JOB FAMILY AND FUNCTION

Job Family:	Veterinary & Animal Care
Job Function:	Vet Operations

JOB SUMMARY

Manages and oversees the College of Veterinary Medicine's facilities projects and farm operations, including oversight of construction, maintenance, security measures for toxins and horses, farm operations, general facility upkeep, and security.

RESPONSIBILITIES

- Oversees activities and operations for the construction and renovation project, including coordination with construction activities. Monitors construction activities to prevent delays or potential disruptions.
- Ensures the presence of security personnel at the designated facility and promptly addresses any issues or concerns. Security guards are essential for safeguarding horses and toxins.
- Supervises, oversees, and coordinates activities concerning the care and management of animals by farm personnel and veterinary staff.
- Coordinates the interface between the construction project and the ongoing operations of Auburn University Equine Source Plasma Project (AUESPP) to ensure adherence to compliance standards.
- Manages and coordinates projects and contractual activities ensuring work is completed within compliance of code, terms of contracts, and quality of work.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	Full supervisory responsibility for other employees is a major responsibility and includes training, evaluating, and making or recommending pay, promotion or other employment decisions.
