Auburn University Job Description

Job Title: Assoc Dir, Safety and Health
Job Code: EE09
FLSA status: Exempt

Job Summary
Directs safety and health programs such as lab safety, industrial hygiene, radiation safety, and occupational safety to provide a safe working environment for the Auburn University community.

Essential Functions
1. Directs the development, management, and implementation of policies and programs related to lab safety, industrial hygiene, radiation safety, and occupational safety.
2. Coordinates program implementation and management with department and unit managers to ensure financial and operational effectiveness.
3. Coordinates accident and incident resolution through investigations, recommendation of corrective/preventative measures, and the development/implementation of programs needed to lessen or eliminate the probability of a reoccurrence.
4. Oversees programs designed to monitor, inspect, and ensure compliance with corrective or preventative actions taken to lessen or remove exposure to potentially hazardous materials and environments.
5. Advises others on issues related to lab safety, radiation safety, occupational safety, and health issues relevant to their operations such as providing recommendations to planning and design committees and reviewing plans for construction and renovations projects.
6. Directs development and implementation of training programs related to safety and health needs of Auburn personnel.
7. Manages budgets for programs and departments within lab safety, industrial hygiene, radiation safety, and occupational safety.

Supervisory Responsibility
Supervises others with full supervisory responsibility.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
