0%                | 8.0%                                     |
| U.S. Mid Stocks  | 9.0%                 | 10.0%                                    |
| U.S. Small Stocks  | 4.0%                 | 11.0%                                    |
| International Developed<br>Market Stocks<br>International Emerging | 12.0%                | 9.5%                                     |
| Market Stocks  | 3.0%                 | 11.0%                                    |
| Alternatives   | 10.0%                | 10.1%                                    |
| Real Estate  | 10.0%                | 7.5%                                     |
| Cash   | 3.0%                 | 1.5%                                     |
|  | 100.0%               |  |
|  |                      |  |

<sup>\*</sup>Includes assumed rate of inflation of 2.75%

# **Discount Rate**

The discount rate used to measure the total pension liability was the long term rate of return, 7.70%. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that the employer contributions will be made in accordance with the funding policy adopted by the ERS Board of Control. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the System's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the University's proportionate share of the net pension liability calculated using the discount rate of 7.70%, as well as what the University's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.70%) or one percentage point higher (8.70%) than the current rate:

|                                       | 1.00% Dec | rease (6.70%) | <b>Current Disco</b> | unt Rate (7.70%) | 1.00 | % Increase (8.70%) |
|---------------------------------------|-----------|---------------|----------------------|------------------|------|--------------------|
| Employers' proportionate share of the |           |               |                      |                  |      |                    |
| collective net pension liability      | \$        | 45,315,776    | \$                   | 42,658,146       | \$   | 40,308,835         |

# **Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued RSA Comprehensive Annual Report for the fiscal years ended September 30, 2019 and 2018. The supporting actuarial information is included in the GASB Statement No. 68 Report for the ERS prepared as of September 30, 2019 and 2018. The auditor's report on the Schedule of Changes in Fiduciary Net Position by Employer and accompanying notes detail by employer and in aggregate additional information needed to comply with GASB Statement No. 68. The additional financial and actuarial information is available at www.rsa-al.gov/index.php/employers/financial-reports/gasb-68-reports/.

For the year ended September 30, 2020 and 2019, the University recognized pension expense of \$3,433,276 and \$3,953,062, respectively. At September 30, 2020, the University reported deferred outflows of resources and deferred inflows of resources related to pensions of the following sources:

|   | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------|-------------------------------|
| Differences<br>between<br>expected and<br>actual experience                                     | \$ —                           | \$ —                          |
| Changes of assumptions  | _                              | _                             |
| Net difference<br>between<br>projected and<br>actual earnings on<br>pension plan<br>investments | _                              | 2,283                         |
| Employer<br>contributions<br>subsequent to the<br>measurement<br>date                           | 6,129,799                      | _                             |
|   | \$ 6,129,799                   | \$ 2,283                      |
|   |                                |                               |

\$6,129,799 reported as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the year ended September 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in compensation and benefits expense as follows:

| Year Ending September 30: |             |
|---------------------------|-------------|
| 2021                      | \$<br>(872) |

# C. Tax Deferred Annuity Plans

This plan is a defined contribution plan under Section 403(b) of the Internal Revenue Code. Accordingly, benefits depend solely on amounts contributed to the plan plus investment earnings. This is provided as a supplement to the aforementioned programs. All full-time regular or probationary employees are eligible to participate. Full-time temporary employees are also eligible if their employment period is for a minimum of one year. The University will match 100.0% of elective deferral contributions up to 5.0% of the employee's plan compensation. The matching contributions cannot exceed \$1,650 for any plan year (calendar year). An employee enrolling in one of the University's tax deferred annuity plans will not vest in the University's matching portion until he/she has completed five years of full-time continuous service. Upon the employee's completion of the five year requirement, the University's matching contribution and interest earned will be vested to the participant. Nonparticipating employees with continuous service will be given credit toward the five year requirement upon joining the tax deferred annuity program. The total investment in the annuities is determined by Section 403(b). There are

several investment options including fixed and variable annuities and mutual funds. The University-approved investment firms employees may select are Valic, TIAA-CREF, Fidelity Investments and Lincoln Financial. At September 30, 2020 and 2019, 3,814 and 3,768 employees, respectively, participated in the tax deferred annuity program. The contribution for 2020 was \$24,893,724, which includes \$5,730,492 from the University and \$19,163,232 from its employees. The contribution for 2019 was \$23,485,595, which includes \$5,508,108 from the University and \$17,977,487 from its employees.

Total salaries and wages during the fiscal year for covered employees participating in the plan were \$317,364,101 and \$299,925,759 for the fiscal years ended September 30, 2020 and 2019, respectively.

# **D.** Deferred Compensation Plans

The University follows the provisions of GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans-a rescission of GASB Statement No. 2 and an amendment of GASB Statement No. 31. As of September 30, 2020 and 2019, 287 and 262 employees, respectively, participated in the plans. Contributions of \$3,601,324 and \$3,331,025 for fiscal years 2020 and 2019, respectively, were funded by employees and no employer contribution was funded. The University approved investment firms for 457(b) include Valic, TIAA-CREF and Fidelity Investments.

#### (12) OTHER POSTEMPLOYMENT BENEFITS (OPEB)

The University offers postemployment health care benefits to all employees who officially retire from the University. Health care benefits are offered through the State of Alabama Public Education Employees Health Insurance Plan (PEEHIP) with TRS or the University's self-insured Retiree Medical Plan (the Plan), which is available for select employees who are not eligible for PEEHIP or those who were grandfathered in as Civil Service employees. Eligibility for benefits for Tier 1 employees begins at age 60 with at least ten years of service or at any age with 25 years of service. For Tier 2 employees, eligibility begins at age 62 with at least ten years of service. Retirees must have been enrolled in the active employees' health care plan for the last six of those years in order to be eligible for coverage under the plan.

# A. State of Alabama Public Education Employees Health Insurance Plan (PEEHIP)

#### **Plan Description**

The Alabama Retired Education Employees' Health Care Trust (Trust) is a cost-sharing multiple-employer, defined benefit postemployment healthcare plan that administers healthcare benefits to the retirees of participating state and local educational institutions. The Trust was established under the Alabama Retiree Health Care Funding Act of 2007, which authorized and directed the Public Education Employees' Health Insurance Board (PEEHIB) to create an irrevocable trust to fund postemployment healthcare benefits to retirees participating in PEEHIP. Active and retiree health insurance benefits are paid through PEEHIP. In accordance with GASB Statement No. 75, the Trust is considered a component unit of the State of Alabama

(State) and is included in the State's Comprehensive Annual Financial Report.

PEEHIP was established in 1983 pursuant to the provisions of the Code of Alabama 1975, Title 16, Chapter 25A (Act 83-455) to provide a uniform plan of health insurance for active and retired employees of state and local educational institutions which provide instruction at any combination of grades K-14 (collectively, eligible employees), and to provide a method for funding the benefits related to the plan. The four-year universities participate in the plan with respect to their retired employees, and are eligible and may elect to participate in the plan with respect to their active employees. Responsibility for the establishment of the health insurance plan and its general administration and operations is vested in the PEEHIB. PEEHIB is a corporate body for purposes of management of the health insurance plan. The Code of Alabama 1975, Section 16-25A-4 provides PEEHIB with the authority to amend the benefit provisions in order to provide reasonable assurance of stability in future years for the plan. All assets of PEEHIP are held in trust for the payment of health insurance benefits. TRS has been appointed as the administrator of PEEHIP and, consequently, serves as the administrator of the Trust.

#### **Benefits Provided**

PEEHIP offers a basic hospital medical plan to active members and non-Medicare eligible retirees. Benefits include inpatient hospitalization for a maximum of 365 days without a dollar limit, inpatient rehabilitation, outpatient care, physician services, and prescription drugs.

Active employees and non-Medicare eligible retirees who do not have Medicare eligible dependents can enroll in a health maintenance organization (HMO) in lieu of the basic hospital medical plan. The HMO includes hospital medical benefits, dental benefits, vision benefits, and an extensive formulary. However, participants in the HMO are required to receive care from a participating physician in the HMO plan.

PEEHIP offers four optional plans (Hospital Indemnity, Cancer, Dental, and Vision) that may be selected in addition to or in lieu of the basic hospital medical plan or HMO. The Hospital Indemnity Plan provides a per-day benefit for hospital confinement, maternity, intensive care, cancer, and convalescent care. The Cancer Plan covers cancer disease only and benefits are provided regardless of other insurance. Coverage includes a per-day benefit for each hospital confinement related to cancer. The Dental Plan covers diagnostic and preventative services, as well as basic and major dental services. Diagnostic and preventative services include oral examinations, teeth cleaning, x-rays, and emergency office visits. Basic and major services include fillings, general aesthetics, oral surgery not covered under a Group Medical Program, periodontics, endodontics, dentures, bridgework, and crowns. Dental services are subject to a maximum of \$1,250 per year for individual coverage and \$1,000 per person per year for family coverage. The Vision Plan covers annual eye examinations, eye glasses, and contact lens prescriptions.

PEEHIP members may opt to elect the PEEHIP Supplemental Plan as their hospital medical coverage in lieu of the PEEHIP

Hospital Medical Plan. The PEEHIP Supplemental Plan provides secondary benefits to the member's primary plan provided by another employer. Only active and non-Medicare retiree members and dependents are eligible for the PEEHIP Supplemental Plan. There is no premium required for this plan, and the plan covers most out-of-pocket expenses not covered by the primary plan. The plan cannot be used as a supplement to Medicare, the PEEHIP Hospital Medical Plan, or the State or Local Governmental Plans administered by the State Employees' Insurance Board (SEIB).

Medicare eligible members and Medicare eligible dependents who are covered on a retiree contract were enrolled in the United Healthcare Group Medicare Advantage plan for PEEHIP retirees. Effective January 1, 2020, Humana Insurance Company replaced United Healthcare as the administrator of the PEEHIP Group Medicare Advantage (PPO) Plan. The plan is fully insured, and members are able to have all of their Medicare Part A (hospital insurance), Part B (medical insurance), and Part D (prescription drug coverage) in one convenient plan. Retirees can continue to see their same providers with no interruption and see any doctor who accepts Medicare on a national basis. Members have the same benefits in and out-of-network and there is no additional retiree cost share if a retiree uses an out-of-network provider and no balance billing from the provider.

#### **Contributions**

The Code of Alabama 1975, Section 16-25A-8 and the Code of Alabama 1975, Section, 16-25A-8.1 provide PEEHIB with the authority to set the contribution requirements for plan members and the authority to set the employer contribution requirements for each required class, respectively. Additionally, PEEHIB is required to certify to the Governor and the Legislature, the amount, as a monthly premium per active employee, necessary to fund the coverage of active and retired member benefits for the following fiscal year. The Legislature then sets the premium rate in the annual appropriation bill.

For employees who retired after September 30, 2005, but before January 1, 2012, the employer contribution of the health insurance premium set forth by PEEHIB for each retiree class is reduced by 2% for each year of service less than 25 and increased by 2% percent for each year of service over 25 subject to adjustment by PEEHIB for changes in Medicare premium costs required to be paid by a retiree. In no case does the employer contribution of the health insurance premium exceed 100% of the total health insurance premium cost for the retiree.

For employees who retired after December 31, 2011, the employer contribution to the health insurance premium set forth by PEEHIB for each retiree class is reduced by 4% for each year of service less than 25 and increased by 2% for each year over 25, subject to adjustment by PEEHIB for changes in Medicare premium costs required to be paid by a retiree. In no case does the employer contribution of the health insurance premium exceed 100% of the total health insurance premium cost for the retiree. For employees who retired after December 31, 2011, who are not covered by Medicare, regardless of years of service, the employer contribution to the health insurance premium set forth by PEEHIB for each retiree class is reduced by

a percentage equal to 1% multiplied by the difference between the Medicare entitlement age and the age of the employee at the time of retirement as determined by PEEHIB. This reduction in the employer contribution ceases upon notification to PEEHIB of the attainment of Medicare coverage.

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The University reported a liability of \$134,293,596 and \$334,674,593 as of September 30, 2020 and September 30, 2019, respectively, for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of September 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of September 30, 2019. The University's proportion of the net OPEB liability was based on a projection of the University's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2019, the University's proportion was 3.559551%, which was a decrease of 0.512547% from its proportion measured as of September 30, 2018.

The University recognized OPEB expense of (\$11,932,625) and \$27,075,876 for the years ended September 30, 2020 and September 30, 2019, respectively, with no special funding situations. At September 30, 2020, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|  | <br>red Outflows<br>Resources | <br>ferred Inflows<br>of Resources |
|--|-------------------------------|------------------------------------|
| Differences<br>between<br>expected and<br>actual experience  | \$<br>4,446,581               | \$<br>102,970,524                  |
| Changes of assumptions   | 6,420,039                     | 55,625,197                         |
| Net difference<br>between<br>projected and<br>actual earnings on<br>OPEB plan<br>investments<br>Changes in | 277,030                       | _                                  |
| proportion and differences between Employer contributions and proportionate share of contributions         | 33,925,524                    | 55,095,980                         |
| Employer contributions subsequent to the measurement date  | 10,418,286                    | _                                  |
|  | \$<br>55,487,460              | \$<br>213,691,701                  |

\$10,418,286 reported as deferred outflows of resources related to OPEB resulting from the University's contributions

subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended September 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending September 30: |                |
|---------------------------|----------------|
| 2021                      | (\$31,182,272) |
| 2022                      | (31,182,272)   |
| 2023                      | (30,830,373)   |
| 2024                      | (34,748,101)   |
| 2025                      | (34,819,200)   |
| Thereafter                | (5,860,309)    |

#### **Actuarial Assumptions**

The total OPEB liability was determined by an actuarial valuation as of September 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation  | 2.75 %        |
|--|---------------|
| Projected Salary Increases <sup>1</sup>                          | 3.25% - 5.00% |
| Long-Term Investment Rate of Return <sup>2</sup>                 | 7.25 %        |
| Municipal Bond Index Rate at the<br>Measurement Date             | 3.00 %        |
| Municipal Bond Index Rate at the Prior<br>Measurement Date       | 4.18 %        |
| Projected Year for Fiduciary Net Position (FNP) to be Depleted   | 2055          |
| Single Equivalent Interest Rate at the<br>Measurement Date       | 5.50 %        |
| Single Equivalent Interest Rate at the Prior<br>Measurement Date | 4.44 %        |
| Healthcare Cost Trend Rate                                       |               |
| Pre-Medicare Eligible  | 6.75 %        |
| Medicare Eligible  | **            |
| Ultimate Trend Rate  |               |
| Pre-Medicare Eligible  | 4.75% in 2026 |
| Medicare Eligible  | 4.75% in 2024 |
|  |               |

<sup>1</sup>Includes 3.00% wage inflation.

Mortality rates for the period after service retirement are according to the RP-2000 White Collar Mortality Table projected to 2020 using scale BB and adjusted 115% for all ages for males and 112% for ages 78 and over for females. The rates of disabled mortality were based on the RP-2000 Disabled Mortality Table projected to 2020 using scale BB and adjusted 105% for males and 120% for females.

<sup>&</sup>lt;sup>2</sup>Compounded annually, net of investment expense, and includes inflation.

<sup>\*\*</sup>Initial Medicare claims are set based on scheduled increases through plan year 2022.

The decremental assumptions used in the valuation were selected based on the actuarial experience study prepared as of September 30, 2015, submitted to and adopted by the TRS Board on September 13, 2016.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) were based on the September 30, 2018 valuation, however updated Medicare Advantage premium rates which reflect the repeal of the ACA Health Insurer Fee, updated optional claims costs, and updated participation assumptions were used in this report.

The long-term expected return on plan assets is to be reviewed as part of regular experience studies prepared every five years, in conjunction with similar analysis for TRS. Several factors should be considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation), as developed for each major asset class. These ranges could be combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected rate of return on the OPEB plan investments is determined based on the allocation of assets by asset class and by the mean and variance of real returns.

The target asset allocation and best estimates of expected geometric real rates of return for each major asset class is summarized below:

| Asset<br>Class          | Target<br>Allocation | Long-Term<br>Expected<br>Rate of Return* |
|-------------------------|----------------------|--|
| Fixed Income            | 30.00 %              | 4.40%                                    |
| U.S. Large Stocks       | 38.00 %              | 8.00%                                    |
| U.S. Mid Stocks         | 8.00 %               | 10.00%                                   |
| U.S. Small Stocks       | 4.00 %               | 11.00%                                   |
| International Developed |                      |  |
| Market Stocks           | 15.00 %              | 9.50%                                    |
| Cash                    | 5.00 %               | 1.50%                                    |
|                         | 100.00 %             |  |

<sup>\*</sup>Geometric mean, includes 2.75% inflation

#### **Discount Rate**

The discount rate (also known as the Single Equivalent Interest Rate (SEIR), as described by GASB Statement No. 74) used to measure the total OPEB liability at September 30, 2019, was 5.50%. The discount rate used to measure the total OPEB liability at the prior measurement date was 4.44%. Premiums paid to PEEHIB for active employees shall include an amount to

partially fund the cost of coverage for retired employees. The projection of cash flows used to determine the discount rate assumed that plan contributions will be made at the current contribution rates. Each year, the State specifies the monthly employer rate that participating school systems must contribute for each active employee. Approximately 24.245% of the employer contributions were used to assist in funding retiree benefit payments in 2019 and it is assumed that once benefit payments exceed employer contributions, this amount will increase by 1.00% per year and continue into the future. The discount rate determination will use a municipal bond rate to the extent the trust is projected to run out of money before all benefits are paid. Therefore, the projected future benefit payments for all current plan members were projected through 2117. The long term rate of return is used until the assets are expected to be depleted in 2055, after which the municipal bond rate is used.

# Sensitivity of the University's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following table presents the University's proportionate share of the net OPEB liability of the Trust calculated using the current healthcare trend rate, as well as what the net OPEB liability would be if calculated using one percentage point lower or one percentage point higher than the current rate:

|  | 1% Decrease (5.75% decreasing to 3.75% for pre- Medicare, decreasing to 3.75% for Medicare Eligible) | Current Healthcare Trend Rate (6.75% decreasing to 4.75% for pre- Medicare, decreasing to 4.75% for Medicare Eligible) | 1% Increase (7.75% decreasing to 5.75% for pre- Medicare, decreasing to 5.75% for Medicare Eligible) |
|--|--|--|--|
|--|--|--|--|

Net OPEB

Liability \$ 107,679,307 \$ 134,293,596 \$ 167,813,087

The following table presents the University's proportionate share of the net OPEB liability of the Trust calculated using the discount rate of 5.50%, as well as what the net OPEB liability would be if calculated using one percentage point lower or one percentage point higher than the current rate:

|                       | 1% Decrease (4.50%) | Current Discount Rate (5.50%) | 1% Increase<br>(6.50%) |
|-----------------------|---------------------|-------------------------------|------------------------|
| Net OPEB<br>Liability | \$ 162.324.938      | \$ 134.293.596                | \$ 111.401.237         |

# **OPEB Plan Fiduciary Net Position**

Detailed information about the OPEB plan's fiduciary net position is located in the Trust's financial statements for the fiscal year ended September 30, 2019. The supporting actuarial information is included in the GASB Statement No. 74 Report for PEEHIP prepared as of September 30, 2019. Additional financial and actuarial information is available at www.rsa-al.gov.

The Trust financial statements are prepared by using the economic resources measurement focus and accrual basis of accounting. This includes, for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Trust and additions to/deductions from the Trust's fiduciary net position. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due pursuant to plan requirements. Benefits are recognized when due and payable in accordance with the terms of the plan. Subsequent events were evaluated by management through the date the financial statements were issued.

#### B. Retiree Medical Plan (the Plan)

The Plan is considered a single-employer plan and consists of hospital benefits, major medical benefits, a prescription drug program and a preferred care program. The health care benefits cover medical and hospitalization costs for retirees and their dependents. If the retiree is eligible for Medicare, University coverage is secondary. The authority under which the Plan's benefit provisions are established or amended is the University President. Recommendations for modifications are brought to the President by the Insurance and Benefits Committee. Any amendments to the obligations of the plan members or employer(s) to contribute to the plan are brought forth by the Insurance and Benefits Committee and approved by the President.

Employees included in the actuarial valuation include retirees and survivors, active eligible Civil Service employees and those retirees who elected the PEEHIP plan on or prior to October 1, 1997, for whom the University pays a subsidy. There were 463 and 490 total participants as September 30, 2020 and 2019, respectively.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision. Expenditures for postretirement health care benefits are recognized monthly and financed on a pay-as-yougo basis.

The University funds approximately 60% of the postretirement healthcare premiums, which totaled \$649,001 and \$751,738 for fiscal years ended September 30, 2020 and 2019, respectively. The retirees are responsible for funding approximately 40% of the healthcare premiums.

The University reported the Plan liability of \$43,153,837 and \$45,317,539 as of September 30, 2020 and 2019, respectively. The Plan liability was measured as of September 30, 2020, and the total Plan liability was determined by an actuarial valuation as of September 30, 2020.

The University recognized expense of \$259,941 and \$4,375,496 for fiscal years ended September 30, 2020 and 2019, respectively. At September 30, 2020, the University did not report deferred outflows of resources or deferred inflows of resources related to pensions.

The total Plan liability was determined by an actuarial valuation as of September 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement.

# **Summary of Key Actuarial Methods and Assumptions**

#### **Actuarial Cost Method**

The actuarial cost method used to determine the actuarial accrued liability and the normal cost for financial reporting purposes is the Entry Age Actuarial Cost Method. The accrued liability and the normal cost are used to determine the University's financial disclosure requirement. Under this method, the cost of each individual's benefit is allocated on a level percent of payroll basis between the time employment starts (entry age) and the assumed retirement date. The normal cost is the amount allocated for a given year and actuarial liability is the accumulation of prior normal costs as of the determination date. The total actuarial liability for retirement benefits is the sum of the actuarial liability for all members.

#### **Amortization Method**

Level dollar amortization for differences between expected and actual experience with regard to economic or demographic factors and for changes in assumptions, the amounts will be amortized over a closed period equal to the average of the expected remaining service lives of all participants (including inactives) determined at the beginning of the measurement period. The differences between projected and actual earnings on OPEB plan investments will be recognized over a closed five-year period.

The Plan does not issue a stand-alone financial report. For inquiries relating to the Plan, please contact Auburn University Payroll and Employee Benefits, 1550 East Glenn Avenue, Auburn University, Alabama 36849.

#### (13) SELF INSURANCE PROGRAMS AND OTHER LIABILITIES

# **Self Insurance**

An actuarially determined rate is used to provide funding for retained risk in the University's self-insurance program. The self-insurance reserves, liabilities and related assets are included in the accompanying financial statements. The estimated liability for general liability and on-the-job injury self-insurance is actuarially determined. These self-insured programs are supplemented with commercial excess insurance.

The Comprehensive General Liability Trust Fund is a self-insured retention program that protects the University, its faculty, staff and volunteers against claims brought by third parties arising from bodily injury, property damage and personal liability (libel,

slander, etc.). Funds are held in a separate trust account with a financial institution to be used to pay claims for which the University may become legally liable. The liability at September 30, 2020 and 2019, was \$2,486,628 and \$1,205,984, respectively. These amounts are included in other noncurrent liabilities on the Statements of Net Position.

The On-The-Job-Injury program provides benefits for job-related injuries or death resulting from work at the University. This program is designed to cover out-of-pocket expenses of any employee who is not covered by insurance. The program will also pay for medically evidenced disability claims and provide death benefits arising from a job-related death of an employee. This self-funded program is provided to employees since the University is not subject to the workers' compensation laws of

the State of Alabama. The liability at September 30, 2020 and 2019, was \$3,932,759 and \$3,285,823, respectively. These amounts are included in other noncurrent liabilities on the Statements of Net Position.

The University self-insures its health insurance program for all eligible employees. Assets have been set aside to fund the related claims of this program. Should the assets be insufficient to pay the insurance claims, the University would be liable for such claims. The accompanying Statements of Net Position include a self-insurance liability for health insurance as of September 30, 2020 and 2019, of \$14,897,642 and \$10,411,405, respectively. These amounts are included in accounts payable and other accrued liabilities on the Statements of Net Position.

#### **Other Liabilities**

Other liabilities include compensated absences, deposits held in custody and unearned revenues. The University allows employees to accrue and carryover annual and sick leave up to certain maximum amounts depending on years of service. Employees will be compensated for accrued annual leave at time of separation from University employment (termination or retirement) up to a maximum of one month's additional compensation. All eligible employees hired before October 1,

1990, may be compensated for unused sick leave at the rate of 25% of their respective balances, subject to a maximum of one month's additional compensation. The liability for compensated absences was \$23,478,844 and \$20,836,407 at September 30, 2020 and 2019, respectively.

Deposits held in custody include the portion of the Federal Perkins Student Loan funds and Health Professions Student Loans which would be refunded in the event the University ceased operations. The refundable amounts were \$14,911,473 and \$17,456,415 at September 30, 2020 and 2019, respectively. Also included in deposits held in custody of others are the agency funds. These amounts totaled \$6,359,731 and \$5,979,903 for September 30, 2020 and 2019, respectively. The remaining difference relates to immaterial rental deposits.

Unearned revenue includes tuition revenue related to the portion of Fall semester subsequent to September 30, funding received for contracts and grants which has not been expended as of September 30, dining and housing revenues unearned as of September 30, and funds received from the new dining services contract initiated in fiscal year 2018 and amended in 2020. These amounts are in auxiliaries and plant funds.

Unearned revenues at September 30, 2020 and 2019, are as follows:

|   | 2020           | 2019           |
|---|----------------|----------------|
|   |                |                |
| Tuition and fees, net   | \$ 196,279,347 | \$ 191,821,215 |
| Federal, state and local government grants and contracts, net | 15,426,860     | 11,140,457     |
| Auxiliary, net  | 45,061,253     | 49,694,240     |
| Plant   | 4,329,617      | 4,862,112      |
| Total unearned revenue  | \$ 261,097,077 | \$ 257,518,024 |

# **Pollution Remediation Obligations**

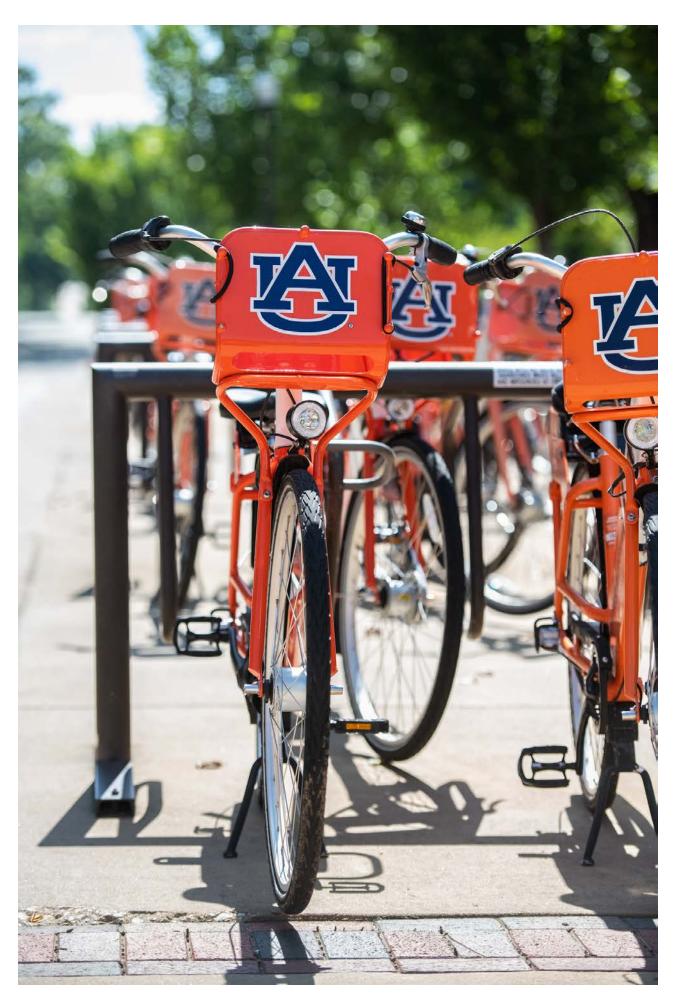

The University follows GASB Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations, which requires recognition of liabilities, recoveries, and related disclosures, as appropriate.

The University conducts groundwater monitoring, monitored natural attenuation and clean-up in accordance with the Resource Conservation and Recovery Act (RCRA) and the Toxic Substances and Control Act.

Additionally, asbestos abatement is necessary as older buildings on campus are demolished or renovated. During fiscal year 2011, the University, with the assistance of an outside consultant, prepared a 30-year Post Closure Cost Estimate

related to all active and inactive solid waste management units managed through the University RCRA Facility permit.

As of September 30, 2020 and 2019, the total estimated pollution remediation liability (estimated using the expected cash-flow technique) is \$3,743,922 and \$8,811,940, respectively. The current portion of this amount (\$673,720 and \$5,791,738, respectively) is included in other accrued liabilities and the long-term portion (\$3,070,202 and \$3,020,202, respectively) is included in other noncurrent liabilities in the accompanying Statements of Net Position. This estimate may change in future periods as additional information is obtained. The University does not expect to recover any funds from insurance or other third parties related to these obligations.

#### **Long-Term Obligations**

Changes in long-term obligations for the year ended September 30, 2020, are as follows:

#### (14) DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources are an acquisition of net position that are applicable to a future reporting period. The University engages in certain voluntary nonexchange transactions (grants). Grant funds received for which all eligibility requirements have been met, other than time requirements, are presented as deferred inflows of resources in accordance with GASB Statements No. 63 and No. 65. In accordance with GASB Statement No. 68, which the University adopted in fiscal year 2015, the University's proportionate share of the net difference between projected and actual earnings on pension plan investments is presented as a deferred inflow of resources. Additionally, in accordance with GASB Statement No. 68 and GASB Statement No. 75, the differences between the expected and actual experience and the net difference between projected and actual earnings on investments are presented as a deferred inflow of resources. Deferred inflows of resources are summarized as follows:

|                          | Sep | tember 30, 2020 | Sep | otember 30, 2019 |
|--------------------------|-----|-----------------|-----|------------------|
| Nonexchange transactions | \$  | 386,666         | \$  | 189,862          |
| Pension and OPEB         |     | 243,611,982     |     | 109,235,612      |
| Total deferred inflows   | \$  | 243,998,648     | \$  | 109,425,474      |

#### (15) CONTRACTS AND GRANTS

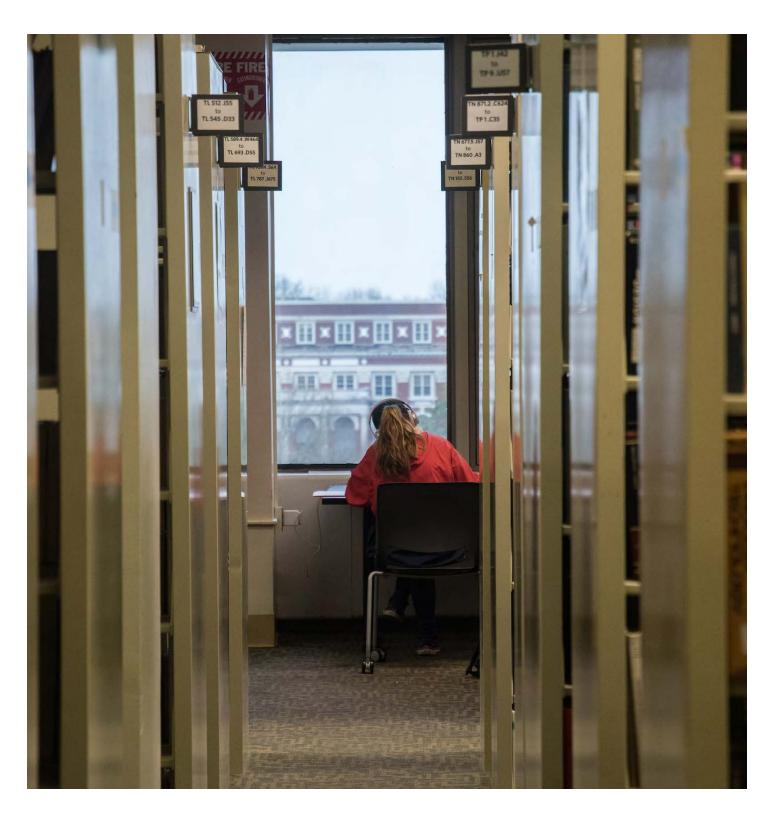

The University has been awarded approximately \$136.5 million in contracts and grants that have not been received or expended as of September 30, 2020. These awards, which represent commitments of sponsors to provide funds for research and training projects, have not been reflected in the financial statements.

#### (16) RECOVERY OF FACILITIES AND ADMINISTRATIVE COST FOR SPONSORED PROGRAMS

The portion of revenue recognized for all grants and contracts that represent facilities and administrative cost recovery is recognized on the Statements of Revenues, Expenses and Changes in Net Position within contract and grant operating revenues. The University recognized \$22,329,905 and \$20,030,751 in facilities and administrative cost recovery for the years ended September 30, 2020 and 2019, respectively.

#### (17) CONSTRUCTION COMMITMENTS AND FINANCING

The University has entered into projects for the construction and renovation of various facilities that are estimated to cost approximately \$728.4 million. At September 30, 2020, the estimated remaining cost to complete the projects is approximately \$293.0 million which will be funded from University funds and bond proceeds.

#### (18) OPERATING EXPENSES BY FUNCTION

Operating expenses by functional classification for the years ended September 30, 2020 and 2019, are listed below. In preparing the financial statements, all significant transactions and balances between auxiliary units and other funds have been eliminated. Some scholarships and fellowships are provided by

the instruction or research function and are broken out in the charts below. In addition, the graduate waivers are shown as compensation; however, they are shown functionally as scholarship and fellowship expense. The University is able to capture auxiliary utility expenditures; therefore, those expenditures are shown separately by function.

#### (19) CONTINGENCIES

The University is a party in various legal actions and administrative proceedings arising in the normal course of its operations. Management does not believe that the outcome of these actions will have a material adverse effect on the University's financial position.

In January 2020, the World Health Organization declared the novel coronavirus (COVID-19) a Public Health Emergency of International Concern. The ongoing outbreak of COVID-19 has

caused domestic and global disruption in operations for institutions of higher education. The outbreak has also negatively impacted both the global financial markets and the University's investments, and may continue to do so. Other adverse consequences of COVID-19 or any other similar outbreaks in the future may include, but are not limited to, decline in enrollment, decline in demand for University housing, decline in demand for University programs that involve travel, and additional volatility with the University's investments. The University believes it has sufficient liquidity to meet its operating

and financing needs; however, given the difficulty in predicting the ultimate duration and severity of the impact of the novel coronavirus on the University, the economy and the financial markets, the ultimate impact may be material and cannot be reasonably quantified at this time.

#### (20) RELATED PARTY TRANSACTIONS Auburn University Foundation

AUF exists to raise and administer private gifts for the benefit of the University. The majority of funds, which AUF raises, are restricted by the donor for specific schools, colleges, or programs of the University. These may be immediately transferred to the University or one of its institutionally-related foundations for its use; held within AUF's funds with donor restrictions to be either transferred to the University or expended by AUF for the benefit of University schools, colleges, or programs; or in the case of endowments, invested with only the earnings transferred to or expended for the University's benefit. Amounts transferred to the University or expended on behalf of its programs are reported as "Total program services" in the Consolidated Statement of Activities and Changes in Net Assets.

AUF and the University jointly conduct development and related operations through the Office of the University's Vice President for Development pursuant to a Services and Facilities Agreement (the Agreement), which states that the University will provide to AUF services, which primarily consist of all personnel and certain other administrative support, and facilities. During the year, actual costs may be paid by either AUF or the University. AUF periodically compares actual costs to allocable costs pursuant to the Agreement and settles any differences by a transfer between the organizations. AUF and the University review the agreement at least annually and an estimate of the consideration to be paid for the upcoming year is approved annually by the AUF Board. These costs are reported as general and administrative and fundraising expenses on the Consolidated Statements of Activities and Changes in Net Assets.

The University has entered into an agreement whereby the AUF Investment Committee manages the University's endowment and AUF is compensated by a management fee, which is reported as other revenues on the Consolidated Statements of Activities and Changes in Net Assets.

Constituency development operations, which raise funds directly on behalf of a school, college, or program of the University, are funded by the University unit involved and may use AUF gifts restricted to that unit. These costs are the responsibility of the respective constituency unit and are reported as fundraising expenses on the Consolidated Statements of Activities and Changes in Net Assets to the extent restricted gifts are utilized.

AUF payments to or receipts from the University pursuant to these agreements for the years ended September 30, 2020 and 2019, are as follows:

|  | 2020            | 2019            |  |  |  |
|--|-----------------|-----------------|--|--|--|
| Services and facilities costs paid by AUF  | \$<br>2,345,959 | \$<br>3,621,912 |  |  |  |
| AUF's allocable costs pursuant to the      |                 |                 |  |  |  |
| Agreement                                  | 2,524,814       | 2,710,996       |  |  |  |
| Net settlement (to) from the<br>University | \$<br>(178,855) | \$<br>910,916   |  |  |  |

Other transactions between AUF and the University for the years ended September 30, 2020 and 2019, are as follows:

|  | 2020            | 2019 |           |  |  |
|--|-----------------|------|-----------|--|--|
| Amounts due from the<br>University reported in<br>other assets               | \$<br>360,579   | \$   | 90,315    |  |  |
| Endowment management fee received from the University                        | \$<br>2,401,487 | \$   | 2,294,746 |  |  |
| Payments to the University<br>Athletic Ticket Office for<br>ticket purchases | \$<br>114,407   | \$   | 311,188   |  |  |

AUREFI has an agreement with the University to provide certain services and facilities, which are reported as general and administrative expense on AUF's Consolidated Statements of Activities and Changes in Net Assets. Related payments to the University for the years ended September 30, 2020 and 2019, are as follows:

|  | 2020         | 2019          |
|--|--------------|---------------|
| AUREFI costs pursuant to the Agreement | \$<br>94,530 | \$<br>106,871 |

The Association does not maintain endowments, but instead establishes endowments in AUF, which are administered in the investment pool. AUF holds and invests funds from the Association's Life Membership program and annually makes distributions from these investments directly to the Association, which are reported as other program services expense on AUF's Consolidated Statements of Activities and Changes in Net Assets. In addition, the Association has a commitment to match funds for scholarship endowments previously established with certain specific guidelines. The Association makes grants quarterly to match payments received by AUF for these endowments. Information relating to the Association as of and for the years ended September 30, 2020 and 2019, is as follows:

|  | 2020            | 2019            |
|--|-----------------|-----------------|
| Pooled investments held by AUF   | \$<br>9,002,226 | \$<br>8,983,857 |
| Amounts due from the<br>Association reported in<br>other assets                    | \$<br>144,145   | \$<br>51,698    |
| Amounts distributed from investments, net of administrative fee                    | \$<br>357,120   | \$<br>349,127   |
| Grants from the<br>Association for scholarship<br>matching and other<br>endowments | \$<br>318,911   | \$<br>110,905   |

AUF holds TUF endowment funds and invests these funds in AUF's pooled investments. AUF annually distributes TUF endowment earnings either to TUF or directly to the University on behalf of TUF based on the spending policy. These annual distributions are reported as other program services on AUF's Consolidated Statements of Activities and Changes in Net Assets. In addition, AUF participates in the TUF athletic priority system each year in order to obtain tickets and suites for the cultivation, solicitation, and stewardship of contributors.

Information relating to TUF as of and for the years ended September 30, 2020 and 2019, is as follows:

|  | 2020            | 2019 |           |  |
|--|-----------------|------|-----------|--|
| Pooled investments held by AUF               | \$<br>9,320,175 | \$   | 9,274,993 |  |
| Amounts distributed from investments, net of |                 |      |           |  |
| administrative fee                           | \$<br>357,376   | \$   | 347,302   |  |
| Ticket priority payments                     | \$<br>375,860   | \$   | 426,337   |  |

#### **Auburn Alumni Association**

The Association, AUF, Auburn University Offices of Alumni and Development and their related support units jointly utilize operational facilities, personnel and other assets in order to effectively and efficiently carry out their required activities. All personnel are employed by the University and their services are provided to the other organizations under contractual agreements.

Expenditures are analyzed periodically and, based on each entity's utilization of the facilities, supplies and services, any necessary reimbursements are made among the organizations. In the Statements of Activities, amounts received by the Operating fund from other organizations are used to offset the related expenses. The Executive Director of the Association is an employee of the University, providing services to the Association under a services and facilities contract. The Executive Director also serves as the Vice President for Alumni Affairs for the University.

A portion of the Association's investments have been pooled with AUF investments and are invested and managed by AUF. Cash receipts and disbursements records of the Association are maintained within the University's accounting system.

During the years ended September 30, 2020 and 2019, the Association had a salary reimbursement expense of \$1,429,138 and \$1,278,781, respectively, to the University under the services and facilities agreement. These amounts were fully paid at September 30, 2020 and September 30, 2019, respectively.

Rental income recorded by the Association from the University totaled \$370,205 and \$390,275, respectively, for the years ended September 30, 2020 and 2019. Rental income recorded by the Association from AUF totaled \$0 and \$1,550 for the years ended September 30, 2020 and 2019, respectively. The University and AUF also paid the Association \$74,298 and \$2,496, respectively for shared alumni center building expenses for the fiscal year ended September 30, 2020. For the fiscal year

ended September 30, 2019, these amounts were \$74,298 and \$5,528, respectively.

During the years ended September 30, 2020 and 2019, the University provided for its share of alumni affairs activities costs by establishing a budget within the University's budgetary system. The alumni affairs activities costs were \$956,911 and \$809,056 for the years ended September 30, 2020 and 2019, respectively.

During the years ended September 30, 2020 and 2019, the Association contributed \$0 and \$69,400, respectively, to the Auburn Alumni Association Endowment for Scholarships held with AUF. The Association also contributed \$215,482 and \$230,005 to various AUF scholarship funds and \$69,681 and \$78,223 to various University scholarship funds during fiscal years 2020 and 2019, respectively.

During the year ended September 30, 2015, the Alumni Association Board approved a fundraising program called the Million Dollar Match program in an effort to increase new alumni donor scholarship endowments. In the year ended September 30, 2020, the Association paid \$37,553 toward qualifying endowments; leaving \$14,145 as a payable to AUF. In fiscal year 2019, the Association paid \$91,204 toward qualifying endowments; leaving \$51,698 as a payable to AUF.

#### **Tigers Unlimited Foundation**

The funds that TUF raises are restricted for athletic-related programs of the University. These may be transferred to the University for its use, expended for the benefit of athletic programs or, in the case of endowments, invested according to donor restriction with the earnings thereon transferred to or expended for the University's benefit. Amounts transferred to the University or expended on behalf of its programs totaled \$34,234,240 and \$43,614,684 during the years ended June 30, 2020 and 2019, respectively. Included in these amounts are current year accruals of severance payments due to terminated employees totaling \$1,094,397 in the year ended June 30, 2019.

TUF and the University operate pursuant to an operating agreement (the TUF Agreement), which addresses the financial relationships between these two entities. In summary, the TUF Agreement states that the University will provide certain services and facilities to TUF, which primarily consist of personnel and other administrative support. TUF shall pay to the University an amount equal to the compensation of University employees for services performed and reimbursement of space and property utilized by such employees, in an amount to be specifically approved by TUF's Board of Directors each year. The TUF Agreement commenced on July 1, 2007, and expired on July 1, 2008, but remains in force in subsequent years unless canceled in writing by one of the parties.

During the years ended June 30, 2020 and 2019, AUF incurred obligations of \$150,867 and \$180,552, respectively, to TUF for amenities related to the use of the executive suites at University athletic events. This amount is recorded as other revenue on the Statements of Activities and Changes in Net Assets during those years.

During the years ended June 30, 2020 and 2019, TUF paid the University for normal, recurring expense transactions including, but not limited to, purchasing athletic event tickets, reimbursing athletic staff salaries, sponsoring student scholarships, and funding the debt, repair, maintenance and operations of athletic facilities. At June 30, 2020 and 2019, obligations of \$2,880,035 and \$4,227,188 related to these transactions, respectively, were outstanding. TUF paid the 2019 obligation during fiscal year 2020, and it intends to pay the 2020 obligation during fiscal year 2021.

As indicated, the above TUF balances are as of June 30, 2020 and 2019; however, the University believes these figures are not materially different than September 30, 2020 and 2019, respectively.

#### **Auburn Research and Technology Foundation**

Although ARTF is separate and independent from the University, its mission is to facilitate the acquisition, construction and equipping of a technology and research park on the University's campus in order to create new academic and entrepreneurial opportunities for the University's faculty and students. Consideration received by the University from ARTF includes the traditional benefits enjoyed by a University from an affiliated research park, including but not limited to, increased exposure for development and commercialization of the University's intellectual property and technologies, increased research opportunities for the University's students and professors, and heightened exposure within the commercial world of the technological campus offerings. In August 2018, the University Provost & Senior Vice President of Academic Affairs agreed to serve as President of ARTF until July 2020. In July 2020, the Vice President for Research and Economic Development (VPRED) agreed to serve as President of ARTF. The President is a member of the ARTF Board of Directors with full voting powers. Contributed services in the amount of approximately \$50,489 and \$24,641 were recognized by ARTF during each fiscal year 2020 and 2019, respectively, related to services provided by the individual serving as the President of ARTF.

ARTF's Board of Directors includes members who are also members of the Edward Via College of Osteopathic Medicine (VCOM) Board of Directors, AUF Board of Directors, University Board of Trustees as well as other University employees. A banking relationship exists between ARTF and a financial institution whose President/CEO is a member of ARTF's Board of Directors and the University's Board of Trustees. Additionally, the spouse of one Board member is also on the board of River Bank & Trust where the letter of credit and the construction loan were obtained.

On March 1, 2007, ARTF entered into an agreement with the Industrial Development Board (IDB) to obtain financing necessary for ARTF to construct a research facility. IDB provided funds to ARTF in anticipation of reimbursement by the State to ARTF of costs incurred during construction of Building 570. Under the terms of the loan agreement, IDB agreed to loan ARTF up to \$10,000,000 for construction and operational expenses.

On October 8, 2010, the balance due on that loan was \$1,148,963. As agreed upon by ARTF and the University, the

University paid directly to IDB total obligations owed by ARTF. During fiscal year 2010, \$171,313 in legal costs originally funded by ARTF were deemed to be for the primary benefit of the University. Therefore, the note payable to the University, executed by ARTF, was reduced by this amount, resulting in a net payable of \$977,650. The total unpaid balance of this note payable at September 30, 2020 and 2019 was \$635,634 and \$680,262, respectively.

The note accrues interest at a rate of 4.25% from the date of note disbursement until the unpaid principal balance is paid in full and will be amortized over a 20 year period using the straight-line method. Annual installment payments of principal and interest to the University began on October 8, 2011, and will continue through October 8, 2025. Annual installment payments scheduled will not fully amortize the note, and a balloon payment will be due on October 8, 2025. ARTF is in compliance with all debt covenants as enumerated in the promissory note document.

On March 1, 2007, for the purpose of making loans and advances, IDB entered into an agreement to lease the site for Building 570 from the University. IDB paid annual rent of \$10 to the University under the terms of the lease. The ground lease agreement had an expiration date of January 1, 2025; however, the agreement was terminated on October 8, 2010, the time all obligations due to IDB by ARTF were paid in full. At that time, the University entered into an agreement with ARTF where ARTF leases the site for Building 570 from the University. ARTF pays annual rental of \$1 to the University under the terms of this ground lease. The ground lease agreement expires on March 15, 2057, unless terminated prior to that date. These transactions represent an unconditional promise of the use of a long-lived asset, the leased land. Since the rental payments are below the fair market value of the property, ARTF recorded a contribution receivable for the difference between the fair rental values of the property, initially calculated using a 7% discount rate, and the stated amount of the lease payments. At the formation of the original lease, the contribution receivable booked was \$302,878, net of a discount of \$251,740. During fiscal year 2011, the interest rate was reevaluated and changed to 5%, and the lease period was extended. An additional contribution receivable of \$589,790 and discount of \$401,121 were booked in fiscal year 2011. An adjustment to the contribution receivable was made in fiscal year 2016 to increase total acreage from the original 156 acres to 170.43 acres to include the VCOM acreage (discussed below) in the calculation. As of September 30, 2020, ARTF has active ground leases comprising approximately 41.34 acres. The offsetting contribution receivable is amortized using the straight-line method over the life of the lease. Amortization related to the lease was \$21,243 during fiscal year 2020 and 2019. The discount is amortized using the effective interest method. Amortization of the discount was \$8,202 and \$7,550 during fiscal year 2020 and 2019, respectively.

On August 30, 2012, ARTF signed an agreement with VCOM in Blacksburg, VA to establish a branch campus to be located within the research park. ARTF entered into an agreement to lease the site for VCOM from the University on August 9, 2013. ARTF pays annual rent of \$1 to the University under the terms of

the lease. The ground lease agreement expires on June 30, 2085, unless terminated prior to that date. This transaction represents an unconditional promise of the use of a long-lived asset, the leased land. Since the rental payments are below the fair market value of the property, ARTF recorded a contribution receivable in fiscal year 2013 for the difference between the fair rental values of the property, calculated using a 5% discount rate, and the stated amount of the lease payments. At the formation of the lease, the contribution receivable booked was \$3,035,051, net of a discount of \$2,239,619. The offsetting contribution receivable is amortized using the straight-line method over the life of the lease. Amortization related to the lease was \$42,812 during fiscal year 2020 and 2019. The discount is amortized using the effective interest method. Amortization of the discount was \$13,835 and \$12,386 during fiscal year 2020 and 2019, respectively.

On June 12, 2018, for the purpose of constructing Building 7, ARTF entered into an agreement to lease the site from the University. ARTF paid annual rent of \$1 to the University under the terms of the lease. The ground lease agreement expires on June 12, 2068, unless terminated prior to that date. This transaction represents an unconditional promise of the use of a long-lived asset, the leased land. Since the rental payments are below the fair market value of the property, ARTF recorded a contribution receivable in fiscal year 2019 for the difference between the fair rental values of the property, calculated using a 5% discount rate, and the stated amount of the lease payments. At the formation of the lease, the contribution receivable booked was \$1,168,950, net of a discount of \$756,344. The offsetting contribution receivable is amortized using the straight-line method over the life of the lease. Amortization related to the lease was \$23,379 during fiscal year 2020 and 2019. The discount is amortized using the effective interest method. Amortization of the discount was \$3,183 and \$2,174 during fiscal year 2020 and 2019, respectively.

On January 31, 2019, for the purpose of constructing Building 6, ARTF entered into an agreement to lease the site from the University. Also on January 31, 2019, ARTF signed an agreement with the East Alabama Health Care Authority in Opelika, AL to establish a medical building to be located on this land. ARTF paid annual rent of \$1 to the University under the terms of the lease. The ground lease agreement expires on December 31, 2117, unless terminated prior to that date. This transaction represents an unconditional promise of the use of a long-lived asset, the leased land. Since the rental payments are below the fair market value of the property, ARTF recorded a contribution receivable in fiscal year 2019 for the difference between the fair rental values of the property, calculated using a 5% discount rate, and the stated amount of the lease payments. At the formation of the lease, the contribution receivable booked was \$1,801,214, net of a discount of \$1,437,797. The offsetting contribution receivable is amortized using the straight-line method over the life of the lease. Amortization related to the lease was \$18,395 and \$16,933 during fiscal year 2020 and 2019, respectively. The discount is amortized using the effective interest method. Amortization of the discount was \$1,710 and \$806 during fiscal year 2020 and 2019, respectively.

On March 15, 2019, for the purpose of constructing Building 5, ARTF entered into an agreement to lease the site from the University. ARTF paid annual rent of \$1 to the University under the terms of the lease. The ground lease agreement expires on March 15, 2068, unless terminated prior to that date. This transaction represents an unconditional promise of the use of a long-lived asset, the leased land. Since the rental payments are below the fair market value of the property, ARTF recorded a contribution receivable in fiscal year 2019 for the difference between the fair rental values of the property, calculated using a 5% discount rate, and the stated amount of the lease payments. At the formation of the lease, the contribution receivable booked was \$760,513, net of a discount of \$468,846. The offsetting contribution receivable is amortized using the straight-line method over the life of the lease. Amortization related to the lease was \$16,822 and \$7,720 during fiscal year 2020 and 2019, respectively. The discount is amortized using the effective interest method. Amortization of the discount was \$1,564 and \$368 during fiscal year 2020 and 2019, respectively.

ARTF and the University entered into an Operating Agreement (the Agreement), which governs the general and administrative and development financial relationships between these two entities. In summary, the Agreement states that in return for certain services and facilities that are within the capability and control of the University, ARTF will reimburse the University for the cost of such services and facilities. ARTF makes an annual determination of its allocable share of these costs and records the transaction. As discussed below, unpaid amounts at September 30 are included in "Other payable to Auburn University" on the ARTF Statements of Financial Position. ARTF and the University review the Agreement annually and provide an estimate of the maximum consideration to be paid for the upcoming year for approval by the respective boards. In accordance with the Agreement for fiscal year 2019, personnel costs incurred by the University and charged to ARTF were \$187,061. The University did not charge ARTF for any personnel costs in fiscal year 2020. Personnel costs incurred by the University and not charged to ARTF were \$649,514 and \$404,130 in fiscal year 2020 and 2019, respectively. These costs are reflected in ARTF's financial statements as general and administrative expense and as corresponding contribution revenue without donor restrictions.

ARTF entered into subcontracts with the University to provide services to fulfill ARTF's sponsored project agreements. The University provides certain operating services to ARTF. As of September 30, 2020 and 2019, ARTF owed the University \$10,140 and \$6,245, respectively, related to these services. Additionally, ARTF shares miscellaneous costs related to office expenses and equipment leases with a University department. Payables to the University for these expenses were \$322 and \$599 as of September 30, 2020 and 2019, respectively. All amounts owed to the University are shown in "Other payables to Auburn University" on the Statements of Financial Position.

The amounts due from the University to ARTF of \$33,444 and \$64,087 at September 30, 2020 and 2019, respectively, related to operating transactions between the University and ARTF. This

amount is included in "Accounts receivable" on the ARTF Statements of Financial Position.

ARTF held lease agreements with three University departments in fiscal year 2020 and 2019, whereby the departments leased office space from ARTF. As leasing tenants, the University departments remit a monthly rental fee to ARTF in accordance with their lease agreements. The University paid approximately \$358,148 and \$232,700 in lease costs during fiscal years ended September 30, 2020 and 2019, respectively.

During fiscal year 2018, the University entered into an agreement to lease space in Building 5 and made a prepayment of \$245,000. Upon commencement of the lease and occupancy of the facility by the University, for a period of ten years, \$24,500 shall be credited and deducted annually from all rent otherwise payable by the University to ARTF for the lease of space (the "Rent Credit"). This Rent Credit shall serve as a declining credit account in favor of the University against the Prepayment Funds. The University began their lease with ARTF for Building 5 on September 16, 2020. During fiscal year 2020, \$1,021 of the prepaid rent was recognized as revenue.

ARTF entered into a contract with the University during fiscal year 2011 to develop and manage a full service business incubator. During fiscal year 2020, ARTF evaluated the deferred revenue balance relating to the contract payments and determined that the incubator's scope, function, impact, and operations had evolved such that the contract with the University was to be deemed a fee for service agreement as opposed to a contracted payment with specific purpose restrictions. Therefore, in fiscal year 2020, the deferred balance at \$371,666 was recognized into other contracts revenue with donor restrictions. Revenues of \$509,166 and \$91,355 related to this contract were recognized during fiscal year 2020 and 2019, respectively. As of September 30, 2020 and 2019, the remaining amounts of the contributions of \$37,500 and \$371,666, respectively, are shown in "Deferred revenue" on the ARTF Statements of Financial Position and will be recognized when the services are rendered.

#### (21) DIRECT LOAN PROGRAM

The Federal Direct Loan Program (DL) enables an eligible student or parent to obtain a loan directly through the Department of Education. Under DL, files are transmitted via the Federal Common Originator and Disbursement System (COD). Funds are received via G5, a federal website. The Department of Education is responsible for the collection of these loans.

The University's Main Campus disbursed approximately \$148.2 million and \$151.5 million under these programs during the fiscal years ended September 30, 2020 and 2019, respectively. AUM disbursed approximately \$33.8 million and \$26.5 million under these programs during the fiscal years ended September 30, 2020 and 2019, respectively.

#### (22) IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

Statement No. 84, *Fiduciary Activities*, was issued in January 2017. This Statement establishes criteria for identifying fiduciary activities of all state and local governments, and requires reporting those activities in a fiduciary fund in the basic financial

statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. Additionally, it provides for the recognition of a liability to the beneficiaries in a fiduciary fund under certain circumstances. This Statement is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The University is currently evaluating the financial statement impact of this Statement.

Statement No. 87, *Leases*, was issued in June 2017. This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. This Statement is effective for fiscal years beginning after June 15, 2021, and all reporting periods thereafter. Earlier application is encouraged. The University is currently evaluating the financial statement impact of this Statement.

Statement No. 90, Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61, was issued in August 2018. This Statement requires that a majority equity interest in a legally separate organization should be reported as an investment if it meets the definition of an investment, and measured using the equity method unless held by certain special-purpose governments. For all other holdings of a majority equity interest in a legally separate organization, the government should report it as a component unit, and should report a related asset using the equity method. Additionally, it establishes certain reporting requirements for a component unit in which a government has 100 percent equity interest. This Statement is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged, and most requirements should be applied retroactively. The University is currently evaluating the financial statement impact of this Statement.

Statement No. 91, Conduit Debt Obligations, was issued in May 2019. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement is effective for reporting periods beginning after December 15, 2021. Earlier application is encouraged. The University is currently evaluating the financial statement impact of this Statement.

Statement No. 92, *Omnibus 2020*, was issued in January 2020. This Statement addresses practice issues that have been identified during implementation and application of certain GASB Statements. It addresses a variety of topics, including leases, pensions and other post-employment benefits, fiduciary activities, asset retirement obligations, reinsurance recoveries,

nonrecurring fair value measurements of assets and liabilities, and derivative instruments. Various provisions of this Statement are effective immediately, and have been adopted by the University, while others are effective for fiscal periods beginning after June 15, 2021. Earlier application is encouraged and permitted by topic. The University adopted the portions of this statement that were effective immediately, and is currently evaluating the financial statement impact of the remainder of this Statement.

Statement No. 93, Replacement of Interbank Offered Rates, was issued in March 2020. This Statement addresses accounting and financial reporting implications related to the replacement of the London Interbank Offered Rate (LIBOR) as a result of global reference rate reform, which is expected to cease to exist in its current form at the end of 2021. The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged. The University is currently evaluating the financial statement impact of this Statement.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, was issued in March 2020. This Statement provides accounting and financial reporting requirements for all public-private and public-public partnerships (PPPs) that either meet the definition of a service concession arrangement (SCA) or are not within the scope of Statement No. 87, *Leases*. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The University is currently evaluating the financial statement impact of this Statement.

Statement No. 96, Subscription-Based Information Technology Arrangements, was issued in May 2020. This Statement provides accounting and financial reporting guidance for subscription-based information technology arrangements (SBITAs). It defines SBITAs, requires the recording of a right-to-use asset and a corresponding subscription liability, establishes capitalization criteria for other payments such as implementation costs, and requires note disclosures. These requirements are consistent with those of Statement No. 87, Leases. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. Earlier application is encouraged. The University is currently evaluating the financial statement impact of this Statement.

Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32, was issued in June 2020. This Statement (1) provides clarity on the absence of a governing board in determining whether a primary government is financially accountable for a potential component unit, (2) limits the applicability of the financial burden criterion in paragraph 7 of

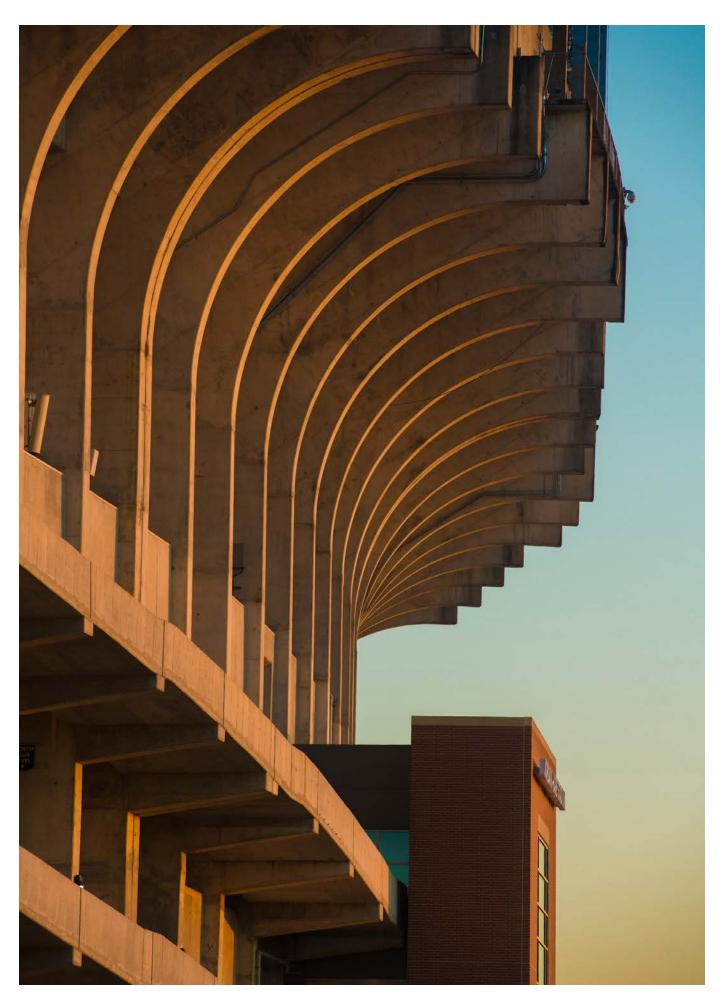

Statement No. 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet certain criteria, and (3) provides guidance on accounting and financial reporting for Internal Revenue Code Section 457 deferred compensation plans.

The requirements of this statement related to items 1) and 2) are effective immediately and have been adopted by the University. The requirements related to Section 457 plans are effective for reporting periods beginning after June 15, 2021. Earlier application of those requirements is encouraged and permitted by requirement as specified within this Statement. The University adopted the portions of this statement that were effective immediately, and is currently evaluating the financial statement impact of the remainder of this Statement.

#### (23) SUBSEQUENT EVENTS

Subsequent to year end, the University terminated its employment contract with its head football coach and certain other coaching personnel. Athletic funds will pay a portion of the remaining financial obligation beginning in fiscal year 2021 through 2024.

On December 27, 2020, the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA) was signed into law, authorizing the Higher Education Emergency Relief Fund II (HEERF II). On January 14, 2021, the U.S. Department of Education allocated a combined \$31.6 million to main campus and AUM to ensure learning continues for students during the COVID-19 pandemic.

## 2020

# FINANCIAL REPORT

# UNAUDITED DIVISIONAL FINANCIAL STATEMENTS

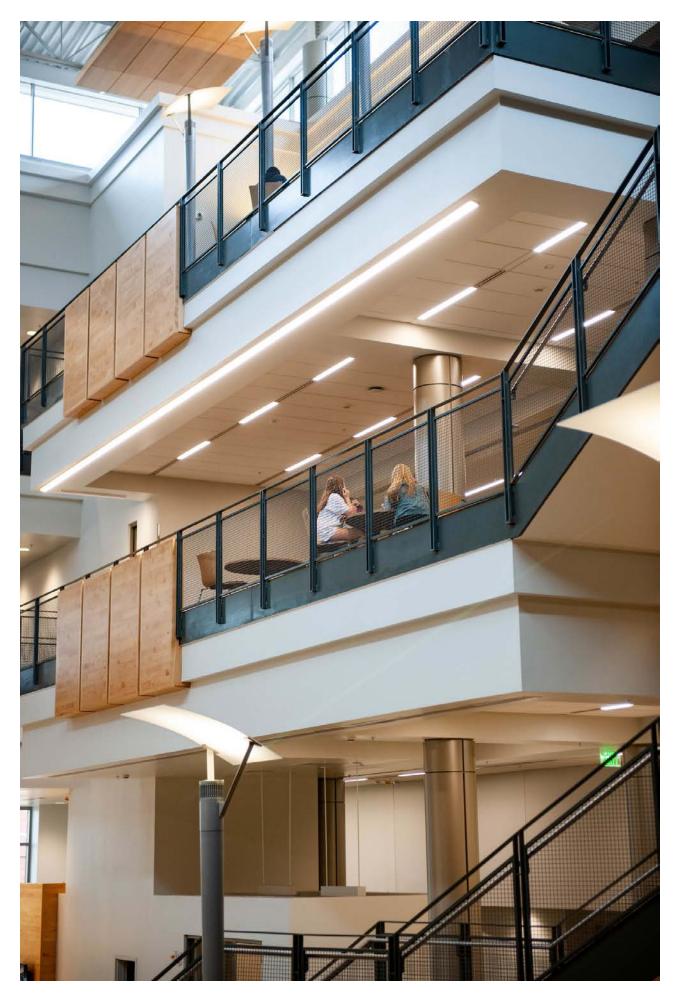

The 2019 Divisional Statements of Net Position and Statements of Revenues, Expenses and Changes in Net Position, as previously presented, were revised to correct certain errors relating to the allocation of OPEB expense and deferred outflows of resources between Auburn University Main Campus and Auburn University at Montgomery. The original allocation overstated OPEB expense and understated deferred outflows of resources for AUM, while understating OPEB expense and overstating deferred outflows of resources for Main Campus. Although the transactions were eliminated for the consolidated statements, management elected to correct the errors by revising its previously issued 2019 divisional financial statements. The impact on the previously reported 2019 financial statement amounts for the correction of the error are presented below and on the following pages:

<sup>\*</sup>The amount of employer contributions related to normal and accrued liability components of employer rate net of any refunds or error service payments. The Schedule of Employer Contributions is based on the twelve month period of the underlying financial statement.

<sup>\*\*</sup>Employer's covered payroll for fiscal year 2020 is the total covered payroll for the 12 month period of the underlying financial statements.

#### **Employee's Retirement System Notes to Schedule**

Actuarially determined contribution rates are calculated as of September 30, three years prior to the end of the fiscal year in which contributions are reported. Contributions for fiscal year 2020 were based on the September 30, 2017 actuarial valuation.

#### Methods and assumptions used to determine contribution rates

**Actuarial cost method:** Inflation: **Entry Age** 2.750%

Amortization method: Level percent closed **Salary increases:** 3.25-5.00%, including inflation

**Remaining amortization** Investment rate of

7.75%, net of pension plan investment expense, period: return: including inflation 5.4 years

Asset valuation method: Five year smoothed

market

#### Alabama Public Education Employees Health Insurance Plan (PEEHIP) Schedule of Proportionate Share of the Net OPEB Liability

for the Fiscal Year Ended September 30

|  | 2020          | 2019          | 2018          |
|--|---------------|---------------|---------------|
| The University's proportion of the net OPEB liability  | 3.559551%     | 4.072098%     | 4.404229%     |

| The University's covered-employee payroll during the measurement period*   | \$463,535,019 | \$440,124,441 | \$422,375,257 |
| The University's proportionate share of the net OPEB liability (asset) as a percentage of its covered-employee payroll | 28.97%        | 76.04%        | 77.45%        |
| Plan fiduciary net position as a percentage of the total OPEB liability  | 28.14%        | 14.81%        | 15.37%        |

Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

#### **PEEHIP Schedule of Contributions**

for the Fiscal Year Ended September 30

|   | 2020             | 2019           | 2018           |
|---|------------------|----------------|----------------|
| Contractually required contribution                                     | \$ 10,418,286    | \$ 9,283,861   | \$ 10,838,760  |
| Contributions in relation to the contractually required contribution    | \$ 10,418,286    | \$ 9,283,861   | \$ 10,838,760  |
| Contribution deficiency (excess)  |                  |                |                |
| The University's covered-employee payroll during the measurement period | \$482,882,302.83 | \$ 463,535,019 | \$ 440,124,441 |
| Contributions as a percentage of covered-employee payroll               | 2.16%            | 2.00%          | 2.46%          |

#### PEEHIP Notes to Required Supplementary Information for the Year Ended September 30, 2020

#### **Changes in actuarial assumptions**

In 2019, the anticipated rates of participation, spouse coverage, and tobacco use were adjusted to more closely reflect actual experience.

In 2016, rates of withdrawal, retirement, disability, mortality, spouse coverage, and tobacco usage were adjusted to more closely reflect actual experience. In 2016, economic assumptions and the assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. In 2016 and later, the expectation of retired life mortality was changed to the RP-2000 White Collar Mortality Table projected to 2020 using scale BB and adjusted 115% for all ages for males and 112% for ages 78 and over for females.

#### **Recent Plan Changes**

Beginning in plan year 2021, the Medicare Advantage Plan with Prescription Drug Coverage (MAPD) plan premium rates exclude the ACA Health Insurer Fee which was repealed on December 20, 2019.

Effective January 1, 2017, Medicare eligible medical and prescription drug benefits are provided through the MAPD plan.

The Plan is changed periodically to reflect the Affordable Care Act (ACA) maximum annual out-of-pocket amounts.

#### Method and assumptions used in calculations of actuarially determined contributions

The actuarially determined contribution rates in the schedule of employer contributions are calculated as of September 30, 2016, three years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

| contribution rate reported in that | scriedule.                     |
|------------------------------------|--------------------------------|
| Actuarial Cost Method              | Entry Age Normal               |
| Amortization Method                | Level percent of pay           |
| Remaining Amortization Period      | 25 years, closed               |
| Asset Valuation Method             | Market Value of Assets         |
| Inflation                          | 2.875%                         |
| Healthcare Cost Trend Rate:        |                                |

#### **AU Medical Plan**

Notes to the Required Supplemental Schedules

|                 | Changes in Key Actuarial Assumptions and Methods from Prior Valuation  |
|-----------------|--|
| Interest rate   | The discount rate was updated from 2.66% as of September 30, 2019 to 2.25% as of September 30, 2020.   |
| Mortality table | The mortality table was updated from Pub-2010 Public Retirement Plans General mortality table projected generationally with Scale MP-2019 to Pub-2010 Public Retirement Plans General mortality table projected generationally with Scale MP-2020.   |
| Trend rates     | The medical trend rate table was updated from the initial medical trend rate of 8.00% in fiscal 2019 grading down linearly to an ultimate trend rate of 5.00% in fiscal 2025 to the initial medical trend rate of 7.50% in fiscal 2020 grading down to an ultimate trend rate of 4.50% in fiscal 2040. |

#### AUBURN UNIVERSITY BOARD OF TRUSTEES

Auburn University is governed by a Board of Trustees consisting of one member from each congressional district, as these districts were constituted on January 1, 1961, one member from Lee County, five at-large members, all of whom shall be residents of the continental United States, and the Governor, who is ex-officio. The Governor is the President of the Board of Trustees. Prior to 2003, trustees were appointed by the Governor, by and with the consent of the State Senate, for a term of 12 years. Any new trustees will be appointed by a committee, by and with the consent of the State Senate, for a term of seven years, and may serve no more than two full seven-year terms. A member may continue to serve until a successor is confirmed, but in no case for more than one year after the completion of a term. Members of the board receive no compensation. By executive order of the Governor in 1971, two non-voting student representatives selected by the student body serve as members ex-officio, one from the Auburn campus and one from the Montgomery campus.

GOV. KAY IVEY President (Ex-officio)

At Large

WAYNE T. **SMITH** (Nashville, Tenn.) Healthcare Executive President Pro Tempore

Third District

BOB **DUMAS** (Auburn) Banking Executive Vice President Pro Tempore

#### 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal expenditures of Auburn University (the "University") under programs of the federal government for the year ended September 30, 2020. This schedule has been prepared using the cash basis of accounting.

The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements of the University. Negative amounts represent adjustments or credits to amounts reported as expenditures in prior years. This results in accurate reporting on a cumulative basis over multiple periods. Catalog of Federal Domestic Assistance ("CFDA") numbers and pass-through numbers are provided when available.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the federal government, federal appropriations to land grant universities, and all subawards made to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements.

### 2. Summary of Significant Accounting Policies

For purposes of the Schedule, expenditures for federal award programs are recognized on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-21, Cost Principles for Educational Institutions, wherein certain types of expenditures are not allowable or are limited to reimbursement. Expenditures for federal student financial aid programs include Federal Pell program grants to students, the federal share of students' Federal Supplemental Educational Opportunity Grants ("FSEOG"), Federal Work-Study ("FWS") program earnings and administrative cost allowances, and expenditures of the Teacher Education Assistance for College and Higher Education grants ("TEACH").

#### 3. Facilities and Administrative Costs

The University did not elect to use the 10% de minimis rate. The University operates under predetermined facilities and administrative cost rates, which were effective beginning October 1, 2017 and are effective through September 30, 2020. The base rate for on-campus research is 51%. Base rates for other facilities and administrative cost recoveries range from 40% for on-campus Other Sponsored Activities to 52% for on-campus Sponsored Instruction and were effective beginning October 1, 2016 and are effective through September 30, 2020.

## 4. Federal Student Loan Programs

The Federal Perkins Loan Program ("Perkins") and the Health Professional Student Loan Program ("HPSL") are administered directly by the University. Balances and transactions relating to these programs are included in the University's basic financial statements.

The balances of loans outstanding at September 30, 2020, and funds advanced by the University to eligible students during the year ended September 30, 2020, under the Federal student loan programs are summarized as follows:

|                                     | Perkins<br>(CFDA#84.038) |                          | HPSL<br>(CFDA#93.342) |                  |
|-------------------------------------|--------------------------|--------------------------|-----------------------|------------------|
| Loan Receivable September 30, 2019  | \$                       | 12,413,116               | \$                    | 2,525,444        |
| Funds advanced to students<br>Less: |                          | -                        |                       | 708,119          |
| Collections Cancellations           |                          | (2,104,244)<br>(223,749) |                       | (474,193)<br>(5) |
| Loan Receivable September 30, 2020  | \$                       | 10,085,123               | \$                    | 2,759,365        |

#### 5. Federal Direct Student Loans (CFDA# 84.268)

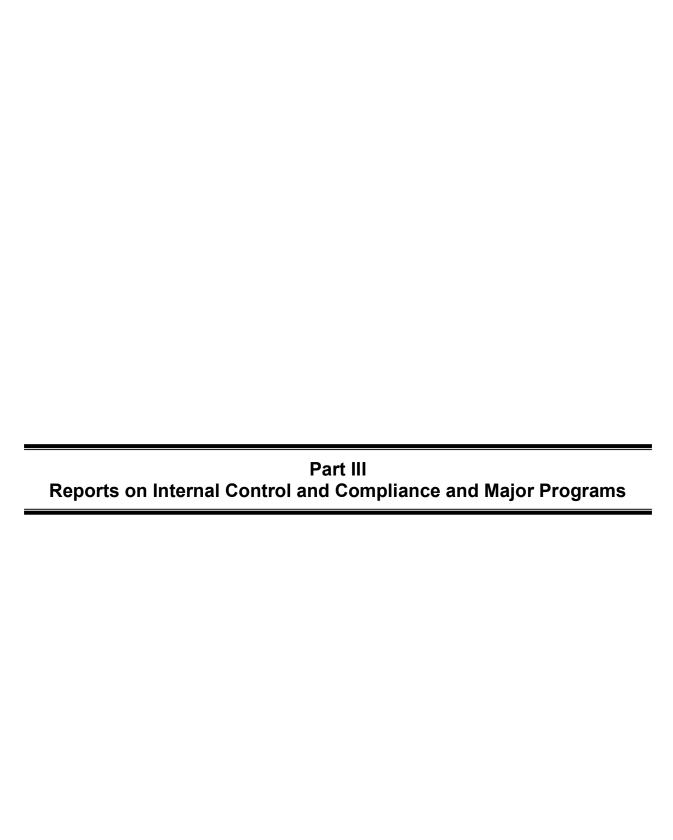

The Direct Loan program enables an eligible student or parent to obtain a loan to pay for the student's cost of attendance directly through the University rather than through private lenders. As a university qualified to originate loans, the University is responsible for handling the complete loan origination process, including funds management and promissory note functions. The University is not responsible for collection of these loans.

During the program year ended September 30, 2020, the University processed the following amount of student loans under the Direct Loan program:

|                              |        | Total          |  |
|------------------------------|--------|----------------|--|
|                              | CFDA#  | 2020           |  |
| Federal Direct Student Loans | 84.268 | \$ 182,064,093 |  |

#### 6. Administrative Cost Allowance

During the program year ended June 30, 2020, the University charged \$0 and AUM charged \$22,477 to the Federal Work-Study program for administrative cost allowance. No administrative cost allowance was charged to the Federal Perkins Loan Program or the FSEOG for either campus.

# Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees of Auburn University:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the aggregate discretely presented component units of Auburn University (the "University"), which is a component unit of the State of Alabama, which comprise the statement of net position as of September 30, 2020, and the related statements of revenues, expenses and changes in net position and of cash flows (where applicable) for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated January 22, 2021. Our report includes a reference to other auditors who audited the financial statements of Auburn Alumni Association (the "Association"), Auburn University Foundation (the "Foundation"), and Tigers Unlimited Foundation ("TUF") as described in our report on the University's financial statements. This report does not include the results of other auditors' testing of internal control over financial reporting or compliance and other matters that are reported separately by those auditors. The financial statements of the Association, the Foundation, TUF and the Auburn Research and Technology Foundation ("ARTF") were not audited in accordance with *Government Auditing Standards*.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting ("internal control") as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Report of Independent Auditors on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with the Uniform Guidance

To the Board of Trustees of Auburn University:

#### Report on Compliance for Each Major Federal Program

We have audited Auburn University's (the "University"), which is a component unit of the State of Alabama, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of University's major federal programs for the year ended September 30, 2020. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and guestioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2020.

#### **Report on Internal Control Over Compliance**

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# Auburn University Schedule of Findings and Questioned Costs Year Ended September 30, 2020

II – Financial Statements Findings and Questioned Costs

None.

## Auburn University Schedule of Findings and Questioned Costs September 30, 2020

III – Federal Award Findings and Questioned Costs

None.

## Auburn University Summary Schedule of Prior Year Audit Findings September 30, 2020

Summary Schedule of Prior Audit Findings

2019-001: 2018 Expenditures on the 2019 Schedule of Expenditures of Federal Awards

Agency: Department of Agriculture

Program: Cooperative Extension Service ("CES") Program

**CFDA #:** 10.500

### **Summary of Finding:**

The University received additional federal appropriations for Smith Lever grants in the 2017-2018 award year. The internal grant set-up process did not allocate these additional appropriations to funds with federal grant identifiers. As a result, \$2.2 million of CES Program expenditures were included on the 2019 SEFA instead of the 2018 SEFA when SEFA reconciliation controls identified the error.

#### **Current Year Status:**

To ensure Auburn University (the University) complies with the United States Department of Agriculture (USDA) Uniform Guidance regulations and to improve the controls surrounding the grant set-up process, the University implemented the following corrective action plan:

The Controller's Office met with Contract and Grant Accounting and ACES personnel to review set-up procedures for federal appropriations. Policies and procedures were discussed and reviewed with responsible departmental personnel to ensure all federal appropriations are appropriately identified and reported.

The University has continued to review documentation prior to set-up to ensure awards are properly classified as federal or non-federal.

There was no similar finding in 2020. Management considers this matter addressed and closed.

Contact: Michelle Hancock, Assistant Controller

Implementation date: June 2020

2019-002: Return of Title IV Funds Calculation Error

**Agency:** Department of Education

Program: Student Financial Aid Cluster

CFDA #: Various

#### **Summary of Finding:**

During the 2018-2019 award year, one out of thirteen students tested at the Auburn University at Montgomery (AUM) campus withdrew from the University and although the returned dollar amount was correct, the return of title IV funds calculation was not performed as prescribed. The University recalculated the title IV calculation as prescribed, noting no difference in amounts required to be returned to the Department of Education.

## Auburn University Summary Schedule of Prior Year Audit Findings September 30, 2020

#### **Current Year Status:**

To ensure Auburn University at Montgomery complies with the Department of Education regulations and to improve the controls surrounding the Return to Title IV process, the University implemented the following corrective action plan:

The Associate Director of the Financial Aid Office reviews all Return to Title IV calculations for accuracy monthly. Any errors identified during the review are reported to the Senior Director of Financial Aid immediately and corrected within the 45-day timeframe established by the Department of Education.

The University recalculated the title IV calculation noting no difference in amounts required to be returned to the Department of Education.

There was no similar finding in 2020. Management considers this matter addressed and closed.

Contact: Christopher White, Controller, Auburn University at Montgomery

Implementation date: June 2019
