

JOB INFORMATION

Job Code	NB97
Job Description Title	Lineworker II, Electrical Distribution
Pay Grade	ST15
Range Minimum	\$55,130
33rd %	\$67,990
Range Midpoint	\$74,420
67th %	\$80,860
Range Maximum	\$93,720
Exemption Status	Non-Exempt
Approved Date:	4/20/2026 9:13:15 AM

JOB FAMILY AND FUNCTION

Job Family:	Production & Skilled Trades
Job Function:	Utilities

JOB SUMMARY

Under general supervision, performs moderately complex classes of work associated with the operation, maintenance, modification, protection, and surveillance of the primary electrical distribution system (substations, distribution infrastructure, transformers, switches and relays, protection devices, metering, monitoring, and controls).

RESPONSIBILITIES

- Installs, maintains, operates, and repairs electrical distribution system equipment. Performs work in a safe, efficient manner and in compliance with established policies, procedures, and guidelines.
- Responds to and resolves unplanned electrical system outages. Performs troubleshooting and restores power in a safe and timely manner to minimize campus disruptions.
- Responsible for installing, maintaining, and validating electrical metering devices to ensure proper data collection for energy management, electrical engineering designs, and the accurate billing of utility charges.
- Writes, reviews, and conducts switching orders for system operation needs.
- Monitors status of the distribution system using data from the Supervisory Control and Data Acquisition (SCADA) and other electronic systems. Identifies problems and develops solutions with supervision oversight.
- Assists management and design engineers in maintaining accurate and complete design configuration documents, design standard documents, and system performance records.
- Installs, maintains, and repairs lighting on university streets, parking lots, and fields to promote a safer environment on Auburn University's campus.
- Installs, maintains, troubleshoots, and repairs university traffic signal equipment. Assists in coordination efforts with applicable parties to ensure the proper flow of traffic while systems are under repair.
- Responsible for meeting and maintaining training and certification requirements as outlined by the department's training and credentialing requirements.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility	May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.
----------------------------	---

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role. For education and experience, minimum requirements are listed on the top row below. If substitutions are available, they will be listed on subsequent rows and may only be utilized when the candidate does not meet the minimum requirements.

MINIMUM EDUCATION & EXPERIENCE

Education Level	Focus of Education		Years of Experience	Focus of Experience	
High School Diploma or GED	High School Diploma or equivalent. Associate's Degree in Electrical Technology desired.	and	5 years of	Progressively complex experience in electrical work involving operation, maintenance, and/or modification in a commercial, utility, or industrial setting. Must include 3 years at the previous level or equivalent.	

Substitutions Allowed for Experience

Yes

Substitution allowed for Experience: When a candidate has the required education, but lacks the required experience, they may normally apply additional appropriate education toward the experience requirement, at a rate of one (1) year relevant education per year of required experience.

MINIMUM KNOWLEDGE, SKILLS, & ABILITIES

Sound knowledge and skills in electrical distribution principles and practices.

Extensive knowledge of best safety practices.

Knowledge of proper switching procedures and ability to write and perform switching with a high level of discipline.

Ability to troubleshoot both standard and nonstandard issues.

Ability to read and understand wiring diagrams and other technical drawings.

Ability to operate and interpret data from programmable measuring and test equipment.

Ability to operate machinery and vehicles, use basic hand tools, and use and evaluate information from measuring and test equipment.

MINIMUM LICENSES & CERTIFICATIONS

Licenses/Certifications	Licenses/Certification Details	Time Frame	Required/Desired	
	Lineman Apprenticeship Certification from TVPPA or equivalent program approved by Auburn University Utilities & Energy department.	Upon Hire	Required	And
DL NUMBER - Driver License, Valid and in State	Any State	Upon Hire	Required	And
CDL - Group A - Commercial Drivers License	Class A Commercial Driver's License (CDL) with Air Brakes	within 90 Days	Required	And
CPR - Cardiac Pulmonary Resuscitation	CPR certification	within 90 Days	Required	

REQUIRED PRE-EMPLOYMENT/ONGOING SCREENINGS

PHYSICAL DEMANDS & WORKING CONDITIONS

Physical Demands Category: Other

PHYSICAL DEMANDS
