JOB SUMMARY

Under minimum supervision, the Manager, Technology Sales & Service position manages the operations of technology sales and service to build business and provide excellent customer service.

RESPONSIBILITIES

- Manages the sales, marketing and promotion of technology products, which includes the direct sales and customer interaction with students and parents, providing sales and product support for faculty and staff, developing marketing campaigns and sales promotion, and executing strategic marketing plans.
- Develops and maintains strategic product and vendor relations which includes pricing and product negotiations with vendors, providing analyses of sales trends, performing product research and competitive analyses, as well as forecasting repair services requirements.
- Helps manage and develop new business opportunities, which includes analyzing repair services and establishing pricing, providing input and feedback related to strategic store initiatives, analyzing and conducting feasibility studies of new repair service streams, and providing outreach to faculty and staff to discuss available technologies to uncover areas where greater efficiencies and productivity can be gained leading to academic success.
- Ensures training and employee development, which includes coaching student employees to develop selling skills to properly discover customer needs and provides the best solution to ensure academic success, ensures every interaction is conducted with the best interest of the customer in mind providing the best possible value to ensure academic success, conducting sales clinics and product education, scheduling staff to ensure customers are served while being a good steward of University resources with payroll, conducting employee reviews, maintaining employee satisfaction to minimize turnover, and recruiting and hiring the best staff.
- Manages budgeting and sales forecasting, as well as order processing and review for the department; prepares annual sales, cost of good, and labor budget forecast for the technology department, determines product assortment, determines staffing requirements and performs continuous analysis of product mix and inventory levels to maximize profitability and inventory turnover. Receives inventory shipments and processes inventory receipts for payment ensuring accuracy and efficiency.

The responsibilities listed above show the typical duties for jobs in this classification. Actual tasks may differ depending on the department's needs. Other similar duties may be assigned with discretion of the supervisor. Not every duty will apply to every position, and the amount of time spent on each task can change based on department needs.
