Auburn University Job Description

Job Title: Univ Industrial Hygienist III

Job Code: EE30

FLSA status: Exempt

Job Family: No Family

Grade LC12: $66,900 - $120,400

Job Summary
Under minimal supervision of the Safety and Health Manager, the University Industrial Hygienist III performs complex assignments in identifying, evaluating, and controlling workplace hazards; assists colleges and university departments in complying with applicable workplace regulations and national consensus standards; and supports safe work practices and environments for the Auburn University community, including employees, students, visitors, and contractors and vendors. Coordinates the work of others on projects and may assign work to and assists less experienced professionals or support staff. May act in an advisory capacity to managers for faculty.

Essential Functions

1. Monitors Auburn University's health standards in accordance with regulations and compliance. Analyzes, identifies, and measures workplace hazards or stresses that can cause sickness, impaired health, or significant discomfort through chemical, physical, ergonomic, or biological exposures. Provides recommendations to management regarding precautions and corrective actions that should be taken in response to identified hazards.

2. Performs inspections, site consultations, hazard analysis, etc. to maintain corrective or preventative action program to periodically assess conformance with federal, state, and local requirements as well as Auburn University's policies and procedures relating to fire and life safety and occupational safety and health.

3. Facilitates the collection of samples for noise, dust, gases, vapors, and other potentially toxic materials for analysis. Identifies and evaluates chemical and biological dangers such as air quality, ergonomic challenges, or dangerous sound levels. Provides technical review and interpretation of sampling results.

4. Prepares written reports incorporating findings, risk assessments, and recommended corrective actions. Collaborates with university stakeholders to prioritize corrective action to align with urgency and budget availability.

5. Develops, implements, and conducts safety trainings to university faculty, staff, and students in areas of fire and life safety and occupational safety and health to include respirator protection, powered industrial equipment/trucks, asbestos, fall protection, etc.

6. Performs other duties as assigned.

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

The above essential functions are representative of major duties of positions in this job classification. Specific duties and responsibilities may vary based upon departmental needs. Other duties may be assigned similar to the above consistent with the knowledge, skills and abilities required for the job. Not all of the duties may be assigned to a position.
